Catalog Highlights

The 1985 Catalog contains 1,017 assistance programs administered by 52 Federal agencies. As a potential applicant, always contact the agency information sources in the program descriptions for the latest information concerning assistance programs.

The Federal Assistance Programs Retrieval System (FAPRS) is an automated system for retrieving Federal domestic assistance program information. The system is designed to assist potential applicants in identifying Federal programs suitable to their needs. The information provided by FAPRS is identical to that contained in the Catalog.

In the past, FAPRS was administered by commercial timesharing vendors. On October 1, 1985, the General Services Administration (GSA) became responsible for the production, distribution and administration of FAPRS. FAPRS will be handled as a reimbursable service provided by GSA using a commercial timesharing service. (More information concerning the features of FAPRS is listed in the Introduction section.)

Objectives of some of the new programs:

AGRICULTURE	Grant program to make awards to colleges and universities that have superior teaching and research competencies in the food and agricultural sciences; also, program to strengthen institutional capacities to respond to State, regional, National or international educational needs in the food and agricultural sciences (10.210 and 10.211).
EDUCATIONAL ASSISTANCE	New G.I. Bill educational assistance program set up to encourage and sustain membership in the National Guard and Reserve Components (12.609).
EMERGENCY MANAGEMENT	Grant programs to assist States or local units of government in preparing a hazard mitigation plan, which will contribute to reducing vulnerability to hazards within the project area (83.519).
ENVIRONMENTAL MANAGEMENT	Programs set up to assist State, interstate and other water pollution control agencies develop programs to protect and restore coastal resources in priority estuaries; also, to assist States in development and implementation of their own underground storage tank programs to operate in lieu of the Federal program (66.456 and 66.804).
HEALTH	Programs to support demonstration projects for the expansion and improvement of emergency medical services for children; to insure the availability of a highly coordinated system of essential mental health services for refugees; to provide assistance to community health centers; also, to expand or create physical resources for the application of modern technology to fundamental research in heart, lung, and blood diseases (13.127, 13.128, 13.129, 13.130 and 13.131).
MARKETING AND TRADE	Program set up to create, expand, and maintain markets abroad for U.S. agricultural commodities (10.600).

Updating Instructions to the 1985 Catalog

INTRODUCTION

This material contains looseleaf update pages for the 1985 Catalog of Federal Domestic Assistance which was previously sent to you. The Update to the 1985 Basic Catalog adds some new programs, deletes other programs and modifies many of the program descriptions to reflect substantive changes. Revised indices and appendices are also included. First time users of the Catalog are urged to review the Introduction. Both the organization and the information content of the Catalog are explained.

SUGGESTIONS FOR HANDLING THE NEW MATERIAL

Updating methods:

The appropriate updating method depends upon the principal purpose for which the Catalog will be used. But, first, there are some general rules that apply to the printing of the Catalog. The Basic Catalog is an annual reprint in total. The Update is a reprint of parts of the Basic Catalog. Which sections of the Basic Catalog are reprinted in the Catalog Update? The introduction, indices and appendices are the only sections completely revised for the Catalog Update. How are the program descriptions modified in the Catalog Update? Each paragraph is modified if a single significant word or number, sentence, or the entire text needs to be changed to reflect a new or altered concept about the program. The Summary List of Modified Programs is a guide to those programs from the Basic Catalog that have undergone a paragraph modification. Are there other reference tools that provide guidance to the changes in the Basic Catalog? Yes, included are the added, deleted and the list containing modified titles and program numbers which follow the indices in the Update. In addition, the full description of those programs listed on ADDED PROGRAMS are displayed in the section called PROGRAM DESCRIPTIONS. Two options are suggested as updating approaches to the Basic Catalog. Users should select the option which best meets the principal need for program information.

OPTION A—COMPLETE RETENTION

This option may be used by those who have general purpose program information needs. Examples are: libraries, clearinghouses, research institutions, information brokers, etc. The entire update package would be retained as a total change reference unit which could be located in either the front or the back of the Catalog, or in a separate binder. When seeking information on a program in the Update, the user should first, search the indices and appendices to see if the program is still active. Second, refer to the complete program description in the Basic Catalog. Third, refer to the Update's Modification to Program Description for detailed changes.

OPTION B—PARTIAL RETENTION

Federal programs are subject to both legislative and administrative changes throughout a fiscal year. The Update attempts to compile and present the most recently reported significant program modifications. It is unlikely an individual or single purpose agency would have an interest in the thousands of changes reflected in the Update. If this is the case, option B could be used. First, list the agencies or specific programs to be monitored. Using the Summary List of Modified Programs, determine the presence of the agency or program(s) and record this information. Next, search the Modified Programs section to determine which paragraphs of the agency/program(s) interest list were changed. If the changed paragraphs are considered important information to the user then take any of the following steps: 1. make a photostatic copy of the page, cut and paste the changed paragraph(s) in the Basic Catalog, or 2. compare the two paragraphs word-for-word and make pen/ink changes to the Basic Catalog paragraph, or 3. if the changed paragraphs are on one side of a page in the Update, insert the page in the Basic Catalog in the vicinity of the altered program description. Third, replace the introduction, indices and appendices in the Update with those in the Basic Catalog. Although this option may seem like a lot of work, reference will be easier, and bulk will be reduced.

OTHER HANDLING SUGGESTIONS:

Binding

The Catalog from time to time is temporarily bound with glue. Infrequent Catalog users will probably find this binding material sufficient. Those using the Catalog regularly should consider investment in a binder large enough to contain the material. Depending upon the locally available binder sizes, it may be necessary to invest in more than one binder. Another alternative, though less attractive, is the use of wire or string through the post holes.

Paging and Tabbing

Users will find that the paging used in the Update is arranged in the same order as the 1985 Basic Catalog. This aids in the identification of sections for updating Catalog material. Regardless of the option used (even prior to updating), users may find the use of index tabs helpful. Catalog (and Update) sections requiring frequent reference, for example: one or more indices, a certain agency or agencies, specific programs and certain appendices could be flagged with an index tab. This approach can reduce the time required to locate appropriate sections, and serves to visually organize the Catalog material. (All new pages are dated 12-85.)

INTRODUCTION

Public Law 98-169 authorized the transfer of responsibilities of the Federal Program Information Act from the Office of Management and Budget to the General Services Administration (GSA). The transfer took place in July 1984. These responsibilities include the dissemination of Federal domestic assistance program information through the Federal Assistance Programs Retrieval System (FAPRS) and the Catalog of Federal Domestic Assistance, pursuant to the Federal Program Information Act, Public Law 95-220, as amended by Public Law 98-169. The General Services Administration now maintains the Federal assistance information data base from which program information is obtained. The Office of Management and Budget serves as an intermediary agent between the Federal agencies and GSA, thus providing oversight to the necessary collection of Federal domestic assistance program data.

The Catalog of Federal Domestic Assistance is a government-wide compendium of Federal programs, projects, services, and activities which provide assistance or benefits to the American public. It contains financial and nonfinancial assistance programs administered by departments and establishments of the Federal government.

As the basic reference source of Federal programs, the primary purpose of the Catalog is to assist users in identifying programs which meet specific objectives of the potential applicant, and to obtain general information on Federal assistance programs. In addition, the intent of the Catalog is to improve coordination and communication between the Federal government and State and local governments.

The Catalog provides the user with access to programs administered by Federal departments and agencies in a single publication. Program information is cross referenced by functional classification, subject, applicant, deadline(s) for program application submission, authorizing legislation, and Federal circular requirements. Other sections of the Catalog provide users with information on programs added and deleted since the last edition of the Catalog, a crosswalk of program number and title changes, regional and local offices, the administrative requirements of Federal circulars, definitions of the types of assistance under which programs are administered, proposal writing, grant application procedures, and additional sources of information on Federal programs and services. Also included is a chart on how to use the Catalog to locate programs of interest.

Programs selected for inclusion in the Federal assistance data base are defined as any function of a Federal agency that provides assistance or benefits for a State or States, territorial possession, county, city, other political subdivision, grouping, or instrumentality thereof; any domestic profit or nonprofit corporation, institution, or individual, other than an agency of the Federal government. A "Federal domestic assistance program" may in practice be called a program, an activity, a service, a project, a process, or some other name, regardless of whether it is identified as a separate program by statute or regulation. It will be identified in terms of its legal authority, administering office, funding, purpose, benefits, and beneficiaries. "Assistance" or "benefits" refers to the transfer of money, property, services, or anything of value, the principal purpose of which is to accomplish a public purpose of support or stimulation authorized by Federal statute. Assistance includes, but is not limited to grants, loans, loan guarantees, scholarships, mortgage loans, insurance, and other types of financial assistance, including cooperative agreements; property, technical assistance, counseling, statistical, and other expert information; and service activities of regulatory agencies. It does not include provision of conventional public information services.

The Catalog is published annually, using the most current data available on the status of programs at the time the Catalog or the Update to the Catalog are compiled. The Basic edition of the Catalog, which is usually published in June, reflects completed congressional action on program legislation. The Update, usually published in December, reflects completed congressional action on the President's budget proposals and on substantive legislation as of the date of compilation, and includes information on Federal programs that was not available at the time the latest edition of the Catalog was compiled. It is suggested that the Update be retained and used along with the Basic edition in order to obtain the most current information on program revisions.

GSA distributes a limited number of free copies of the Catalog to National, State and local offices. At the national level copies are provided to: Members of Congress, congressional staff, and Federal offices of the U.S.

Government. At the State level copies of the Catalog are provided to: Governors, State Coordinators of Federal-State Relations, Directors of State Departments of Administration and Budget Offices, Directors of State Departments of Community Affairs, Directors of State Planning Agencies, Directors of State Agricultural Extension Services, State Municipal Leagues, State Association of Counties, Chief State School Officers, and State Employment Security Agencies. At the local level copies are provided to: Mayors, County Chairmen, Chairmen of Boards of Commissioners and city planners. Copies are also provided to the Federal Information Centers, Federal Regional Councils, Federal Executive Boards, and appropriate field and area offices of most Federal agencies. The Catalog is also provided to other agencies of State and local governments down to and including those with a population size of 250. Private individuals who wish to receive a copy of the Catalog must contact the Government Printing Office, Superintendent of Documents, Washington, DC 20402. (See back cover of the Catalog for subscription form.)

Program information from the Catalog is also available on machine readable magnetic tape. The tape contains all textual material published in the program description section of the Catalog. The magnetic tape contains a characteristics record of coded program information extracted from the textual material. The characteristics record format allows the user to retrieve program numbers and titles, along with the program function, types of assistance, applicants, beneficiaries, circular requirements, obligations, matching requirements, geographic data, and authorizing legislation. From the text record, users may retrieve the complete text or specific sections of the program text. The accompanying documentation describes the procedures for retrieving program information. The tape may be purchased from GSA. Contact: Federal Program Information Branch, General Services Administration, GS Building, KHED, 18th and F Streets, NW., Washington, DC 20405. Telephone: (202) 453-4126.

The Federal Assistance Programs Retrieval System (FAPRS) is a computerized question-answer system designed to provide rapid access to Federal domestic assistance program information. The system provides information on Federal programs which meet the developmental needs of the applicant and for which the applicant meets basic eligibility criteria. Program information provided by FAPRS is determined from input supplied by the requestor. Input includes the name of the State, county, city, town, or federally-designated Indian tribe for which program information is requested; the population of the city or town; the type of applicant (e.g., State or local governments, federally-designated Indian tribal governments, nonprofit organizations, small businesses, individuals), the type of assistance under which programs are administered (e.g., grants, loans); and the specific functional categories and subcategories of interest. Based upon the input supplied, the output consists of: (1) a list of program numbers and titles; (2) the full text of selected programs; or (3) specific sections of the program text. FAPRS also offers the user the opportunity to comment on the system and the information provided.

As originally developed, FAPRS was designed to aid small, rural, isolated communities unfamiliar with Federal assistance programs or unable to locate Federal aid programs that had the greatest funding potential. FAPRS may now be accessed by both rural and urban communities. The present FAPRS is an enhanced version having been developed based on an analysis of FAPRS users and an OMB study of the overall requirements for Federal information systems. The following features have been incorporated into the new FAPRS system:

1. Expansion of functional categories and subcategories. As listed in the Functional Index of the Catalog, the enhanced version of FAPRS uses 20 functional categories and 176 subcategories to specify areas of interest.

2. Expansion of eligibility applicants to include 12 government related and 10 non-government related applicant types.

3. Specification of the type(s) of assistance desired as one of the search criteria. At present, programs are administered through 15 types of assistance.

4. Display of definitions for functional subcategories, applicant types, and types of assistance.

5. Selection of specific sections of the program text to be displayed.

6. Formatted display of Federal circular coordination requirements for a selected list of programs.

States have designated access points where FAPRS searches may be requested. In addition, bulletins on FAPRS are available from the system to inform users of the addition or deletion of programs, changes to program numbers from one update cycle to the next, and enhancements or changes to the system. For volume users, direct access to FAPRS is available through GSA on a cost-reimbursable basis. For further information on FAPRS, the location of the nearest State access point, or procedures for directly accessing the system, write or call:

Types of Assistance

Currently, programs in the Catalog are being classified by GSA into 15 types of assistance. (Cooperative Agreements as a type of assistance is used for programs administered under that mechanism. However, the definition does not appear in this section.) Benefits and services of the programs are provided through seven financial types of assistance and eight nonfinancial types of assistance. The following list defines the types of assistance which are available through the programs. Code letters below (A through O) which identify the type of assistance) will follow program titles in the Agency Index, Applicant Eligibility Index, the Functional Index, Deadlines Index, and in the list of added programs.

A	Formula Grants — Allocations of money to States or their subdivisions in accordance with a distribution formula prescribed by law or administrative regulation, for activities of a continuing nature not confined to a specific project.
B	Project Grants — The funding, for fixed or known periods, of specific projects or the delivery of specific services or products without liability for damages for failure to perform. Project grants include fellowships, scholarships, research grants, training grants, traineeships, experimental and demonstration grants, evaluation grants, planning grants, technical assistance grants, survey grants, construction grants, and unsolicited contractual agreements.
C	Direct Payments for Specified Use — Financial assistance from the Federal government provided directly to individuals, private firms, and other private institutions to encourage or subsidize a particular activity by conditioning the receipt of the assistance on a particular performance by the recipient. This does not include solicited contracts for the procurement of goods and services for the Federal government.
D	Direct Payments with Unrestricted Use — Financial assistance from the Federal government provided directly to beneficiaries who satisfy Federal eligibility requirements with no restrictions being imposed on the recipient as to how the money is spent. Included are payments under retirement, pension, and compensation programs.
E	Direct Loans — Financial assistance provided through the lending of Federal monies for a specific period of time, with a reasonable expectation of repayment. Such loans may or may not require the payment of interest.
F	Guaranteed/Insured Loans — Programs in which the Federal government makes an arrangement to indemnify a lender against part or all of any defaults by those responsible for repayment of loans.
G	Insurance — Financial assistance provided to assure reimbursement for losses sustained under specified conditions. Coverage may be provided directly by the Federal government or through private carriers and may or may not involve the payment of premiums.
H	Sale, Exchange, or Donation of Property and Goods — Programs which provide for the sale, exchange, or donation of Federal real property, personal property, commodities, and other goods including land, buildings, equipment, food and drugs. This does not include the loan of, use of, or access to Federal facilities or property.
I	Use of Property, Facilities, and Equipment — Programs which provide for the loan of, use of, or access to Federal facilities or property wherein the federally-owned facilities or property do not remain in the possession of the recipient of the assistance.
J	Provision of Specialized Services — Programs which provide Federal personnel to directly perform certain tasks for the benefit of communities or individuals. These services may be performed in conjunction with nonfederal personnel, but they in volve more than consultation, advice, or counseling.
K	Advisory Services and Counseling — Programs which provide Federal specialists to consult, advise, or counsel communities or individuals, to include conferences, workshops, or personal contacts. This may involve the use of published information, but only in a secondary capacity.

L Dissemination of Technical Information — Programs which provide for the publication and distribution of information or data of a specialized technical nature frequently through clearinghouses or libraries. This does not include conventional public information services designed for general public consumption.

M Training — Programs which provide instructional activities conducted directly by a Federal agency for individuals not employed by the Federal government.

N Investigation of Complaints — Federal administrative agency activities that are initiated in response to requests, either formal or informal, to examine or investigate claims of violations of Federal statutes, policy, or procedure. The origination of such claims must come from outside the Federal government.

O Federal Employment — Programs which reflect the government-wide responsibilities of the Office of Personnel Management in the recruitment and hiring of Federal civilian agency personnel.

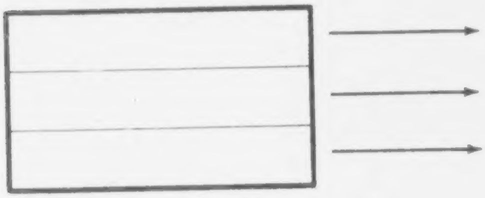
How To Use the Catalog

The application procedures information in the following section is general in nature and may vary depending upon the type of applicant, type of assistance offered under a program, or the nature of the particular program or project. Potential applicants are urged to carefully review the requirements indicated in each program, since evaluation of applications are based upon the degree to which program requirements have been met.

The following page contains a chart which suggests how to use the Catalog. By following the steps outlined in each block, the user will have extracted all of the Catalog data pertaining to a Federal assistance program. For matters too complex, or those which frequently change, potential applicants are encouraged to obtain this information from the Federal agency contact listed in the Information Contacts section of the program descriptions. The Federal agency contact will also supply detailed information and specific guidance on applying for Federal assistance.

Each block in the chart is divided into three sections:



Describes the type of action to take.

Identifies the appropriate Catalog section for reference.

Details the important aspects to consider and note.

Using the Chart

Users should start at the top of the chart with the blocks indicating LOCATE PROGRAM. Use one or more of these blocks depending upon the type of information you have regarding your Federal assistance interests. Move down the chart collecting and noting information as you proceed until you reach the block indicating APPLICATION SUBMISSION. Once you have identified the Federal program you believe fits your objective or proposal, you may process your application. Information on proposal writing and grant procedures are outlined in the Introduction.

Contents Of the Catalog

The Catalog contains Federal domestic assistance programs available to: State and local governments (including the District of Columbia and federally-recognized Indian tribal governments); territories (and possessions) of the United States; domestic public, quasi-public, and private profit and nonprofit organizations and institutions; specialized groups; and individuals.

Programs in the Catalog provide information on the:

— Federal agency administering a program;

— Authorization upon which a program is based;

— Objectives and goals of a program;

— Types of financial and nonfinancial assistance offered under a program;

— Uses and restrictions placed upon a program;

— Eligibility requirements;

— Application and award process;

— Amount of obligations for the past, current, and future fiscal years;

— Regulations, guidelines and literature relevant to a program;

— Information contacts at the headquarters, regional, and local offices;

— Programs that are related based upon program objectives and uses;

— Examples of funded projects;

— Criteria for selecting proposals; and

— Individual agency policies and Federal circular policies pertaining to a program.

Programs in the Catalog provide a wide range of benefits and services, which have been grouped into 20 basic functional categories, and 176 subcategories which identify specific areas of interest. Listed below are the 20 basic categories in which all programs have been grouped by primary purpose.

— Agriculture

— Business and Commerce

— Community Development

— Consumer Protection

— Cultural Affairs

— Disaster Prevention and Relief

— Education

— Employment, Labor, and Training

— Energy

- Environmental Quality
- Food and Nutrition
- Health
- Housing
- Income Security and Social Services
- Information and Statistics
- Law, Justice, and Legal Services
- Natural Resources
- Regional Development
- Science and Technology
- Transportation

Programs in the Catalog also include service activities of regulatory agencies.

The Catalog does not include:

- Solicited contracts administered under procurement laws and regulations for the purchase of goods and services for the Federal government;
- Foreign activities except as such programs have direct economic benefit in the domestic economy. (A program that provides both domestic and foreign assistance will be included with the description of the program oriented toward the domestic aspect.);
- Personnel recruitment programs of individual Federal departments which offer employment opportunities as part of normal recruiting operations, (the overall government-wide programs of the Office of Personnel Management are included);
- Benefits or assistance available only to current employees of the Federal government either civilian or military;
- New programs proposed in the Budget for which appropriations have not been enacted; and
- Programs which are no longer active due to expired authorization or appropriation.

Organization of the Catalog

The Catalog is divided into three basic sections —— the indices, the program descriptions, and the appendices.

INDICES—To locate specific programs of interest, determine eligibility, and to obtain information on the dates applications for assistance should be submitted to the funding agency, users may consult the Agency Program Index, the Functional Index, or the Subject Index; the Applicant Eligibility Index, and the Index listing deadlines for program applications.

The Agency Index Summary provides a description of the functions and activities of Federal agencies responsible for administering programs in the Catalog. Program numbers are also listed with the administering agency.

The Agency Program Index lists all programs in the Catalog in numerical order by the five-digit program identification number, the program title, the Federal agency responsible for administering the program, and whether the program offers financial assistance, nonfinancial assistance, or a combination of both.

The Functional Index Summary lists the basic functional categories and the subcategories which further identify specific areas of interest. Following the Summary is the Functional Index listing each program number and title under the appropriate basic category and subcategory.

The Subject Index provides a detailed listing of programs by various topics, popular name, general functional terms, categories of services, and selected beneficiaries, and is followed by the applicable program numbers. The Popular Name Index has been merged with the Subject Index.

The Applicant Eligibility Index is a listing in program number sequence, along with program titles, indicating the applicants eligible to apply. The index lists programs which may be applied for by:

— any of the several States of the United States, the District of Columbia, or any agency or instrumentality of a State exclusive of State institutions of higher education and hospitals;

— local governments which include a county, parish, municipality, city town, township, village, State-designated Indian tribal government, local public authority, school district, special district, intrastate district, council of governments, sponsor group representative organizations, and other regional or interstate government entity, or any agency or instrumentality of a local government;

— U.S. Territories (and possessions) of the United States which include the Commonwealths of Puerto Rico and the Northern Mariana Islands, the Virgin Islands, Guam, Trust Territory of the Pacific Islands, and American Samoa;

— Federally-Recognized Indian Tribal governments which includes the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in Section 3 of the Alaska Native Claims Settlement Act, 85 Stat. 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs.

— nonprofit organizations and institutions which include quasi-public, public and private institutions of higher education and hospitals, Native American Indian Organizations, and other quasi-public and private nonprofit organizations such as, but not limited to, community action agencies (CAAs), Head Start agencies, research institutes, educational associations, and health centers. Excluded under this definition are government-owned contractor operated facilities or research centers providing support for mission-oriented, large scale programs that are government-owned or controlled, or are designed as federally-funded research and development centers;

— private individuals such as Native Americans, homeowners, students, farmers, artists, scientists, consumers, small business, refugees, aliens, veterans, senior citizens, low-income persons, health and education professionals, builders, contractors, developers, handicapped persons, the physically afflicted.

The Deadlines Index (for program applications) is a listing of program numbers and titles and the deadline date(s) by which funding agencies must receive applications. This information is also contained in the Deadlines Section of the program descriptions.

Users should also consult the following listings:

The Deleted Programs list identifies programs that have been deleted since the previous edition of the Catalog due to: expiration of budget authority; rescission of budget authority for the current fiscal year; program consolidation which has rendered the former program number(s) obsolete; the replacement of a categorical grant program by a block grant program; the replacement of two or more categorical programs by a block grant program; the abolishment of an agency; or the criteria for including a program in the Catalog no longer valid being (e.g., a program which no longer operates under Federal funding).

e **Added Programs** list identifies programs that have been added since the previous edition of the Catalog
e to: the appropriation of new budget authority; the consolidation of two or more programs creating a new
gram; the splitting of elements from a former program creating two or more new programs; the transfor-
ation of a single categorical grant program into a block program; or the consolidation of two or more cate-
rical grant programs into a block program.

e **Crosswalk of Changes to Program Numbers and Titles** which lists programs that have undergone a title
ange, or a program number change due to restructuring of programs, or reorganization of a Federal
ency.

ROGRAM DESCRIPTIONS——The center section of the Catalog contains descriptions of Federal programs
sted by program number in the same numerical sequence as the Agency Program Index. Detailed informa-
on concerning programs are contained under the description headings of each Catalog program. The follow-
ng is an explanation of each program description heading followed by examples of the type of information
ound under each heading.

**OTE: The program used in the example below does not exist. It is provided for the purpose of illustration
nly.**

PROGRAM NUMBER, TITLE, AND POPULAR NAME — Each program in the Catalog is preceded by a
five-digit program identification number. The first two digits identify the Federal department or agency that administers the program, and the last three numbers are assigned in numerical sequence. Thus, program number 10.500 is administered by the Department of Agriculture, 11.500 by the Department of Commerce, 12.500 by the Department of Defense, 13.500 by the Department of Health and Human Services, and so on. (In the numerical sequence of program numbers, some numbers do not appear due to program deletions or consolidations. To accomodate users systems and records, the numbers are not assigned to other programs but are reserved for the reinstated programs.) The program title is the descriptive name given to a program. The popular name, which is less descriptive than the program title, is the name by which programs are commonly known or most often used by applicants and agencies.

Example: 13.259 Mental Health—Children's Services

FEDERAL AGENCY — The Federal agency is the Federal department, agency, commission, council or instrumentality of the Government, and the primary organizational sub-unit (the administering office) that has direct operational responsibility for managing a program.

Example: ALCOHOL, DRUG ABUSE AND MENTAL HEALTH ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION — This section lists the legal authority upon which a program is based (acts, amendments to acts, Public Law numbers, titles, sections, Statute Codes, citations to the U.S. Code, Executive Orders, Presidential Reorganization Plans, and Memoranda from an agency head).

Example: Community Mental Health Centers Amendments of 1975, Part A, Section 203(e), Public Law 94-63, 42 U.S.C. 2689.

OBJECTIVES — This is a brief statement of specific objectives stated in terms of what the program is intended to accomplish along with the goals toward which the program is directed.

Example: To stimulate innovative approaches to children's mental health problems emphasizing prevention and coordination of community services; to expand training activities; and, to broaden resources for children's mental health services.

TYPES OF ASSISTANCE — This section indicates the form in which the assistance is transmitted from the Federal government and is initially received for use or distribution by the applicant.

Example: Project Grants.

USES AND USE RESTRICTIONS — This section describes the potential uses for the assistance provided to meet stated objectives, and the specific restrictions placed upon the use of funds. The section cites one or numerous applications depending upon the nature of a particular program. Since this section translates objectives into the uses of a program, users may develop a clearer understanding of the program's objectives.

Example: Support for Continuation Grants only. Program authorizes funds on a matching basis for initial staffing of facilities offering mental health services for children. Staffing grants may be used for a portion of the costs of professional and technical personnel to operate a facility for child mental health services; a higher percentage may be paid if an area has been designated a poverty area by the Secretary, HHS. The proposed program must provide consultation and coordinating services with other community agencies serving children in service area, and must include a plan with the means by which it will be evaluated.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility — This section indicates who can apply to the Federal government for assistance and the criteria the potential applicant must satisfy. For example, individuals may be eligible for research grants, and the criteria to be satisfied may be that they have a professional or scientific degree, three years of research experience, and be a citizen of the United States. Universities, medical schools, hospitals, or State and local governments may also be eligible. Where State governments are eligible, the type of State agency will be indicated (State welfare agency or State agency on aging) and the criteria that they must satisfy.

Certain programs in the Catalog (e.g., the Pell Grant program which provides grants to students) involve intermediate levels of application processing, i.e., applications are transmitted through colleges or universities that are neither the direct applicant nor the ultimate beneficiary. For these programs, the criteria that the intermediaries must satisfy are also indicated, along with intermediaries who are not eligible.

Example: To be eligible for staffing grants, applicant must be part of, or affiliated with, a community mental health center, unless there is no center serving the community. Applicant may then be any public or private nonprofit agency providing, or coordinating with programs which will provide, a full range of mental health services for children and their families residing in the service area. Only support for continuation projects are currently available.

Beneficiary Eligibility — This section lists the ultimate beneficiaries of a program, the criteria they must satisfy and who specifically is not eligible. The applicant and beneficiary will generally be the same for programs that provide assistance directly from a Federal agency. However, financial assistance that pass through State or local governments will have different applicants and beneficiaries since the assistance is transmitted to private sector beneficiaries who are not obligated to request or apply for the assistance.

Example: Children and their families in the service area as well as personnel of schools and other community agencies serving children.

Credentials/Documentation — This is a brief description of the credentials or documentation required prior to, or along with, a request or application for assistance. Indicated are the eligibility factors that must be proved, certified, or established. This section also indicates OMB Circular No. A-87 requirements (Cost Principles Applicable to Grants and Contracts with State and Local Governments) where applicable.

Example: Costs will be determined in accordance with HHS Regulation 45 CFR, Part 74, Subpart Q. Appendix C of that subpart, which applies to State and local governments, is based on OMB Circular No. A-87.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination — This section indicates whether any prior coordination or approval is required with governmental or nongovernmental units prior to the submission of a formal application to the Federal funding agency. For example, programs may require: (1) State agency approval prior to the submission of an application to a Federal agency; (2) the submission of environmental impact information as required by the National Environmental Policy Act of 1969, and Executive Order 11514 of March 4, 1970; (3) coordination with the policies of OMB Circular No. A-102, (Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments); (4) coverage for eligibility under Executive Order 12372, "Intergovernmental Review of Federal Programs"; or (5) a preapplication or preapplication conference. Applicants should also as-certain from the Federal agency the existence of other circular requirements not indicated by this section, and from the State, any State requirements which may be in effect. Example: Preapplication consultation with the ADAMHA Branch of the HHS Regional Office is not mandatory. Application must be accompanied by evidence of approval and recommendation by the appropriate State agency or agencies. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program.

Application Procedure — This section discusses the basic procedural steps required by the Federal agency in the application process, beginning with the lowest level (e.g., State and local government units, institutions or organizations) and ending eventually with the Federal government. Each program will indicate whether applications are to be submitted to the Federal headquarters, regional or local office, or to a State or local government office. Numerous programs in the Catalog require the standard application forms in OMB Circular No. A-102 (Attachment M), other applications may be in the form of a written request to the funding agency stating the need for assistance and requesting available services, or a formal proposal prepared in response to an announcement in the Federal Register or the Commerce Business Daily. (See information and guidance on application procedures under Appendix I below.) Also indicated in this section is whether OMB Circular No. A-110 (Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations) applies to the program.

Example: Continuation Application Form ADM-115 should be used for staffing. Instructions and consultation may be obtained from the mental health section of the appropriate HHS Regional Office. Application is sent to the Regional Office with copy to Acting Director, Division of Mental Health Service Programs, NIMH, 5600 Fishers Lane, Rockville, MD 20857. This program is subject to the provision of OMB Circular No. A-110.

Award Procedure — This section lists the basic procedural steps for awarding assistance, beginning with the organizational components of the Federal agency that has final approval authority for the application and ending with the lowest level at which Federal resources are expended. Also indicated is whether assistance passes through the initial applicant for further distribution by intermediate level applicants to groups or individuals in the private sector.

Accepted applications are subjected to evaluation by the headquarters, regional, local or district office to determine the feasibility of the proposed project to include consistency with Federal and individual agency policies concerning its scope and purpose. Grant payments may be made by a letter of credit, advance by Treasury check, or reimbursement by Treasury check. Awards may be made by the headquarters office directly to the applicant, an agency field office, a regional office, or by an authorized county office.

Example: The Regional Health Administrator makes awards to approved applicants.

Deadlines — When available, this section indicates the deadlines for applications to the funding agency which will be stated in terms of the date(s) or between what dates the application should be received. Reference is made to new applications, continuations, renewals, and supplementals. Application deadline information is also indicated in the Deadlines Index, in the agency's program guidelines, or announced in the Federal Register. Where not available, applicants should contact the funding agency for deadline information.

Example: Staffing: Determined by award period (contact the Regional Office).

Range of Approval or Disapproval Time — This section informs the applicant of the representative range of time required for the application to be processed (in terms of days and months) at the Federal level.

Example: From 90 to 120 days.

Appeals — In some cases, there are no provisions for appeal. Where applicable, this section discusses appeal procedures or allowable rework time for resubmission of applications to be processed by the funding agency. Appeal procedures vary with individual programs and are either listed in this section or applicants are referred to appeal procedures documented in the relevant Code of Federal Regulations (CFR).

Example: Not applicable. (An appeal was not applicable in this case. A related program (13.231) allows applicants to reapply if revised applications are submitted.)

Renewals — This section advises the applicant whether renewals or extensions of applications are available and the procedures for such. In some instances, renewal procedures may be the same as the application procedure, e.g., for projects of a non-continuing nature renewals will be treated as new, competing applications; for projects of an ongoing nature renewals may be given annually.

Example: This program is renewed annually. Grantees are required to update their plan and submit a current year budget.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements — This section indicates the formula, matching requirements prescribed in the allocation of funds or maintenance of effort requirements. A formula may be based on population, per capita income, and other statistical factors. Applicants are informed whether there are any matching requirements to be met when participating in the cost of a project. In general, the matching share represents that portion of the project costs not borne by the Federal government. Usually a minimum percentage for matching share is prescribed by program legislation, and matching share requirements are included in the grant agreement. Attachment F of OMB Circular No. A-102 sets forth the criteria and procedures for allowability and evaluation of matching share requirements which may be cash or in-kind contributions made by State and local governments or other agencies, institutions, private organizations, or individuals to satisfy matching requirements of Federal grants or loans.

Cash contributions represent the grantees' cash outlay, including the outlay of money contributed to the grantee by other public agencies, institutions, private organizations or individuals. When authorized by Federal regulation, Federal funds received from other grants may be considered as the grantees' cash contribution.

In-kind contributions represent the value of noncash contributions provided by the grantee, other public agencies and institutions, private organizations or individuals. In-kind contributions may consist of charges for real property and equipment, and value of goods and services directly benefitting and specifically identifiable to the grant program. When authorized by Federal legislation, property purchased with Federal funds may be considered as grantees' in-kind contribution.

Maintenance of effort (MOE) is a requirement contained in certain legislation, regulations, or administrative policies stating that a grantee must maintain a specified level of financial effort in a specific area in order to receive Federal grant funds, and that the Federal grant funds may be used only to supplement, not supplant, the level of grantee funds. Programs that have maintenance of effort requirements and have total allocations over $100 million (current FY) have the following statement in this section: This program has maintenance of effort (MOE) requirements, see funding agency for further details.

Example: Staffing: Federal funds on a decreasing percentage basis over a period of 8 years 90 percent - 1st and 2nd years; 80 percent - 3rd year; 75 percent - 4th and 5th years; 70 percent - 6th, 7th and 8th years. Nonpoverty areas are entitled to: 80 percent - 1st and 2nd years; 75 percent - 3rd year; 60 percent - 4th year; 45 percent - 5th year; 30 percent - 6th, 7th and 8th years.

Length and Time Phasing of Assistance — This section indicates the time period that the assistance is normally available, whether there are any restrictions placed on the time permitted to use the funds awarded, and the timing of disbursement of the assistance, e.g., lump sum, annually, quarterly, or as required.

Example: Staffing grants are limited to 8 years by law. Payments either on a Monthly Cash Request System or under a Letter of Credit.

POST ASSISTANCE REQUIREMENTS:

Reports — This section indicates whether program reports, expenditure reports, cash reports or performance monitoring is required by the Federal funding agency, and specifies at what time intervals (monthly, annually, etc.) this must be accomplished.

Example: Interim progress reports submitted annually as part of a non-competing application; report of expenditures due annually; immediate reporting of any inventions.

Audits — This section discusses audits required by the Federal agency. The procedures and requirements are set forth in OMB Circular No. A-128, which supersedes the provisions of Attachment P of OMB Circular No. A-102 that formerly governed audit requirements for State and local governments.

Example: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial asistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

Records — This section indicates the record retention requirements and the type of records the Federal agency may require. Not included are the normally imposed requirements of the General Accounting Office. For programs falling under the purview of OMB Circular No. A-102, record retention is set forth in Attachment C. For other programs, record retention is governed by the funding agency's requirements.

Example: Records must be retained at least 3 years; records shall beretained beyond the 3-year period if audit findings have not been resolved.

FINANCIAL INFORMATION:

Account Identification — This 11-digit budget account identification code represents the account which funds a particular program. This code should be consistent with the code given for the program area as specified in the Appendix III of the Budget of the United States Government. (See Appendix III for further information on the meaning of the 11 digits of this code.)

Example: 75-1361-0-1-550.

Obligations — The dollar amounts listed in this section represent obligations for the past fiscal year (PY), estimates for the current fiscal year (CY), and estimates for the budget fiscal year (BY) as reported by the Federal agencies. In each succeeding edition of the Catalog, the dollar amounts are revised to reflect changes which may result from supplemental appropriations or amendments. Each program indicates what the obligation figures represent in terms of the type of assistance provided. Obligations for nonfinancial assistance programs indicate the administrative expenses involved in the operation of a program as an indication of the magnitude of the services being provided, or the items involved in obligations.

Example: (Grants) PY $19,853,000; CY est $20,407,000; and BY est $14,830,000.

Range and Average of Financial Assistance — This section lists the representative range (smallest to largest) of the amount of financial assistance available. These figures are based upon funds awarded in the past fiscal year and the current fiscal year to date. Also indicated is an approximate average amount of awards which were made in the past and current fiscal years.

Example: Formula: $26,355 to $691,481; $235,305.

PROGRAM ACCOMPLISHMENTS — This section briefly describes the accomplishments of a program using quantitative data, focussing on program output, results achieved, or services rendered during the past fiscal year, the current fiscal year, and projections for the coming fiscal year.

Example: In the past fiscal year, 140 applications were received and 140 staffing awards were issued. Approximately 147 continuation grants were funded during the current fiscal year and 103 are estimated to be funded in the budget fiscal year.

REGULATIONS, GUIDELINES, AND LITERATURE — This section lists the title, number, and price of guidelines, handbooks, manuals and other officially published information pertinent to a program. Since program regulations are published first in the Federal Register (FR) and later in the Code of Federal Regulations (CFR), citations to the CFR are listed.

Example: Interim guidelines available in application kits.

INFORMATION CONTACTS:

Regional or Local Office — This section lists the agency contact person, address and telephone number of the Federal Regional or Local Office(s) to be contacted for detailed information regarding a program such as: 1) current availability of funds and the likelihood of receiving assistance within a given period; 2) whether the program is suitable for joint funding (where not indicated in the Uses and Use Restrictions section of the program); 3) preapplication and application forms required; 4) whether a preapplication conference is recommended; 5) assistance available in preparation of applications; 6) whether funding decisions are made at the headquarters, regional or local level; 7) application renewal procedures (including continuations and supplementals) or appeal procedures for rejected applications; and 8) recently published program guidelines and material .

However, for most programs in the Catalog, this section will instruct the reader to consult Appendix IV of the Catalog (Agency Regional and Local Office Addresses) due to the volume of Regional and Local Office Contacts for most agencies. For those agencies with fewer contacts, the actual information will be indicated in this section, where applicable.

Example: ADAMHA Branch of the appropriate HHS Regional Office (see Appendix IV of the Catalog for listing).

(Appendix IV listing) Region 1
(Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont)

William Farrow
John F. Kennedy Federal Building
Government Center
Boston, MA 02203
(617) 123-4567
(Use same 7—digit number for FTS)

Headquarters Office — This section lists names and addresses of the office at the headquarters level with direct operational responsibility for managing a program. A telephone number is also provided in cases where a Regional or Local Office is not normally able to answer detailed inquiries concerning a program. Also listed are names and telephone numbers of information contacts for use by applicants in the metropolitan Washington area.

Example: Dr. Steven Sharfstein, Acting Director, Division of Mental Health Service Programs, National Institutes of Mental Health, 5600 Fishers Lane, Rockville, MD 20857. Telephone: (301) 123-4567. (Use same 7-digit number for FTS.)

RELATED PROGRAMS — This section of the program description lists all programs in the Catalog that are closely related based on objectives and program uses. Applicants should also check these programs since they may provide additional assistance.

Example: 13.232, Maternal and Child Health Services; 13.233, Maternal and Child Health Training; 13.242, Mental Health Research Grants; 13.295, Community Mental Health Centers—Comprehensive Support; 13.630, Developmental Disabilities—Basic Support.

EXAMPLES OF FUNDED PROJECTS: This section indicates the different types of projects which have been funded in the past. Only projects funded under Project Grants or Direct Payments for Specified Use should be listed here. The examples give potential applicants an idea of projects that may be accepted for funding. The agency should list at least five examples of the most recently funded projects.

Example: Awards are made only for staffing of facilities offering mental health services for children.

CRITERIA FOR SELECTING PROPOSALS: This section indicates the criteria used by the Federal grantor agency to evaluate proposals in order to inform potential applicants of the application review process and the criteria used to award funds for projects.

Example: The criteria for selecting proposals is based upon the extent the project will contribute to needed services and training, capability of applicant to provide services and training, more effective utilization of personnel providing mental health services, and development of new methods or information.

APPENDICES——The last section of the Catalog contains the following appendices: Programs Requiring Circular Coordination (Appendix I); Authorization Appendix (Appendix II); Budget Functional Code Appendix (Appendix III); Agency Regional and Local Office Addresses (Appendix IV); Sources of Additional Information Contacts (Appendix V); and in each Basic edition, Historical Profile of Catalog Programs (Appendix VI).

Appendix I — Programs Requiring Circular Coordination: This Appendix gives a brief description of the policy circulars referenced in the program texts within the Catalog. The description explains the purpose of the circulars, to whom they apply, and the general procedures to follow in applying for assistance.

The following is a listing of circulars and directives further described in Appendix I:

OMB CIRCULAR NO. A-87, COST PRINCIPLES APPLICABLE TO GRANTS AND CONTRACTS WITH STATE AND LOCAL GOVERNMENTS. Reference: 34 CFR 255.

OMB CIRCULAR NO. A-102, UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS-IN-AID TO STATE AND LOCAL GOVERNMENTS. Reference: Federal Register, Vol. 42, No. 176, September 12, 1977.

OMB CIRCULAR NO. A-110, GRANTS AND AGREEMENTS WITH INSTITUTIONS OF HIGHER EDUCATION, HOSPITALS, AND OTHER NONPROFIT ORGANIZATIONS. Reference: Federal Register, Vol. 41, No. 148, July 30, 1976.

EXECUTIVE ORDER 12372, INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS. Reference: Federal Register, Vol. 48, No. 123, June 24, 1983 (Final Regulations).

ENVIRONMENTAL IMPACT STATEMENT (EIS). Reference: 42 U.S.C. 4332(2)(C) and 34 FR 4247.

Appendix II — Authorization Appendix: This appendix lists Acts, Executive Orders and Public Law numbers which mandate programs in the Catalog. Acts and Executive Order citations are listed in alphabetic sequence and Public Law citations are listed numerically by the Congress. The citations are followed by their corresponding program numbers.

Appendix III — Budget Functional Code Appendix: This appendix lists programs by the Budget functional classification. The three digits listed are the major and minor functional classifications used to identify the major purpose of the programs.

Appendix IV — Agency Regional and Local Office Addresses: This appendix lists the names, addresses and telephone numbers of the regional and local offices which should be contacted for detailed information concerning a program and for initiating the process for applying for assistance. In cases where a Federal agency does not have a regional or local office, the headquarters office listed in the program description should be contacted.

Appendix V — Sources of Additional Information Contacts: Additional information concerning Federal programs is available from Federal Information Centers and Federal Executive Boards as listed in this Appendix.

Appendix VI — Historical Profile of Catalog Programs: This appendix lists all programs that were printed in the Catalog of Federal Domestic Assistance beginning with the 1965 edition and the subsequent action taken related to those programs. (Published in the Basic editions only.)

SUGGESTIONS FOR PROPOSAL WRITING AND FOLLOWING GRANT APPLICATION PROCEDURES

I. INTRODUCTION

This section is designed to assist persons and institutions seeking a grant from a Federal assistance program.

The ideas and suggestions in this section are not all-inclusive. They are intended as a general guide. The material applies to most assistance proposals. Applicants should remember that the basic requirements, application forms, information and procedures vary with the Federal agency making the grant award.

The legislative intent and the administrative guidelines of Federal programs (the Authorization section of the Catalog program description) are useful as a starting point in considering if and how a proposal matches the needs of the Federal granting agency. The remaining sections of the Catalog program description further define features of the Federal program.

A telephone call or a letter to the Federal agency contact person (the Information Contacts section of the Catalog program description) can provide invaluable help in the beginning stages of proposal development. The potential applicant should consult the program's information contact person before developing a proposal to determine whether an application should be made, if there is money available, applicable deadlines, and the process used by the agency in accepting applications. It is important to identify any priorities the Federal agency considers significant. Agencies often prepare guidelines for specific programs to assist applicants in proposal development. These guidelines should be requested by the applicant.

Individuals without prior grant writing experience may find it useful to attend a grantsmanship workshop. A workshop can amplify the basic information presented here. Applicants requiring additional readings on grantsmanship and proposal development should consult the references listed at the end of this section and other library resources.

II. INITIAL PROPOSAL DEVELOPMENT

A. The Concept Paper

After outlining the idea for a proposal, it is useful to develop a concept paper (preliminary proposal) perhaps one or two pages in length. The paper should attempt, at a minimum, to outline proposed goals, rationale, population to be served, estimate of cost, and expected program achievements. The author periodically should revise the paper as ideas about the proposal or grant requirements of the Federal program change. The paper should be distributed to interested persons and agencies in the community. They can be helpful by providing both review and comment on the proposal contents. Select someone who knows and someone who does not know about the subject matter of the paper. This procedure will serve to provide at least two perspectives on the contents; first, a substantive review of the material, and, second, insight into the clarity of the writing style and gramatical accuracy. Further, a review by someone who has submitted a proposal to the funding source in the past will yield information regarding experience with the agency's proposal preferences. The concept paper may be used later, if necessary, for the proposal summary page of the application which is usually one of the most important pages in the grant package. (Refer to the application kit for details on the development of the proposal summary page.) When developing an idea for a proposal it is important to determine if the idea has been or is now being considered in the applicant's locality or State. A careful check should be made with legislators and area government agencies and related public and private agencies which may have (or have had) grant awards or contracts to do similar work. If a similar program exists (or has existed in the past), the applicant may need to reconsider submitting the proposed project particularly if duplication of effort is perceived. Provided significant differences can be established between the existing and proposed project it may be unwise to pursue Federal assistance. The applicant must strive to select a 'fundable' project which can be supported in view of the local need. Alternatives, in the absence of Federal support, should be pointed out. The influence of the project both during and after the project period should be explained. The consequences of the project as a result of funding should be highlighted.

B. Community Support

Community support for most proposals is essential. Once an outline or concept paper has been developed, look for individuals or groups representing academic, political, professional and lay organizations who may be willing to support the proposal in writing. The type and caliber of community support is critical in the initial and subsequent review phases. Numerous letters of support can be persuasive to a grantor agency. Do not overlook support from local government agencies and public officials. Letters of endorsement detailing exact areas of project sanction and commitment are often requested as part of a proposal to a Federal agency. Several months may be required to develop letters of endorsement since something of value (e.g., buildings, staff, services) is sometimes negotiated between the parties involved. Many agencies require, in writing, affiliation agreements (a mutual agreement to share services between agencies) and building space commitments prior to either grant approval or award. A useful method of generating community support may be to hold meetings with the top decision makers in the community who would be concerned with the subject matter of the proposal. The forum for discussion may include a query into the merits of the proposal, development of a contract of support for the proposal, to generate data in support of the proposal, or development of a strategy to create proposal support from a large number of community groups.

C. Identification of a Funding Resource

A chart is provided in the Introduction (see How to Use the Catalog) to guide users through Catalog sections and retrieve all pertinent program information available in the Catalog. For new Catalog users this chart may be consulted first for an orientation to the suggested method for identifying Federal financial assistance in the Catalog. A review of the Objectives and Uses and Use Restrictions sections of the Catalog program description can point out which programs might provide funding for an idea. Do not overlook the related programs as potential resources. Both the applicant and the grantor agency should have the same interests, intentions and needs if a proposal is to be considered an acceptable candidate for funding. Once a potential grantor agency is identified, call the contact telephone number identified in Information Contacts and ask for a grant application kit. Later get to know some of the grantor agency personnel. Ask for suggestions, criticisms and advice about the proposed project. In many cases the more agency personnel know about the proposal the better the chance of support and of an eventual favorable decision. Sometimes it is useful to send the concept paper to a specific agency official in a separate cover letter, and ask for review and comment at the earliest possible convenience. Always check with the Federal agency to determine its preference if this approach is under consideration. If the review is unfavorable and differences cannot be resolved, ask the examining agency (official) to suggest another department or agency which may be interested in the proposal. A personal visit to the agency's regional office or headquarters is also important. A visit not only establishes face to face contact, but also may bring out some essential details about the proposal or help secure literature and references from the agency's library.

Federal agencies are required to report funding information as funds are approved, increased or decreased among projects within a given State depending on the type of required reporting. Also, consider reviewing the Federal Budget for the current and budget fiscal years to determine proposed dollar amounts for particular budget functions.

The applicant should carefully study the eligibility requirements for each Federal program under consideration (see the Applicant Eligibility section of the Catalog program description). The applicant may learn he or she is required to provide services otherwise unintended such as a service to particular client groups, or involvement of specific institutions. It may necessitate, in some way, the modification of the original concept in order for the project to be eligible for funding. Questions about eligibility should be discussed with the program officer of the Federal program of interest.

Deadlines for submitting applications are often not negotiable. They are usually associated with strict timetables for agency review. Some programs have more than one application deadline during the fiscal year. Applicants should plan proposal development around the established deadlines.

The timing used by the applicant in implementing Part II, Section A, B and C above depends upon the stage of development of each section. The applicant should carefully balance the knowledge and understanding of each part prior to determining the first step and before proceeding to the formal development of the proposal.

III. WRITING AND DEVELOPING A PROPOSAL

A. Gathering Applicant Organizational Data

The applicant should gather data about its organization from all available sources. Most proposals require a description of an applicant's organization to describe its past and present operations. Some features to consider are:

1. A brief biography of board members and key staff members;
2. The organization's goals, philosophy, track record with other grantors and any success stories.

The data should be relevant to the goals of the Federal grantor agency and should establish the applicant's credibility.

B. Problem Statement Development

One of the key elements of a proposal is a clear, concise and well-supported statement of the problem to be addressed. The best way to collect information about the problem is to conduct and document both a formal and informal needs assessment for a program in the target or service area. There is a considerable body of literature on the exact assessment techniques to be used. Any local, regional or State government planning office or local university offering course work in planning and evaluation techniques should be able to provide excellent background references. Types of data that may be collected include: historical, geographic, quantifiable, factual, statistical, unobstrusive and philosophical information as well as studies completed by colleges, and literature searches from a public or university library. Local colleges or universities which have a department or section related to the proposal topic may help determine if there is interest in developing a student or faculty project to conduct a needs assessment. It may be helpful to include examples of the findings for highlight in the proposal. The information provided should be both factual and directly related to the problem addressed by the proposal. Areas to document are:

1. The purpose for developing the proposal.

2. The beneficiaries -- who are they and how will they benefit.

3. The social and economic costs to be affected.

4. The nature of the problem (provide as much hard evidence as possible).

5. How the applicant organization came to realize the problem exists, and what is currently being done about the problem.

6. The remaining alternatives available when funding has been exhausted. Explain what will happen to the project and the impending implications.

7. Most importantly, the specific manner through which problems might be solved. Review the resources needed, considering how they will be used and to what end.

IV. ACT OF WRITING

A. Preorganization

Prior to any formal development of a proposal the applicant should first complete the task of accumulating information, and then begin writing the proposal. The applicant should also have the grant application kit in hand.

One of the first steps in the development of an application is to identify a coordinating person and have this person thoroughly review the application kit. This task is best performed by the person with the major responsibility for the coordination of the proposal development tasks and may or may not be the person who knows the most about the proposal subject area. These are often two different persons. Make an outline of the forms, copy each one and put the originals in a secure file. Use these copies only when ready to type the final draft. Then substitute the filed copies in the application kit. It may be useful to develop a milestone chart (a type of schedule which charts significant events in the development of a proposal over time) to address and identify the implementation dates of the following:

1. Formatting the available information not requiring additional development.

2. Gathering data necessary for development of the proposal and where to get it.

3. Who and when staff will be available to assist with the project.

4. Item-by-item development of the first draft.

5. Schedule for the completion of the second and final drafts to be inspected by the coordinator.

Whenever steps in the milestone chart are delayed it is advisable to immediately negotiate the earliest possible new deadline with the affected parties. Care should be exercised to guarantee that the next selected date does not delay the entire project schedule. Most grant proposals will need to be copied four times or more. The original and copies will go to to the Federal grantor agency's program and/or grant office. Other copies may go to to single State agencies, regional and local government officials and board members (if any). If the copying is done internally it may be wise to identify a backup copy machine is case of mechanical failure. This may be critical when working against strict deadlines. Typists should be notified and scheduled in advance if possible. Prepare to commit enough financial resources to producing a proposal. It is difficult to gauge how much money, material and personnel will be needed, but some considerations are: person power (writers, typists, clerks, researchers, statisticians, and consultants), supplies (typewriter, paper, copy machine, postage, binders, pencils and pens, correction fluid, and types of stylus apparatus for charts), office space, a telephone and office equipment.

B. Getting Organized to Write the Proposal

Throughout the proposal writing stage keep a notebook handy to write down ideas. Periodically, try to connect ideas by reviewing the notebook. Never throw away written ideas during the grant writing stage. Maintain a file labeled "Ideas" or by some other convenient title and review the ideas from time to time. The file should be easily accessible. The gathering of documents such as articles of incorporation, tax exemption certificates, and bylaws should be completed, if possible, before the writing begins.

C. A Note on Special Technical Services

States and political subdivisions can obtain technical information services from Federal agencies when preparing proposals. A written request from the chief executive officer (governor, mayor or county executive) is required. Services are provided according to the Federal agency's special capabilities, mission and authorization by law. Assistance may include: statistical or other studies and compilations, development projects, technical tests and evaluations, technical information, training activities, surveys, reports and documents. All services must relate to either current or future needs of the Federal Government. Some form of proof is required to ensure that these services can be procured reasonably and expeditiously by the requesting agency through ordinary business channels. Federal agencies may require considerable time in supplying information. Consider such possible time lags when requesting assistance.

The following information (Sections D, E, F and Parts V and VI) is generally adaptable to all proposals, and will test both creativity and resourcefulness of the applicant.

D. Developing Program Objectives

Program objectives refer to specific activities in a proposal. It is necessary to identify all objectives related to the goals to be reached, and the methods to be employed to achieve the stated objectives. Consider quantities or things measurable and refer to a problem statement and the outcome of proposed activities when developing a well stated objective. The figures used should be verifiable. Remember, if the proposal is funded, the stated objectives will probably be used to evaluate program progress, so be realistic. There is literature available to help identify and write program objectives.

E. Writing the Solution — A Program Design

The program design refers to how the project is expected to work and solve the stated problem. Sketch out the following:

1. The activities to occur along with the related resources and staff needed to operate the project (inputs).
2. A flow chart of the organizational features of the project. Describe how the parts interrelate, where personnel will be needed and what they are expected to do. Identify the kinds of facilities, transportation and support services required (throughputs).

3. Explain what will be achieved through 1 and 2 above (outputs); i.e., plan for measurable results. Project staff may be required to produce evidence of program performance through an examination of stated objectives during either a site visit by the Federal grantor agency and or grant reviews which may involve peer review committees.

4. It may be useful to devise a diagram of the program design. For example, draw a three column block. Each column is headed by one of the parts (inputs, throughputs and outputs), and on the left (next to the first column) specific program features should be indentified (i.e., implementation, staffing, procurement, and systems development). In the grid specify something about the program design, for example, assume the first column is labeled inputs and the first row is labeled staff. On the grid one might specify under inputs five nurses to operate a child care unit. The throughput might be to maintain charts, counsel the children, and set up a daily routine; outputs might be to discharge 25 healthy children per week. This type of procedure will help to conceptualize both the scope and detail of the project.

5. Wherever possible, justify in the narrative the course of action taken. The most economical method should be used that does not compromise or sacrifice project quality. The financial expenses associated with performance of the project will later become points of negotiation with the Federal program staff. If everything is not carefully justified in writing in the proposal, after negotiation with the Federal grantor agencies, the approved project may resemble less of the original concept. Carefully consider the pressures of the proposed implementation, that is, the time and money needed to acquire each part of the plan. A Program Evaluation and Review Technique (PERT) chart could be useful and supportive in justifying some proposals.

6. Highlight the innovative features of the proposal which could be considered distinct from other proposals under consideration.

7. Whenever possible use appendices to provide details, supplementary data, references, and information requiring indepth analysis. These types of data, although supportive of the proposal, if included in the body of the design, could detract from its readability. Appendices provide the proposal reader with immediate access to details if and when clarification of an idea, sequence or conclusion is required. Time tables, work plans, schedules, activities, metodologies, legal papers, personal vitae, letters of support, and endorsements are examples of appendices.

F. Evaluating the Program

Most Federal agencies now require some form of program evaluation among grantees. The requirements of the proposed project should be explored carefully. Evaluations may be conducted by an internal staff member, an evaluation firm or both. The applicant should state the amount of time needed to evaluate, how the feedback will be distributed among the proposed staff, and a schedule for review and comment for this type of communication. Evaluation designs may start at the beginning, middle or end of a project, but the applicant should specify a start-up time. It is practical to submit an evaluation design at the start of a project for two reasons:

1. Convincing evaluations require the collection of appropriate data before and during program operations; and,

2. If the evaluation design cannot be prepared at the outset then a critical review of the program design may be advisable.

Even if the evaluation design has to be revised as the project progresses, it is much easier and cheaper to modify a good design. If the problem is not well defined and carefully analyzed for cause and effect relationships then a good evaluation design may be difficult to achieve. Sometimes a pilot study is needed to begin the identification of facts and relationships. Often a thorough literature search may be sufficient.

Evaluation requires both coordination and agreement among program decision makers (if known). Above all, the Federal grantor agency's requirements should be highlighted in the evaluation design. Also, Federal grantor agencies may require specific evaluation techniques such as designated data formats (an existing information collection system) or they may offer financial inducements for voluntary participation in a national evaluation study. The applicant should ask specifically about these points. Also, consult the Criteria For Funding Proposals section of the Catalog program description to determine the exact evaluation methods to be required for the program if funded.

V. BUDGET FORMULATION

A. Planning the Budget

Funding levels in Federal assistance programs change yearly. It is useful to review the appropriations over the past several years to try to project future funding levels (see Financial Information section of the Catalog program description).

However, it is safer to never anticipate that the income from the grant will be the sole support for the project. This consideration should be given to the overall budget requirements, and in particular, to budget line items most subject to inflationary pressures. Restraint is important in determining inflationary cost projections (avoid padding budget line items), but attempt to anticipate possible future increases. Some vulnerable budget areas are: utilities, rental of buildings and equipment, salary increases, food, telephones, insurance and tranportation. Budget adjustments are sometimes made after the grant award, but this can be a lengthy process. Be certain that implementation, continuation and phasedown costs can be met. Consider costs associated with leases, evaluation systems, hard/soft match requirements, audits, development, implementation and maintenance of information systems and accounting systems and other long-term financial commitments.

A well-prepared budget justifies all expenses and is consistent with the proposal narrative. Some areas in need of an evaluation for consistency are: the salaries in the proposal in relation to those of the applicant organization should be similar; if new staff are being hired additional space and equipment should be considered, if necessary; if the budget calls for an equipment purchase it should be the type allowed by the grantor agency; if additional space is rented the increase in insurance should be supported; if an indirect cost rate applies to the proposal the division between direct and indirect costs should not be in conflict, and the aggregate budget totals should refer directly to the approved formula; if matching costs are required the contributions to the matching fund should be taken out of the budget unless otherwise specified in the application instructions.

It is very important to become familiar with government-wide circular requirements. The Catalog identifies in the program description section the particular circulars applicable to a Federal program, and summarizes circular requirements in Appendix I. The applicant should thoroughly review the appropriate circulars since they are essential in determining items such as cost principles and conforming with government guidelines for Federal domestic assistance.

VI. REVIEW

A. Criticism

At some point, perhaps after the first or second draft is completed, seek out a neutral third party to review the proposal working draft for continuity, clarity and reasoning. Ask for constructive criticism at this point, rather than wait for the Federal grantor agency to volunteer this information during the review cycle. For example, has the writer made unsupported assumptions or used jargon or excessive language in the proposal?

B. Signature

Most proposals are made to institutions rather than individuals. Often signatures of chief administrative officials is required. Check to make sure they are included in the proposal where appropriate.

C. Neatness

Proposals should be typed, collated, copied and packaged correctly and neatly (according to agency instructions, if any). Each package should be inspected to ensure uniformity from cover to cover. Binding may require either clamps or hard covers. Check with the Federal agency to determine its preference. A neat, organized and attractive proposal package can leave a positive impression with the reader about the proposal contents.

C. Mailing

A cover letter should always accompany a proposal. Standard U.S. Postal Service requirements apply unless otherwise indicated by the Federal agency. Make sure there is enough time for the proposals to reach their destinations. Otherwise, special arrangements may be necessary. Always coordinate such arrangements with the Federal grantor agency project office (the agency which will ultimately have the responsibility for the project), the grant office (the agency which will coordinate the grant review) and the contract office if necessary (the agency responsible for disbursement, and grant award notices).

VII. ADDITIONAL SOURCES OF INFORMATION

Below are resources for more detail about grants and grantwriting. There are several very good private resources available which can be identified by consulting a public library.

A. Research Tools

THE FEDERAL REGISTER

The Federal Register, published daily, is the medium for making available to the public Federal agency regulations and other legal documents of the Executive Branch. These documents cover a wide range of government activities. Here, government requirements are published which involve environmental protection, consumer product safety, food and drug standards, occupational health and safety, and many more areas of concern to the public.

Perhaps more importantly, the Federal Register includes proposed changes in regulated areas. Each proposed change published carries an invitation for any citizen or group to participate in the consideration of the proposed regulation through the submission of written data, views, or arguments, and sometimes by oral presentations. Through the publication of proposed rules and notices of public meetings, citizens are given the opportunity to be informed about and participate in the workings of their government.

The Federal Register Index is based on a consolidation of entries appearing in the issues of the Federal Register together with broad references. It is published monthly and is cumulated for 12 months. All Federal Register publications are available for purchase from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations (CFR) is a codification of the general and permanent rules published in the Federal Register by executive departments and agencies of the Federal government. It includes all statutory regulations of Federal agencies, and is divided into 50 titles which represent broad subject areas of Federal regulations (e.g., Housing and Urban Development, Public Health, Public Welfare, or Transportation). Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas. The number preceding the CFR citation is the title or volume number. The CFR is kept up-to-date by the individual issues of the Federal Register, these two publications must be used together to determine the latest version of any given rule. Individual volumes of the CFR are revised at least once each calendar year and issued on a staggered quarterly basis. The CFR thus serves as a convenient reference for the citizen desiring a comprehensive source for general and permanent Federal regulations.

A General index to the entire Code of Federal Regulations, the CFR Index, is revised as of July 1 each year. The numerical Finding Aids, a cumulative list of CFR Sections affected is publised monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

The Federal Register and the Code of Federal Regulations are available in Federal depository libraries and most major libraries or Federal bookstores. Individual copies may be purchased from the Government Printing Office.

THE FEDERAL BUDGET

The following four budget documents are briefly described below: The Budget of the U.S. Government, the Budget Appendix, The Budget in Brief, and the Special Analyses of the Budget. Budget documents are available for purchase from the Government Printing Office.

The Budget provides information on the President's budget proposals, ongoing programs, the budget system and summary tables on the budget. For program identification, the last three digits of the identification code in the Financial Information section of the program description in the Catalog is the functional code. The codes and functions are contained in the back section of the Budget (Budget Outlays by Function).

The Appendix provides detailed information on Federal programs, and identifies specific amounts (as shown in the budget) for each existing or proposed program. Supplemental proposals and amendments for the current year are also identified.

The Budget in Brief is designed for use by the general public. This document is a less technical overview of the budget, and provides graphic displays, a summary and historical tables on the Federal budget.

The Special Analyses, Budget of the U.S. Government contains analyses that are designed to highlight specific program areas or provide other significant presentations of Federal budget data.

Washington, DC 20402

Additional resources available from GPO are: House and Senate Calendars (Monday edition only), How Our Laws Are Made, Digest of Public General Bills and Resolutions, United States Government Manual, Budget of the United States Government, Monthly Catalog of United States Government Publications. Stock numbers and prices of these publications can be obtained by calling or writing the GPO. To order or inquire about congressional documents from GPO, call: (202) 275-3030. To order or inquire about any other government publications, call the Order Desk: (202) 783-3238.

C. Federal Register Resources

Statistical Abstract of the United States, Weekly Compilation of Presidential Documents, Federal Register, The Federal Register: What It Is and How To Use It.

D. Regional and Federal Depository Libraries

Regional libraries can arrange for copies of government documents through an interlibrary loan. A list of depository and regional libraries is available by writing: Chief, Library Division, Superintendent of Documents, Stop SLL, Washington, DC 20402.

E. Other Resources

Copies of the documents identified above and many private sector publications devoted exclusively to the codification, analysis and dissemination of legislative information are available at most law libraries and State government libraries.

AGENCY INDEX SUMMARY

The following is a summary description of the functions and activities of Federal agencies responsible for administering programs listed in the Catalog. The programs (numbers) are also listed with the administering agency.

DEPARTMENT OF AGRICULTURE

Agriculture Research Service (10.001) -- Conducts research to develop new knowledge and technology to ensure an abundance of high quality agricultural commodities and products at reasonable prices to meet the increasing needs of an expanding economy and to provide for the continued improvement in the standard of living of all Americans. It conducts basic, applied, and developmental research on animal and plant production; use and improvement of soil, water, and air; processing, storage, distribution, food safety, consumer services and human nutrition research, and food and agriculture sciences.

Animal and Plant Health Inspection Service (APHIS) (10.025) -- Conducts regulatory and control programs to protect and improve animal and plant health for the benefit of man and the environment.

Agricultural Stabilization and Conservation Service (ASCS) (10.051-10.068) -- Administers specified commodity and related land use programs designed for voluntary production adjustment, resource protection, and price, market, and farm income stabilization.

Agricultural Marketing Service (AMS) (10.153-10.166) -- Administers standardization, grading, voluntary and mandatory inspection, market news, marketing orders, regulatory, and related programs.

Cooperative State Research Service (10.200-10.211) -- Participates in a nationwide system of agricultural research program planning and coordination between the States and the Department of Agriculture to encourage and assist in the establishment and maintenance of cooperation within and among the States and between the States and their Federal research partners. The primary function is to administer the Acts of Congress that authorize Federal appropriations for agricultural research carried on by the State agricultural experiment stations of the 50 States, Puerto Rico, Guam, the Virgin Islands, the District of Columbia, American Samoa, and Micronesia; by approved schools of forestry; the 1980 land-grant institutions and Tuskegee Institute; colleges of veterinary medicine; and other eligible institutions.

Economic Research Service (10.250) -- Economic analysis and research is composed of research on the economic functioning and performance of the food and fiber industry from the farm to the consumer, and analysis of major developments and trends. Specific topics treated include: commodity analysis; farm sector economics; food system research; farm income, productivity, cost of production, and price spreads; food prices; and agricultural and food policies. The activity in international agriculture involves: world demand and supply forecasting; foreign agricultural, economic, and trade policies; and country and region situation and outlook, analysis, and research. The natural resources research covers: landownership and use; energy development impacts; water use and conservation; resource planning; pesticide regulation and management; and water quality and institutions. The rural development program encompasses: demographic research; farm work force and rural labor markets; rural health, education, and housing; State and local government services to rural communities; and rural credit.

Agricultural Cooperative Service (10.350) -- Serves as the focal point of national activity involving agricultural cooperatives. The purpose of ACS is to help farmers help themselves by providing the assistance necessary to support and improve existing cooperatives and to help farmers organize new cooperatives. The studies conducted by ACS (some through joint Federal/State efforts) are intended to provide farmers with information on financial, organizational, legal, social and economic aspects of cooperative activity. In today's rapidly changing economic environment, ACS provides technical advice to assist farmer cooperatives in the development and operation of viable, profitable organizations serving the nation's small farmers.

Human Nutrition Information Service (10.375) -- Provides funds for grants and contracts to universities and nonprofit organizations and institutions to perform analysis and research work in support of the Nationwide Food Consumption Survey.

Farmers Home Administration (FmHA) (10.404-10.427) -- Provides credit for farm and non-farm enterprises for those rural Americans who are unable to obtain credit from other sources at reasonable rates and terms.

Federal Crop Insurance Corporation (10.450) -- Promotes the general welfare and strengthens the financial position of farmers and the community by providing crop insurance against loss from unavoidable causes, such as weather, insects, and disease.

Food Safety and Inspection Service (10.475-10.477) -- Assures that meat and poultry products moving in interstate and foreign commerce are safe, wholesome, unadulterated and honestly and informatively labeled, as required by the Federal Meat Inspection Act and the Poultry Products Inspection Act. The Meat and Poultry Inspection Program provides continuous inplant inspection of all domestic plants preparing meat and poultry products for sale or distribution in commerce; reviews inspection systems in foreign establishments that prepare meat or poultry products for export to the United States; and provides technical and financial assistance to States which maintain meat and poultry inspection programs equal to Federal inspection.

Extension Service (10.500) -- Coordinates and provides administrative, technical, and other services to a nationwide Cooperative Extension System, in partnership with State and local governments and the private sector. The primary function of this system is to take the research findings of the Department of Agriculture, the State Land-Grant Colleges and programs administered by the Department of Agriculture, and to develop and deliver informal, out-of-school educational programs. These programs communicate and demonstrate to people how they can apply research findings to identify and solve farm, home, and community problems. This work is carried out through extension offices in each State, Puerto Rico, Guam, the Virgin Islands, the District of Columbia, American Samoa, and Micronesia.

Food and Nutrition Service (FNS) (10.550-10.568) -- Administers programs to make food assistance available to people who need it. These programs are operated in cooperation with State and local governments.

Foreign Agricultural Service (FAS) (10.600) --The export promotion and service agency for the U.S. Department of Agriculture. Stimulates overseas markets for U.S. agricultural products. FAS fulfills its role as the promotional agency for the world's largest agricultural export business through its network of agricultural counselors, attaches, and trade officers stationed overseas and its backup team of analysts, marketing specialists, negotiators, and related specialists. FAS maintains a worldwide agricultural intelligence and reporting system through its attache service. FAS also has a continuing market development program to develop, service, and expand commercial export markets for U.S. agricultural products. By virtue of the Agricultural Trade Act of 1978, FAS received authority to open at least 6 and not more than 25 agricultural trade offices overseas to develop, maintain and expand international markets for U.S. agricultural commodities. Eleven of these offices have been established and are located in such key markets as West Germany, Saudi Arabia, Singapore, and Venezuela. To improve access for U.S. farm products abroad, FAS international trade policy specialists coordinate and direct USDA's responsibilities in international trade agreement programs and negotiations. FAS also manages the Public Law 480 Program, Titles I and III (Food for Peace Program), and the Commodity Credit Corporation (CCC) Export Credit Guarantee Programs. Public Law 480 is aimed at long-range improvement in the economies of developing countries. The commercial programs provide exporter-risk insurance for financing the agricultural products purchased by countries with market growth potential and direct credit when used in a blended credit program. Title I, the concessional sales section of Public Law 480, provides for low-interest, long-term credit to recipients of U.S. farm commodities.

Forest Service (10.652-10.669) -- Promotes and achieves a pattern of natural resource uses that will best meet the needs of people now and in the future; generation of forestry opportunities to accelerate rural community growth; protection and improvement of the quality of air, water, natural beauty, and open space environment in urban and community areas; encouragement of growth and development of forestry-based enterprises and optimum forest land ownership patterns; expansion of environment conservation; involvement of the public in forestry policy and program formulation.

National Agricultural Library (10.700) - Disseminates useful information about agricultural and other related sciences to scientists and researchers, administrators and managers, farmers, and to the general public; provides library services, such as bibliographies, reference services and document delivery.

Packers and Stockyard Administration (10.800) -- Maintains effective competition and fair trade practices in livestock, meat, and poultry marketing so as to bring farmers and ranchers the true market value of their livestock and poultry.

Rural Electrification Administration (REA) (10.850-10.852) -- Finances electric and telephone facilities in rural areas of the United States and its territories by providing, through self-liquidating loans and technical assistance, adequate and dependable electric and telephone service to rural people under rates and conditions that permit full and productive use of these utility services.

Soil Conservation Service (SCS) (10.900-10.910) -- Develops and carries out a national soil and water conservation program in cooperation with landowners, operators and other land users and developers, community planning agencies and regional resource groups, Federal, State, and local government agencies; also assists in agricultural pollution control, environmental improvement, and rural community development.

Statistical Reporting Service (10.950) -- Crop and livestock estimates involve collecting, analyzing, and publishing agricultural production and marketing data, including: number of farms and acreage in farms; crop acreage, yields, production, stocks, value, and utilization; inventories and production of livestock, poultry, eggs, and dairy products; prices received by farmers for products, prices paid for commodities and services for living and production, and related indexes; farm employment and wage rates; cold storage supplies; and other relevant aspects of the agricultural economy. Estimates for about 150 crops and 50 livestock items are published in about 500 Federal and 10,000 State-Federal reports each year. All information is made available to the news media and the public at scheduled release times. Statistical research and service is directed toward improving crop and livestock estimating techniques. Considerable emphasis is placed on improving sample survey designs as well as testing new forecasting and estimating techniques, such as using satellite data. Also included here are the review, coordination, and monitoring of the surveys conducted by the U.S. Department of Agriculture, and the review of all proposed statistical forms and survey plans prior to submittal to the Office of Management and Budget for clearance.

DEPARTMENT OF COMMERCE

Bureau of the Census (11.001-11.006) -- Conducts decennial censuses of population and housing; a mid-decade census of population to be taken initially in 1985 and every 10 years thereafter; quienquennial censuses of agriculture, State and local governments, manufacturers, mineral industries, distributive trades, construction industries, and transportation; current surveys which provide information on many of the subjects covered in the censuses at weekly, monthly, quarterly, annual, or other intervals; compilation of current statistics on U.S. foreign trade, including data on imports, exports, and shipping; conducts special censuses at the request and expense of State and local government units; publishes estimates and projections of the population and housing characteristics; issues current reports on manufacturing, retail and wholesale trade, selected services, construction, imports and exports, State and local government finances and employment, and other subjects; and makes searches of decennial census records and furnishes certificates to individuals for use as evidence of age, relationship, or place of birth.

Bureau of Economic Analysis (BEA) (11.025-11.027) -- Provides a clear picture of the U.S. economy through the preparation, development, and interpretation of the national income and product accounts, summarized by the gross national product (GNP); the wealth accounts, which show the business and other components of national wealth; the input-output accounts, which trace the interrelationships among industrial markets; personal income and related economic series by geographic area; the U.S. balance of payments accounts and associated foreign investment accounts; and measures relating to environmental change and to welfare within the framework of the national economic accounts. The data and analyses prepared are disseminated mainly through its monthly publications, the Survey of Current Business, and Business Conditions Digest.

International Trade Administration (ITA) (11.100-11.110) -- Promotes world trade and strengthens the international trade and investment position of the United States.

Economic Development Administration (EDA) (11.300-11.312) -- Promotes the long-range economic development of areas with severe unemployment and low family income problems; aids in the development of public facilities and private enterprise to help create new, permanent jobs.

National Oceanic and Atmospheric Administration (NOAA) (11.400-11.429) -- Reports the weather of the U.S. and its possessions and provides weather forecasts to the general public, issues warnings against such destructive natural events as hurricanes, tornadoes, floods, and tsunamis and provides special services in support of aviation, marine activities, agriculture, forestry, urban air-quality control, and other weather-sensitive activities; monitors and reports all nonfederal weather modification activities conducted in the U.S.; conducts an integrated program of management, research, and services related to the protection and rational use of living marine mammals; prepares and issues nautical and aeronautical charts, provides the Nation's precise geodetic surveys, and conducts broad research programs in marine and atmospheric sciences, solar-terrestrial physics, and experimental meteorology, including weather modifications; predicts tides, currents, and the state of the oceans, conducts research and development aimed at providing alternatives to ocean dumping; provides Federal leadership in promoting wise and balanced management of the Nation's coastal zone; provides satellite observations of the environment by establishing the operating a national environmental satellite system; conducts integrated program of research and services relating to the oceans and inland waters, the lower and upper atmosphere, space environment, and the earth; acquires, stores, and disseminates worldwide environmental data through a system of meteorological, oceanographic, geodetic, and seismological data centers; develops a system of data buoys for automatically obtaining and disseminating marine environmental data; promotes the development of technology to meet future needs of the marine community.

National Telecommunications and Information Administration (NTIA) (11.550) -- Exercises significant responsibility in the areas of communication security, privacy protection, and the application of public service satellites, public telecommunications facilities planning and construction: formulates policies to support the development, growth and regulation of telecommunications, information, and related industries; furthers the efficient development and use of telecommunications and information services; provides policy and management for the use of electromagnetic spectrum; provides telecommunications facilities grants to public service users.

National Bureau of Standards (NBS) (11.601-11.609) -- Provides the national system of physical, chemical, and materials measurement; coordinates the system with measurement systems of other nations and furnishes essential services leading to accurate and uniform physical and chemical measurement throughout the Nation's scientific community, industry, and commerce; conducts materials research leading to improved methods of measurement, standards, and data on the properties of materials needed by industry, commerce, educational institutions, and Government; develops, produces, and distributes standard reference materials; and provides calibration services. The National Engineering Laboratory provides technology and technical services to users in the public and private sectors to address national needs and to solve national problems in the public interest; conducts research in engineering and applied science in support of objectives in these efforts; develops engineering data and measurement capabilities; provides engineering measurement traceability services; develops test methods and proposes engineering standards and code changes; develops and proposes new engineering practices; and develops and improves mechanisms to transfer results of its research to the user. The Institute for Computer Sciences and Technology develops and recommends Federal information processing standards and participates in the development of voluntary commercial ADP standards; conducts research in the science and technologies of automatic data processing, computers, and related systems.

National Technical Information Service (NTIS) (11.650) -- Simplifies and improves public access to Department of Commerce publications and to data files and scientific and technical reports sponsored by Federal agencies. NTIS is the central point in the United States for the public sale of Government-funded research and development reports and other analyses prepared by Federal agencies, their contractors, or grantees. The public may quickly locate abstracts of interest from among the 650,000 federally sponsored research reports completed and published from 1964 by using the agency's on-line computer search service (NTISearch). Current abstracts of new research reports and other specialized technical information in various categories of interest are published in some 26 weekly abstract newsletters. An all-inclusive biweekly journal (Government Reports Announcements and Index) is published for librarians, technical information specialists, and those requiring such comprehensive volumes.

Minority Business Development Agency (MBDA) (11.800) -- Assists minority businesses in achieving effective and equitable participation in the American free enterprise system and in overcoming social and economic disadvantages that have limited their participation in the past. The agency provides national policies and leadership in forming and strengthening a partnership of business, industry, and government with the Nation's minority businesses. Management and technical assistance is provided to minority firms on request, primarily through a network of local business development organizations funded by the Agency.

Patent and Trademark Office (PTO) (11.900) -- Examines applications for three kinds of patents: design patents (issued for 3 1/2, 7, or 14 years), plant patents (issued for 7 years), and utility patents (issued for 17 years). Also processes international applications for patents under the provisions of the Patent Cooperation Treaty. In addition to the examination of patent and trademark applications, issuance of patents, and registration of trademarks, the Office sells printed copies of issued documents; records and indexes documents transferring ownership; maintains a scientific library and search files containing over 20 million documents, including U.S. and foreign patents and U.S. trademarks; provides search rooms for the public to research their applications; hears and decides appeals from prospective inventors and trademark applicants; participates in legal proceedings involving the issue of patents or trademark registrations; helps represent the United States in international efforts to cooperate on patent and trademark policy.

DEPARTMENT OF DEFENSE

Defense Logistics Agency (DLA) (12.001) -- Provides effective and economical support to the military services, other Department of Defense components, Federal civil agencies, foreign governments, and others as authorized, for assigned materiel commodities and items of supply, logistics services directly associated with the supply management function, contract administration services, and other support services as directed by the Secretary of Defense.

Department of the Army, Office of the Chief of Engineers (12.100-12.111) -- Civil functions of the Department of the Army include the Civil Works Program, the administration of Arlington and Soldiers' Home National Cemeteries, and other related matters. The Army's Civil Works Program, a responsibilty of the Corps of Engineers is the Nation's major Federal water resources development activity and involves engineering works such as major dams, reservoirs, levees, harbors, waterways, locks, and many other types of structures. These works provide flood protection for cities and major river valleys, reduce the cost of transportation, supply water for municipal and industrial use, generate hydroelectric power, provide recreational opportunities for vast numbers of people, regulate the rivers for many purposes including the improvement of water quality and the enhancement of fish and wildlife, protect the shores of the oceans and lakes, and provide still other types of benefits. Planning assistance is also provided to States and other nonfederal entities for the comprehensive management of water resources, including pollution abatement works. In addition, through the Civil Works Program the Federal Government protects the navigable waters of the United States under legislation empowering the Secretary of the Army to prohibit activities which would reduce the value of such waters to the Nation.

Department of the Army, National Guard Bureau (12.400) -- Provides a combat-ready reserve force and facilities for training and administering the Army National Guard units in the 50

States, the District of Columbia, the Commonwealth of Puerto Rico, and the Virgin Islands.

U.S. Soldiers' and Airmen's Home (12.500) -- Provides a permanent residence for the relief and support of certain retired soldiers of the regular Army and Airmen of the Air Force.

Office of the Assistant Secretary (Manpower, Reserve Affairs, and Logistics) (12.600-12.609) -- Has responsibility for the fields of manpower and personnel plans, policy, and management; manpower requirements; military and civilian compensation, including retired pay; National Guard and Reserve affairs; education and individual training; civil rights and equal opportunity; religious, morale, and welfare matters. Other responsibilities include labor-management relations; logistics management; supply maintenance, transportation, and services policy; energy management and conservation; safety and accident prevention; environmental quality; economic adjustment; military base structure and utilization; transportation management, sealift, and airlift readiness; customs inspection; drug and narcotics enforcement efforts; installations and real property acquisition, maintenance and disposal; military construction and family housing; and postal policy.

Secretaries of Military Departments (12.700) -- Donates or lends obsolete combat materiel to veterans' organizations, soldiers' monument associations, State museums, incorporated museums, and incorporated municipalities.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service (PHS) (13.103-13.399, 13.820-13.995) -- Promotes and assures the highest level of health attainable for every individual and family in America, and to develop cooperation in health projects with other nations. The major functions of PHS are to: stimulate and assist States and communities with the development of local health resources and further the development of education for the health professions; assist in the improvement of the delivery of health services to all Americans; conduct and support research in medical and related sciences and disseminate scientific information; protect the health of the Nation against impure and unsafe foods, drugs and cosmetics, and other potential hazards; provide national leadership for the prevention and control of communicable diseases; and other efforts to improve the quality of public health. PHS is comprised of several components structured to meet the specialized public health needs. Among these is the Alcohol, Drug Abuse and Mental Health Administration provides leadership in the Federal effort to reduce, and eliminate where possible, health problems in the United States. Another component is the Food and Drug Administration, which protects the health of the Nation against impure and unsafe foods, drugs and cosmetics, and other potential hazards. The Health Resources and Services Administration identifies health care resource problems and maintains or strengthens the distribution, supply utilization, quality, and cost effectiveness of these resources to improve the health care system and individual health status. The National Institutes of Health is also a component of PHS. The mission of the National Institutes of Health (NIH) is to improve human health through biomedical research. The programs of the NIH are oriented principally toward basic and applied scientific inquiry related to the causes, diagnosis, prevention, treatment, and rehabilitation of human diseases and disabilities; the fundamental biological effects of the environment. In addition, the NIH sponsors training of research personnel; career development of new and established scientists; evaluation and dissemination of new information about medicine and health; construction of cancer research facilities and provision of other research resources; and improvements in biomedical communications. To carry out these responsibilities, the NIH is organized into 16 separate units, which include four Bureaus, eight Institutes and four Divisions. Fourteen of these units have an extramural component, i.e., provide funds for research and research training activities in institutions external to NIH. Although the majority of the awarding units at NIH concentrate on specific diseases, three of them have a more general health related focus, e.g., Child Health and Human Development. The National Institute of General Medical Sciences, however, is oriented toward increasing knowledge in the fundamental life sciences, and the Division of Research Resources has the responsibility for strengthening and enhancing the institutional environment through support of a wide variety of essential research resources used by investigators.

Office of Human Development Services (OHD) (13.600-13.668) -- Administers a broad range of human services and human development programs designed to deal with the problems of specific populations, including the elderly, children of low-income families, persons with mental or physical handicaps, runaway youth, and Native Americans. It also serves as an advocate within the Department for the needs of these special groups. The Administration on Aging (AOA), a component of OHD, identifies the needs, concerns, and interests of older persons and is also responsible for carrying out the programs of the Older Americans Act. AOA is also the principal agency for promoting coordination of Federal resources available to meet the needs of older persons. AOA administers a program of formula grants to State agencies on aging to serve as advocates for the elderly and to assist in the establishment of comprehensive, coordinated service systems for older persons at the community level. State agencies designate and fund area agencies on aging, which serve as advocates for the elderly within their communities. In addition, area agencies plan and manage the delivery of a variety of social services and nutrition services which are authorized under Title III. AOA may make direct grants to qualified Indian tribal organizations to support social and nutrition services for older Native Americans. AOA awards grants for research, demonstrations, and manpower development projects. In addition, AOA operates the National Information and Resource Clearinghouse for the Aging. The Administration for Children, Youth, and Families, (ACYF) consists of two principal program units, the Office of Services for Children and Youth and the Office of Developmental Services, and two smaller units, the Office for Families and the Office on Domestic Violence. The Office of Developmental Services emphasizes programs that maximize positive development of young children, especially those receiving out-of-home care during some portion of the day. The Office of Services for Children and Youth administers programs which provide social services to children and their families and serves as an advocate for the needs of children and youth. Among the activities of this Office is a new adoption program intended to facilitate the adoption or foster care placement of children with special needs, both within and across State lines, providing model legislation States may use and setting up mechanisms to facilitate adoption or foster care placement. The Office for Families provides a focal point for family concerns within the Department of Health and Human Services (HHS) through the development and coordination of policies, legislation, and programs which affect families. The Office on Domestic Violence provides a central focus for policy planning, provision of information, and coordination of activities within the Department related to domestic violence. ACYF also serves as a coordination point for all Federal programs for children and their families and as an advocate for the children and youth of the Nation by bringing their needs to the attention of the Government and the public. It operates federally-funded programs for children, such as Head Start and Parent and Child Centers; administers the National Center on Child Abuse and Neglect and Child Welfare Services program; and coordinates intradepartmental activities in the field of runaway youth. ACYF also awards grants for the training of child welfare workers and for research and demonstration projects in the fields of child, youth, and family services. OHD's Administration for Native Americans and provides a departmental focus for the special concerns of American Indians, Alaskan Natives, and Native Hawaiians. It assists Native Americans in achieving the goal of economic and social self-sufficiency by providing direct and flexible funding to Indian tribes and other organizations through which Native Americans establish their own priorities as well as control and direct the institutions and programs which affect their lives. A major goal of ANA is to strengthen the capability of Native American organizations and instruments of government, so they can respond to the complex demands and increased responsibilities being placed upon them, provide community services, and obtain resources and benefits for which Native Americans are eligible as American citizens. In addition, ANA has an advocacy responsibility to develop policy and legislative guidance, to advise the Secretary, and to provide liaison with other Federal agencies on Native American affairs. A primary mechanism for achieving this responsibility is the Intra-Departmental Council on Indian Affairs. The Office of Community Services (OCS) administers community-oriented services and programs formerly administered under the Community Services Administration which was abolished in 1981. (OCS is a separate operating division independent of OHD.)

Office of the Secretary (13.675-13.679) -- The Secretary of HHS advises the President on health, welfare, and income security plans, policies, and programs of the Federal Government. The Secretary directs Department staff in carrying out the approved programs and activities of the Department and promotes general public understanding of the Department's goals, programs, and objectives. The Secretary administers these functions through the four Principal Operating Components (POC's): the Office of the Secretary and specialized units, such as the Office for Civil Rights and the Office of Consumer Affairs. The Secretary and the top staff also prepare special reports on national problems which are available to the public through the Department and the Government Printing Office. In addition, the Secretary submits to the President and the Congress periodic reports required by law that further explain how tax money was spent, progress was achieved, and social problems were resolved.

Health Care Financing Administration (HCFA) (13.714-13.777) -- Places under one Administration the oversight of the Medicare and Medicaid programs and related Federal medical care quality control staffs. The Medicare program provides basic health benefits to recipients Social Security and is funded through the Social Security Trust Fund. HCFA is concerned with the development of policies, procedures, and guidance related to the program recipients the providers of services such as hospitals, nursing homes, and physicians, the intermediaries who adjudicate claims, and the effective coordination with related Department programs, activities, and organizations which are closely related to the Medicare program. The Medicaid program through grants to States provides medical services to the needy and the medically underserved. HCFA is responsible for developing approaches toward meeting the needs of those who cannot afford adequate medical care; providing technical assistance to States and local organizations to extend the scope and content and improve the quality of medical care programs for the needy; and serves as the clearinghouse for information relating to the program.

Social Security Administration (SSA) (13.802-13.818) -- Administers a national program of contributory social insurance whereby employees, employers, and the self-employed pay contributions which are pooled in special trust funds. When earnings cease or are reduced because the worker retires, dies, or becomes disabled, monthly cash benefits are paid to replace part of the earnings the family has lost. Part of the contributions go into a separate hospital insurance trust fund, so that when workers and their dependents become 65 years old they will have help with their hospital bills. They may also elect to receive assistance with medical expenses by paying a percentage of supplementary medical insurance premiums, while the Federal Government pays the remainder. Together, these two programs are often referred to as "Medicare." Under certain conditions, Medicare protection is also provided to people who are receiving Social Security or monthly Railroad Retirement benefits based on a disability. The Social Security Administration is responsible for the administration of the income maintenance portion of grants to States under Title IV, the Aid to Families with Dependent Children (AFDC) portion of the Social Security Act; and for financial aid to the needy aged, blind, and disabled in Puerto Rico, the Virgin Islands, and Guam, under other provisions of the Act. The principal functions of the Social Security Administration include: research and recommendations oriented to the problems of poverty, and health care for the aged, blind, and disabled; the planning, design, and development, on a long-range basis, of SSA administrative plans, including those for future automated data processing systems to be used in establishing and maintaining the basic records essential to SSA-administered programs; statistical measurement and systematic evaluation of the quality of SSA programs; development of programs and materials to assure that Congress, Federal and State governmental agencies, and the general public have an adequate knowledge and understanding of the protections, rights, and responsibilities under SSA administered-programs; policy guidance for the administration of the retirement, survivors, and disability insurance programs, as well as the supplemental security income program. In addition, the Social Security Administration, through a nationwide field organization of 10 regional offices, six SSA program service centers, and over 1,300 local offices, guides and directs all aspects of the cash benefit program operations of SSA; and directs the activities of those offices responsible for the various program operations.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Housing-Federal Housing Commissioner (14.103-14.176) -- The Assistant Secretary for Housing, who is also the Federal Housing Commissioner, directs housing programs and functions of the Department including the production, financing, and management of housing, and the preservation and rehabilitation of the housing stock. The Assistant Secretary is responsible for the following programs: mortgage insurance, rehabilitation, health facilities, and other financial and related assistance authorized by the National Housing Act; Section 8 under the United States Housing Act of 1937; the rent supplement program under Title I of the Housing and Urban Development Act of 1965; the repair, construction, improvement, removal, demolition, or alteration, management, rehabilitation, rental maintenance, operation, and disposition of real and related personal property conveyed to or in the custody of the Secretary; the elderly housing loan program under Section 202 of the Housing Act of 1959; management and collection activities for the Rehabilitation Loan Program under Section 312 of the Housing Act of 1964; technical and financial assistance to nonprofit sponsors under Section 106 of the Housing and Urban Development Act of 1968; local agency administrative regulations and practices; private market financing; liquidating programs; and independent living for the disabled. The Assistant Secretary also serves as Chairman of the Mortgagee Review Board, which is authorized to exercise authority and perform functions with respect to withdrawal of mortgagee approval.

Community Planning and Development (14.218-14.230) -- The Assistant Secretary for Community Planning and Development is responsible for the following programs and activities: The primary objective of Title I of the Housing and Community Development Act of 1974 is the development of viable urban communities by providing decent housing and a suitable living environment and expanding economic opportunities principally for persons of low and moderate income. More specifically, objectives include: (1) elimination of slums and blight; (2) increase of the supply of low- and moderate-income housing; (3) elimination of conditions which are detrimental to health, safety, and welfare; (4) conservation of existing housing; (5) improvement of public services; (6) rational utilization of land; and (7) preservation of property with special values. Under Title I of the HOUSING COMMUNITY DEVELOPMENT ACT OF 1974, a 3-percent fund is reserved for secretarial discretion in making grants in behalf of the following activities: (1) new communities; (2) States and local units of government which join in carrying out programs on an areawide basis; (3) community development insular areas; (4) innovative community development projects; (5) innovative community development projects; (6) correction of inequities resulting from allocation provisions; (7) community development for Indian tribes and Alaskan natives; and (8) technical assistance.

THE COMPREHENSIVE PLANNING ASSISTANCE PROGRAM as outlined in Section 701 of the Housing Act of 1954, as amended, assists State and local governments and entire areas having common or related planning and development programs.

THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970 (UNIFORM ACT) establishes policies and requirements to ensure the fair and equitable treatment of persons displaced by a federally assisted project and owners of property acquired for a project. The Office of Community Planning and Development develops HUD policies, standards, procedures, and advisory materials implementing the act and monitors HUD-assisted activities to ensure compliance with the law. The Assistant Secretary implements policies and procedures for the protection and enhancement of environmental quality pursuant to the National Environmental Policy Act of 1969 and the Housing and Community Development Act of 1974, as amended. Environmental activities encompass the development of standards, policies and procedures for environmental assessments and impact statements, historic preservation reviews, compliance with laws and Executive orders on archeology, floodplains, wetlands, acquifers, and endangered species. Activities include the development and administration of strategies for the amelioration of environmental problems such as natural hazards and air and noise pollution. Emphasis is placed on environmental and land-use planning and environmental management practices, including urban environmental design and the quality of the built environment. The Assistant Secretary is responsible for the administration of projects not yet completed under programs that now have been replaced by Title I of the Housing and Community Development Act of 1974. Programs in that category are: Open Space; Water and Sewer; Neighborhood Facilities; Urban Renewal; Neighborhood Development Program; and Model Cities. Under Title VIII, Section 810 of the Housing and Community Development Act of 1974, as amended, HUD is authorized to transfer, without payment, to States, units of local government or their designated public agencies, Secretary-owned, unoccupied, unrepaired, one- to four-family residences for use in a HUD approved urban homesteading program. The legislation also authorizes the appropriation of funds to reimburse the Department for any properties transferred under Section 810. The Assistant Secretary has responsibility for assisting HUD and the administration in articulating national urban policy concepts, alternatives, and strategies. The Assistant Secretary also assists the Secretary in working with other agencies and the White House on urban policy issues and in implementing the President's national urban policy. The Assistant Secretary carries out activities to achieve maximum coordination of the programs of the various agencies of the Government which have a major impact on community development. This includes representing HUD on interagency community development commissions and task forces, including those pertaining to joint funding.

Office of Fair Housing and Equal Opportunity (14.400-14.406) -- Administers the fair housing program authorized by the Civil Rights Act of 1968, as amended; assuring that the programs and activities of the Department operate affirmatively to further the goals of equal opportunity; coordinating planning, monitoring, and reviewing programs to increase training, employment, and economic opportunities for lower-income and minority-group project area residents in HUD-assisted activities; and developing and monitoring the implementation of standards, procedures, and guidelines under Executive Order 11478, as amended, providing for equality of employment opportunity within the Department.

Office of Policy Development and Research (14.506-14.509) -- Evaluates existing programs and policies and analyzes potential programs and policies by employing the independent and objective research capacities of its staff and its consultants. Undertakes programs of research, studies, testing, and demonstrations related to the HUD mission. These functions are carried out through grants, cooperative agreements, contracts with industry, nonprofit research organizations, educational institutions, and agreements with State and local governments, other Federal agencies, and private foundations. Research efforts have been narrowed and intensified to focus on the following priority subjects: urban economic development, public finance, and tax policy; housing for the elderly and handicapped; neighborhood reinvestment and revitalization and reversing decline in neighborhoods; financial institution regulation and alternative housing finance mechanisms; housing costs; and capacity building for State and local governments in financial management. There also are other programs of research in the following fields: housing assistance programs; housing management; residential saftey and technology, including lead paint hazard abatement and mobile home safety; code administration; collection and analysis of economic and financial data about housing and community development, including the Annual Housing Survey; fair housing and equal opportunity; housing counseling and consumer assistance; housing rehabilitation and security; aid for financially distressed housing; environmental hazards; community growth and land use; energy conservation in buildings and community utility services; and the dissemination of research and evaluation results.

Solar Energy and Conservation Bank (14.550) -- The Solar Energy and Conservation Bank was authorized by Title 5, subtitle a, of the Energy Security Act of 1980 to encourage energy conservation and the use of solar energy by providing financial assistance through loan subsidies and grants. The Bank is organized as a component of the Department of Housing and Urban Development with a board of directors, consisting of the secretaries of HUD, as chairperson. Agriculture, Commerce, Energy, and the Treasury departments provide overall policy direction while management responsibilities rest with the President of the Bank appointed by the President of the United States with the advice and consent of the Senate. The Bank does not provide direct loans to individuals, instead it works through (financial institutions) who will make loans for solar energy or energy conservation projects. Financial may be defined as local banks and lending institutions, nonprofit organizations, or State and local government. At present the Bank plans to deal exclusively with States which can either provide loans directly using State funds or deal through local lending institutions. States have a (line of credit) with which to subsidize these loans by buying down the interest rates or the principal.

Public and Indian Housing (14.850-14.852) -- The Assistant Secretary for Public and Indian Housing is responsible for the departments public housing and Indian housing programs (including rental, Turnkey III and Mutual Help housing) administered under the United States Housing Act of 1937 which includes directing the insurance and bonding functions for these housing programs and the following other programs; slum clearance and urban renewal program under Title I of the Housing Act of 1949; Section 312 of the Housing Act of 1954; the new communities program under the Housing Act of 1968; the Urban Growth and New Community Development Act of 1970; and comprehensive planning (701 B) program under the Housing Act of 1954. The Assistant Secretary has the authority of the Public Housing Commission and of other officers of the Public Housing Administration under Section 5(a) of the Housing and Urban Development Act.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs (BIA) (15.103-15.144) -- Encourage and train Indian and Alaska Native people to manage their own affairs under the trust relationship to the Federal Government; to facilitate, with maximum involvement of Indian and Alaska Native people, full development of their human and natural resource potentials; to mobilize all public and private aids to the advancement of Indian and Alaska Native people for use by them; and to utilize the skill and capabilities of Indian and Alaska Native people in the direction and management of programs for their benefit.

Bureau of Land Management (BLM) (15.214-15.221) -- Has responsibility for the total management of 341 million acres of public lands located primarily in the Far West and Alaska and scattered parcels located in other States. In addition to minerals management responsibilities on the public lands and the Outer Continental Shelf, the Bureau is responsible for subsurface resource management of an additional 169 million acres where mineral rights have been reserved to the Federal Government. Resources managed by the Bureau include timber, minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species, rangeland vegetation, recreation and cultural values, wild and scenic rivers, designated conservation and wilderness areas, and open space; provides for the protection (including fire suppression), orderly development, and use of public lands and resources under principles of multiple use and sustained yield. Land use plans are developed with public involvement to provide orderly use and development while maintaining and enhancing the quality of the environment; manages watersheds to protect soil and enhance water quality; makes land available through sale to individuals, organizations, local governments, and other Federal agencies when such transfer is in the public interest. Lands may be leased to State and local government agencies and to nonprofit organizations for certain purposes; the Bureau issues rights-of-way, in certain instances, for crossing Federal lands under other agencies' jurisdictions; is responsible for the survey of Federal lands and establishes and maintains public land records and records of mining claims; and also administers a program of payments in lieu of taxes based on the amount of federally owned lands in counties and other units of local government.

Office of Surface Mining Reclamation and Enforcement (15.250-15.252) -- Creation of a nationwide program that protects society and the environment from the adverse effects of coal mining operations, while ensuring an adequate supply of coal to meet the Nation's energy needs. Major objectives of the Office include establishment of minimum national standards for regulating the surface effects of coal mining, assistance to the States in developing and implementing regulatory programs, and promotion of the reclamation of previously mined areas.

Bureau of Mines (15.308) -- Primarily is a research and factfinding agency. Its goal is to help ensure that the Nation has adequate mineral supplies for security and other needs. Applied and basic research are conducted to develop the technology for the extraction, processing, use, and recycling of the Nation's mineral resources at a reasonable cost without harm to the environment or the workers involved. Typical areas of research are development of ways to use domestic low-grade ores as alternative sources of strategic and critical minerals that must currently be imported, mine health and safety, recycling of solid wastes, and abatement of pollution and land damage caused by mineral extraction and processing operations. The Bureau also collects, compiles, analyzes, and publishes statistical and economic information on all phases of mineral resource development, including exploration, production, shipments, demand, stocks, prices, imports, and exports.

Bureau of Reclamation (15.501-15.504) -- Locate, construct, operate, and maintain works for the storage, diversion, and development of waters for the reclamation of arid and semiarid lands in the Western States. The basic objectives of the Service's program are to assist the States, local governments, and other Federal agencies to stabilize and stimulate local and regional economies, enhance and protect the environment, and improve the quality of life through development of water, other renewable resources, and related land resources throughout the 17 contiguous Western States and Hawaii.

U.S. Fish and Wildlife Service (15.600-15.612) -- Responsible for wild birds, endangered species, certain marine mammals, inland sport fisheries, and specific fishery and wildlife research activities, assures maximum opportunity for the American people to benefit from fish and wildlife resources as part of their natural environment. Assists in the development of an environment stewardship ethic for our society based on ecological principles, scientific knowledge of wildlife, and a sense of moral responsibility; guides the conservation, development, and management of the Nation's fish and wildlife resources.

Geological Survey (15.800-15.806) -- Perform surveys, investigations, and researches covering topography, geology, and the mineral and water resources of the United States; classify land as to mineral character and water and power resources; enforces departmental regulations applicable to oil, gas, and other mining leases, permits, licenses, development contracts, and gas storage contracts; and publishes and disseminates data relative to the foregoing activities.

Indian Arts and Crafts Board (15.850) -- Encourages and promotes the development of Native American arts and crafts.

Office of Territorial and International Affairs (15.875) -- Promotes the economic, social, and political development of the territories of Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands, which includes the Northern Mariana Islands.

National Park Service (15.900-15.920) -- Administers for the American people an extensive system of national parks, monuments, historic sites, and recreation areas. The objectives of the National Park Service are to administer the properties under its jurisdiction for the enjoyment and education of our citizens, to protect the natural environment of the areas, and to assist States, local governments, and citizen groups in the development of park areas, the protection of the natural environment, and the preservation of historic properties.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration (DEA) (16.001-16.005) -- Enforces the controlled substances laws and regulations, and brings to the criminal and civil justice system of the United

States or any other competent jurisdiction, those organizations, and principal members of organizations involved in the growing, manufacture, or distribution of controlled substances appearing in or destined for the illicit traffic in the United States. DEA's mission requires it to provide a leadership role in narcotic and dangerous drug suppression programs at the national and international level and, as the lead agency in Federal drug law enforcement, to develop the overall Federal drug enforcement strategy, programs, and plans to continuously assess their effectiveness and applicability.

Civil Rights Division (16.100-16.105) -- Enforces Federal civil rights laws which prohibit discrimination on the basis of race, national origin, religion, and in some instances sex, age, or handicap in the areas of voting, education, employment, housing, credit, the use of public facilities and public accommodations, and in the administration of federally assisted programs. With respect to employment, housing, and education, sex discrimination is also prohibited. The congressional statutes enforced are the Civil Rights Acts of 1957, 1960, 1964, 1968, the Voting Rights Act of 1965, and their amendments, and the Equal Credit Opportunity Act, as amended in 1976. The Civil Rights Division also has the obligation to enforce specific criminal statutes including those concerning willful deprivation of constitutional rights while acting under color of law or through conspiracy and violent interference with federally protected activities.

Community Relations Service (CRS) (16.200-16.201) -- Provides onsite dispute resolution assistance through its field staff of mediators and conciliators working out of 10 regional offices. Under its mandate CRS is not restricted to issues stemming from alleged violations of a particular antidiscrimination statute, but can offer assistance in resolving any problem relating to racial and ethnic discrimination. CRS not only aids in resolving disputes and difficulties as they erupt but also seeks to assist and support communities in developing local mechanisms to address future problems. Primary activities of CRS include the use of conciliation and/or mediation processes to settle differences through a common understanding and voluntary action. Each process is composed of certain specialized techniques designed to deal with complex racial and ethnic issues. The goal of each, however, is the immediate reduction of community tension and the establishment of viable alternatives for resolving difficulties, short of coercion or litigation.

Federal Bureau of Investigation (FBI) (16.300-16.305) -- Investigates all violation of Federal laws with the exception of those which have been assigned by legislative enactment or otherwise to some other Federal agency. The FBI's jurisdiction includes a wide range of responsibilities in the criminal, civil, and security fields. Among these are espionage, sabotage, and other domestic security matters; kidnaping; extortion; bank robbery; interstate transportation of stolen property; civil rights matters; interstate gambling violations; fraud against the Government; and assault or killing the President or a Federal officer. Cooperative services of the FBI for other duly authorized law enforcement agencies include fingerprint identification, laboratory services, police training, and the National Crime Information Center.

Immigration and Naturalization Service (INS) (16.400) -- Administers the immigration and naturalization laws relating to the admission, exclusion, deportation, and naturalization of aliens. Specifically, the Service inspects aliens to determine their admissibility into the United States; adjudicates requests of aliens for benefits under the law; guards against illegal entry into the United States; investigates, apprehends, and removes aliens in this country in violation of the law; and examines alien applicants wishing to become citizens. Through offices in the United States and in other areas around the world, the Service provides information and counsel to those seeking U.S. citizenship. Wherever possible, the Service, in conjunction with public schools in this country, provides textbooks and other instructional services to those wishing naturalization. Through numerous enforcement activities, such as the Border Patrol, the Service protects the national security of the United States and the welfare of those legally residing here. In addition to citizenship and immediately related matters, the Service, in cooperation with other Federal, State, and local law enforcement agencies, works to stem the inflow of illegal drugs.

Office of Juvenile Justice and Delinquency Prevention (OJJDP) (16.540-16.542) -- Establishes policies and operates programs to deter juvenile delinquency and improve State and local juvenile justice programs. This office is also responsible for coordinating all Federal juvenile delinquency prevention and control activities. It also establishes a source of funding for State efforts to streamline their juvenile justice systems and to combat the increase in serious and violent crimes committed by juveniles. The key elements of the program are the coordination of Federal delinquency programs, formula grants to States, special emphasis discretionary funds, technical assistance, research, the evaluation of juvenile justice programs, training, developing standards for juvenile justice, and the dissemination of delinquency and juvenile justice information.

Bureau of Justice Statistics (16.550) -- Provides a variety of statistical services for the criminal justice community. It recommends standards for the generation of data, analyses, dissemination of statistics, and provides for the security and privacy of criminal justice statistics. It aids State and local governments in the development of the data base and the information and communication systems needed to improve the effectiveness of the criminal justice system.

National Institute of Justice (NIJ) (16.560-16.562) -- Supports basic and applied research into justice issues. Programs are evaluated and their impact on the quality of justice is assessed by NIJ. Demonstration programs are funded to test the effectiveness of different approaches to law enforcement and criminal and civil justice problems. A wide range of information is available for dissemination to interested individuals and organizations.

Office of Justice Assistance, Research and Statistics (OJARS) (16.571-16.576) -- Coordinates and provides staff for the National Institute of Justice, the Bureau of Justice Statistics, and the Office of Juvenile Justice and Delinquency Prevention. OJARS and the Directors of NIJ and BJS have final authority to award grants. OJARS resolves differences among the three funding agencies. It also operates the "Sting," Treatment Alternatives to Street Crime, Organized Crime Intelligence, and Public Safety Officers' Benefit programs.

Bureau of Prisons (16.601-16.603) -- Responsible for the care and custody of those persons convicted of Federal crimes and sentenced by the courts to serve a period of time incarcerated in a Federal penal institution. The Bureau carries out this responsibility by operating a nationwide system of maximum, medium, and minimum security prisons, halfway houses (called Community program offices). The Central Office in Washington provides overall coordination of Bureau of Prisons operations on a nationwide basis, issues standards and policy guidelines, and retains responsibility for those activities not delegated to regional or field management levels. The Regional Offices, located in Philadelphia, Atlanta, Kansas City, Dallas, and Burlingame, California, near San Francisco, are responsible for the management of Bureau institutions and programs within each region.

DEPARTMENT OF LABOR

Bureau of Labor Statistics (BLS) (17.002-17.006) -- Collects, processes, analyzes, and disseminates data relating to employment, unemployment, and other characteristics of the labor force; prices and family expenditures; wages; other worker compensation, and industrial relations; productivity and technological change; and occupational safety and health. Most of the data are collected in surveys conducted by BLS, the Bureau of the Census (on a contract basis), or on a cooperative basis with State agencies. BLS strives to have its data satisfy a number of criteria, including relevance to current social and economic issues; timeliness in reflecting today's rapidly changing economic conditions; accuracy and consistently high statistical quality; and impartiality in both subject matter and presentation. The Bureau has no enforcement or regulatory functions. The basic data--practically all supplied voluntarily by business establishments and members of private households--are issued in monthly press releases, special publications, and in one of the following periodicals: The "Monthly Labor Review," the "Consumer Price Index," "Producer Prices and Price Indexes," "Employment and Earnings," "Current Wage Developments," "Occupational Outlook Handbook," and "Occupational Outlook Quarterly."

Bureau of Labor-Management Relations and Cooperative Program (17.130) --Provides assistance to employers and unions in meeting long-range, complicated problems caused by major economic and technological change; reporting on current and potentially critical dispute situations, analyzing data for immediate use in specific collective bargaining situations; providing staff assistance to Presidential emergency boards and other ad hoc boards and commissions dealing with major disputes, such as in the transportation industry; making sure under section 13(c) of the Urban Mass Transportation Act that protective arrangements exist so that the improvement of such systems with Federal funds shall not worsen the employment conditions of the workers; and providing information and assistance in the development and implementation of cooperative labor-management programs and in the establishment and enhancement of institutional resources. Functions in labor-management policy development and research include: review of collective bargaining performance and its contribution to meeting economic needs; development of policy for legislation and Executive orders; study of impact of private policies affecting collective bargaining; and coordination of Labor Management relations research activities.

Office of Labor-Management Standards (LMS) (17.140) --The Labor-Management Reporting and Disclosure Act of 1959 (LMRDA) calls upon labor organizations to file (with LMS) copies of their constitutions and bylaws and annual financial reports of their transactions for public view. The Act also prescribes rules for election of union officers, administration of trusteeships by labor organizations, rights of union members, and the handling of union funds. Through technical assistance in all these areas, also seeks to obtain voluntary compliance with provisions of the Act. Enforcement through the courts is also available under the law. rovisions of the Act Enforcement through the courts is also available under the law.

Office of Pension and Welfare Benefit Programs (17.150) --The Employee Retirement Income Security Act of 1974 (ERISA), approved September 2, 1974 (88 Stat. 829; 29 U.S.C. 1001 note), requires administrators of private pension and welfare plans to provide plan participants with easily understandable summaries of plans; to file those summaries in the Office of Pension and Welfare Benefit Programs; and to report annually on the financial operation of the plans and bonding of persons charged with handling plan funds and assets. The participants must also meet strict fiduciary responsibility standards which are enforced by the Office of Pension and Welfare Benefit Programs. Vesting, participation, and funding standards are, for the most part, administered by the Internal Revenue Service. rovisions of the Act Enforcement through the courts is also available under the law.

Employment and Training Administration (ETA) 17.201-17.251) -- Through a variety of programs, ETA fulfills responsibilities assigned to the Secretary of Labor which relate to employment services, job training, and unemployment insurance. Component offices and services of ETA administer a Federal-State employment security system; fund and oversee programs to provide work experience and training for groups having difficulty entering or returning to the work force; formulate and promote apprenticeship standards and programs; and conduct continuing programs of research, development, and evaluation. The Office of Employment and Training Programs (OETP) is responsible for the development and issuance of Federal procedures and policies pertaining to the operation of the Job Training Partnership Act (JTPA) programs. Under JTPA, the Secretary of Labor makes block grants to the 50 States, Guam, the Virgin Islands, Puerto Rico, the Commonwealth of the Northern Marianas, American Samoa, the Trust Territory of the Pacific Islands, and the District of Columbia. The goal of JTPA is to train or retrain and place eligible individuals in permanent, unsubsidized employment, preferably in the private sector. Eligible individuals are primarily economically disadvantaged individuals, in particular economically disadvantaged youth, who have been or are about to be displaced from their employment. JTPA also provides that a fixed percentage of the block grant be used for programs for older individuals. JTPA may be used for a variety of purposes including classroom instruction in occupational skills and other job-related training; on-the-job training; recruitment; orientation; counseling; testing; and placements and supportive services. In addition to the block grants, JTPA provides for national programs for special target groups such as Native Americans and migrant and seasonal farmworkers. It also provides authority for the Job Corps, a residential training program for disadvantaged youth. JTPA is open-ended legislation and was signed into law on October 13, 1982. Implementing regulations for JTPA issued by the Department of Labor are contained in title 20 of the Code of Federal Regulations, parts 626-638 and 675-684. The Assistant Secretary for Employment and Training is responsible for ensuring that programs funded through ETA are free from unlawful discrimination, fraud, and abuse. It is the policy of ETA to ensure full compliance with constitutional, statutory, and regulatory provisions and to promote equal opportunity, affirmative action, and fund intergrity in programs to which ETA extends financial assistance.

Employment Standards Administration (ESA) (17.301-17.308) -- Administers and directs employment standards programs dealing with: minimum wage and overtime standards; registration of farm labor contractors; determining prevailing wage rates to be paid on Government contracts and subcontracts; nondiscrimination and affirmative action for minorities, women, veterans, and handicapped workers on Government contracts and subcontracts; and workers' compensation programs for Federal and certain private employers and employees.

Occupational Safety and Health Administration (OSHA) (17.500) -- Develops and promulgates occupational safety and health standards; develops and issues regulations; conducts investigations and inspections to determine the status of compliance with safety and health standards and regulations; and issues citations and proposes penalties for noncompliance with safety and health standards and regulations.

Mine Safety and Health Administration (MSHA) (17.600-17.602) -- Develops and promulgates mandatory safety and health standards, ensures compliance with such standards, assesses civil penalties for violations, investigates accidents, cooperates with and provides assistance to the States in the development of effective State mine safety and health programs, improves and expands training programs in cooperation with the States and the mining industry, and, in coordination with the Department of Health and Human Services and the Department of the Interior, contributes to the improvement and expansion of mine safety and health research and development. All of these activities are aimed at preventing and reducing mine accidents and occupational diseases in the mining industry.

Office of the Secretary (17.700) -- The Secretary is the principal adviser to the President on the development and execution of policies and the administration and enforcement of laws relating to wage earners, their working conditions and their employment opportunities.

Veterans' Employment and Training Service (VETS) (17.801-17.804) -- Responsible for seeing that the policies of the Secretary of Labor regarding National Employment and Training Programs for veterans are carried out by the local public employment services and private sector contractors. The Assistant Secretary is responsible for promulgating policies, procedures, and regulations that provide the maximum employment and training opportunities mandated by legislation to veterans and other eligible persons with priority services given to disabled and Vietnam-era veterans. Through a nationwide field staff, functional supervision and technical assistance is provided to State job services and private contractors to ensure that legislatively required priority services of counseling, referral, and placement are provided to all veterans and to other eligible persons. Service to disabled and Vietnam-era veterans is further mandated by legislation and provided through the operation of the Disabled Veterans' Outreach Program (DVOP) specialists and Local Veterans' Employment Representatives (LVER's) who are stationed in many local offices throughout the State job service system. Veterans' reemployment rights are provided for in Title 38, Chapter 42 of the United States Code. VETS and the Office of Veterans' Reemployment Rights (OVRR) assist veterans, reservists, members of the National Guard components, and rejectees exercise reinstatement rights to the job they left to enter military service and the right to any increased wages or benefits added during absence in the military service.

DEPARTMENT OF STATE

Office of the Legal Adviser (19.200-19.201) -- The Legal Adviser is the principal adviser to the Secretary and to the Department on all legal matters with which the Department and overseas posts are concerned.

Bureau of Personnel (19.202) -- Allows State and local governments and related organizations to utilize the experience and expertise of Foreign Service Officers and permits Foreign Service Officers approximately at the mid-career level to be assigned to positions with substantial program management responsibility and to become reacquainted with important domestic issues following long periods overseas and/or in the Washington area.

Office of Foreign Missions (19.203) -- Assures that all persons in the United States who are damaged in motor vehicle, vessel or aircraft incidents, through the fault of a person possessing immunity from legal jurisdiction as a member of a foreign mission, will have an opportunity to recover compensation for their damages.

DEPARTMENT OF TRANSPORTATION

United States Coast Guard (20.001-20.005) -- Maintains a system of rescue vessels, aircraft and communications facilities to carry out its function of saving life and property in and over the high seas and the navigable waters of the United States. This function includes flood relief and removing hazards to navigation. The Coast Guard is the primary maritime law enforcement agency for the United States. It enforces or assists in the enforcement of applicable Federal laws and treaties and other international agreements to which the United States is party, on and under the high seas and waters subject to the jurisdiction of the United States, and may conduct investigations into suspected violations of such laws and international agreements. The Coast Guard is charged with administering and enforcing various safety standards for the design, construction, equipment, and maintenance of commercial vessels of the United States and offshore structures on the Outer Continental Shelf. The program includes enforcement of safety standards on foreign vessels subject to U.S. jurisdiction and administration and enforcement of vessel personnel manning and crew qualification standards. Investigations are conducted of reported marine accidents, casualties, violations of law and regulations, misconduct, negligence, and incompetence occuring on commercial vessels subject to U.S. jurisdiction. Surveillance operations and boardings are conducted to detect violations of law and regulations. The program also functions to facilitate marine transportation by measuring vessels, supervising the employment and records of employment of merchant marine personnel, and administering the vessel documentation laws. The Coast Guard administers the Great Lakes Pilotage Act of 1960 which regulates pilotage services on the Great Lakes. Implements the Nation's policies for protection of the marine environment. The program objectives are to maintain or improve the quality of the marine environment and to minimize the damage caused by pollutants discharged into the marine environment. The Port Safety and Security Program is administered by the Coast Guard Captains of the Port (COTPs). Title 14 of the U.S. Code authorizes the Coast Guard to enforce rules and regulations governing the safety and security of ports and the anchorage and movement of vessels in U.S. waters. The Coast Guard establishes and maintains the United States aids to navigation system which includes lighthouses, lightships, buoys, beacons, fog signals, marine radio beacons, racons, and long-range radio navigation aids (including Loran). With the exception of Loran, which extends to the Western Pacific, Arctic, Europe, and Middle East, aids are established in or adjacent to waters subject to the jurisdiction of the United States. These aids to navigation are intended to assist a navigator to determine his position or safe course, or to warn him of dangers or obstructions to navigation. Other aids to navigation-related functions include origin of marine information radio broadcasts and publication of Local Notices to Mariners and Coast Guard Light Lists. The Coast Guard administers the several statutes regulating the construction, maintenance, and operation of bridges across the navigable waters of the United States to provide for safe navigation through and under bridges. The Coast Guard operates the Nation's icebreaking vessels (icebreakers and ice-capable cutters), supported by aircraft, for ice reconnaissance, to facilitate maritime transportation and aid in prevention of flooding in domestic waters, and support logistics to U.S. polar installations. Icebreakers also support scientific research in Arctic and Antarctic waters. Under the provisions of the Deepwater Port Act of 1974, the Coast Guard administers a licensing and regulatory program governing the construction, ownership (international aspects), and operation of deepwater ports on the high seas to transfer oil from tankers to shore. The Coast Guard develops and directs a national boating safety program aimed at making the operation of small craft in U.S. waters both pleasurable and safe. This is accomplished by establishing uniform safety standards for recreational boats and associated equipment; encouraging State efforts through a grant-in-aid and liaison program; coordinating public education and information programs; administering the Coast Guard Auxiliary; and enforcing compliance with Federal laws and regulations relative to safe use and safety equipment requirements for small boats. Coast Guard Auxiliary is a nonmilitary volunteer organization of private citizens who own small boats, aircraft, or radio stations. Auxiliary members assist the Coast Guard by conducting boating education programs, patrolling marine regattas, participating in search and rescue operations, and conducting courtesy marine examinations. The Coast Guard marine science effort involves applied oceanography in support of other Coast Guard programs and missions. The Coast Guard administers and operates the International Ice Patrol, which provides an iceberg warning service in the area of the Grand Banks of Newfoundland. It maintains a state of readiness to function as a specialized service in the Navy in time of war. The Coast Guard Reserve provides qualified individuals and trained units for active duty in time of war or national emergency and at such other times as the national security requires. In addition to its role in national defense, the Reserve augments the active service in the performance of peace-time missions during domestic emergencies and during routine and peak operations. The Marine Safety Council acts as a deliberative body in considering proposed Coast Guard regulations and to provide a forum for the consideration of related problems.

Federal Aviation Administration (FAA) (20.100, 20.106) -- Regulates air commerce in a manner that promotes its development and safety and fulfills the requirements of national defense; controls the use of navigable airspace of the United States and regulates both civil and military operations in such airspace in the interest of safety and efficiency; promotes, encourages, and develops civil aeronautics; consolidates research and development with respect to air navigation facilities; installs and operates air navigation facilities; develops and operates a common system of air traffic control and navigation for both civil and military aircraft; and develops and implements, in coordination with other departmental elements and other Federal agencies, a program to achieve a systematic solution to the aircraft noise and sonic boom problem.

Federal Highway Administration (FHWA) (20.205-20.218) -- Coordinates highways with other modes of transportation to achieve the most effective balance of transportation systems and facilities under cohesive Federal transportation policies as contemplated by the Act. The FHWA is concerned with the total operation and environment of highway systems, including highway safety.

Federal Railroad Administration (FRA) (20.301-20.310) -- Consolidates Government support of rail transportation activities, provides a unified and unifying national rail transportation policy, administers and enforces rail safety laws and regulations, administers financial assistance programs, conducts research and development in support of improved railroad safety and national rail transportation policy, provides for the rehabilitation of Northeast Corridor rail passenger service, operates the Alaska Railroad, and consolidates Government support of rail transportation activities.

Urban Mass Transportation Administration (UMTA) (20.500-20.512) -- Assists in the development of improved mass transportation facilities, equipment, techniques, and methods; encourages the planning and establishment of areawide urban mass transportation systems where they are cost-effective; and provides assistance to State and local governments in financing such systems; and to encourage private section involvement in local mass transportation systems.

National Highway Traffic Safety Administration (20.600) -- Carries out programs relating to the safety performance of motor vehicles and related equipment, motor vehicle drivers and pedestrians and a uniform nationwide speed limit under the National Traffic and Motor Vehicle Safety Act of 1966 (80 Stat. 718), as amended. Under the authority of the Motor Vehicle Information and Cost Saving Act (86 Stat. 947), as amended, the Administration carries out programs and studies aimed at reducing economic losses in motor vehicle crashes and repairs, through general motor vehicle programs; administers the Federal odometer law; and promulgates average fuel economy standards for passenger and nonpassenger motor vehicles. Under the authority of the Clean Air Amendments of 1970 (84 Stat. 1700), the Administration certifies as to the consistency of Environmental Protection Agency State grants with any highway safety program developed pursuant to section 402 of title 23 of the United States Code. The National Highway Traffic Safety Administration was established to carry out a congressional mandate to reduce the mounting number of deaths, injuries, and economic losses resulting from traffic accidents on the Nation's highways and to provide motor vehicle damage susceptibility and ease of repair information, motor vehicle inspection demonstrations, and protection of purchasers of motor vehicles having altered odometers, and to provide average standards for greater vehicle mileage per gallon of fuel for vehicle under 10,000 pounds (gross vehicle weight).

Research and Special Programs Administration (20.700) --Responsible for a number of programs involving safety regulation, emergency preparedness, and research and development. Emphasis is given to hazardous material transportation and pipeline safety, transportation emergency preparedness, safety training, and multimodal transportation research and development activities, including programs with the university community.

Maritime Administration (20.800-20.812) -- Administers programs to aid in the development, promotion, and operation of the U.S. Merchant Marine; organizes and directs emergency merchant ship operations; administers subsidy programs, through the Maritime Subsidy Board, under which the Federal Government, subject to statutory limitations, pays the difference between certain costs of operating ships under the U.S. flag and foreign competitive flags on essential services, and the difference between the costs of constructing ships in U.S. and foreign shipyards; provides financing guarantees for the construction, reconstruction, and reconditioning of ships; acquires old ships for credit on the construction of new ships; and enters into capital construction fund agreements which grant tax deferrals on moneys to be used for the acquisition, construction, or reconstruction of ships; constructs or supervises the construction of merchant-type ships for the Federal Government; it helps industry generate increased business for U.S. ships and conducts programs to develop ports, facilities, and intermodal transport, and to promote domestic shipping. Administers a War Risk Insurance program insuring operators and seamen against losses caused by hostile action if domestic commercial insurance is not available; conducts research and development activities to improve the efficiency and economy of the merchant marine; operates the U.S. Merchant Marine Academy training young people to become merchant marine officers; administers a program for the maritime academies.

Office of the Secretary (20.900-20.901) --The Secretary of Transportation is the principal adviser to the President in all matters relating to Federal transportation programs. The operating programs of the Department are carried out by the operating administrations, which are organized generally by mode (e.g., air, rail, etc.). The Secretary is responsible for the overall planning, direction, and control of all departmental activities. The Office of the Secretary focuses its attention largely on policy formulation, resource allocation, interagency and intradepartmental coordination, and evaluation of programs. Federal assistance is provided to air carriers to finance the cost of essential air service to communities when the volume of traffic is insufficient to meet the costs of such service. Consumer complaints regarding transportation are also handled.

DEPARTMENT OF THE TREASURY

Internal Revenue Service (IRS) (21.003-21.006) -- Administers and enforces the Internal Revenue laws and related statutes, except those relating to alcohol, tobacco, firearms, and explosives. The IRS mission is to encourage and achieve the highest possible degree of voluntary compliance with the tax laws and regulations and to conduct itself so as to warrant the highest degree of public confidence in the integrity and efficiency of the Service. Accomplishment of this mission involves advising the public of its rights and responsibilities; communicating requirements of the law to the public; assisting taxpayers in complying with the laws and regulations, and taking those enforcement actions necessary for fair, effective, and impartial tax administration. Basic IRS activities include ensuring satisfactory resolution of taxpayer complaints, providing taxpayer service and education; determination, assessment, and collection of internal revenue taxes; determination of pension plan qualifications and exempt organization status; and preparation and issuance of rulings and regulations to supplement the provisions of the Internal Revenue Code.

Bureau of Alcohol, Tobacco and Firearms (21.051-21.052) -- Enforces and administers firearms and explosives laws, as well as those covering the production, use, and distribution of alcohol and tobacco products. The objective of the Bureau's programs is to maximize voluntary compliance with these laws, and to minimize willful and involuntary violations of the laws. To achieve these goals, the Bureau is divided into two basic functions: criminal enforcement and regulatory enforcement. The objectives of the criminal enforcement activity are to eliminate illegal possession and use of firearms, destructive devices, and explosives; suppress the traffic in illicit distilled spirits; suppress the interstate trafficking in contraband cigarettes; and assist State and local law enforcement agencies in reducing crime and violence. The regulatory enforcement activity determines and assures full collection of revenue due from legal alcohol and tobacco industries; fulfills the Bureau's responsibility in the prevention of commercial bribery, consumer deception, and other improper trade practices in the distilled spirits industry; assists other Federal, State, and local governmental agencies in the resolution of problems relating to industrial development, ecology, and revenue protection; ensures that categories of persons prohibited by law from manufacturing, importing, or dealing in firearms and explosives do not obtain a license or permit; ensures that storage facilities for explosives are safe and secure, to avoid presenting a hazard to the public, and that explosives are properly stored in such facilities; and ensures that the audit trail is preserved to permit the tracing of firearms used in the commission of crimes and full accountability for explosive materials.

United States Secret Service (21.100) -- Detects and arrests any person committing any offense against the laws of the United States relating to coins, currency, and other obligations, and securities of the United States and of foreign governments; detects and arrests any person violating any of the provisions of Sections 508, 509, and 871 of Title 18 of the United States Code; executes warrants issued under the authority of the United States; carry firearms; and perform such other functions and duties as are authorized by law. In addition, subject to the direction of the Secretary of the Treasury, the United States Secret Service is authorized to protect the person of the President of the United States, the members of his immediate family, the President-elect, the Vice President or other officer next in the order of succession to the Office of President, the immediate family of the Vice President, the Vice-President-elect, major Presidential and Vice-Presidential candidates, former Presidents and their wives during his lifetime, widows of former Presidents until their death or remarriage, and minor children of a former President until they reach age 16, and visiting heads of a foreign state or foreign government.

Office of Revenue Sharing (ORS) (21.300) -- Returns specified amounts of federally collected funds to eligible units of general-purpose governments under the general revenue sharing program.

APPALACHIAN REGIONAL COMMISSION (23.001-23.017) -- The Appalachian Regional Commission is a Federal-State governmental agency concerned with the economic, physical, and social development of the 13-State Appalachian region, which includes parts of Alabama, Georgia, Kentucky, Maryland, Mississippi, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, and all of West Virginia. The comprehensive goals of the Commission are to provide the people of Appalachia with the health and skills they need to compete for opportunities and to develop a self-sustaining economy and environment capable of supporting a population with rising incomes and standards of living and increasing employment opportunities. To accomplish this task, the Commission has concentrated on areas of development in which there remain great needs throughout the region: community development and housing, education, the environment, health and child development, industrial development and management, tourism, and transportation.

CIVIL AERONAUTICS BOARD --Public Law 98-443 of October 4, 1984, the Civil Aeronautics Board Sunset Act of 1984, amended the Federal Aviation Act of 1958 to terminate certain functions of the Civil Aeronautics Board and to transfer certain functions previously listed under programs 26.002 and 26.003 to the Office of the Secretary, Department of Transportation, under programs 20.900 and 20.901.

OFFICE OF PERSONNEL MANAGEMENT (OPM) (27.001-27.013) -- Administers a merit system for Federal employment, which includes recruiting, examining, training, and promoting people on the basis of their knowledge and skills, regardless of their race, religion, sex, political influence, or other nonmerit factors. OPM's role is to ensure that the Federal Government provides an array of personnel services to applicants and employees. Through a range of programs designed to develop and encourage the effectiveness of the Government employee, OPM supports Government program managers in their personnel management responsibilities and provides benefits to employees directly.

COMMISSION ON CIVIL RIGHTS (CCR) (29.001) -- Advances the cause of equal opportunity. The Commission holds public hearings and collects and studies information on discrimination or denials of equal protection of the laws because of race, color, religion, sex, age, handicap, national origin, or in the administration of justice. Voting rights, enforcement on Federal civil rights laws, and equality of opportunity in education, employment, enforcement of Federal civil rights laws, and housing are among specific Commission factfinding efforts. The Commission makes findings of fact but has no enforcement authority. Findings and recommendations are submitted to both the President and the Congress, and many of the Commission's recommendations have been enacted, either by statute, Executive order, or regulation. The Commission evaluates Federal laws and the effectiveness of Government equal opportunity programs. It also serves as a national clearinghouse for civil rights information.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION (EEOC) (30.001-30.010) -- Eliminates discrimination based on race, color, religion, sex, national origin, or age in hiring, promotion, firing, wages, testing, training, apprenticeship, and all other conditions of employment. The Commission also promotes voluntary action programs by employers, unions, and community organizations to make equal employment opportunity an actuality. EEOC also is responsible for all compliance and enforcement activities relating to equal employment opportunity among Federal employees and applicants, including handicap discrimination.

FEDERAL COMMUNICATIONS COMMISSION (FCC) (32.001) -- Regulates interstate and foreign communications by radio, television, wire, and cable. It is responsible for the orderly development and operation of broadcast services and the provision of rapid, efficient nationwide and worldwide telephone and telegraph services at reasonable rates. This also includes the promotion of safety of life and property through radio and the use of radio and television facilities to strengthen the national defense.

FEDERAL MARITIME COMMISSION (FMC) (33.001) -- Regulates the waterborne foreign and domestic offshore commerce of the United States, assures that United States international trade is open to all nations on fair and equitable terms, and protects against unauthorized, concerted activity in the waterborne commerce of the United States. This is accomplished through maintaining surveillance over steamship conferences and common carriers by water; assuring that only the rates on file with the Commission are charged; approving agreements between persons subject to the Shipping Act, 1916; guaranteeing equal treatment to shippers, carriers, and other persons subject to the shipping statutes; and ensuring that adequate levels of financial responsibility are maintained for indemnification of passengers and clean-up of oil and hazardous substances spills.

FEDERAL MEDIATION AND CONCILIATION SERVICE (FMCS) (34.001-34.002) -- Represents the public interest by promoting the development of sound and stable labor-management relationships; preventing or minimizing work stoppages by assisting labor and management to settle their disputes through mediation; advocating collective bargaining, mediation, and voluntary arbitration as the preferred processes for settling issues between employers and representatives of employees; developing the art, science, and practice of dispute resolution; and fostering constructive joint relationships of labor and management leaders to increase their mutual understanding and solution of common problems.

FEDERAL TRADE COMMISSION (FTC) (36.001) -- Maintains strongly competitive enterprises as the keystone of the American economic system. Although the duties of the Commission are many and varied under law, the foundation of public policy underlying all these duties is essentially the same: to prevent the free enterprise system from being stifled, substantially lessened or fettered by monopoly or restraints on trade, or corrupted by unfair or deceptive trade practices. In brief, the Commission is charged with keeping competition both free and fair.

FOREIGN CLAIMS SETTLEMENT COMMISSION OF THE UNITED STATES (37.010) -- Determines claims of United States nationals against foreign governments for losses and injuries sustained by them, pursuant to programs which may be authorized under its organic legislation. Available funds have their sources in international settlements, or liquidation of foreign assets in this country by the Departments of Justice or Treasury, and from public funds when provided by the Congress.

GENERAL SERVICES ADMINISTRATION (GSA) (39.001-39.009) -- Establishes policy and provides for the Government an economical and efficient system for the management of its property and records, including construction and operation of buildings, procurement and distribution of supplies, utilization and disposal of property, transportation, traffic, and communications management, stockpiling of strategic materials, and the management of the Government-wide automatic data processing resources program. GSA is organized much like a large corporation doing business in a number of different fields. It consists of operating services and supporting staff offices, with functions carried out at three levels of organization: The Central office, regional offices, and field activities. (See Appendix IV of the Catalog for a listing of these offices.) Various publications and catalogs published by GSA include: 1) The Catalog of Federal Domestic Assistance published jointly by GSA and the Office of Management and Budget. 2) the Consumer Information Catalog which lists selected Federal publications of interest to consumers; 3) the Federal Register, which publishes current Presidential proclamations and Executive orders; Federal agency regulations having general applicability and legal effect; proposed agency rules; and documents that, by statute, must be published; the President's speeches, news conferences, messages, and other materials made public by the White House are published curently in the Weekly Compilation of Presidential Documents and annually in the Public Papers of the Presidents. The Codification of Presidential Proclamations and Executive orders furnishes, in one source, proclamations and Executive orders with general applicability and continuing legal effect; and, 4) the United States Government Manual, which serves as the official handbook of the Federal Government, providing comprehensive information on agencies of the legislative, judicial, and executive branches. GSA also administers the Federal Information Centers (FIC) which are focal points for information about the Federal Government's services, programs, and regulations (see Appendix V of the Catalog for more information on FIC's).

GOVERNMENT PRINTING OFFICE (GPO) (40.001-40.002) -- Executes orders for printing and binding placed by Congress and the departments and establishments of the Federal Government. It furnishes blank paper; inks, and similar supplies to all governmental activities on order. It prepares catalogs and distributes and sells Government publications. GPO invites bids from commercial suppliers on a wide variety of printing and binding services, awards and administers contracts, and maintains liaison between ordering agencies and contractors. GPO sells through mail orders and Government bookstores over 25,000 different publications which originated in various Government agencies, and administers the depository library program through which selected Government publications are made available in libraries throughout the country.

INTERSTATE COMMERCE COMMISSION (ICC) (41.001-41.002) -- Regulates interstate surface transportation, including trains, trucks, buses, water carriers, and freight forwarders, transportation brokers, and a coal slurry pipeline. The regulatory laws vary depending on the type of transportation; however, they generally involve certification of carriers seeking to provide transportation for the public, rates, adequacy of service, purchases, and mergers. The ICC assures that the carriers it regulates will provide the public with rates and services that are fair and reasonable.

LIBRARY OF CONGRESS (42.001-42.007) -- Under the organic law, the Library's first responsibility is service to Congress. One department, the Congressional Research Service, functions exclusively for the legislative branch of the Government. As the Library has developed, its range of service has expanded to include all branches of the Government and the public. It has become a national library for the United States. The Library's extensive collections include books and pamphlets on every subject and in a multitude of languages. Among them are the most comprehensive collections of Chinese, Japanese, and Russian language books outside Asia and the Soviet Union; volumes relating to science and legal materials, outstanding for American and foreign law; the world's largest collection of published aeronautical literature; and the most extensive collection of incunabula in the United States. The manuscript collections relate to manifold aspects of American history and civilization and include the personal papers of most of the Presidents from George Washington through Calvin Coolidge. The music collections contain volumes and pieces--manuscript and published--from classic works to the newest popular compositions. Other materials available for research include maps and views; photographic records from the daguerreotype to the latest news photos; recordings, including folksongs and other music, speeches, and poetry readings; prints, drawings, and posters; government documents, newspapers, and periodicals from all over the world; and motion pictures, microforms, and audio and video tapes. Admission to the various research facilities of the Library is free. No introduction or credentials are required for persons over high school age who wish to read in the general reading rooms; however, certain collections, like those of the Manuscript, Rare Book and Special collections, Motion Picture, Broadcasting, and Recorded Sound Divisions, can be used only by those with a serious purpose for doing so. The Library is also responsible for copyrights, which are now registered by the Copyright Office. All copyrightable works, whether published or unpublished, are subject to a single system of statutory protection which gives the copyright owner the exclusive right to reproduce the copyrighted work in copies or phonorecords and distribute them to the public by sale, rental, lease, or lending. Works of authorship include books, periodicals, and other literary works, musical compositions, song lyrics, dramas and dramatico-musical compositions, pantomimes and choreographic works, motion pictures and other audiovisual works, and sound recordings. The Library extends its service through an interlibrary loan system; the photoduplication, at reasonable cost, subject to conditions of law, copyright, and deposit, of books, manuscripts, maps, newspapers, and prints in its collections; the sale of sound recordings, which are released by its Recordings Laboratory; the exchange of duplicates with other institutions; the sale of printed catalog cards and magnetic tapes, and the publication in book form of cumulative catalogs, which make available the results of the expert bibliographical and cataloging work of its technical personnel; a centralized cataloging program whereby the Library of Congress acquires material published all over the world, catalogs it promptly, and distributes cataloging information by printed cards and other means to the Nation's libraries; a Cooperative Machine-Readable Cataloging (COMARC) program, a pilot study to test the feasibility of expanding Library of Congress bibliographic services by accepting the machine-readable cataloging records of other libraries and redistributing them through the MARC Distribution Service; a cataloging-in publication program in cooperation with American publishers for printing and cataloging information in current books; the National Serials Data Program, the national center that maintains a record of serial titles to which International Standard Serial Numbers (ISSN) have been assigned and serves, with this file, as the United States Register; and the development of scientific schemes of classification (Library of Congress and Dewey Decimal), subject headings, and cataloging, embracing the entire field of printed matter. The American Folklife Center in the Library of Congress, has a coordinative function both in and outside the Federal establishment to carry out appropriate programs to support, preserve, and present American folklife through such activities as the collection and maintenance of archives, scholarly research, field projects, performances, exhibitions, festivals, workshops, publications, and audiovisual presentations. The Center for the Book was established in the Library of Congress to provide a program for investigating the transmission of human knowledge and to heighten public interest in the role of books and printing in the diffusion of knowledge. Drawing on the resources of the Library of Congress, the Center works closely with other organizations to explore important issues in the book and educational communities, to encourage reading, and to encourage research about books and about reading. Its goal is to serve as a useful catalyst by bringing together authors, publishers, librarians, booksellers, educators, scholars, and readers to discuss common concerns and work toward the solution of common problems. The Library provides technical information related to the preservation and restoration of library and archival material. New techniques for preservation or restoration are developed and tested in the Restoration Laboratory. Research on longstanding preservation problems is conducted by the Preservation Research and Testing Office.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA) (43.001-43.002) -- Conducts research for the solution of problems of flight within and outside the Earth's atmosphere and develop, construct, test, and operate aeronautical and space vehicles; conduct activities required for the exploration of space with manned and unmanned vehicles; arrange for the most effective utilization of the scientific and engineering resources of the United States with other nations engaged in aeronautical and space activities for peaceful purposes; and to provide for the widest practicable and appropriate dissemination of information concerning NASA's activities and their results.

NATIONAL CREDIT UNION ADMINISTRATION (NCUA) (44.001) -- The National Credit Union Administration (NCUA) Board is responsible for chartering, insuring, supervising, and examining Federal credit unions (FCU's), and for administering the National Credit Union Share Insurance Fund. The Board also manages the Central Liquidity Facility, a mixed-ownership Government corporation whose purpose is to supply emergency loans to member credit unions.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts (NEA) (45.001-45.023) -- Fosters professional excellence of the arts in America, to nurture and sustain them, and to help create a climate in which they may flourish so they may be experienced and enjoyed by the widest possible public.

National Endowment for the Humanities (NEH) (45.104-45.152) -- Promotes and supports the production and dissemination of knowledge in the humanities, especially as it relates to the serious study and discussion of contemporary values and public issues.

Federal Council on the Arts and the Humanities (45.201) -- Coordinates the activities of the two Endowments and related programs of other Federal agencies.

Institute of Museum Services (45.301) -- Provides grants to museums to help ease the increased costs borne by museums as a result of their increasing use by the public; to encourage and assist museums in their educational and conservation roles; to assist museums in modernizing their methods and facilities so that they may be better able to conserve our cultural, historic, and scientific heritage.

NATIONAL LABOR RELATIONS BOARD (NLRB) (46.001) -- Administers the Nation's laws relating to labor relations. The NLRB is vested with the power to safeguard employees' rights to organize, to determine through elections whether workers want unions as their bargaining representatives, and to prevent and remedy unfair labor practices.

NATIONAL SCIENCE FOUNDATION (NSF) (47.009-47.069) -- Promotes the progress of science and engineering through the support of research and education programs. Its major emphasis is on high quality, science-driven research, the search for improved understanding of the fundamental laws of nature upon which our future well-being as a nation depends. The National Science Foundation also supports applied research in several areas. Its educational programs are aimed at ensuring increasing understanding of science at all educational levels and an adequate supply of scientists and engineers to meet our country's needs.

PRESIDENT'S COMMITTEE ON EMPLOYMENT OF THE HANDICAPPED (53.001) -- Seeks to identify and eliminate barriers standing in the way of full social and vocational opportunities for physically handicapped, mentally retarded, and mentally restored persons; promotes employment opportunities for the physically and mentally handicapped.

RAILROAD RETIREMENT BOARD (57.001-57.003) -- Administers retirement-survivor and unemployment-sickness benefit programs provided by Federal laws for the Nation's railroad workers and their families. Under the Railroad Retirement Act, annuities are paid by the Board to rail employees with at least 10 years of service who retire because of age or disability and to their eligible wives. When other requirements are met, annuities are also provided to the surviving widows and children or parents of deceased employees. These retirement-survivor benefit programs are closely coordinated with social security benefit programs and include Medicaid health insurance coverage. Under the Railroad Unemployment Insurance Act, biweekly benefits are payable by the Board to workers with qualifying railroad earnings who become unemployed or sick. About 100 field offices are maintained across the country.

SECURITIES AND EXCHANGE COMMISSION (SEC) (58.001) -- Provides the fullest possible disclosure to the investing public and protects the interests of the public and investors against malpractices in the securities and financial markets.

SMALL BUSINESS ADMINISTRATION (SBA) (59.002-59.040) -- Aids, counsels, assists, and protects the interests of small business; ensures that small business concerns receive a fair proportion of Government purchases, contracts, and subcontracts, as well as of the sales of Government property; makes loans to small business concerns, State and local development companies, and the victims of floods or other catastrophes, or certain types of economic injury; and licenses, regulates, and makes loans to small business investment companies.

SMITHSONIAN INSTITUTION (60.001-60.020) -- Performs fundamental research; publishes the results of studies, explorations and investigations; preserves for study and reference over 78 million items of scientific, cultural and historical interest; maintains exhibits representative of the arts, American history, technology, aeronautics and space explorations and natural history; participates in the international exchange of learned publications; and engages in programs of education, national and international cooperative research and training. It is supported by trust endowments, gifts, grants, contracts, and funds appropriated by Congress.

INTERNATIONAL TRADE COMMISSION (ITC) (61.001) -- Furnishes studies, reports, and recommendations involving international trade and tariffs to the President, and Congress, and other Government agencies. In this capacity, the Commission conducts a variety of investigations, public hearings, and research projects pertaining to the international policies of the United States.

TENNESSEE VALLEY AUTHORITY (TVA) (62.001-62.006) -- Conducts a unified program of resource development for the advancement of economic growth in the Tennessee Valley region. The Authority's program of activities includes flood control, navigation development, electric power production, fertilizer development, recreation improvement, and forestry and wildlife development. While its power program is financially self-supporting, other programs are financed primarily by appropriations from Congress.

VETERANS ADMINISTRATION

Department of Medicine and Surgery (64.001-64.023) -- Provides hospital, nursing home and domiciliary care, and outpatient medical and dental care to eligible veterans of military service in the Armed Forces. Dependents of certain veterans are provided with medical care supplied by non-VA institutions and physicians. The Department conducts both individual medical and health-care delivery research projects and multi-hospital research programs. It assists in the education of physicians and dentists, and with training of many other health care professionals through affiliations with educational institutions and organizations.

Department of Veterans Benefits (64.100-64.123) -- Conducts an integrated program of veterans benefits: The Compensation and Pension Service has responsibility for: claims for disability compensation and pension; for automobile allowances and special adaptive equipment; claims for specially adapted housing; special clothing allowances; emergency officer's retirement pay; eligibility determinations based on military service for other VA benefits and services or those of other Government agencies; survivor's claims for death compensation, dependency and indemnity compensation, death pension, burial and plot allowance claims; claims for accrued benefits; forfeiture determinations; claims for adjusted compensation in death cases; and claims for reimbursement for headstones or markers. The Education and Rehabilitation Service administers programs for vocational rehabilitation of disabled veterans, readjustment educational benefits for veterans of post-Korean conflict service, and educational assistance for spouses, surviving spouses, and children of veterans who are permanently and totally disabled or die from disability incurred or aggravated in active service in the Armed Forces, or are prisoners of war or are missing in action. Special restorative training is also available to eligible children. The mission is also to provide credit assistance whereby the housing credit needs of eligible veterans and active duty service personnel may be satisfied by private capital on more liberal terms than generally available to non-veterans. Assistance is provided chiefly through substituting the Government's guaranty on loans made by private lenders in lieu of the downpayments, shorter terms, and other requirements generally required in conventional home mortgage transactions. Where private capital is not available in non-urban areas, direct loans may be made. In addition, a system of direct financial grants is operated to help certain permanently disabled veterans to acquire specially adapted housing. VA life insurance operations are for the benefit of service members, veterans, and their beneficiaries. In addition, the VA is responsible for: supervision of the Servicemen's Group Life Insurance (SGLI) and Veterans Group Life Insurance (VGLI) Programs for today's service members and veterans. The Veterans' Insurance Act of 1974 (88 Stat. 165; 38 U.S.C. 765-779), effective May 24, 1974, has substantially amended the law provided for the conversion of SGLI to a 5-year nonrenewable term policy known as Veterans Group Life Insurance (VGLI). At the termination of the 5-year term period, it may be converted to an individual policy with any one of the many participating commercial insurance companies. Supervision of the Veterans Mortgage Life Insurance Program for those disabled veterans who receive a VA grant for specially adapted housing--under the terms of contractual agreement with a Primary Insurer. VA guarantees the protection of commercial life insurance (up to $10,000) against premium payments for persons while in military or naval service, and 2 years thereafter. Through the Veterans Assistance Service, information, advice, and assistance are provided to veterans, their dependents and beneficiaries, representatives and others in applying for benefits administered by the Veterans Administration. Benefit information and readjustment assistance is provided to recently separated veterans, including professional guidance in resolving socioeconomic, housing, and other related problems. In addition, the Veterans Assistance Service cooperates with the National Alliance of Businessmen, Department of Labor, and other Federal agencies in developing employment opportunities for veterans, including on-the-job and apprenticeship training programs. This service is responsible for maintaining a benefits protection program (fiduciary activities) for minors and incompetent veterans and other incompetent adult beneficiaries. It also provides field-investigative services for other VA components. It ensures compliance by schools and training institutions with VA directives. The Veterans Assistance Service also has the responsibility of providing information regarding veterans benefits to veterans incarcerated in prison, the various branches of the Armed Forces here and abroad and to veterans residing in foreign countries through United States embassies and consular offices; and of coordinating veterans' activities with foreign governments.

Department of Memorial Affairs (64.200-64.203) -- Administers the National Cemetery system, which provides cemeterial services to veterans and other eligibles as prescribed by the Administrator of Veterans Affairs pursuant to the provisions of the National Cemeteries Act of 1973 and other statutory authority and regulations. These services also include providing headstones and markers for graves of eligibles in national and private cemeteries and monetary aid to States for establishment, expansion, and improvement of veterans' cemeteries.

ENVIRONMENTAL PROTECTION AGENCY

Office of Air and Radiation (66.001-66.009) -- Develops national programs, technical policies, and regulations for air pollution control; develops national standards for air quality, emission standards for new stationary sources, and emission standards for hazardous pollutants; technical direction, support, and evaluation of regional air activities; and provision of training in the field of air pollution control. Related activities include study, identification, and regulation of noise sources and control methods; technical assistance to States and agencies having radiation protection programs; a national surveillance and inspection program for measuring radiation levels in the environment.

Office of Water (66.418-66.456) -- Develops national programs, technical policies, and regulations for water pollution control and water supply; water quality standards and effluent guidelines development; technical direction, support, and evaluation of regional water activities; develops programs for technical assistance and technology transfer; and provision of training in the field of water quality; analyses, guidelines, and standards for the land disposal of hazardous wastes; technical assistance in the development, management, and operation of waste management activities; analyses on the recovery of useful energy from solid waste.

Office of Research and Development (66.500-66.507) -- The Office of the Assistant Administrator for Research and Development is responsible for a national research program to identify the effects, causes, characteristics, and controls for all forms of pollution. It directly supervises the research activitives of EPA's national laboratories and gives technical policy direction to those laboratories which support the program responsibilities of EPA's regional offices. Close coordination of the various research programs is designed to yield a synthesis of knowledge from the biological, physical, and social sciences which can be interpreted in terms of total human and environmental needs. General functions include management of selected demonstration programs, planning for Agency monitoring efforts with those of other Federal agencies, the States, and other public bodies, development of risk assessment methodologies, and dissemination of Agency research, development, and demonstration results.

Office of Administration (66.600-66.603) -- Provides for support grants as an alternative grant delivery mechanism to allow a State or local agency responsible for continuing pollution control programs to develop an integrated approach to pollution control.

Office of Pesticides and Toxic Substances (66.700 - 66.702) -- Provides policy direction to enforcement activities in air, water, toxic substances, solid waste management, radiation, and noise control programs; plans and coordinates enforcement conferences, public hearings, and other legal proceedings; and engages in other activities related to enforcement of standards to protect the Nation's environment.

Office of Solid Waste and Emergency Response (66.801-66.804) -- Provides policy, guidance, and direction for the Agency's solid waste and emergency response programs. The functions of these programs include development of program policy; development of hazardous waste standards and regulations; enforcement of applicable laws and regulations; guidelines and standards for land disposal of hazardous wastes; analyses on the recovery of useful energy from solid waste; and provision of technical assistance in the development, management, and operation of waste management activities.

NATIONAL GALLERY OF ART (NGA) (68.001) -- The National Gallery's collections embrace every major school of western European art from the 13th century to the present and of American art from colonial days to the present. A professor-in-residence position is filled annually by a distinguished scholar in the field of art history; graduate and postgraduate research is conducted under a fellowship program; programs for school children and the general public are conducted daily; and an Extension Service distributes on loan, throughout the world, audiovisual materials, including films, slide lectures, and slide sets.

OVERSEAS PRIVATE INVESTMENT CORPORATION (OPIC) (70.002-70.005) -- Guarantees loans and other investments made by eligible U.S. investors in developing friendly countries and areas.

ACTION (72.001-72.013) -- Administers and coordinates the domestic volunteer programs sponsored by the Federal Government, which are linked by a commitment to a "bottoms-up," locally initiated development process which fosters self-reliance and utilizes available human and economic resources to overcome conditions of poverty. Through special demonstration grants and programs, ACTION also tests new ways of bringing volunteer resources to bear on human, social, and economic problems. It identifies and develops the widest possible range of volunteer service opportunities for Americans of all ages and ethnic backgrounds.

NUCLEAR REGULATORY COMMISSION (NRC) (77.001-77.003) -- Licenses and regulates the uses of nuclear energy to protect the public health and safety and the environment. It does this by licensing persons and companies to build and operate nuclear reactors and to own and use nuclear materials. The NRC makes rules and sets standards for these types of licenses. The NRC also carefully inspects the activities of the persons and companies licensed to ensure that they do not violate the safety rules of the Commission.

COMMODITY FUTURES TRADING COMMISSION (CFTC) (78.004) -- Strengthens the regulation of futures trading, and to bring under regulation all agricultural and other commodities, including lumber and metals, which are traded on commodity exchanges. Major purposes of the trading regulation are to prevent price manipulation, market corners, and the dissemination of false and misleading commodity and market information affecting commodity prices. Other responsibilities are to protect market users against cheating, fraud, and abusive practices in commodity transactions and to safeguard the handling of traders' margin money and equities by establishing minimum financial requirements for futures commission merchants and by preventing the misuse of such funds by brokers.

DEPARTMENT OF ENERGY (DOE) (81.003-81.091) -- Provides the framework for a comprehensive and balanced national energy plan through the coordination and administration of the energy functions of the Federal Government. The Department is responsible for long-term, high-risk research and development of energy technology; the marketing of Federal power; energy conservation; the nuclear weapons program, and energy regulatory programs; and a central energy data collection and analysis program.

UNITED STATES INFORMATION AGENCY (USIA) (82.001-82.002) -- Conducts international communication, educational, cultural, and exchange programs designed to build two-way bridges of understanding between the people of the United States and the other peoples of the world. The agency engages in a wide variety of communication activities--from academic and cultural exchanges to international broadcasting to press, film, seminar, library, and cultural center programs abroad to accomplish its goals of telling the world about the society and policies of the United States and telling Americans about the world. The agency also has the responsibility to report to the President and the Secretary of State, as well as to advise the National Security Council, on worldwide public opinion as it is relevant to the formulation and conduct of U.S. foreign policy.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Federal Insurance Administration (FIA) (83.100) -- Administers the National Flood Insurance program which makes flood insurance available nationwide on an equitable basis and works closely with government officials at all levels to help reduce the potential for future damage in identified flood hazard areas. The Administration assists State insurance authorities and the property insurance industry to carry out programs that will make necessary property insurance more readily available for properties meeting reasonable underwriting standards. The Administration also provides a Federal reinsurance program against property insurance losses resulting from riots and other civil disturbances and provides direct insurance to properties for which statewide programs and Federal reinsurance either do not make crime insurance available or offer it only at prohibitive cost.

Training and Fire Programs Directorate (83.400-83.410) -- Defines cooperation with FEMA program offices, the agency training and education requirements and directs the development of appropriate training and education materials and deployment systems. The Center designs and manages the training and education activities for FEMA's operating programs, evaluates the effectiveness of these activities, and develops appropriate recommendations for change. The Center also directs the operations of the Emergency Management Institute, which provides in-residence training in civil management preparedness activities to Federal, State, and local government officials.

State and Local Programs and Support (83.502-83.519) -- Administers support programs to State and local governments and the private sector which are designed to improve emergency planning, preparedness, mitigation, response, and recovery capabilities. It develops Federal plans to mitigate hazards and respond to natural and non-war related manmade disasters. The Directorate also administers the President's Disaster Relief Program that provides for supplemental Federal assistance in declared disasters and emergencies.

DEPARTMENT OF EDUCATION

Office of the Secretary (ED) (84.002-84.173) -- The Secretary of Education advises the President on education plans, policies, and programs of the Federal Government. The Secretary directs Department staff in carrying out the approved programs and activities of the Department and promotes general public understanding of the Department's goals, programs, and objectives. The Secretary also carries out certain Federal responsibilities for four federally aided corporations: The American Printing House of the Blind, Gallaudet College, Howard University, the Assistant Secretaries, the Insepector General, the General Counsel aids the Secretary in the overall management of the Department.

Under Secretary -- The Under Secretary serves as Acting Secretary in the absence of the Secretary and performs on behalf of the Secretary such functions and duties as the Secretary may designate; coordinates regional and field activities; and coordinates Federal-State relations.

Intergovernmental and Interagency Affairs -- The Deputy Under Secretary for Intergovernmental and Interagency Affairs is responsible for providing overall leadership in establishing and directing effective intergovernmental and interagency services for the Department, including communication with a wide variety of intergovernmental, interagency, and public advocacy groups and constituencies affected by Department policy, programs and operations.

Inspector General -- The Inspector General is responsible for conducting and supervising audits and investigations relating to programs and operations of the Department. The Office provides leadership, coordination and policy recommendations to promote economy, efficiency and effectiveness, and to prevent and detect fraud and abuse in the administration of the Department's programs and operations. The Office also provides a means for keeping the Secretary and Congress fully and currently informed about problems and deficiencies relating to the administration of such programs and operations, and the necessity of corrective action.

General Counsel -- The General Counsel provides legal advice to the Secretary and to the components of the Department.

Bilingual Education -- The Director of the Office of Bilingual Education and Minority Languages Affairs ensures access to equal educational opportunity and improves the quality of programs for limited English proficiency and minority languages populations by providing support for programs, activities, and management initiatives that meet the special educational needs of those populations. The Office also provides assistance for the development, adoption, and implementation of plans for the desegregation of public schools.

Management -- The Deputy Under Secretary for Management provides advice and guidance to the Secretary on administrative and financial management and provides for the direction and coordination of these activities throughout the Department on a day-to-day basis. The activities include financial management, personnel, training, grants and procurement management, and management evaluation.

Planning, Budget, and Evaluation -- The Assistant Secretary for Planning, Budget, and Evaluation coordinates Department activities in the preparation of the departmental budget, program analysis, and planning activities, and ensures that Department policy and program planning appropriately reflects the results of these activities.

Legislation and Public Affairs -- The Assistant Secretary for legislation and Public Affairs serves as the principal adviser to the Secretary on matters concerning the Department's legislative program and congressional relations, as well as activities designed to inform the general public and the Nation's educational community about Department programs and activities.

Civil Rights -- The Assistant Secretary for Civil Rights is responsible for the administration and enforcement of civil rights laws related to education and the handicapped. The Office is responsible for ensuring compliance in programs and activities receiving Federal financial assistance and by employers holding Federal contracts.

Elementary and Secondary Education -- The Assistant Secretary for Elementary and Secondary Education formulates policy for, directs, and coordinates the activities relating to preschool, elementary, and secondary education in the Department. Included are programs of grants to State educational agencies and local school districts for Indian and migrant education, programs of financial and technical assistance to school districts to meet special needs incident to the elimination of racial segregation and discrimination, and grants for the education of neglected and delinquent students.

Educational Research and Improvement -- The Assistant Secretary for Educational Research and Improvement administers functions of the Department concerning research, development, demonstration, dissemination, and assessments. The Office also administers a wide variety of discretionary grant programs to maximize individual program impact on school improvement.

Vocational and Adult Education -- The Assistant Secretary for Vocational and Adult Education administers programs of grants, contracts, and technical assistance for vocational and technical education, education professions development, community schools, and comprehensive employment and training. The Office is also responsible for providing a unified approach to rural and rural family education through the coordination of programs within the Department.

Special Education and Rehabilitative Services -- The Assistant Secretary for Special Education and Rehabilitative Services is responsible for special education programs and services expressly designed to meet the needs and develop the full potential of handicapped children; and comprehensive rehabilitation service programs specifically designed to reduce human dependencies to increase self-reliance, and to fully utilize the the productive capabilities of all handicapped persons. Programs include support of training for teachers and other professional personnel; grants for research; financial aid to help States initiate, expand, and improve their resources; and media services and captioned films for the deaf.

Postsecondary Education -- The Assistant Secretary for Postsecondary Education formulates policy, directs, and coordinates programs for assistance to postsecondary educational institutions and students pursuing a postsecondary education. Programs include assistance for the improvement and expansion of American educational resources for international studies and services, grants to improve instruction in crucial academic subjects, and construction assistance for academic facilities. Also included are programs of student financial assistance including Basic Educational Opportunity Grants, Grants to States for State Student Incentives, Direct Loans to Students in Institutions of Higher Education, Work-Study, Cooperative Education, Insured Loans to Students in Health Professions Schools, and the Guaranteed Student Loan Program.

HARRY S TRUMAN SCHOLARSHIP FOUNDATION (85.001) -- Awards college scholarships of up to $5 thousand annually for 4 years to persons who demonstrate outstanding potential for and who are preparing to pursue a career in public service.

PENSION BENEFIT GUARANTY CORPORATION (PBGC) (86.001) -- Establishes a basic benefits insurance program, which guarantees payment of basic benefits under the terms for a private sector covered pension plan should the plan terminate and not be able to provide these benefits. the program currently covers single employer defined benefit private plans. However, the act limits the total monthly benefit that PBGC can guarantee for one individual to $1,159.09 per month for plans terminating during 1980, and requires PBGC to guarantee certain benefit increases on a phased-in basis. The Corporation is not required to guarantee benefits of covered multi-employer plans which terminate prior to May 1, 1980, but may cover such plans at its discretion.

CONSUMER PRODUCT SAFETY COMMISSION (87.001) -- Protects the public against unreasonable risks of injury from consumer products; to assist consumers to evaluate the comparative safety of consumer products; to develop uniform safety standards for consumer products and minimize conflicting State and local regulations; and to promote research and investigation into the causes and prevention of product-related deaths, illnesses, and injuries.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (ATBCB) (88.001) -- Ensures compliance to Federal laws requiring accessibility for physically handicapped persons in certain federally funded buildings and facilities throughout the Nation. This includes setting guidelines and requirements for accessibility standards prescribed by Federal agencies, providing technical assistance to organizations agencies and individuals requesting help in solving accessible design and construction problems, and conducting research to determine appropriate specifications for accessibility.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA) (89.001-89.003) --NARA performs a variety of functions relating to the preservation, display, use, appraisal, and disposition of the records of the United States Government. In the National Archives Building and regional branches, NARA preserves and makes available for further Government use and for private research the Nation's records of enduring value. Among other major NARA activities are the operation of the Presidential library system; custody and control of the Nixon and Carter Presidential historical materials; administration of a regional network of storage-type facilities for Federal agencies records, prior to their disposition; and publication of legislative, regulatory, Presidential, and other widely used materials. The Committee Management Secretariat is responsible for administration of the Federal advisory committee program and prepares the Annual Report of the President to the Congress on the status of advisory committees, including recommendations on improving their operations. The National Historical Publications and Records Commission encourages the preservation and publication of documentary source materials significant to the history of the United States. NARA appraises records that Government agencies propose for transfer and accessions into the National Archives of the United States those that have sufficient value to warrant preservation. Records that have been acquired are systematically arranged, and guides to these records are published. Important research material is made available by a microfilm publications program. In addition to furnishing information about the nature and extent of the records in the custody of the Archivist and the conditions under which they may be used, NARA supplies data from the records themselves. Insofar as personnel resources allow, guides, inventories, lists, and indexes are prepared and made available to persons wanting to use the records who come to the National Archives and the Federal Archives and Records Centers, described below. A trained reference staff is ready to aid researchers in finding and using the material desired. NARA is equipped to provide researchers with electrostatic and microfilm copies, photographs, or photostats of documents. The Declaration of Independence, Constitution, Bill of Rights, and other documents important in the history of the Nation are on permanent display in the National Archives Building. Also available to the public are facsimiles of certain documents, as well as related literature, including Prologue, a scholarly journal published quarterly by NARA. In addition, NARA establishes exhibits; conducts tours, workshops, conferences, and special ceremonies; and provides educational programs designed to aid students and teachers at the elementary and high school level. Presidential Libraries (Herbert Hoover, West Branch, Iowa; Franklin D. Roosevelt, Hyde Park, New York; Harry S Truman, Independence, Missouri; Dwight D. Eisenhower, Abilene, Kansas; John F. Kennedy, Boston, Massachusetts; Lyndon B. Johnson, Austin, Texas; and Gerald R. Ford, Ann Arbor, Michigan, and the Ford Museum, Grand Rapids, Michigan). These libraries preserve and describe, as well as render reference service on, Presidential papers and collections; prepare documentary and descriptive publications; and exhibit historic documents and museum items. In addition, staffs have been created to process the Nixon and Carter Presidential historical materials prior to establishment of formal libraries. The 15 Federal Archives and Records Centers are maintained to store and service noncurrent records of Federal agencies and historically valuable regional records of the National Archives. Most Centers also provide reimbursable microfilming service for Federal agencies. In addition, the Office of Federal Records Centers reviews and approves agency records schedules and appraises agency offers of records to the National Archives and gift offers from private sources.

APPLICANT ELIGIBILITY INDEX

The alphabet(s) in parenthesis following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows: A—Formula Grants; B—Project Grants; C—Direct Payments for Specified Use; D—Direct Payments with Unrestricted Use; E—Direct Loans; F—Guaranteed/Insured Loans; G—Insurance; H—Sale, Exchange, or Donation of Property and Goods; I—Use of Property, Facilities, and Equipment; J—Provision of Specialized Services; K—Advisory Services and Counseling; L—Dissemination of Technical Information; M—Training; N—Investigation of Complaints; O—Federal Employment.

Definitions of the types of applicants used in this Index are given below.

Individual - Any person or persons,as individuals, groups, or profit making organizations. Such persons and groups do not represent Federally Recognized Indian Tribal Governments. Includes Indians or other Native Americans who apply as individuals rather than as a member of a tribe or other Indian organization.

Local - Agencies or instrumentalities of political subdivisions within a State, to include cities, towns, townships, parishes, municipalities, villages, counties, school districts,and other special local districts. Included under local are Indian tribes on State reservations, Indian bands and group, Pueblos, Indian school boards, and State designated Indian tribes. Local does not include institutions of higher education and hospitals.

Nonprofit - A public or private agency or organization established by charter to perform specialized functions or services for the benefit of all or part of the general public. Functions or services are provided without charge or at cost, and earn no profit. The agency or organization has no shareholders to receive dividends.

State - Any agency or instrumentality of the fifty States of the United States, and the District of Columbia. State does not include the political subdivisions of the State, but does include institutions of higher education and hospitals.

U.S. Territories - Any agency or instrumentality of the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Trust Territories of the Pacific Islands, and Mariana Islands. Included are the political subdivisions of the territories, institutions of higher education, and hospitals.

Federally Recognized Indian Tribal Organizations - The governing body or a governmental agency of an Indian Tribe, nation, or other organized group or community recognized and certified by the Secretary of the Interior. Included are Native villages as defined in the Alaska Native Claims Settlement Act.

(Note: The information contained in this Index was taken from the Applicant Eligibility section of the program descriptions and from other sources. As a potential applicant, if you feel you also qualify to apply for assistance under a particular program but the Index says otherwise, always contact the agency contact persons. As regarding whether or not a potential applicant is eligible for a program, the agency is always the best source.

DEADLINES INDEX

The Deadlines Index lists those programs shown in the Catalog which have application deadlines that applicants must adhere to in order to ensure timely consideration of their activities. The programs listed following each date or month are those for which applications must be received by the Federal agency administering the program by the date indicated. The program deadlines are listed in ascending date order. Currently funded programs that are listed in the Catalog but are not shown in this index either do not have a deadline or the deadline(s) has not been determined.

The information contained herein was taken from the Deadlines section of the program descriptions. As a potential applicant, contact the agency contact persons for any changes in scheduling or incomplete information. Regarding deadline dates, the agency is always the best source.

The alphabet(s) in parenthesis following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows: A - Formula Grants; B - Project Grants; C - Direct Payments for Specified Use; D - Direct Payments with Unrestricted Use; E - Direct Loans; F - Guaranteed/Insured Loans; G - Insurance; H - Sale, Exchange, or Donation of Property and Goods; I - Use of Property, Facilities, and Equipment; J - Provision of Specialized Services; K - Advisory Services and Counseling; L - Dissemination of Technical Information; M - Training; N - Investigation of Complaints; O - Federal Employment.

SUMMARY LIST OF MODIFIED PROGRAMS

This is a summary list of program numbers of those programs contained in the June 1985 Catalog that have significant modifications. We have decided for this update to reflect these modifications by using "pen and ink" changes.

A listing follows of the modifications in each program that has been modified. The modifications are shown by program number, program title and title of the section of the program description being changed. It is recommended that this portion be retained with the rest of the 1985 Catalog of Federal Domestic Assistance in the front or the back of your Catalog as a total change reference package and checked whenever a specific program is being looked up in detail.

11.003 CENSUS GEOGRAPHY

OBJECTIVES:

To provide an automated set of maps for use in conducting censuses and surveys and for showing their results geographically; determine names and current boundaries of selected statistical areas; show these entities on a variety of maps; develop geographic code schemes; develop computer files of area measurements, geographic boundaries, and map features with address ranges.

USES AND USE RESTRICTIONS:

The Bureau of the Census collects and prepares base maps that are used in the planning and conduct of its various censuses and surveys. The Census Bureau also prepares for publication detailed maps showing States and State equivalents (i.e., the District of Columbia, Puerto Rico, and the several U.S. territories and possessions), counties and county equivalents, county subdivisions, places, American Indian reservations, urbanized areas, metropolitan areas, census tracts, block-numbered areas, congressional districts, and such other geographic units as are required to be depicted cartographically; some of these maps show roads and other physical features in appropriate detail, others show only area outlines and related identifiers, and two U.S. map series (GE-50 and GE-70) comprise a thematic set of maps. For censuses before 1990, these maps have been based primarily on materials from State and local sources; for the 1990 Decennial Census, an automated mapping system will be in place. In addition to maps, the Census Bureau, in conjunction with State and local governments, maintains records of changes in legally-defined areas, delimits the boundaries of most statistical areas, and develops geographic code systems that are used in the electronic data processing of the information. Computer programs for geographic applications pertaining to effective use of the GBF/DIME System and automated computer mapping techniques have been and continue to be developed.

11.109 TRADE ADJUSTMENT ASSISTANCE

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

To be certified eligible, a firm must demonstrate that increased imports of articles like or directly competitive with those produced by the firm contributed importantly to declines in sales or production and to separation or threat of separation of a significant portion of the firm's workers. A firm must submit an acceptable adjustment proposal to be eligible to apply for implementation technical assistance or a Trade Act loan. For an industry association or other organization to be eligible for industry assistance, evidence must be submitted demonstrating that the industry has declining production/sales in the face of increasing imports, and the industry must include a significant number of Trade Act certified firms or workers.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

A certified firm should work closely with the appropriate TAAC in petitioning for certification, in diagnosing its problems and developing its adjustment proposal, and in applying for implementation technical assistance or a Trade Act loan. A conference with the staff of the OTAA may also be recommended. An industry association or other organization interested in receiving an industry assistance cooperative agreement must meet with OTAA staff to discuss the industry's problems, opportunities, and assistance needs.

Application Procedure:

Firms must submit a petition for Certification of Eligibility to Apply for Trade Adjustment Assistance (Form ITA-840P). If certified by ITA, the firm may within 2 years submit an acceptable adjustment proposal and an application for financial and technical assistance required to implement the proposal. A letter request for technical assistance may be submitted to the appropriate TAAC. An application for financial assistance may be submitted to ITA using forms ITA-860 and ITA-861P (appropriate schedules thereof). Industry associations or other organizations seeking industry cooperative agreements may submit an application identified as Standard Form 424 found in OMB Circular No. A-110, if encouraged to do so as a result of the meeting with OTAA staff.

11.650 NATIONAL TECHNICAL INFORMATION SERVICE

OBJECTIVES:

To provide and promote a full array of products and services designed to permit wider utilization of technology and serve as the primary source for the public sale of Government-sponsored research and engineering reports, research in progress reports, machine-processable data files and computer programs and Government-owned inventions available for licensing. To develop new and improved information products for an expanded customer base.

USES AND USE RESTRICTIONS:

Provides an extensive inventory of approximately 2,000,000 technical and related reports, 1,500,000 of which are under computerized inventory control. Customers may quickly locate summaries of interest using public vendor online systems, the agency's online computer search service, or by referring to some 3,500 Published Searches. Approximately 70,000-80,000 new reports are added annually. Copies of the entire research reports are sold by NTIS in paper or microform. The NTIS Bibliographic Data File (on magnetic tape) is available for lease. The computer products of other Federal agencies also are sold or leased by NTIS. Current summaries of new research reports and other specialized information in various categories of interest are published in 27 weekly abstract newsletters and these are indexed. An all-inclusive bi-weekly journal (Government Reports Announcements and Index) is published for librarians, technical information specialists and those requiring all the summaries in a single volume. A standing order microfiche service (SRIM) automatically provides subscribers with the full text of research reports specially selected to satisfy individual requirements. Through the licensing of federally-owned patents, NTIS brings selected inventions to the attention of U.S. industry, and prevents unrestricted, uncompensated foreign use of U.S. Government invention technology. Important foreign markets for U.S. trade and development are protected by the filing of foreign patent applications on selected inventions. Utilization of foreign technological and scientific advances are provided within the U.S. industrial sector by collecting, translating, and disseminating scientific and technical information originating outside the U.S. NTIS also abstracts and indexes patent documents to align them with the needs of the research community. The indexed register of ongoing scientific research projects formerly listed in the Catalog of Federal Domestic Assistance under Smithsonian Science Information Exchange, Inc., is now provided by NTIS through online vendors, on a limited basis, as Federal Research in Progress (FEDRIP). The Center for the Utilization of Federal Technology (CUFT) alerts industry to Federal technology with a strong potential for commercial or practical use. The center serves as a catalyst to encourage agencies to evaluate and selectively highlight their technology.

FINANCIAL INFORMATION:

(Salaries and expenses) FY 84 trust fund $30,876,000; appropriation, $997,000; FY 85 est trust fund $31,330,000, appropriation,$543,000; and FY 86 est trust fund $33,330,000, appropriation, $537,000.

PROGRAM ACCOMPLISHMENTS:

NTIS has approximately 2,000,000 scientific, technical, and engineering reports available in either paper copy or microfiche form. In fiscal year 1984, 493,000 paper copies and 2,500,000 microfiche reports were sold. It ships on a daily basis, more than 23,000 information products to customers, including subscriptions, Published Searches, microfiche and data base products. Approximately 36 royalty-bearing licenses for Government owned inventions have been granted, and 110 foreign patent applications have been filed. Additionally, in fiscal year 1984, NTIS acquired approximately 18,000 foreign technical reports.

11.800 MINORITY BUSINESS DEVELOPMENT— MANAGEMENT AND TECHNICAL ASSISTANCE

OBJECTIVES:

The Enterprise Development activity delivery system is primarily composed of management and technical assistance firms. Grantees provide client firms with management and technical assistance including business information, counseling, brokering, and business planning. Other types of assistance provided include the identification and evaluation of products and markets; the development or refinement of the organizational structure and operating procedures of a business; the preparation or improvement of personnel policies, financial and accounting systems, and administrative procedures to make the operation run more smoothly; and the design or refinement of production processes and procurement systems that will enable the minority business to operate efficiently. Qualified minority firms will also be matched with technology-based commercial opportunities. A separate program funds organizations which provide specialized assistance on international trade. The Resource Development activity, in conjunction with and in support of the Enterprise Development activity, provides for increased public and private sector purchases from minorities and assists minority firms in identifying and profiting by expanded market opportunities. This activity also includes analysis of Federal policies affecting minority business interests; expanded business information and services provided through trade associations; and mobilization of State and local government resources in support of minority business enterprise. The Resource Development delivery system utilizes resources and contacts from the National and Regional Minority Supplier Development Councils, business and trade associations, and Federal, State and local offices of Minority Business Development. Furthermore, MBDA is actively involved with private, Federal, State and local organizations pursuant to formal agreements.

11.900 PATENT AND TRADEMARK TECHNICAL INFORMATION DISSEMINATION

USES AND USE RESTRICTIONS:

The Patent and Trademark Office examines patent applications to determine the patentability of an invention and grants patents when requirements of law are met. It publishes and disseminates information, including copies of patents which are sold at $1.00 each, and maintains a public search room at the Patent and Trademark Office Headquarters at 2021 Jefferson Davis Highway, Arlington, VA which contains the world's largest collection of applied technical information in the form of patents. There are more than 4,500,000 U.S. patents issued to date, and related documents and several million foreign patents are arranged by subject classes and subclasses for searching. The search room is open from 8 a.m. to 8 p.m. workdays and may be used by anyone at no charge. The device discovery or process described in a patent cannot be manufactured, used or sold except by the inventor or assignee for 17 years after the date of patent issuance, after which it enters the public domain. However, technical information contained in a patent can be used in many other ways. Copies of trademarks are available for a fee, or may be examined in the trademark public search center.

13.371 BIOMEDICAL RESEARCH TECHNOLOGY

OBJECTIVES:

To assist academic, nonprofit and for-profit institutions in developing and sustaining sophisticated technological capabilities which are vital to modern biomedical research. Included are biomedical computer centers, biological structure resources, resources for biomedical engineering, and biomedical and biophysical analyses. These grants provide biomedical investigators with sophisticated tools for research, education, and patient care, including facilities for computing and data processing, high-voltage electron microscopy, mass spectroscopy, nuclear magnetic resonance spectroscopy, and other specialized instrumentation. Grants are awarded for large-scale sharable resources, with special emphasis on those of regional and national scope. The program does not provide for research or training that can be obtained through other National Institutes of Health (NIH) programs. Small Business Innovation Research (SBIR) Program objectives are: to stimulate technological innovation; use small business to meet Federal research and development needs; increase private sector commercialization of innovations derived from Federal research and development; and foster and encourage participation by minority and disadvantaged persons in technological innovation.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For other grantees, costs will be determined in accordance with HHS regulations 45 CFR Part 74, Subpart Q. SBIR: Each applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

An informal preapplication conference is recommended, and consultation or assistance is available from the Biotechnology Resources Branch. The standard application forms, as furnished by DHHS and required by OMB Circular No. A-102 for State and local governments, must be used for this program.

Application Procedure:

Applications for grants must be made on Form PHS-398 (available in the institutions) and sent to the address specified in the application packet. This program is subject to the provisions of OMB Circular No. A-110. SBIR: Application forms and the Phase I solicitation may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Completed applications should be submitted to the same address for review.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

$7,500 to $1,824,703; $384,304. A $650,000 per year limit is now in effect except where exceptional justifications can be made. Average Phase I SBIR awards are for approximately $50,000; Phase II awards may be made for amounts up to $500,000.

PROGRAM ACCOMPLISHMENTS:

There were 47 biomedical research technology resource centers, 22 small grants, 18 resource related research grants, and 7 SBIR grants supported in fiscal year 1984. It is estimated that 61 resource centers and 10 SBIR grants were supported in fiscal year 1985, and 37 resource center grants and 14 SBIR grants will be supported in fiscal year 1986. There were 173 applications received in fiscal year 1984, and of that number, 10 competing renewals and 46 new applications were funded.

13.375 MINORITY BIOMEDICAL RESEARCH SUPPORT

USES AND USE RESTRICTIONS:

Minority Biomedical Research Support (MBRS) grants may be used to support released time for faculty members to engage in research; exploratory research and full-scale research activities through the purchase of equipment, supplies, technical assistance, as needed; undergraduate and graduate students working in research through their involvement in a faculty member's research; research enrichment activities for faculty and students; and resources, such as the operation of central research resources not related solely to any one specific project or program, but essential to the entire biomedical research activity of the institution; or the provision of ancillary research services.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Documentation of eligibility required prior to acceptance of application. Costs will be determined by HHS Regulations 45 CFR Part 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Consultation and assistance on preparation of an application are available from the administering agency. Application Form PHS 398 with addendum may be obtained from Headquarters Office listed below.

Application Procedure:

Applications from eligible institutions are referred to a sub-committee of the General Research Support Review Committee and to the National Advisory Research Resources Council for final recommendation. This program is subject to the provisions of OMB Circular No. A-110.

POST ASSISTANCE REQUIREMENTS:

Audits:

Audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

13.663 COMMUNITY DEVELOPMENT CREDIT UNION REVOLVING LOAN FUND

USES AND USE RESTRICTIONS:

In order to meet the objectives of the Community Development Credit Union (CDCU) Loan Program, an applicant selected for participation must provide a variety of financial and related services designed to meet the particular needs of the low-income community served. Federal funds awarded under the CDCU Loan Program may be used for services that include activities aimed towards: (1) supporting and stimulating economic development and revitalization efforts within the low-income community, such as: (a) improving housing conditions and increasing home ownership through a variety of mechanisms including self-help and co-op housing development projects, assistance in securing and leveraging mortgages, site development and construction financing; and (b) increasing employment opportunities by aiding existing businesses and promoting the establishment of new businesses. Recipients are encouraged to use funds available through the CDCU Loan Program to serve as a catalyst to attract and stimulate the investment of capital from other private and public sources to promote economic development activities within the community; (2) providing member services such as financial counseling; and (3) increasing the membership and the capitalization base such as: (a) membership drives; (b) campaigns to encourage members to increase their share deposits through systematic savings, utilizing such methods as payroll deductions allotments; and (c) businesses and other organizations serving the community to maintain share deposits or contribute financially in other ways to projects supported by the credit union. Loans, in the form of non-member deposits of up to $200,000, will be made to existing credit unions and up to $100,000 for new credit unions. All loans must be repaid to the Office of Community Service (OCS) within the shortest time compatible with sound business practice and with the objectives of the program, but in no case will the term exceed 5 years. Loans made under this program shall bear interest at a rate of 4 percentage points below the average market rate for Treasury Notes of comparable duration as of the date the program recipients are selected by OCS for participation. However, in no case shall the rate be less than 5 percent per annum. Semi-annual interest payments (beginning 6 months after the granting of a loan) and semi-annual principal payments (beginning 1 year after the granting of a loan) are required for the CDCU Loan Program.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, $2,700,000 in loans were awarded to 17 CDCUs for a total of 37 applicants. Fiscal year 1984 awards averaged about $1,400,000 as a result of the member share matching requirement. No new loans were made in fiscal year 1985, nor are any proposed to be made in fiscal year 1986.

13.664 RURAL DEVELOPMENT LOAN FUND

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, the Office of Community Services solicited and received approximately 110 direct loan applications, of which 12 applications were approved totaling $10,000,000. No new direct loans were made in fiscal year 1985, nor are any proposed to be made in fiscal year 1986.

13.665 COMMUNITY SERVICES BLOCK GRANT

USES AND USE RESTRICTIONS:

(1) States receive block grants to ameliorate the causes of poverty in communities. The block grant approach gives the States flexiblity to tailor their programs to the particular services needs in their communities. (2) For fiscal year 1986, States are required to use at least 90 percent of their allocations for grants to "eligible entities" as defined in the Community Services Block Grant (CSBG) Act, as amended; this includes primarily locally-based community action agencies and/or organizations that serve seasonal or migrant farmworkers. In fiscal year 1986, under Public Law 98-558, States are allowed to grant up to 7 percent of the funds available under Section 675 (a)(2)(A)(i) of the CSBG Act to organizations which were not eligible entities in the previous fiscal year. (3) No more than the greater of $55,000 or 5 percent of each State's allocation may be used for administrative expenses at the State level. (4) States may transfer up to 5 percent of their allocation for services under the Older Americans Act, the Head Start program, or the low-income energy assistance program.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Discretionary grants under this program are eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

13.668 SPECIAL PROGRAMS FOR THE AGING—TITLE IV—TRAINING, RESEARCH AND DISCRETIONARY PROJECTS AND PROGRAMS

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Applicants should present written evidence of willingness to cooperate on the part of other agencies when the project involves their cooperation or the utilization of their facilities or services. Applicable costs will be determined in accordance with Part 74 of Title 45 of the Code of Federal Regulations, Appendix C, which implements the requirements of OMB Circular No. A-87. This program is also subject to the provisions of OMB Circulars Nos. A-21 and A-122.

13.669 ADMINISTRATION FOR CHILDREN, YOUTH AND FAMILIES—CHILD ABUSE AND NEGLECT STATE GRANTS

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Technical assistance is available at regional and national levels to assist States in meeting conditions specified in the Act. Standard application forms as required by OMB Circular No. A-102 must be used. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

13.670 ADMINISTRATION FOR CHILDREN, YOUTH AND FAMILIES—CHILD ABUSE AND NEGLECT DISCRETIONARY ACTIVITIES

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Nonprofit agencies which have not previously received Office of Human Development program support must submit proof of nonprofit status. Applicable costs and administrative procedures will be determined in accordance with 45 CFR Part 74 which implements OMB Circular No. A-87. This program is also subject to the provisions of OMB Circulars Nos. A-21 and A-122.

13.675 CIVIL RIGHTS COMPLIANCE ACTIVITIES

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 1,165 individual complaints of discrimination were filed with OCR. OCR completed action on 1,117 complaint cases, including cases carried over from the preceding year, leaving a year-end inventory of 487 pending complaints. OCR received approximately 1,400 complaints in fiscal year 1985 and expects 1,150 complaints in fiscal year 1986. Compliance reviews address a variety of possible discriminatory practices under all of the statutory authorities. They are not necessarily related to individual complaints. In fiscal year 1984, OCR completed 760 post-grant compliance reviews. It is estimated that 750 post-grant compliance reviews were completed in fiscal year 1985. To encourage voluntary compliance by recipients, OCR offers technical assistance. This includes developing and disseminating compliance information, conducting workshops for recipients, designing model compliance plans for various types of covered programs, and training State and local officials who are responsible for achieving compliance. These activities are intended to provide recipients with the skills needed to apply the statutes to particular circumstances. As a result, the technical assistance program promises significant long-term benefits by helping to prevent and eliminate discriminatory practices.

13.802 SOCIAL SECURITY—DISABILITY INSURANCE

FINANCIAL INFORMATION:

Obligations:

(Benefit payments) FY 84 $17,783,796,000; FY 85 est $18,743,451,000; and FY 86 est $19,768,706,000.

PROGRAM ACCOMPLISHMENTS:

It is estimated that for fiscal year 1985, an average of 3,854,000 disabled workers and their dependents will have received monthly cash benefits, and during fiscal year 1986, the number receiving benefits will remain relatively constant at approximately 3,932,000.

13.803 SOCIAL SECURITY—RETIREMENT INSURANCE

FINANCIAL INFORMATION:

Obligations:

(Benefit payments) FY 84 $120,055,202,000; FY 85 est $128,196,532,000; and FY 86 est $136,883,968,000.

Range and Average of Financial Assistance:

Monthly cash benefits for a retired worker age 65 in 1985 range up to $717, and to a maximum of $1,255 for a family receiving benefits. As of January 1985, the average benefit paid to a retired worker alone is $450. The average amount payable to a family consisting of a retired worker and eligible spouse is $781.

PROGRAM ACCOMPLISHMENTS:

It is estimated that in fiscal year 1985, an average of 25,530,000 retired workers and their auxiliaries received monthly cash benefits, and that in 1986 the number receiving benefits will grow to 26,119,000.

13.804 SOCIAL SECURITY—SPECIAL BENEFITS FOR PERSONS AGED 72 AND OVER

FINANCIAL INFORMATION:

Obligations:

(Benefit Payments) FY 84 $74,000,000; FY 85 est $61,000,000; and FY 86 est $51,000,000.

Range and Average of Financial Assistance:

The payment is $134.40 for each qualifying individual as of December 1984. (The payments are not made for any month for which the person receives a payment under the Supplemental Security Income program. The payments are reduced by the amount of most other governmental pensions, retirement benefits, or annuities.)

13.805 SOCIAL SECURITY—SURVIVORS INSURANCE

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Benefits are payable only if the deceased was insured for survivors insurance protection. Coverage credits under the social security systems of certain foreign countries with which the U.S. has reciprocal agreements may be taken into account to determine if the deceased was insured. Also, free work credits are granted to persons of Japanese ancestry who were interned in the U.S. during World War II. Survivors eligible for monthly cash benefits are the following: widows or widowers age 60 or over; surviving divorced wife or husband age 60 or over (married to the deceased worker for at least 10 years); disabled widows or widowers (or disabled surviving divorced spouses) ages 50-59; widows, widowers, or surviving divorced spouses under age 60 who have in their care a child under age 16 or disabled and entitled to benefits on the deceased worker's Social Security record; unmarried children under age 18, or under age 19 for students in elementary or secondary school (except students age 18 to 22 may be eligible for benefits if they were entitled to benefits as of August 1981 and were full-time students in post-secondary school prior to May 1982); unmarried adult offspring at any age if disabled before 22; and dependent parents age 62 and over. All survivors benefits, other than for beneficiaries age 70 and over, are subject to an earnings test under which benefits are reduced by $1 for each $2 of earnings over certain limits. In 1985, limits are $5,400 for people under 65 and $7,320 for people 65 through 69. Except for benefits to children and dependent parents, all survivors benefits are subject to a pension offset if the person is also receiving a governmental pension based on his or her own work in noncovered employment. However, the offset does not apply: (1) if the person receives, or is eligible to receive, the pension before December 1, 1982, and can meet the eligibility requirements for the Social Security auxiliary's benefit as they existed in

January 1977; or (2) if the person receives, or is eligible to receive, the pension before July 1, 1983, and the person was dependent on his or her spouse for at least one-half support at the time the spouse died, became disabled or became entitled to Social Security benefits. For surviving spouses who became eligible for a public pension before June 1983 for their public pension, the amount of the public pension used for purposes of the offset against Social Security survivor's benifits is equal to two-thirds of the public pension. Beginning in December 1984, the two-third limit on the amount of the public pension that is counted for offset purposed is extended to people eligible for public pensions before July 1983. Under certain conditions, a lump-sum death payment of no more than $255 is payable to the eligible widow or children of the deceased worker.

APPLICATION AND AWARD PROCESS:

Deadlines:

Retroactivity is limited to 6 months if unreduced benefits are being awarded; while there are certain exceptions, no retroactivity is provided in most cases when reduced benefits are being awarded. For disabled surviving spouses and disabled divorced surviving spouses, benefits may be retroactive for up to 12 months.

FINANCIAL INFORMATION:

Obligations:

(Benefit Payments) FY 84 $36,192,000,000; FY 85 est $38,073,000,000; and FY 86 est $40,468,000,000.

Range and Average of Financial Assistance:

Monthly cash benefits range up to $717 for the widow or widower of a worker who dies at age 65 (as of January 1985). A widowed mother with two eligible children receives an average benefit of $984 monthly (as of January 1985).

PROGRAM ACCOMPLISHMENTS:

It is estimated that in fiscal year 1985, an average of 7,182,000 survivors received monthly cash benefits, and in fiscal year 1986, the number will increase to 7,192,000.

13.807 SUPPLEMENTAL SECURITY INCOME

FINANCIAL INFORMATION:

13.821 BIOPHYSICS AND PHYSIOLOGICAL SCIENCES

USES AND USE RESTRICTIONS:

The research project grant is awarded to an eligible institution in the name of a principal investigator for a discrete project or group of related projects representing the investigator's interest and competence. Funds are used for salaries and wages, equipment, supplies, travel and other costs directly required to carry out the research project. National Research Service Awards are made directly to individuals for research training in disciplines supporting the research areas. In addition, grants may be made to institutions to enable them to make National Research Service Awards to individuals selected by them. Each individual who receives a National Research Service Award is subject to certain service and payback provisions. Responsibilities of grantees and restrictions on use of funds are set forth in the Public Health Service policy statement on grants for research projects, which is available upon request from the Division of Research Grants, NIH, Bethesda, MD 20892. SBIR Phase I grants (of approximately 6 months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. Use grant application Form PHS 398 provided by the Division of Research Grants, NIH, Bethesda, MD 20892. Each SBIR applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment, and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively. For applicants for National Research Service Awards, the academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. The applicant institution must show the objectives, methodology, and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for the award, and a detailed budget and justification for the grant funds requested. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For other grantees, costs will be determined by HHS Regulations 45 CFR Part 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

The program staff is available for consultations. The standard application form, furnished by DHHS and required by OMB Circular No. A-102, must be used by State or local units of government.

Application Procedure:

Application forms and information concerning the areas of science being supported may be obtained from the Division of Research Grants, NIH, Bethesda, MD 20892, and may be submitted to the same address for assessment by a scientific review committee. This program is subject to the provisions of OMB Circular No. A-110. SBIR application forms and the Phase I Solicitation may be obtained from the Division of Research Grants, Bethesda, MD 20892. Completed applications should be submitted to the same address for review.

Deadlines:

February 1, June 1, and October 1 for new research projects. Renewals: March 1, July 1, and November 1. NRSA: January 10, May 10, September 10. SBIR: April 15, August 15, and December 15.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

EXAMPLES OF FUNDED PROJECTS:

(1) A research project grant for the evaluation of thrombosis with labeled platelets: The objectives of this research are to explore and develop methods for utilizing 111-Indium labeled platelets to evaluate the presence, location, and extent of arterial and venous thrombotic events in vivo after angiography or vascular surgery. (2) A project grant for the control of coagulation: This research program is a multidisciplinary effort of twenty-one basic and clinical scientists who are focusing on the general area of the control of coagulation with the major goal of improving the diagnosis and treatment of patients with hemostatic deficiencies. Specific areas of investigation include porcine von Willebrand's disease; the activation of prothrombin; the adhesion, aggregation, and ultrastructure of platelets in flowing blood; cultured von Willebrand endothelial cells; and atherosclerosis in bleeder and drug-treated experimental animals. (3) A center grant for a specialized center of research in thrombosis: This program is composed of about forty investigators who are cooperating in a multidisciplinary, broad-based study of thrombosis. The scientific areas being investigated include platelets, pharmacologic studies, fibrinolysis, electron microscopic studies, radiologic studies, microcirculation, nuclear medicine, surgical studies, and coagulation as related to thrombosis. The participating investigators are in the university's medical school, research units, school of pharmacy, and hospital. (4) An Individual National Research Service Award for studies in sickle hemoglobinopathies: Research and training includes investigations on globin synthesis in beta thalassemia, the development of a screening test for beta thalassemia trait, and the evaluation of an animal model to study the effects of anti-sickling agents on human sickle cells. (5) A Small Business Innovation Research award for improved methods of red blood cell measurement.

13.845 DENTAL RESEARCH INSTITUTES

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Grants: Applications for grants must show the objectives, methodology, and resources for the specific research project and must represent the applicant's competence and interest. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For other grantees, costs will be determined by HHS Regulations 45 CFR Part 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application Form PHS 398 is required. This program is subject to the provisions of OMB Circular No. A-110.

Renewals:

Grants: Applications for approval beyond the approved project period must be submitted at least 6 to 9 months in advance of the termination date. However, all renewal applications will be accepted only in response to a NIDR specific request for application (RFA).

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Grants: Approval of a project includes a determination of support for the authorized project period (not to exceed 5 years). Awards to support the project are made on an annual basis. At the time of initial award the grant provides funds for the conduct of the project during the first budget period (usually 12 months) and the Notice of Grant Award (Form PHS-1533) indicates the support recommended and expected to be made available for the remainder of the project period.

OBJECTIVES:

To investigate solutions to problems directly relevant to patients with neurological disorders or disorders of human communication such as deafness, speech, and language problems. The National Institute of Neurological and Communicative Disorders and Stroke (NINCDS) supports research including: (1) improved methods of disease prevention; (2) new methods of diagnosis and treatment; (3) clinical trials; (4) drug development; (5) development of neural prostheses for stroke, paraplegia and deafness; (6) epidemiological research; and (7) research training in the clinical sciences. Clinical research is supported in four extramural program areas within this Institute. The Stroke and Trauma Program supports such research in stroke, spinal cord injury, neural regeneration and plasticity, coma, chronic pain, head injury, peripheral nerve injury, tumors of the nervous system, brain edema, and manipulative therapy. The Demyelinating, Atrophic and Dementing Disorders Program supports clinical research in multiple sclerosis and amyotrophic lateral sclerosis, movement disorders, such as the dystonias and Tourette's syndrome, and in degenerative and dementing disorders such as Parkinson's, Huntington's and Alzheimer diseases. Also supported under this program is research in viral encephalitis and meningitis. The Convulsive, Developmental and Neuromuscular Disorders Program supports clinical and applied research in convulsive, developmental and neuromuscular disorders in an effort to increase knowledge of their etiology, diagnosis, prevention, and treatment. The Communicative Disorders Program supports research in all aspects of speech, hearing, language, equilibrium, and the special senses. Included are clinical studies of anatomical, physiological, biochemical, behavioral, acoustical, and pathological aspects of communicative disorders and otolaryngological diseases. The objectives of the Small Business Innovation Research (SBIR) Program are: to stimulate technological innovation; use small business to meet Federal research and development needs; increase private sector commercialization of innovations derived from Federal research and development; and foster and encourage participation by minority and disadvantaged persons in technological innovation. The NINCDS also participates in the Academic Research Enhancement Award (AREA) Program which is intended to provide research support to institutions currently having little NIH support. (For further information see CFDA 13.390.)

USES AND USE RESTRICTIONS:

Research grants may be used to provide salaries, equipment, supplies, travel, and other expenses for research. The grantee institution is obliged to expend grant funds prudently for the purposes as stated in the application and award document. Some National Research Service Awards (NRSAs) are made directly to individuals for research training in specified biomedical shortage areas. In addition, other training grants may be made to institutions to enable them to make NRSAs to individuals selected by them. Research Career Development Awards and Clinical Investigator Development Awards are made to enhance independent research capability of selected individuals during the formative stages of their careers. SBIR Phase I grants (of approximately 6 months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research efforts initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. Grant funds may be expended only for the purpose stated in the application and award document. Each individual who receives a NRSA is obligated upon termination of the award to comply with certain service and payback provisions.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Research grants are awarded to an institution in the name of an individual investigator. Persons qualified to carry out research related to the four extramural programs described above may apply for funds to support their investigations. Each SBIR applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively. Career Program training must be conducted under the direction of a competent sponsor. A candidate for a career award must have an earned M.D., Ph.D., or equivalent degree and must generally have had at least 3 years of pertinent postdoctoral training or research experience. National Research Service Awards: Individual NRS Fellowship Awards for postdoctoral training: The candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. Institutional Training Grants for predoctoral and postdoctoral training: The applicant institution must show the objectives, methodology and resources for the research training program; the qualifications and experience of directing staff; the criteria to be used in selecting individuals for stipend support; and a detailed budget and justification for the amount of grant funds requested. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Research Grants: The standard application forms, as furnished by the DHHS and required by OMB Circular No. A-102 for State and local governments, must be used for this program. Career Program: No preapplication is necessary. Research Fellowships: Prior to formal application, a candidate must be accepted at an institution and have a sponsor who will supervise the training. Fellows may be sponsored by a (domestic or foreign) nonprofit institution. Application forms and information concerning current areas of science being supported under the Research Fellowship Award Program should be obtained from the Office of Research Manpower, Division of Research Grants, NIH, Bethesda, MD 20892.

Deadlines:

All new Research Grant applications, program project and center competitive renewal and supplemental grant applications, and Career Program applications:

February 1, June 1, and October 1. Individual research competing renewal and supplemental grant applications: March 1, July 1 and November 1. Individual and Institutional NRSA applications: January 10, May 10, and September 10.

Renewals:

By application and review in same manner as new applications. Research Career Awards may not be renewed.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Research grant awards are made for a 12-month period with recommendation of up to 4 years of additional support. Awards must be expended within the grant period. Career Program awards provide support for 3 to 5 years. Training Program awards are usually for a 12-month period with recommendation of additional support of up to a total of 5 years for predoctoral training and no more than 3 years for postdoctoral training. Short-term research training support for health professional students may be awarded for multiple 3-month periods. An award must be expended within the grant period. SBIR Phase I awards are generally for 6 months; Phase II awards normally may not exceed 2 years.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $102,661,000; FY 85 est $125,883,000; and FY 86 est $103,618,000.

Range and Average of Financial Assistance:

Research Grants: $16,000 to $1,692,000; $261,000. Career Program - Clinical Investigator Awards: $54,000 to $70,000; $62,000. Research Career Development Awards: $40,000 to $60,000; $50,000. National Research Service Awards - Institutional: $39,000 to $138,000; $76,000; Individual: $17,000 to $33,000; $23.000. SBIR: Phase I approximately $50,000; Phase II not to exceed $500,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal year 1984: 440 research grants, and 50 NRSAs. Fiscal year 1985 estimate: 519 research grants, and 49 NRSAs. In fiscal year 1985, there were 447 competing research applications and of that number, 160 awards were made; of 12 competing NRSA applications, 6 awards were made. Fiscal year 1986 estimate: 448 research grants and 43 NRS awards.

13.854 BIOLOGICAL BASIS RESEARCH IN THE NEUROSCIENCES AND COMMUNICATIVE SCIENCES

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Research Grants: Any public, private, nonprofit, or for-profit institution is eligible to apply. For-profit institutions are not eligible for National Research Service Awards. All proposals are reviewed for scientific merit, for evaluation of the qualifications of the investigators, for adequacy of the research environment, and for significance of the problem. Approved proposals compete for available funds. All Career Program awardees must be citizens or have been admitted to the United States for permanent residence. Candidates must be nominated for the program by a nonfederal public or private nonprofit institution located in the U.S., its possesions or territories. To be eligible, postdoctural NRSA trainees or fellows must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D. Eng., or equivalent domestic or foreign degree). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the entire research must be performed in the United States. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Credentials/Documentation:

Research grants are awarded to an institution in the name of an individual investigator. Persons qualified to carry out biological basis research related to the five extramural programs of the Institute may apply for funds to support their investigations. Each SBIR applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Each applicant for research projects must present a reasonable research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. Use grant application Form PHS 398 provided by the Division of Research Grants, NIH, Bethesda, MD 20892. Each SBIR applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment, and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively. For applicants for National Research Service Awards, the academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. The applicant institution must show the objectives, methodology, and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for the award, and a detailed budget and justification for the grant funds requested. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For other grantees, costs will be determined by HHS Regulations, 45 CFR Part 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application forms and information concerning the areas of science being supported may be obtained from the Division of Research Grants, NIH, Bethesda, MD 20892, and may be submitted to the same address for assessment by a scientific review committee. This program is subject to the provisions of OMB Circular No. A-110. SBIR application forms and the Phase I Solicitation may be obtained from the Division of Research Grants, NIH, Bethesda, MD 20892. Completed applications should be submitted to the same address for review.

Deadlines:

February 1, June 1, and October 1 for new research projects. Renewals: March 1, July 1, and November 1. NRSA: January 10, May 10, and September 10. SBIR: April 15, August 15, and December 15.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Range and Average of Financial Assistance:

Grants: $16,863 to $1,854,475; $155,783; Individual NRSAs : Basic stipend (first year beyond the doctoral degree) of $15,996. The sponsoring institution will be provided, on application, with an allowance of up to $3,000 per year to help defray the cost of training. No dependency allowances. Institutional NRSAs : $10,059 to $261,955; $104,938. SBIR : Average Phase I awards are for approximately $50,000; Phase II awards may be made for amounts up to $500,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 645 competing research project grant applications were received and 129 were awarded funds. Of these, 7 were Phase I awards and one Phase II award for Small Business Innovation Research. Fifty-seven (57) applications for NRSAs were reviewed in fiscal year 1984; 16 competing NRSAs were funded. A strong research impetus has been established for Alzheimer disease and other dementias of aging. Other biomedical research on aging focuses on such areas as immunology, arthritis, and sleep. A recent study has identified a slow-acting infectious agent, known as a prion, which may significantly alter the present understanding of central nervous system disorders such as Alzheimer disease. Other studies indicate that the healthy aged brain is as active and efficient as the healthy young brain; that diet-restricted rats not only live longer than rats which feed freely, but also perform better mentally; that certain difficulties in language usage and comprehension can be used to distinguish and diagnose particular forms of dementia; that ability to perform routine or even complex tasks does not seem to decline with age even when performed under the time constraints of a test situation; and that, contrary to popular belief, retirement does not have an adverse effect on healthy individuals. In fiscal year 1985, the Institute continued studies in these and other areas, and has placed further emphasis on research leading to health maintenance, prevention, and the diagnosis and treatment of diseases and disorders which result in admission to nursing homes. In fiscal year 1984, 434 competing and noncompeting research project grants were awarded. Estimated competing research project grant awards for fiscal years 1985 and 1986 are 154 and 112, respectively. An estimated 31 competing NRSAs were funded in fiscal year 1985, and 14 are anticipated in fiscal year 1986.

13.867 RETINAL AND CHOROIDAL DISEASES RESEARCH

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

(1) Research grants: No credentials or documentation required with application, except for those that the applicant feels will help establish the scientific worth of his proposal. (Career development application credentials are the same as those for the individual and institutional NRSA application.) (2) Individual NRSA applications: The applicants's academic record, research expe-

rience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. (3) Institutional NRSA application: The applicant institution must show the objectives, methodology and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for an award, and a detailed budget and justification for the amount of grant funds requested. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For other grantees, costs will be determined by HHS Regulations 45 CFR Part 74, Subpart Q. This program is subject to the provisions of OMB Circular No. A-87. (4) SBIR grants: Each applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

The standard application form, as furnished by DHHS and required by OMB Circular No. A-102 for State and local governments, must be used. Also, consultation is available from Institute staff. Research grant and career applications from other than State or local units of government in general do not require preapplication coordination. Applications for research centers (core grants) and specialized research centers require preapplication coordination through contact with the National Eye Institute (NEI) staff. Prior to making formal application to the NRSA programs, individual NRSA applicants must be nominated and sponsored by a Federal public or nonprofit institution having staff and facilities appropriate to the proposed research program.

Application Procedure:

Institutions submit research grant proposals for basic and clinical research. These are reviewed for scientific merit, for evaluation of applicant qualifications, for the adequacy of the research environment, and for the significance of the problem to be studied. Institutions submit proposals for career development of scientists; these are reviewed for an evaluation of the applicant's potential, and adequacy of the research training environment. A National Advisory Eye Council provides for final review. An application form, PHS-398, for research grant and career development proposals may be requested from the Division of Research Grants, the National Insititutes of Health, Bethesda, MD 20892 and should be submitted to the same address when completed. Supplemental instructions for preparing the Small Grant application must be requested from NEI staff. Application Procedures for SBIR Grants: Application forms and the Phase I Solicitation may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Completed applications should be submitted to the same address for review. Application forms and information concerning the NRSA program are available from the Office of Research Manpower, Division of Research Grants, NIH, Bethesda, MD 20892, and should be submitted to the same address. National Eye Institute guidelines and supplemental instructions for preparing NRSA applications are available from NEI, Building 31, Room 6A-52, Bethesda, MD 20892. This program is subject to the provisions of OMB Circular No. A-110.

Deadlines:

February 1, June 1, and October 1 for all new research grant applications. Applications for competing renewal and supplements: March 1, July 1, and November 1. NRSA: January 10, May 10, and September 10. SBIR: April 15, August 15, and December 15.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Range and Average of Financial Assistance:

Grants: $23,000 to $900,000; $142,000. NRSA (Institutional): $50,000 to $200,000; $171,400; NRSA (Individual): $19,000 to $33,000; $21,755. Small grants: $23,000. SBIR Grants: Average Phase I awards are for approximately $50,000; Phase II awards may be made for amounts up to $500,000.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1984, this program of the National Eye Institute supported 401 research grants and career awards, 38 full-time NRSA training positions, and 1 Phase I SBIR award. The composite award rate for all vision research grants in 1984 was 49 percent of eligible applications. In fiscal year 1985, the program supported 428 research grants and career awards, and 84 full-time NRSA training positions, and 3 Phase I SBIR awards. In fiscal year 1986 the program is expected to support 396 total research grants and career awards and 65 full-time NRSA training positions. A number of very promising major nationwide multi-center clinical trials will be in progress to test the safety and effectiveness of the two treatments for diabetic retinopathy and other retinal vascular diseases, for retinopathy of prematurity, and for ocular melanoma. Under the SBIR program, an award has been made to support research on dye-enhanced laser hemostasis and tumor cell killing.

In fiscal year 1985, the program supported 166 research grants and career awards, 58 full-time NRSA training positions, and 4 SBIR awards. In fiscal year 1986, it will support an estimated 154 research grant and career awards, and 56 full-time NRSA training positions. Research in all mechanisms has focused primarily on normal corneal development; reparative processes that control the cornea's response to infection, injury or surgery; modification of refractive errors of the cornea by contact lenses or surgical procedures; and critical factors that might retard or prevent the onset of swelling, neovascularization and scarring in corneal disease or trauma. The SBIR program is currently supporting studies on surface modification of gas permeable contact lenses and on a device to precisely deliver micro-sized eyedrops.

13.869 CATARACT RESEARCH

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

(1) Research grants: No credentials or documentation required with application, except for those that the applicant feels will help establish the scientific worth of the proposal. (Career development application credentials are the same as those for the individual and institutional NRSA application). (2) Individual NRSA applications: The applicant's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. (3) Institutional NRSA application: The applicant institution must show the objectives, methodology, and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for an award, and a detailed budget and justification for the amount of grant funds requested. Costs will be determined in accordance with OMB Circular A-87 for State and local governments. For other grantees, costs will be determined by HHS Regulations CFR Part 74, Subpart Q. (4) SBIR Grants: Each applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Standard application forms, as furnished by DHHS and required by OMB Circular No. A-102, for State and local governments, must be used this program. Also, consultation is available from Institute staff. Research grant and career applications from other than State or local units of government in general do not require preapplication coordination. Applications for research centers (core grants) and specialized research centers require preapplication coordination through contact with NEI staff. Prior to making formal application to the NRSA programs, individual NRSA applicants must be nominated and sponsored by a Federal, public or nonprofit institution having staff and facilities appropriate to the proposed research training program.

Deadlines:

New Research Grants: February 1, June 1, and October 1. Applications for competing renewal and supplementals: March 1, July 1, and November 1. NRSA: January 10, May 10, and September 10. SBIR: April 15, August 15, and December 15.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Prior to making formal application to the NRSA programs, individual NRSA applicants must be nominated and sponsored by a Federal or nonprofit institution having staff and facilities appropriate to the proposed research training program.

Application Procedure:

Institutions submit research grant proposals for basic and clinical research. These are reviewed for scientific merit, for evaluation of applicant qualifications, for the adequacy of the research environment, and for the significance of the problem to be studied. Institutions submit career proposals for development of scientists. These are reviewed for an evaluation of the applicant's potential, and adequacy of the research training environment. The National Advisory Eye Council provides for final review. An application form for research grant and career development proposals, PHS-398, may be requested from the Division of Research Grants, the National Insititutes of Health, Bethesda, MD 20892 and should be submitted to the same address when completed. Supplemental instructions for preparing the small grant application must be requested from NEI staff. SBIR Grants: Application forms and the Phase I Solicitation may be obtained from and completed applications should be submitted to the above address. Application forms and information concerning the NRSA program are available from the Office of Research Manpower, Division of Research Grants, NIH, Bethesda, MD 20892, and should be submitted to the same address. National Eye Institute guidelines and supplemental instructions for preparing NRSA applications are available from NEI, Building 31, Room 6A-52, Bethesda, MD 20892. This program is subject to the provisions of OMB Circular No. A-110.

Deadlines:

New Research Grants: February 1, June 1, and October 1. Applications for competing renewals and supplementals: March 1, July 1, and November 1. NRSA: January 10, May 10, and September 10. SBIR: April 15, August 15, and December 15.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Up to 5 years for research grants, developmental career awards, and NRSAs (Institutional). Foreign institutions, up to 3 years for vision grants. Up to 3 years for NRS postdoctoral awards (Individual). Awards to Individuals made through a NRSA (Institutional) may be made for 8 years (5 years as a predoctoral and an additional 3 years as a postdoctoral). New Investigator awards, up to 3 years. Small Grants are limited to 1 year. Assistance is available for each budget period, usually 1 year. For SBIR grants, Phase I awards are generally for 6 months; Phase II awards normally may not exceed 2 years.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

Research grants: $23,000 to $900,000; $142,000. NRSA (Institutional): $50,000 to $200,000; $171,000. NRSA (Individual): $19,000 to $33,000; $21,775. Small Grants: $23,000. SBIR Grants: Average Phase I awards are for approximately $50,000; Phase II awards may be made for amounts up to $500,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, this program of the National Eye Institute (NEI) supported 95 research grants and career awards, 5 full-time NRSA training positions, and 1 Phase I SBIR award. The composite award rate for all vision research grants for fiscal year 1984 was 49 percent of all eligible applications. In fiscal year 1985, this program supported 101 research grant and career awards, 7 full-time NRSA training positions, and 1 Phase II SBIR award. In fiscal year 1986, it will support an estimated 92 research grant and career grants was 49 percent of eligible applications in and 5 full-time NRSA training positions. Research in this program is centered on primary open-angle glaucoma and the mechanism by which intraocular pressure is regulated. The immediate objective of research in this area is the improved diagnosis and clinical control of this disease. The SBIR program is currently supporting studies on non-invasive techniques for detecting glaucoma as well as a discrimination test for early detection of the disease.

EXAMPLES OF FUNDED PROJECTS:

(1) A research project for the study of trabecular meshwork: objectives are to establish lines of trabecular endothelial cells in culture from glaucoma patients and normal people, to characterize the cells according to their structural and biological characteristics, to examine extracellular materials produced by the cells, and to study drug and hormone effects on the cells. (2) Two multi-centered randomized clinical trials are in progress. One is to test the efficacy and safety of a drug, 5-Fluorouracil, to improve glaucoma, filtering surgery; the other clinical trial is to evaluate argon laser treatment of the trabecular meshwork in open-angle glaucoma. (3) A research project to determine if the mechanism of optic nerve damage in glaucoma is due primarily to ischemia or to mechanical effects. Changes in axonal transport and ultra-structure are being monitored on monkey eyes subjected to elevations of intraocular pressure. (4) A research project to study compliance with glaucoma therapy asks if patients take their drugs as prescribed, how often they skip an application of eyedrops, and which times are

most often missed. This study employs an microelectronic device, concealed in the drug dispenser, and which records the time of delivery of each drop of the drug over a period of a month. (5) A research project for studying the physiology of aqueous humor dynamics by a clinical fluorophotometric methods. This project is determining the extent to which the various processes involved in controlling intraocular pressure are affected by drugs used to treat glaucoma.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, this program of the National Eye Institute supported 267 research grants and career awards, 44 NRSA training positions, and 4 Phase I SBIR awards. The composite award rate for all vision research grants for fiscal year 1984 was 49 percent of eligible applications. In fiscal year 1985, the program supported an estimated 277 research grants and career awards, 152 full-time NRSA training positions, 7 Phase I SBIR awards, and 2 Phase II awards. In fiscal year 1986, the program will support an estimated 263 research grants and career awards and 66 full-time NRSA training positions. Research has been directed toward understanding the mechanisms of visual processing and the disorders that affect it. This includes basic research on molecular, genetic, chemical, cellular and integrative mechanisms of the nervous system, studies of visual behavior and its development, studies of conjugates and vergent eye movements and accommodation. Clinical, as well as the basic, research supported by this program is aimed toward developing improved methods for preventing, diagnosing and treating visual disorders such as amblyopia, optic neuropathies, strabismus, neuroophthalmological disorders and refractive errors. In addition, the NEI wishes to encourage research on the rehabilitation of blind persons and those with low vision. The SBIR program is currently supporting studies on a clinical eye movement analysis system, behavioral myopia remission using feedback, and developing a visual testing device. In fiscal year 1986, 263 total awards are estimated. The composite award rate for all vision research grants in 1984 was 49 percent of eligible applications.

13.891 ALCOHOL RESEARCH CENTER GRANTS

USES AND USE RESTRICTIONS:

Alcohol research center grant funds may be used for support of core resources including, for example, salaries of center personnel, services and facilities shared by center personnel, and program enrichment activities such as symposia and special features. Support for individual projects may include staff salaries, supplies, publication, travel and equipment. Funds may not be used for training, although the applicant is required to demonstrate an institutional training capacity related to alcohol. Funds may not be used for purchase or rental of any land or the rental, purchase, construction, preservation or repair of any building, and grantees must have sufficient laboratory facilities and reference services to carry out the grant. Support will be provided for an initial period of 5 years (renewable for subsequent 5year period) to qualifying centers selected for funding. No annual grant may exceed $1,000,000. The actual amount of support awarded will depend upon the appropriateness of the proposed center budget to the approved Center program, as well as the availability of funds.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, of 57 new applications received, 14 new projects were funded: prevention services, 3; care services, 5; and national demonstration projects, 6. In addition, 57 continuation projects were funded. It is estimated that 17 new projects and 63 continuations were funded in fiscal year 1985. It is estimated that 5 new projects and 66 continuations will be funded in fiscal year 1986.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

14.112 MORTGAGE INSURANCE—CONSTRUCTION OR SUBSTANTIAL REHABILITATION OF CONDOMINIUM PROJECTS

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

All families are eligible to purchase condominium units. Mortgages for individual units may be provided under Section 234(c). See program 14.133.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

The sponsor will have an initial interview with the local HUD Field Office to determine the preliminary feasibility of the project before an application is submitted. An environmental assessment is required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

14.117 MORTGAGE INSURANCE—HOMES

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

For most families the maximum amount of the loan is 97 percent of the first $25,000 of estimated value and closing costs, plus 95 percent of the remainder. If the estimated value plus closing costs is $50,000 or less, the maximum amount of the loan is 97 percent for an occupant mortgagor. For veterans, the maximum amount of the loan is 100 percent of the first $25,000 of estimated value and closing costs, or $25,000 plus prepaid expenses less $200, whichever is less, plus 95 percent of the remainder. For non-occupant mortgagors, the maximum amount of the loan is 85 percent of value, plus closing costs. The downpayment is the difference between the maximum loan amount and the purchase price of the home. In addition to the downpayment, the purchaser must pay for all items of prepaid expense. The entire mortgage insurance premium which may be financed is required at the time of loan origination. The loan origination charge by the mortgagee varies, but may not normally exceed one percent of the total mortgage (minus the mortgage insurance premium, if being financed). Mortgagors may be charged appraisal and inspection fees in accordance with fee schedules established by HUD. This program has maintenance of effort (MOE) requirements, see funding agency for further details.

14.129 MORTGAGE INSURANCE—NURSING HOMES, INTERMEDIATE CARE FACILITIES AND BOARD AND CARE HOMES

AUTHORIZATION:

National Housing Act, Section 232; Housing Act of 1959; Public Law 86-372; Housing and Urban Development Act of 1969; Public Law 91-152; 73 Stat. 654 and 83 Stat. 379; Public Law 95-128; Public Law 95557; Public Law 96-153; and Public Law 98-181.

OBJECTIVES:

To make possible financing for construction or rehabilitation of nursing homes, intermediate care facilities and board and care homes, and to provide loan insurance to install fire safety equipment.

USES AND USE RESTRICTIONS:

HUD insures lenders against loss on mortgages. Insured mortgages may be used to finance construction or renovation of facilities to accommodate 20 or more patients requiring skilled nursing care and related medical services, or those who while not in need of nursing home care, are in need of minimum but continuous care provided by licensed or trained personnel. Board and care homes are also eligible. Nursing home, intermediate care services and board and care homes may be combined in the same facility covered by an insured mortgage or may be in separate facilities. Major equipment for operation may be included in the mortgage.

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

Patients requiring skilled nursing, intermediate care and/or board and care are eligible to live in a structure whose mortgage is insured under the program.

Credentials/Documentation:

Documentation regarding the characteristics of the property and the qualifications of the mortgagor are assembled by the mortgagee and submitted with the application. Certification of need and assurance of inspection and licensing by the State agency designated by the Public Health Service Act for the State in which the facility is to be located is required, as well as approval by the local Health Systems Agency. A Certificate of Need is not required for a board and care home.

14.132 MORTGAGE INSURANCE—PURCHASE OF SALES-TYPE COOPERATIVE HOUSING UNITS

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

For most families, the maximum amount of the loan is equal to 97 percent of the first $25,000 of value and closing costs (100 percent if veteran); and 95 percent of the value and closing costs in excess of $25,000 not to exceed $67,500, or such higher amount as permitted by the Secretary. (See Uses and Use Restrictions.) If the estimated value plus closing costs is $50,000 or less, the maximum amount of the loan, for a non-veteran, is 97 percent. The downpayment is the difference between the maximum loan amount and the purchase price of the home, but in no case less than $200. The mortgage insurance premium is one-half percent of the mortgage amount.

14.134 MORTGAGE INSURANCE—RENTAL HOUSING

PROGRAM ACCOMPLISHMENTS:

There were no new projects insured under Section 207 in fiscal year 1984. There were 92 HUD-held mortgages with 15,028 units at $144,730,915 sold with insurance. Cumulative totals through September 30, 1984 are 2,493 projects with 321,349 units insured with a value of $4,099,932,716.

14.137 MORTGAGE INSURANCE—RENTAL AND COOPERATIVE HOUSING FOR MODERATE INCOME FAMILIES, MARKET INTEREST RATE

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

All families are eligible to occupy dwellings in a structure whose mortgage is insured under the program, subject to normal tenant selection requirements for private rental housing. A preference must be given to displacees.

14.138 MORTGAGE INSURANCE—RENTAL HOUSING FOR THE ELDERLY

RELATED PROGRAMS:

14.134, Mortgage Insurance—Rental Housing; 14.137, Mortgage Insurance—Rental and Cooperative Housing for Moderate Income Families, Market Interest Rate.

14.156 LOWER INCOME HOUSING ASSISTANCE PROGRAM

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

The Chief Executive Officer of the unit of general local government in which the proposed housing is to be carried out will have an opportunity to comment on the proposed housing. Where there is an approved Housing Assistance Plan, the local government has the opportunity to object to the approval of the application on the grounds that the application is inconsistent with its Housing Assistance Plan. Where there is no Housing Assistance Plan, the local government has an opportunity to comment upon, or provide information concerning the need for housing assistance and the availability of local facilities and public services to serve the proposed housing. The cover letter will invite a response within 30 days.

REGULATIONS, GUIDELINES, AND LITERATURE:

24 CFR Part 882; Section 8 Housing Assistance Payments Program, Existing Housing and Moderate Rehabilitation Processing Handbook, 7420.3; PHA Administrative Practices Handbook for the Section 8 Existing Housing Program, 7420.7; Accounting Handbook 7420.6.

14.159 SECTION 245 GRADUATED PAYMENT MORTGAGE PROGRAM

USES AND USE RESTRICTIONS:

HUD insures lenders against loss on Mortgage loans. These mortgage loans may be used by owner-occupant mortgagors to finance the purchase of proposed, under construction, or existing single family housing. Maximum insurable mortgage is the lesser of (1) maximum Section 203(b) limits; (2) 97 percent of the first $25,000 of value and closing costs, plus 95 percent of the remainder (or 97 percent if the estimated value and closing costs are $50,000 or less); or (3) 97 percent of the appraised value and closing costs of the property, minus all of the deferred interest which would accrue during the graduated term. Section 245(b) permits lower downpayments which may be as low as those allowed under Section 203(b). This program is limited to new construction or substantial rehabilitation.

14.163 MORTGAGE INSURANCE—COOPERATIVE FINANCING

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

For most families, the maximum amount of the mortgage loan is 97 percent of the first $25,000 of estimated value plus 95 percent of the remainder, plus closing costs. If the estimated value plus closing costs is $50,000 or less, the maximum amount of the loan is 97 percent. The unit share of the project mortgage is deducted to determine the maximum Section 203(n) loan. The entire mortgage insurance premium is required at the time of loan origination. The origination charge by the mortgagee varies, but may not normally exceed one percent of the total mortgage amount.

14.165 MORTGAGE INSURANCE—HOMES—MILITARY IMPACTED AREAS

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

For most families the maximum amount of the loan is 97 percent of the first $25,000 of estimated value and closing costs, plus 95 percent of the remainder. If the estimated value plus closing costs is $50,000 or less, the maximum amount of the loan is 97 percent. The downpayment is the difference between the maximum loan amount and the purchase price of the home. In addition to the downpayment, the purchaser must pay for all items of prepaid expense. The mortgage insurance premium is 1/2 of 1 percent. The origination charge by the mortgagee varies, but may not normally exceed one percent of the total mortgage.

14.166 MORTGAGE INSURANCE—HOMES FOR MEMBERS OF THE ARMED SERVICES

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The maximum amount of the loan is 97 prcent of the first $25,000, plus 95 percent of the remainder. If the estimated value plus closing costs is $50,000 or less, the maximum amount of the loan is 97 percent. The downpayment is the difference between the maximum loan amount and the purchase price of the house. HUD charges a mortgage insurance premimum of 1/2 of 1 percent a year on the average outstanding balance of the mortgage during the year. For purchasers with a mortgage insured under Section 222, premiums are paid by the Department of Transportation if the purchaser is in the Coast Guard or by the Department of Commerce if she/he is an employee in the National Oceanic and Atmospheric Administration as long as active duty status continues while she/he owns the home. The Department of Defense has suspended its participation in this program.

14.169 HOUSING COUNSELING ASSISTANCE PROGRAM

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Applications to become HUD-approved are given to applicant agency by the HUD Field Office during the pre-application meeting. Applications for housing counseling grants are mailed to HUD-approved counseling agencies by HUD Regional Offices. This program is exempt from E.O. 12372, "Intergovernmental Review of Federal Programs." Because agencies approved by HUD are nonprofit or public organizations, the housing counseling RFGA process is exempt from State review.

Appeals:

Appeals may be made to the HUD Field Office concerning HUD approval of agency and to the HUD Regional Office concerning the grant application.

POST ASSISTANCE REQUIREMENTS:

Reports:

Grantees must file monthly invoice and monthly activity reports as well as final reports pursuant to grant agreement.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

$10,000 to $50,000 for housing counseling grantees.

14.170 CONGREGATE HOUSING SERVICES PROGRAM

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $2,985,000; FY 85 est $4,681,000; and FY 86 est $3,300,000.

Range and Average of Financial Assistance:

FY 1984, FY 1985 and FY 1986 funds are to amend existing contracts.

14.172 MORTGAGE INSURANCE—GROWING EQUITY MORTGAGES

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

For most families the maximum amount of the loan is 97 percent of the first $25,000 of estimated value and closing costs, plus 95 percent of the remainder. If the estimated value plus closing costs is $50,000 or less, the maximum mortgage amount is 97 percent. The downpayment is the difference between the maximum loan amount and the purchase price of the home. In addition to the downpayment, the purchaser must pay for all items of prepaid expense. The entire mortgage insurance premium which may be financed is required at the time of loan origination. The loan origination charge by the mortgagee varies, but may not normally exceed one percent of the total mortgage (minus the mortgage insurance premium, if financed). Mortgagors may be charged appraisal and inspection fees in accordance with fee schedules established by HUD.

14.174 HOUSING DEVELOPMENT GRANTS

APPLICATION AND AWARD PROCESS:

Application Procedure:

No new applications are being accepted, pending Congressional action on future of program.

PROGRAM ACCOMPLISHMENTS:

For the first round, 141 applications were approved for projects in 89 cities totaling $288.1 million. For the second round, 21 applications were approved for projects in 20 cities totaling $35,944,907.

14.175 ADJUSTABLE RATE MORTGAGES

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

For most families, the amount of the loan is 97 percent of the first $25,000 of estimated value and closing costs, plus 95 percent of the remainder. If the estimated value plus closing costs is $50,000 or less, the maximum mortgage is 97 percent. The downpayment is the difference between the maximum loan amount and the purchase price of the home. In addition to the downpayment, the purchaser must pay all items of prepaid expense. The entire mortgage insurance premium, which may be financed, is required at the time of loan origination. The loan origination charge by the mortgagee varies, but may not normally exceed one percent of the total mortgage (minus the mortgage insurance premium, if financed). Mortgagors may be charged appraisal and inspection fees in accordance with fee schedules established by HUD. The interest rate adjustments of the mortgage may not increase more than one percent per year or five percent over the term of the mortgage. There is no negative amortization. The mortgagor must receive a disclosure statement explaining the adjustable rate features of their mortgage.

Length and Time Phasing of Assistance:

The mortgage term may extend for 30 years.

14.176 SECTION 221(D) COINSURANCE FOR THE CONSTRUCTION OR SUBSTANTIAL REHABILITATION OF MULTIFAMILY HOUSING PROJECTS

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The maximum amount of the loan is limited to 90 percent of the lender-estimated replacement cost, except for nonprofit and cooperative mortgagors, where it is 100 percent and 98 percent, respectively. The statutory limits and debt service are also considered in determining the maximum loan amount. The mortgage insurance premium is 1 percent for the first year and one-half percent thereafter. The HUD application processing fee is $3 per $1,000 of the mortgage amount. The Inspection Fee may not exceed $5 per $1,000 of the mortgage amount.

POST ASSISTANCE REQUIREMENTS:

Records:

Coinsuring lenders must maintain a lender's quality control plan as required by HUD handbook 4060. 1, Mortgagee Approval Handbook, and other records pursuant to Handbooks 4561.1 and 4561.2. Mortgagors of coinsured projects must establish and maintain project financial records in accordance with HUD's Uniform Chart of Accounts.

REGULATIONS, GUIDELINES, AND LITERATURE:

24 CFR 251; HUD, Handbook 4561.1, Coinsurance for Mortgage Lenders (Section 221(d) and HUD Handbook 4561.2, Management, Servicing and Disposition Requirements for Projects with 221(d) Coinsured Loans.

14.218 COMMUNITY DEVELOPMENT BLOCK GRANTS/ ENTITLEMENT GRANTS

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Entitlements are based on a dual formula under Section 106 of the Act using statistical factors. Each metropolitan city and urban county is entitled to receive an amount equaling the greater of the amounts calculated under two formulas. The factors involved in the first formula are population, extent of poverty and extent of overcrowding, weighted 0.25, 0.50, and 0.25, respectively. The factors involved in the second formula are growth lag, poverty, and age of housing, weighted 0.20, 0.30, and 0.50, respectively. No matching requirement. This program has a modified maintenance of effort (MOE) requirement, see funding agency for further details. The statistical factors used for fund allocation are (1) total resident population from the source P25 Census Report as updated by Census Bureau using estimating techniques; (2) number of persons with incomes below the poverty level from the source 1980 Census; (3) number of housing units with 1.01 or more persons per room from the source 1980 Census;(4) age of housing; number of year-round housing units built in 1939 or earlier from the source 1980 Census; (5) growth lag; the lag in population growth as computed from population in 1960 to current population estimate from the source 1960 Census and P25, Census Report. Statistical factors used for eligibility are (1) metropolitan city; central city of a Metropolitan Statistical Area or city within MSA with 50,000 population from the source Census and OMB; (2) urban county; generally, counties in MSA having a net population of 200,000 or more outside entitlement cities from the source Census and OMB.

14.221 URBAN DEVELOPMENT ACTION GRANTS

OBJECTIVES:

To assist severely distressed large and small cities and urban counties (including Guam, American Samoa, Northern Mariana Islands, Virgin Islands and Indian Tribes) and non-distressed cities containing pockets of poverty in alleviating economic deterioration by means of increased public and private investment in order to aid in economic recovery to strengthen the economic, employment and tax bases of these cities.

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

Distressed cities and Urban Counties (including Guam, American Samoa, Northern Mariana Islands, Virgin Islands and Indian Tribes) and non-distressed cities containing pockets of poverty.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $740,313,000; FY 85 $621,028,000; and FY 86 est $412,000,000.

Range and Average of Financial Assistance:

There is no minimum or maximum amount in the Action Grant Program. FY 85 small cities average: $780,000; FY 85 large cities average: $1,900,000.

CRITERIA FOR SELECTING PROPOSALS:

A. Cities and Urban Counties. Threshold requirements to be met in order for applications to be part of national competition: (1) Firm financial commitments: All private and other public financing necessary for the project to be implemented must be firmly committed; (2) Leveraging ratio: At least $2.50 of private funds must be leveraged by each $1.00 of UDAG funds requested; (3) "But for": A determination must be made that "but for" the UDAG assistance, the project would not be carried out in the distressed city; and (4) Least amount necessary: A determination must be made that the UDAG request is the least amount necessary. After thresholds are met, the following criteria for survey and selection pertain: (1) The primary criterion is the comparative degree of physical and economic distress among applicants, as measured by the differences in the following factors, which are assigned relative weights as follows: (a) the percentage of their total housing stock that was built prior to 1940 (50 percent); (b) the percentage of their total current population that was in poverty in 1980 (30 percent); and (c) the degree to which their population growth rate lags behind that of all metropolitan cities (20 percent). (2) The comparative degree of physical and economic deterioration of applicants, including per capita income, unemployment, and job lag/decline. (3) The demonstrated performance of the applicant in carrying out housing and community development programs. (4) The impact of the proposed project on the employment base of the community, particularly jobs accessible to lower income persons and minorities. (5) The nature and extent of financial participation by private entities in the proposed project. (6) The extent of financial assistance to be made available by the State and local government. (7) The nature and extent of financial participation by other public entities in the proposed projects. (8) The impact of the proposed project on the physical, fiscal, or economic base of the community. (9) The feasibility of accomplishing the projects in a timely fashion within the total resources which will be provided. (10) The extent of minority business participation that the project will have. (11) The impact of the project in increasing energy efficiency or conserving scarce fuels, and several other factors. B. Pockets of Poverty Communities. The Secretary will not use as the primary criterion the comparative degree of distress, but rather the comparative degree of distress among pockets of poverty as measured by the eligibility criteria for cities not meeting minimum standards, and by the comparative benefits to be provided to the low- and moderate-income residents of the pocket of poverty. Proposals for pockets of poverty will be considered separately from those submitted by distressed cities and urban counties. However, the selection criteria of (3) through (11) above supplemented by additional criteria will be used to select projects for funding. Each project submitted by a jurisdiction eligible on the basis of a pocket of poverty must compare favorably on its own merits with any other action grant project to be selected for funding.

State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

PROGRAM ACCOMPLISHMENTS:

Eight projects are being supported in the areas of coal mining and range and forest management. Recent accomplishments have been primarily in the areas of forest re-establishment and control of competing vegetation. In fiscal year 1984, one application received; no new awards made.

REGULATIONS, GUIDELINES, AND LITERATURE:

43 CFR 1725.3, Bureau of Land Management Manual 1742, OMB Circular Nos. A-21, A-87, A-102, A-110 and A-128.

15.250 REGULATION OF SURFACE COAL MINING AND SURFACE EFFECTS OF UNDERGROUND COAL MINING

USES AND USE RESTRICTIONS:

Grants for permanent program development are available for staff and related costs in connection with preparing State legislative proposals; preparing State regulations; preparing permanent program applications to the Office of Surface Mining Reclamation and Enforcement; and for other related purposes. Administrative and enforcement grants are awarded to assist States that have received approval of permanent regulatory programs. Small Operator Assistance Program Operational grants are awarded to States and individual assistance is provided for contracting with qualified laboratories to provide hydrologic and geologic data on behalf of eligible small coal operators. Funded cooperative agreements provide for State regulation of coal mining activities on Federal lands and for tribal program development. Technical assistance is available on any aspect of regulating surface impacts of coal mining.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State governor, Tribal chairman designated agencies, and small coal mine operators.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Small operators are required to submit assistance applications to the applicable State agency or to OSM for Federal program States and Federal lands. State Regulatory grant applicants are required to submit applications to OSM Field Office. Both State and small operator applications must meet specific criteria described in the Federal Register, 30 CFR Part 725, 735 and 795, Volume 42, No. 239, dated Tuesday, December 13, 1977 as amended in Volume 47, No. 169, dated Tuesday, August 31, 1982. Copies of the regulations and applications are available from the Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, DC 20240 and the appropriate Field Office.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

15.252 ABANDONED MINE LAND RECLAMATION (AMLR) PROGRAM

USES AND USE RESTRICTIONS:

State and Indian Reclamation Program (SIRP) (Project Grants): Indian tribes are considered as States for the purpose of this program. Project grants are restricted to lands and water mined or affected by mining processes that occurred prior to August 3, 1977, and are defined as "eligible lands." Eligible lands include coal mining and related processes as well as noncoal mining and related processes. A State with eligible lands, and active coal mining operations contributing to the abandoned mine reclamation fund may submit a State reclamation plan to the Office of Surface Mining for approval. After State regulatory program approval the State reclamation plan can be approved, and the State may submit annual reclamation programs and project grant requests to the Office of Surface Mining. The State's allocated share of the abandoned mine reclamation Fund is used to fund approved project grant requests. Prior to completion of all coal mine related reclamation, noncoal projects are restricted to those instances where the Governor of the State requests noncoal reclamation; the Director of the Office of Surface Mining makes a finding that the reclamation is necessary; and money to supprt the reclamation is available from the State's allocation of the abandoned Mine Reclamation Fund. Federal Reclamation Program. Federal reclamation projects are conducted on a national basis on eligible lands.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

State Reclamation Program (Administrative and Project Grants): A State/Indian reclamation plan requires the approval of the Assistant Secretary for Land and Minerals Management. A State/Indian grant requires the approval of the Assistant Secretary, Land and Minerals Management and the Director. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. Federal Reclamation Program: Federal reclamation projects are conducted on a national basis and require Department of the Interior's approval to insure compliance with statutory mandates.

APPLICATION AND AWARD PROCESS:

Application Procedure:

State and Indian Reclamation Program (Project Grants): Grant applications for projects may be submitted to the applicable OSM Field Office at any time during the fiscal year for funding for that fiscal year. Administrative grants must be applied for on an annual basis, construction grants may be applied for up to three years. An application for funding during the fiscal year in which a State Reclamation Plan is approved, may be submitted with the proposed plan for approval when the Plan is approved. The application format for Federal Assistance Application for Construction Programs and other procedures specified by OSM are available from the Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, DC 20240 and the appropriate Field Office. Federal Reclamation Program: Federal reclamation projects are funded on a national basis, hence, certain funding procedures are different than for State and Indian program project grants. Contact the Office of Surface Mining for details.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

State/Indian Reclamation Program (Project Grants): Grants are based primarily on fifty percent of the reclamation fees collected in a State; however, States/Tribes may be granted additional funds for emergency and other high priority abandoned mine land reclamation projects. Project grants are usually approved for 100 percent of the request; but land acquisition may not exceed 90 percent of the acquisition cost. Federal Reclamation Program: Federal reclamation project funds are authorized at a level of approximately fifteen percent of the reclamation fees collected.

POST ASSISTANCE REQUIREMENTS:

Audits:

State/Indian Reclamation Program (Project Grants): In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

FINANCIAL INFORMATION:

PROGRAM ACCOMPLISHMENTS:

State Reclamation Program (Project Grants): 23 States/Tribes have received planning moneys to administer reclamation programs and carry out reclamation projects. The initial data collection effort for the National Abandoned Mine Lands inventory was completed during the first half of fiscal year 1983. Updating will be accomplished by the States/tribes through AML Administrative grants. Federal Reclamation Program: Approximately 1,240 reclamation projects have been initiated.

15.308 GRANTS FOR MINING AND MINERAL RESOURCES AND RESEARCH INSTITUTES

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

$147,000 received by each institute as a formula grant. Project grants average $1,000,000.

PROGRAM ACCOMPLISHMENTS:

Thirty-one designated Institutes received allotment grants of $147,000 each in fiscal year 1985. Five Generic Center research grants were increased.

15.501 DISTRIBUTION SYSTEM LOANS

FINANCIAL INFORMATION:

Obligations:

(Loans) FY 84 $10,051,125; FY 85 $7,610,539; and FY 86 est $13,967,000. (Salaries and Expenses) FY 84 $155,496; FY 85 $77,585; and FY 86 $286,740.

PROGRAM ACCOMPLISHMENTS:

About $137 million have been authorized under the program for 19 irrigation districts since 1956. No applications were received in fiscal year 1984 or 1985 and none is anticipated in 1986.

15.502 IRRIGATION SYSTEMS REHABILITATION AND BETTERMENT

FINANCIAL INFORMATION:

Obligations:

(Loans) FY 84 $33,899,642; FY 85 est $27,267,804; and FY 86 est $6,210,000.

15.503 SMALL RECLAMATION PROJECTS

FINANCIAL INFORMATION:

Obligations:

(Grants and loans) FY 84 $35,516,891; FY 85 est $47,393,751; and FY 86 est $38,367,000; (Salaries and Expenses) FY 84 $551,306; FY 85 est $476,596; and FY 86 $776,000.

PROGRAM ACCOMPLISHMENTS:

One hundred twenty-two loans have been approved under this program. Loans approved to date total about $580,000,000. Seven applications were received in fiscal year 1984 and 5 were approved. Five applications were received in fiscal year 1985 and 4 were approved. Five new approvals are expected in fiscal year 1986. Ten applications are currently under review and another 33 notices of intent to apply have been received.

15.600 ANADROMOUS FISH CONSERVATION

AUTHORIZATION:

Anadromous Fish Conservation Act of 1965, Public Law 89-304, as amended by Public Laws 91-249, 93-362; 95-464, 96-118, 97-433; and 98-613; 16 U.S.C. 757a - 757g.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $2,720,000; FY 85 est $3,287,000; and FY 86 est $0. (Emergency Striped Bass Study): FY 84 $600,000; FY 85 est $588,000; and FY 86 est $0.

PROGRAM ACCOMPLISHMENTS:

(U.S. Fish and Wildlife Service) Ten new anadromous fish hatcheries have been constructed, and one more is underway. Forty-eight fish ladders have been constructed, one dam has been removed, and two additional fish ladders have been renovated to provide upstream passage for migrating anadromous fish. Research under a four-State project to restore Atlantic salmon and American shad in the Connecticut River has resulted in a speeded-up construction schedule for new fishways, bringing about earlier restoration of anadromdus fish in upriver sections, and improvements to an existing fish lift at Holyoke, Massachusetts, that have more than quadrupled the number of shad and alewives lifted over this dam. The State of Washington and concerned Indian tribes have developed a computerized program for assessing the anadromous fish harvest in the Boldt decision area. Research under the program has produced a vaccine to immunize juvenile salmon and trout against a saltwater disease known as vibriosis. The Emergency Striped Bass study has produced an economic study of the striped bass from Maine to North Carolina.

15.603 FARM FISH POND MANAGEMENT

USES AND USE RESTRICTIONS:

Fish are supplied to stock new or reclaimed farm and ranch ponds. Fish are not available for ponds that are currently stocked or are less than one-quarter acre in size, subject to any form of commercialization, or apparently biologically incapable of sustaining fish life. Channel catfish are stocked on a one-time basis only. (Southeastern U.S. States of Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, and Tennessee only).

APPLICATION AND AWARD PROCESS:

Deadlines:

None. However, in some areas, applications received after July 1 cannot be filled until the following year because of hatchery production schedule.

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 84 $273,000; FY 85 est $275,000; and FY 86 est $275,000.

INFORMATION CONTACTS:

Headquarters Office:

U.S. Fish and Wildlife Service, Box 700 Kearneysville, West Virginia 25430. Telephone: (304) 725-5316. Contact: Kathy McAllister.

CRITERIA FOR SELECTING PROPOSALS:

The Service participates in the farm pond program by providing the appropriate species of fish, free of charge, to individuals owning ponds developed under the Soil Conservation Service's pond program. Ponds constructed under other programs and privately-constructed ponds are also considered for stocking. The program only functions in the Southwestern States of Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, and Tennessee. At the present time, the Service stocks only fingerling warmwater fish (largemouth bass, bluegill, redear sunfish, and channel catfish in ponds administered under the farm pond program. Only those ponds considered by qualified biologists (Federal or State) as suitable for sustaining fish populations will be stocked, on a first come first serve basis and depending on hatchery priorities. If a pond is commercialized, already contains fish, or is less than 1/4 acre in size, it does not qualify for stocking and the application is rejected. State stocking policies are given precedence over Service requirements in instances where State standards are more restrictive. Service participation is presently limited to the initial stocking of farm ponds. If subsequent stockings are necessary, the pond owner must obtain his fish from other sources or a commercial dealer. When proper management dictates the reclaiming of a pond by draining or the removal of all fish by chemical means, the pond may be considered new and the owner may request an initial stocking of fish. Current production from National Fish Hatcheries generally is not sufficient to meet priority needs for stocking waters on Federal, Indian, and State lands open to the public for fishing. The Service's Regional personnel review each application on fish stocking and advise each pond owner as to availability of fish for stocking in private waters. If fish cannot be supplied from a National Fish Hatchery, the Regional Office may provide assistance in locating commercial sources for fish.

15.604 FISHERY RESEARCH—INFORMATION

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 84 $10,624,000; FY 85 est $10,760,000; and FY 86 est $10,907,000.

PROGRAM ACCOMPLISHMENTS:

Developed the enzyme-linked immunosorbent assay (ELISA) as a serodiagnostic method for identification of bacterial kidney disease (BKD) in hatchery reared Pacific salmon. Discovered that the rhabdovirus, infectious hematopoietic necrosis (IHN) may be transmitted vertically (generation to generation) by adsorption on the sperm. Initiated a life history study of the endangered Moapa dace in the upper Muddy River system of Nevada. Population estimated 2,000. A solid bar formulation of the lamprey larvicide 3-trifluoromethyl-4 nitrophenol (TFM) registered by EPA became operational this year. Determined that sylty soils of the Mississippi River backwaters absorbed more than twice as much rotenone, a widely used pesticide, as low silt mid-channel substrate. Participated for the Federal court in the resolution of a long-standing treaty dispute over Great Lakes fishing rights of Michigan Indians. Dot blot assays were developed for detection of Vibrio anguillarum, pathogen of the disease vibriosis, that were 100 times more sensitive than the indirect fluorescent antibody test. A long-term collaboration feeding and release study at the Platte Rover Coho Salmong Hatchery in Michigan showed that then new low-phosphorus pollution diet reduced phosphorus discharges by 43 percent and produced growth 85 percent as good as that for the conventional hatchery diet, OMP. Growth selected channel catfish produce fingerlings that are 21 to 32 percent larger than controls in pond and tank comparison tests. If stocked larger than 12 inches and in sufficient numbers, grass carp can provide effective long-term management of submerged aquatic weeds.

15.605 FISH RESTORATION

APPLICATION AND AWARD PROCESS:

Award Procedure:

The Regional Director approves or disapproves proposed projects. Regional offices are responsible for notification of grant approval to the grantee by return of completed agreement.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Forty percent on the basis of land and water area of the State and 60 percent on the basis of paid fishing license holders. No State may receive more than five percent or less than one percent of the total apportioned. Puerto Rico is apportioned one percent; Guam, the Virgin Islands, the Northern Mariana Islands, American Samoa, and the District of Columbia are apportioned one-third of one percent. States are reimbursed up to 75 percent of the total project cost. Statistical factors used for fund allocation are (1) States percentage share of land and water area and statute miles of coastline including coastal and Great Lakes Waters from the 1980 Census of Population (PC 80-1-A), Census; Coastline of the U.S., NOAA; (2) States percentage share of number of paid fishing license holders from the source annually certified by each State's fish and wildlife agency. Statistical factors used for eligibility do not apply for this program.

POST ASSISTANCE REQUIREMENTS:

Audits:

Audits of internal controls, reliability of financial reports, and compliance with regulations and legislation are required in accordance with the single Audit Act of 1984. In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

15.611 WILDLIFE RESTORATION

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Participation limited to State fish and Wildlife agencies. States must have passed laws for the conservation of wildlife which include a prohibition against diversion of license fees paid by hunters for purposes other than the administration of the State fish and Wildlife Agency. Also eligible are Puerto Rico, Guam, the Virgin Islands, American somoa and the Northern Mariana Islands.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Fifty percent on the basis of land area of the States and 50 percent on the basis of paid hunting-license holders. No State may receive more than five percent or less than one-half of one percent of the total apportioned. Puerto Rico is apportioned one-half of one percent; Guam and the Virgin Islands, American Somoa and the Northern Mariana Islands are each apportioned one-sixth of one percent of the total apportioned. Hunter safety funds are apportioned on the basis of population of the States. No State may receive more than three percent or less than one percent of the total apportioned. States may be reimbursed up to 75 percent of the total project cost. This program has maintenance of effort (MOE) requirements, see funding agency for further details. Statistical factors used for fund allocation are (1) States percentage share of land area from the 1980 Census of Population (PC 80-1-A), Area Measurement Report, Census; (2) States percentage share of number of paid hunting license holders, from the source annually certified by each State's fish and Wildlife agency; (3) States percentage share of population (hunter education) from the source 1980 Census of Population. Statistical factors used for eligibility do not apply for this program.

POST ASSISTANCE REQUIREMENTS:

Audits:

Audits of internal controls, reliability of financial reports and compliance with regulations and legislation required in accordance with the Single Audit Act of 1984. In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. (Grants) FY 84 $105,278,000; FY 85 est $79,100,000; and FY 86 est $85,600,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 39,705 acres of wildlife habitat were acquired in fee title by participating States. Fiscal year 1985 statistics are not available at this time.

15.800 GEOLOGIC AND MINERAL RESOURCE SURVEYS AND MAPPING

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 84 $750,000; FY 85 est $1,063,000; and FY 86 est $1,200,000.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1984, a total of 32 geologic and geophysical reports were issued.

15.801 CARTOGRAPHIC INFORMATION

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 84 $4,020,000; FY 85 est $3,517,000; and FY 86 est $3,543,000.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1984, 230,000 inquiries for cartographic information were processed. In fiscal year 1985, it is estimated that there will be about 250,000 inquiries processed; fiscal year 1986 estimate 270,000. During fiscal year 1984, NCIC processed orders for $3,079,579 for preparation of aerial/space photographic reproductions, map manuscript copy, and geodetic control lists. Since the start of NCIC's State affilate program in 1976, 41 States have signed agreements establishing NCIC affiliate offices.

15.803 NATIONAL MAPPING, GEOGRAPHY AND SURVEYS

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 84 $2,190,000; FY 85 est $1,900,000; and FY 86 est $1,900,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, about 98,525 square miles of 1:24,000, 1:25,000, and 1:63,360 scale primary quadrangle mapping coverage were accomplished. In fiscal year 1985, it is estimated that the primary quadrangle mapping production will be 99,900 square miles, the equivalent of 1,760 standard quadrangle maps. Additional production in 1984 included the revision of 1,275 maps, comprising 72,560 square miles, revision or completion of 100, 1:250,000-scale and special-format maps, such as maps of the individual States and maps of Antarctica, preparation of 1,400 orthphotoquads in fiscal year 1984 and about 1,500 in fiscal year 1985, preparation of about 170, 1:100,000 and 1:50,000 intermediate scale maps, in fiscal year 1984 and 500 in fiscal year 1985, production of 53 land use land cover maps and digitizing from 1 to 3 categories of data over about 4,860 quadrangles. In 1984, the National Mapping Division had joint funding agreements with twenty-seven States.

15.804 WATER RESOURCES INVESTIGATIONS

FINANCIAL INFORMATION:

Obligations:

15.805 ASSISTANCE TO STATE WATER RESOURCES RESEARCH INSTITUTES

APPLICATION AND AWARD PROCESS:

Deadlines:

For fiscal year 1986, postmarked not later than January 3, 1986.

POST ASSISTANCE REQUIREMENTS:

Reports:

Each State institute makes a final report relating to its program and activities supported with this grant, containing synopses of research projects on water resources planning, management or policy formulation.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $6,210,000; FY 85 est $5,886,000; and FY 86 est $5,153,000.

15.806 NATIONAL WATER RESOURCES RESEARCH PROGRAM

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1985, 369 research proposals were received of which 24 were selected for funding.

EXAMPLES OF FUNDED PROJECTS:

(1) Investigation of the Transport and Fate of Gasoline Hydrocarbon Pollutants in Ground Water; (2) Optional Design Methods for Maximizing Water Use Efficiency Utilizing Surge Flow Irrigation; (3) Desalination and Water Reuse by the Vacuum Freezing Multiple Phase Transformation Process; (4) Toxic Metals in Lakes and Streams, Use of Naturally Occurring Radioactive Metals as Tracers of Biogeochemical Processes; (5) Development of Purge and Trap with Whole Column Cryotrapping for Analysis of Ground Water Contaminated with Organic Compounds.

15.875 ECONOMIC AND POLITICAL DEVELOPMENT OF THE TERRITORIES AND THE TRUST TERRITORY OF THE PACIFIC ISLANDS

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Eligible applicants are the U.S. territories of Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands; and the Trust Territory of the Pacific Islands.

Beneficiary Eligibility:

Beneficiaries are the U.S. territories of Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Budget submission instructions, outlining specific requirements, dates, and formats, are issued annually to the U.S. territories and the Trust Territory of the Pacific Islands.

Award Procedure:

A grant award is made to each territorial government entity in the specific amounts and for the specific purposes set forth in the annual Department of Interior and Related Agencies Appropriation Act signed by the President.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

This program has no statutory formula and no matching requirements.

Length and Time Phasing of Assistance:

Grant funds are available until expended and are provided quarterly, as required, and through Letter of Credit arrangements, depending on the purpose for the funds and funding arrangements with the individual territories.

At least 75 percent of the funds available to each State were earmarked for "advanced techniques" in preventing delinquency, diverting juveniles from criminal justice systems, and providing community-based alternatives to traditional corrections methods. All participating States and territories have established systems for monitoring jails, lock-ups and facilities which are used to detain or incarcerate juveniles. Substantial progress has been made in the removal of non-offender juveniles from these institutions.

16.541 JUVENILE JUSTICE AND DELINQUENCY PREVENTION—SPECIAL EMPHASIS AND TECHNICAL ASSISTANCE

AUTHORIZATION:

Juvenile Justice and Delinquency Prevention Act of 1974 (Sections 204 (b)(6) and 224-225); Public Law 93-415 as amended by Public Law 94-503, Public Law 95-115, Public Law 96-509, and Public Law 98-473, 42 U.S.C. 5601, et seq.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements or Contracts).

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular Nos. A-87 for State and local governments, A-21 for educational institutions, and A-122 for nonprofit organizations.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Special Emphasis: In some program initiatives, applicants are invited to submit preliminary applications or concept papers in response to program announcements issued by OJJDP. The original and one copy are sent to the OJJDP in Washington, DC, and where applicable one copy is sent to the Criminal Justice Council; or the original and two copies are sent to the OJJDP if the proposed program extends beyond State boundaries. Preliminary applications are not to exceed 15 pages, but may have supporting information in appendices. Preliminary applications are judged on program requirements according to pre-defined selection criteria. Those applicants judged to meet selection criteria at the highest level are invited to develop full applications. Each program announcement provides the dates for preliminary application submission. The standard application forms as furnished by the Federal agency and required by OMB Circular Nos. A-102 or A-110 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs", and applies except for grants which are national in scope. Program announcements will provide instructions regarding the necessity of submission to single State agencies. An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure:

The applicant submits an original and 2 copies of proposals on Standard Form 424 in response to specific guidelines published by OJJDP. Applicants are expected to address each concern or requirement in the guidelines as clearly and specifically as possible, giving particular attention to goal and objective statements, methodology and data requirements. A peer review group is established as mandated in Section 225(d)(1)(A) of JJDP Act and applications are rated and ranked in relation to pre-defined selection criteria. This program is subject to the provisions of OMB Circular No A-110.

Award Procedure:

Special Emphasis: Assistance awards and contracts are awarded directly to applicants or may be awarded to State agencies established to administer the JJDP Act Formula Grant Program or a National Program Coordinator with a subgrant or contract to successful applicants for program administration and implementation. In either instance, both grantees and subgrantees are notified of a pending award. Technical assistance: Funds are awarded via contract with selected organizations. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Appeals:

Informal reconsideration by Administrator for assistance applicants, administrative hearings for assistance award terminations. See C.F.R. Pat 18, 50 F.R. 28199, July 11, 1985.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Special Emphasis: Initial Awards usually are made for 12-18 months and with further funding based upon the project period and grantee performance. Drawdowns are possible under a Letter of Credit. Technical Assistance: Varies according to the type of request.

FINANCIAL INFORMATION:

Obligations:

(Grants) Special Emphasis: FY 84 $19,848,000; FY 85 $18,904,000; and FY 86 est $6,092,000. Technical Assistance: FY 84 $1,568,000; FY 85 $1,743,000; and FY 86 est $734,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1985, special emphasis continuation grants were awarded under the program areas of Habitual Serious Offender- Drug Involved, Habitual Serious Offender (prosecutorial), Violent Juvenile Offender Part II and several prevention programs. Also during 1985, special emphasis funds were awarded for the Private Sector Corrections Program. In fiscal year 1985, continuations also included the National Center for Missing and Exploited Children; a national program which targets Hispanic juvenile runaways and sexually exploited youths; a private sector corrections program commenced; and, a technical assistance voucher program aimed at assisting indigenous communities. Some existing technical assistance efforts were continued.

16.542 NATIONAL INSTITUTE FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements or Contracts).

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $7,846,000; FY 85 est $9,327,000; and FY 86 est $274,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1985, the National Institute for Juvenile Justice and Delinquency Prevention funded grants that supported a wide variety of activities. Training has been provided to over 5,000 individuals, including: lawyers, judges, law enforcement executives; juvenile court, detention, and correctional administrators; teachers; students; and, practitioners. These training programs dealt with a range of juvenile justice topics, including juvenile restitution programming, law-related education, model juvenile detention operations, law enforcement and juvenile and family court handling of serious juvenile offenders as well as abused and neglected children in need of permanent placements. Significant accomplishments in the research program include the publication of results of a number of research projects and program announcements for new research in the areas of prevention of delinquent behavior and child exploitation, improvement of the juvenile justice system processing of selected offender populations and the development of alternatives to traditional juvenile justice system handling of youth.

EXAMPLES OF FUNDED PROJECTS:

Projects funded during fiscal year 1985 include research on serious/violent juvenile offenders, the effects of foster care on delinquency, the effectiveness of differential probation supervision on juvenile recidivism, and evaluations of promising private sector programming for delinquent offenders, and other projects related to national data collection, information dissemination and selected national training programs.

CRITERIA FOR SELECTING PROPOSALS:

Applications are judged according to their consistency with the policies and program priorities established by the Juvenile Justice and Delinquency Prevention Act. Specific criteria are applied that are related to the particular program areas under which projects are funded. The criteria are incorporated in the individual program announcements. Applications undergo a competitive peer review process as outlined in the OJJDP Competition and Peer Review Policy, 28 CFR Part 34, and the "OJJDP Peer Review Manual".

17.150 PENSION AND WELFARE BENEFIT PROGRAMS

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 84 $28,629,000; FY 85 est $29,088,000; and FY 86 est $28,341,000.

PROGRAM ACCOMPLISHMENTS:

Several significant changes were made by the Department of Labor in fiscal years 1984 and 1985. A major item was the establishment of the Office of Pension and Welfare Benefit Programs (OPWBP) as a separate entity reporting directly to the Secretary. ERISA currently covers approximately 915,000 pension plans and 4,560 million welfare plans, representing over 66 million pension participants, and 200 million participants in welfare plans. Total assets in plans covered by ERISA are over $1 trillion, of which $20 billion are in welfare plans. In fiscal year 1985, OPWBP reorganized the enforcement program in the National Office and the field to provide added investigative capability and more efficient and effective field structure. A new Division of Investigations was established to conduct certain nationwide complex and high visibility investigations which required confidentiality and timely action. During 1985, OPWBP completed 826 fiduciary and 34 criminal investigations, which resulted in the recovery or protection of $47 million in plan assets. It is anticipated that 12 indictments will have taken place by the close of the fiscal year 1985. In fiscal year 1985, regulations and interpretations activities continued to progress relating to our efforts to simplify ERISA requirements and to provide dispositive guidance. Major regulations were proposed to clarify which pension assets are subject to ERISA's fiduciary responsibility rules ("plan assets") and to prescribe an exemption and alternative method of compliance with the annual reporting requirements for plan investing in entities where assets are deemed to be "plan assets." Of special significance during this period was the Department's establishment of a new policy to prevent the misuse of pension assets in corporate takeovers and plan terminations to assure that a participant's benefits are protected. The Department also continued to carry out its program of deregulation by simplifying or reducing paperwork requirements under ERISA. Of special interest was the Department's deregulatory action that expands the investment alternatives available to pension plans while protecting the benefits of fund participants and beneficiaries. In other significant actions, the National Pension Forum issued its final report. The Forum, initiated by the Secretary of Labor, was composed of bipartisan representatives from government, industry and the public to assess the first 10 years of ERISA and provide recommendations for improvement of the Department's administration of the statute. The pilot project for the electronic filing for approximately 1,000 plan returns proved to be a major success. Several research projects were completed as well, including the aggregation in an electronic data base of information from 1981 and 1982 annual report submissions. Statistical analysis of this data will be conducted to provide a profile of plan characteristics and a resource file for targeting and enforcement activities. In addition a comprehensive study of pension benefit levels in the U.S. and a study of the rates of return on plan assets and investments will be completed during fiscal year 1985.

17.207 EMPLOYMENT SERVICE

USES AND USE RESTRICTIONS:

The Wagner-Peyser Act of 1933 established a Federal-State Employment Service consisting of a nationwide network of public employment offices. The United States Employment Service, through grant agreements with the States, supports the system to serve persons seeking or needing employment and employers seeking workers. This public employment service system focuses on providing job finding and placement services to jobseekers and recruitment services to employers with job vacancies. Veterans receive priority referral to jobs as well as special employment services and assistance. Handicapped workers are also entitled to special employment services. Also available may be counseling and testing services to jobseekers, as planned by each State. The services offered to employers, in addition to referral of applicants to job openings, include matching job requirements with worker skills and assistance in job modification to help fill hard-to-fill openings. Title V of the Job Training Partnership Act (JTPA) of 1982 amended the Wagner-Peyser Act. The key changes to the employment service resulting from these amendments are: --Shifts the basis for distributing funds among the States to a formula relying on labor force and unemployment. Intra-State distribution of resources is a State responsibility. --Restructures the planning process to involve, jointly with the State Employment Service, those responsible for the local JTPA program. --Assigns the State Job Training Coordinating Council (SJTCC) responsibility for certifying employment service plans, mediating disagreements on plans and proposing resolutions to those plan disagreements that are submitted to the Secretary of Labor for final determination. --Provides the Governors with funds for performance incentives, to serve special target groups, and to support any extraordinary costs of model projects. --Refocuses the Employment Service on basic labor exchange activities by requiring that certain Federal requirements, such as labor certification will be administered through separately funded reimbursable agreements with the States. The Employment Service system may provide specialized services such as those described below. (The provision of certain specialized services are provided through separately funded reimbursable agreements with the State agencies.) 1. Services to special applicant groups such as veterans, migrant and seasonal farmworkers, handicapped job seekers, disadvantaged job seekers, youth, minorities and older workers. This may include special emphasis counseling and assisting such workers to overcome barriers to employment which are unrelated to job performance. 2. A nationwide computerized interstate job listing of hard-to-fill employer openings distributed to all Employment Service local offices. 3. The development and cataloging of State and local labor market information which allow job seekers and employers to obtain information pertaining to job opportunities, labor supply, labor market trends, the job market situation in particular industries. 4. Employment Services are provided to workers and businesses who have been certified as having been adversely affected by United States foreign trade policies. Such workers may receive specialized job search and referral assistance training allowances and referral to supportive services from local employment service staff. (The certification process is described in program 17.203.) 5. The Employment Service provides certification of workers hired by employers as meeting the criteria of one of the nine groups of targeted applicants as set forth in the Revenue Act of 1978 (Targeted Jobs Tax Credit Program) amended by the Economic Recovery Act of 1981 and the Tax Equity and Fiscal Responsibilities Act of 1982 and the Deficit Reduction Act of 1984. The Employment Service coordinates the vouchering activity to identity potentially eligible applicants (performed by local cooperating agencies or by its own staff acting for a cooperating agency) and is the sole source of employer certifications.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The Wagner-Peyser Amendments of 1982 require that at least 97 percent of the funds appropriated for allotments to States be distributed by the formula provisions of Section 6 of the Act. A total of approximately 38,000 lost-time injuries were reported during fiscal year 1984. Estimated accomplishments for fiscal years 1985 and 1986 in these same categories are as follows: Workers or their survivors being compensated in a typical month--fiscal year 1985, 16,750 and fiscal year 1986 17,000; Total number of lost-time injuries reported--fiscal year 1985, 42,000, and fiscal year 1986, 43,000.

17.303 MINIMUM WAGE AND HOUR STANDARDS

USES AND USE RESTRICTIONS:

Federal wage and hour standards apply generally to employees engaged in interstate or foreign commerce or in the production of goods for such commerce or in enterprises so engaged and, in addition, to employees of Federal, State and local governments. For covered employment the minimum hourly wage is $3.35 per hour with time and one-half the regular rate of pay required for hours worked over 40 in a workweek. To the extent necessary to prevent curtailment of employment opportunity, certificates authorizing special minimum wage rates are issued for learners, handicapped workers, full-time students, student workers, and apprentices. In nonagricultural employment, the basic minimum age is 16 years for general employment, 14 for work outside school hours in certain occupations under specified conditions, and 18 in occupations found hazardous by the Secretary. In agricultural employment, the basic minimum age is 16 years during school hours and in occupations found hazardous by the Secretary; otherwise, 14 for work outside school hours except for 12 and 13-year-olds with written parental consent or on farms where their parents are employed, or under age 12 with written parental consent on a farm not subject to Federal minimum wage or under a limited waiver for local 10 and 11-year-old hand-harvesters of short-season crops under specified conditions. Failure to comply with the child labor provisions of the Fair Labor Standards Act or regulations issued thereunder may result in an assessment of a civil money penalty not to exceed $1,000 for each violation. Employees of contractors performing on most federally financed or assisted construction projects, or providing services under contract to Federal agencies, are subject to special standards. These special standards require that employees receive no less than the wages and fringe benefits prevailing in the locality as determined by the Secretary of Labor, and that overtime compensation, with few exceptions, be paid for hours worked on such contracts in excess of eight hours in a day or 40 in a week, whichever is greater. The standards apply to performance on direct Federal contracts and also to most construction projects financed in whole or in part by the Federal Government (e.g., projects under the State and Local Fiscal Assistance Act of 1972 and National Housing Act). For Federal and federally assisted construction contracts over $2,000 and Federal service contracts over $2,500 subject to prevailing wage requirements, contracting agencies must obtain a wage determination issued by the Wage and Hour Division. Employees working on Federal contracts in excess of $10,000 calling for the manufacture or furnishing of supplies are required to be paid not less than the Federal minimum wage and overtime pay for hours worked in excess of 8 hours a day or 40 a week, whichever is greater. An employee is protected from discharge or other forms of discrimination under the so-called "whistleblower" provisions of several environmental impact laws, where the employee testifies in or otherwise assists a proceeding or other investigation of a violation of one of these statutes. A protected employee may obtain reinstatement to the former position and/or other forms of redress. Labor standards are set under the Arts and Humanities Act which require the payment of the prevailing minimum compensation as determined by the Secretary of Labor to each of the professional performers or supporting professional personnel who work on projects or productions assisted by grants from the National Endowments for the Arts and Humanities.

FINANCIAL INFORMATION:

In fiscal year 1984, 13,497 black lung claims were processed to initial finding and $594,213,000 in benefits were paid to approximately 202,515 claimants. In fiscal year 1985, it is anticipated that 11,500 claims will be processed to initial findings and $630,318,000 in benefits will be paid to 196,492 claimants. Approximately $632,868,000 in benefits payments to 190,293 claimants are projected for fiscal year 1986 with 9,600 claims being processed to initial findings.

17.308 FARM LABOR CONTRACTOR REGISTRATION

USES AND USE RESTRICTIONS:

The program requires the contractor, agricultural employer or agricultural association to keep certain records and to comply with appropriate Federal and State safety and health standards for transportation and housing, and prohibits the knowing employment of illegal aliens by farm labor contractors. It requires that contractors, agricultural employers and agricultural associations obtain motor vehicle liability insurance or, in some instances, Workers' Compensation Insurance and that they insure the migrant agricultural worker and his/her personal property against injury or damage arising out of a transportation accident. Contractors, agricultural employers and agricultural associations must also comply with the applicable regulations of the Department of Transportation, Bureau of Motor Carrier Safety. The Act distinguishes between the traditional farm labor contractor and fixed-situs agricultural employers and prohibits the knowing employment of illegal aliens by farm labor contractors. It provides important worker protections such as vehicle safety and insurance coverage against both personal liability and property damage while being transported in connection with their employment; housing safety and health; disclosure of wages, hours and working conditions; maintenance of necessary records and furnishing to workers itemized information concerning pay and withholding. It further provides exemptions for both family businesses and small businesses. Any farm labor contractor who, for any money or other valuable consideration paid or promised to be paid, recruits, solicits, hires, employs, furnishes, or transports any migrant or seasonal agricultural worker (excluding members of his/her immediate family) for agricultural employment, must register under the Act, unless qualified for specific exemptions. Agricultural employers and agricultural associations must comply with the worker protection standards, but are not required to register. Persons having knowledge of any practices or omissions which are not in compliance with the requirements of the Act, and persons requesting additional information concerning the Act are encouraged to write, telephone or visit the nearest State employment service office or the nearest Wage and Hour Division Office listed in Appendix IV of the Catalog. Information should be provided describing the type of business activity and the nature of the work performed. The names of persons making inquiries are treated in complete confidence. Users of the services of a farm labor contractor are prohibited from engaging the services of one who is unregistered. Failure to comply with this Act and its regulations may result in criminal prosecution, civil injunctive action, civil money damages and assessment of civil money penalties of up to $1,000 for each violation.

APPLICATION AND AWARD PROCESS:

Deadlines:

Certificates of registration for new applicants expire on the last day of the month, 12 months from the date of issuance, unless revoked. Farm labor contractor renewal certificates expire on the last day of the birth month of the farm labor contractor, unless revoked. Farm labor contractor employee renewal certificates may expire on the last day of the birth month of the farm labor contractor or they may expire on the last day of the month, 12 months from the date of issuance, unless revoked, but not longer than the expiration date of the contractor.

Range of Approval/Disapproval Time:

Applications for farm labor contractor certificates of registration or farm labor contractor certificates of registration are usually processed within 2 to 3 weeks.

FINANCIAL INFORMATION:

Obligations:

FY 84 not separately identifiable; FY 85 est not separately identifiable; and FY 86 est not separately identifiable. Dollars included in program 17.303, Minimum Wage and Hour Standards.

PROGRAM ACCOMPLISHMENTS:

Program emphasis continued to be placed upon registration activities and achieving greater compliance by farm labor contractors with the provisions of the Migrant and Seasonal Agricultural Worker Protection Act. In fiscal year 1984, 12,356 persons were registered. Compliance actions conducted in fiscal year 1984 totaled 5,273. Estimates of compliance actions in fiscal years 1985 and 1986 are 5,480 and 4,900, respectively.

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 84 $208,000; FY 85 est $1,119,000; and FY 86 est $429,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, the Bureau continued to promote implementation of its model school-to-work transition program, Women in Nontraditional Careers (WINC), which was designed to motivate high school students to explore a variety of career options. The Bureau sponsored 21 workshops throughout the country informing local community representatives about the new training system being implemented through the Job Training Partnership Act (JTPA), and how and why it should serve women equitably. More than 2,400 persons attended these sessions. The employer-sponsored child care initiative begun in fiscal year 1983 continued to generate "spin-off" activities through task forces, seminars, planning groups, a general increase in employer involvement, and the production of a videotape entitled "The Business of Caring", all designed to promote the concept of employer-sponsored child care. By the end of fiscal year 1984, the activities had resulted in the establishment of 18 employer-supported child care systems, and distribution of over 10,550 copies of employer-supported child care publications. The Bureau held a series of five conferences which brought together women corporate board members to discuss the need to help more women move from entry-level jobs into mid- and upper-level management positions and ways to assist women within their own companies. Subsequently, the Bureau sponsored a corporate roundtable which developed a model for a government/corporate linkage program to augment this effort. The majority of funding for these projects was through the Employment and Training Administration. In fiscal year 1985, the Bureau received direct funding for its projects. The Bureau placed continued emphasis on indirect services to develop employer-sponsored child care resources within the community, such as establishing greater coordination among intereste groups; working with consortia of employers, councils, and child care providers; providing linkage between family services for program participants; and distributing more than 12,000 child care publications. The Bureau actively participated in the development of policies to promote the welfare of women in the labor force around the world. The Bureau director, in her role as U.S. delegate to and a Vice President of the Organization for Economic Cooperation and Development's Manpower and Social Affairs Committee's Working Party on the Role of Women in the Economy, provided information and research results concerning U.S. developments that promote the status of women in the labor force. In conjunction with the State Department, the Bureau continued to play a major role in the U.N.'s Decade for Women, and actively participated in the U.S. preparations for the "End of the Decade" conference held in Nairobi. The Bureau director was a member of the U.S. delegation to the conference, and the Bureau prepared a 155-page report for presentation at the international meeting. Five projects were underway to identify potential areas of demonstration activities, develop policy positions, and contribute to legislation and program strategies affecting women's employment: evaluation of the impact of technological change on women's employment, including a national conference and a series of publications; identification of the patterns of job changes among women in professional occupations; assessment of the needs of newly arrived immigrant women; analysis of specific causes of the involuntary displacement of women workers; and evaluation of the transferability of skills women acquire in the armed services to civilian occupations. In fiscal year 1986, the Bureau will work closely with a variety of public and private organizations and businesses at the national, State, and local levels on the development of programs "to promote the welfare of wage-earning women, improve their working conditions, increase their efficiency, and advance their opportunities for profitable employment." The Bureau will continue to work in many areas mentioned above, such as promoting the concept of employer-sponsored child care for working parents, women in nontraditional careers, and researching the impact of technology on the employment future of women, particularly women clerical workers. The agency will update and reissue Women's Bureau publications that have been identified as most helpful to employers, union officials, public officials and women in order to inform the public about policies and programs for assisting women. The Bureau director will continue in her roles as U.S. delegate to and a Vice President of the Organization for Economic Cooperation and Development's Manpower and Social Affairs Committee's Working Party on the Role of Women in the Economy. Also, the Bureau will go on with its work with the U.N. Commission on the Status of Women, following up on the recommendations and activities stemming from the 1985 "End of the Decade" conference on women, and with other organizations on issues related to working women.

20.205 HIGHWAY PLANNING AND CONSTRUCTION

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Formulas where applicable are based on independently derived factors such as ratio of population, area and road mileage that generally reflect needs in a single State relative to the totals for all States. Both statutory and administrative formulas are used. Some categories, plus part of the Interstate and bridge funds, are distributed on an as-needed basis. The normal Federal share is 90 percent for Interstate and safety projects, 85 percent for Interstate transfer, substitute highway projects, 80 percent for bridge replacement and rehabilitation, and 75 percent for most other projects. The Federal share for some programs may be increased in the case of States with large areas of public lands. Some projects, including territorial highway projects, require no State matching of Federal funds. The broad concept of the Highway Planning and Construction

Program includes over 30 sub-program areas. The following list includes a sample of these areas with their respective statistical factors, sources used for allocation, and the types of formulas used to determine the means of allocation and eligibility requirements. **INTERSTATE CONSTRUCTION:** State's relative share of the estimated cost necessary to complete the Interstate System, source - "A Revised Estimate of the Cost of Completing the National System of Interstate and Defense Highways," based on information provided by the State. Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **INTERSTATE RESURFACING FUNDS:** 1) interstate system lane miles, source - Highway Performance Monitoring System (HPMS), Office of Highway Statistics, and data from the States; 2) vehicle miles traveled on interstate routes, source - HPMS data provided by States. Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **CONSOLIDATED PRIMARY FUNDS:** 1) area - land and inland water square miles, source - 1980 Census; 2) population in rural areas, source - 1980 Census; 3) inter-city mail and rural delivery route miles (December 31, 1984), source - Postmaster General's records; 4) population in urban areas, source - 1980 Census. Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **RURAL SECONDARY FUNDS:** 1) area - land and inland water square miles, source - 1980 Census; 2) population in rural areas, source - 1980 Census; 3) inter-city mail and rural delivery route miles (December 31, 1984), source - Postmaster General's records. Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **URBAN SYSTEM FUNDS:** Population in places of 5,000 or more, source - 1980 Census; population in urbanized areas of 200,000 or more, source - 1980 Census. Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **HIGHWAY BRIDGE REPLACEMENT AND REHABILITATION PROGRAM:** States' deficient bridges on and off the Federal-Aid System which are eligible for replacement or rehabilitation, the previous year's unit construction costs, minimum (.25) and maximum (10 percent) factors, and further data from State highway departments. Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **HAZARD ELIMINATION PROGRAM:** 1) population of the State, source - 1980 Census; 2) public road mileage, source - administrative records certified annually by the States. Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **RAIL - HIGHWAY CROSSING PROGRAM:** 1) area - land and inland water square miles, source - 1980 Census; 2) rural area population, source - 1980 Census; 3) intercity mail and rural delivery route miles, source - Postmaster General's records; 4) population in places of 5,000 or more, source - 1980 Census; 5) rail highway crossings, source - Federal Railroad Administration's "Accident/Incident and Inventory Bulletin." Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **PUBLIC LANDS HIGHWAY:** States having unappropriated or unreserved public lands, nontaxable Indian lands, or other Federal reservations. Allocations based on need for specific projects, with preference given to those which are significantly impacted by Federal land and resource management activities. **METROPOLITAN PLANNING:** population in urbanized area, source - 1980 Census. Eligibility determined by legislative criteria and statutory formulas are used for apportionment. **EMERGENCY RELIEF:** Program of projects submitted by State highway agency or Federal agency following serious Federal-aid road damage caused by a natural disaster which occurred over a wide area, or by catastrophic failure. **INTERSTATE TRANSFERS, SUBSTITUTE HIGHWAY PROJECTS:** State's relative share of the estimated cost of completing substitute highway projects, source - House Committee on Public Works and Transportation Committee Print 99-3 prepared by the FHWA in cooperation with the states. Eligibility determined by legislative criteria. Statutory formulas used for apportionment. There are no statistical factors used for eligibility for any of the above programs.

43.002 TECHNOLOGY UTILIZATION

USES AND USE RESTRICTIONS:

Innovations, inventions, and improvements developed throughout the space program are brought to the attention of the public in several ways. NASA Tech Briefs is an indexed periodical containing articles which describe such innovations. Subscription is currently free to qualified engineers, scientists and business people in U.S. industry and to technology transfer agents. Technological advances of special significance or complexity are published in the NASA SP series. NASA sponsored Industrial Application Centers and State Technology Applications Centers offer specialized technical information services tailored to meet the needs of U.S. industry, and NASA's Computer Software Management and Information Center (COSMIC) offers Government computer programs for secondary use in the public and private sectors.

PROGRAM ACCOMPLISHMENTS:

The NASA Technology Utilization Program has helped many industrial, educational, and governmental organizations develop new products, increase productivity, and reduce costs. Typically, the Technology Utilization Program provides user access to aerospace technology in support of technical problem-solving. For example, senior technology, microelectronics and telemetry systems have been adapted and applied in the development of a range of biomedical implantable devices to control or otherwise administer corrective treatment of diseases or bodily functions or ailments, such as diabetes or intractable pain. NASA computer programs are routinely adapted and used by hundreds of U.S. companies, with substantial savings in software development costs. During the past year, 95,000 individuals and firms were given access to new product and process ideas and improvements from NASA resulting in new research and development by subscribing to Tech Briefs. Nearly 20,000 technical innovations from the space program have been published and are now available for use by American industry.

EXAMPLES OF FUNDED PROJECTS:

The following summer seminars were held at universities throughout the country: (1) "Toward a Constitutional Jurisprudence"; (2) "Friedrich Nietzsche: Problems in Contemporary Philosophy and Criticism"; (3) "The Homeric Epics: Text and Context"; (4) "Shakespeare and the Problems of Genre", open only to teachers at two year colleges; (5) "Major Controversies in Twentieth-Century Soviet Union".

CRITERIA FOR SELECTING PROPOSALS:

In the evaluation of proposals to direct Summer Seminars, the following criteria are considered: (1) The prospective director's quality as a scholar, teacher, and interpreter of the humanities, as well as interest in undergraduate teaching; (2) the conception, definition, and organization of the proposed seminar; (3) the significance of the proposed topic to the humanities and to undergraduate teaching; and (4) the suitability of the library and research facilities in the field of the seminar, including library collections and other research and scholarly resources, housing availability, and other institutional means of providing and maintaining a collegial setting. Applicants selected to receive stipends to attend summer seminars are those who, in the judgment of the Director and the Director's Selection Committee are able and committed and who can derive the greatest benefit from and make the greatest contribution to the seminar. Preference will be given to those whose primary duty is teaching undergraduates and who have not recently had the opportunity to use the resources of a major library.

45.122 PROMOTION OF THE HUMANITIES—REGRANTS/ CENTERS FOR ADVANCED STUDY

OBJECTIVES:

To support coordinated research in well defined subject areas at independent centers for advanced study, overseas research centers, independent research libraries and research museums.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Interested centers are encouraged to inquire informally to the Division of Research Programs. (Persons interested in fellowships at centers may obtain a list and brief descrition of NEH funded centers from the Division of Research Programs. Further information is available from the centers.) The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program.

Application Procedure:

Application guidelines and materials for interested centers to use are available from Headquarters Office. This program is subject to the provisions of OMB Circular No. A-110. (Persons interested in obtaining fellowships at centers must obtain application instructions and materials from the centers.)

Deadlines:

Yearly: December 1.

Range of Approval/Disapproval Time:

Six months.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

PROGRAM ACCOMPLISHMENTS:

Fifteen grants were made in fiscal year 1984 to fund approximately 57 fellowships, counting those supported by matching funds.

REGULATIONS, GUIDELINES, AND LITERATURE:

45.143 PROMOTION OF THE HUMANITIES—FELLOWSHIPS FOR COLLEGE TEACHERS

OBJECTIVES:

To provide opportunities for college teachers to pursue full-time independent study and research that will enhance their capacities as teachers, scholars, or interpreters of the humanities and enable them to make significant contributions to thought and knowledge in the humanities. These fellowships are intended for teachers whose day-to-day responsibilities lie in the teaching of undergraduate students, particularly in two-, four-, and five-year colleges and in universities which do not have Ph.D. programs. Predicated upon an equal respect for study and research directed toward scholarly publication and for study and research directed toward teaching. This program is designed to support both beginning and experienced scholars engaged in a range of activities from general study to specialized research. Fellowships are normally awarded for full-time study, but part-time awards will be made in exceptional cases. In connection with this program, there will be a special competition for a small number of Constitutional Fellowships for study and research on topics in the humanities that would be appropriate to the observance of the 200th anniversary of the U.S. Constitution. The National Endowment for the Humanities also announces the continuation of the Faculty Graduate Study Program for teachers at historically black colleges and universities. The Faculty Graduate Study Program is a special competition designed to strengthen the teaching of the humanities at historically black colleges and universities by providing one year of support for teachers at these institutions to work toward the completion of a doctoral degree in the humanities. The application deadline is March 15, 1986, for fellowships for study in the academic year 1987-88; results will be announced in September 1986, and the maximum award is $27,500. The uses of the awards, eligibility requirements, selection criteria, and stipend allowances for this program are all specific to this program and different from those for Fellowships for College Teachers and Constitutional Fellowships. Interested applicants should write to the Headquarters Office for further information.

45.301 INSTITUTE OF MUSEUM SERVICES

USES AND USE RESTRICTIONS:

The Institute of Museum Services (IMS) currently makes grants in four catagories: (1) General Operating Support (GOS); (2) Conservation Project Support (CP); the Museum Assessment Program (MAP); and the Museum Assessment Program II (MAP II). GOS grants are one year competitive awards made to maintain or improve the operations of museums. CP grants are competitive awards for projects of up to two years. CP grants fund a variety of functions as applied to living and nonliving collections including: surveys of collections and environmental conditions; treatment of collections; and research and training. Museum Assessment Program grants are one-time awards made on a first come, first served basis providing $1,000 for an independent professional assessment of the institution's programs and operations. A museum that has received a MAP grant is eligible to apply for a MAP II grant of $1,000, providing for an independent professional assessment of the institution's collection care and maintenance. To participate in MAP and MAP II the institution must complete a self-study questionnaire provided by the American Association of Museums.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

A museum located in the fifty States of the Union, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, the Northern Mariana Islands, the Trust Territories of the Pacific Islands, Guam, or the District of Columbia may apply for a grant under the Act. No museum is eligible to apply for funding under the Act unless it has provided museum services including exhibiting objects to the general public on a regular basis for at least two years prior to application. A public or private nonprofit agency, such as a municipality, college, or university which is responsible for the operation of a museum may, if necessary, apply on behalf of the museum. A museum operated by a department or agency of the Federal Government is not eligible to apply. Under the IMS definition, a museum is a public or private nonprofit institution which is organized on a permanent basis for essentially educational or aesthetic purposes and which, using a professional staff: (1) Owns or uses tangible objects, whether animate or inanimate; (2) cares for these objects; and (3) exhibits them to the general public on a regular basis. A museum must have at least one staff member, paid or unpaid, who devotes his or her time primarily to the acquisition, care or exhibition of objects. The definition makes clear that the term "museum" includes aquariums and zoological parks; botanical gardens and arboreta; nature centers; museums relating to art, history, (including historic buildings), natural history, science and technology and planetariums.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Applications are submitted directly to the Institute of Museum Services, 1100 Pennsylvania Avenue, N.W., Room 609, Washington, DC 20506, for fiscal year 1986 General Operating Support on Conservation Project Support awards. To apply for a grant, a museum must submit the designated application form containing the information requested in the form. This form requests a description of the museum including its purposes, programs, collections, audience served and the number and general duties of the staff. Each applicant museum must submit, with its application at the time of filing, its financial statements for the two fiscal years immediately preceding the fiscal year for which application is made. Description of long-range plans for program and financial development must also be provided. This program is subject to the provisions of OMB Circular No. A-110. To participate in the Museum Assessment Program, a museum must first apply to the American Association of Museums (AAM), 1055 Thomas Jefferson Street, N.W., Washington, DC 20007, and complete the self-study questionnaire provided by AAM.

Award Procedure:

Proposals are reviewed by field reviewers, panels of experts, the National Museum Services Board and the Director, as a basis for grants and contracts awarded by IMS to eligible institutions.

Deadlines:

The deadline for submitting a fiscal year 1986 General Operating Support application is November 15, 1985. The deadline for fiscal year 1986 Conservation Project Grants is February 14, 1986. The deadlines for submitting a fiscal year 1986 Museum Assessment Program application are October 25, 1985, and April 25, 1986 and for MAP II grants, January 31, 1986, and July 25, 1986.

47.041 ENGINEERING GRANTS

OBJECTIVES:

To expand the engineering science base in established engineering fields; build a base of scientific knowledge in engineering fields that do not now benefit from such a knowledge base; stimulate cross-disciplinary research, especially on engineering systems requiring a team approach; act as a catalyst for advances in emerging and critical engineering systems in areas that cut across traditional disciplinary lines; strengthen links between engineering schools and industry; advance U.S. engineering through international cooperative research and related activities; improve opportunities for young investigators, women, minorities, and the handicapped to contribute to advances in engineering; improve the flow of research results among producers and users of such information; and help ensure that instrumentation needed for advanced research is available. Areas of research include: Kinetics and Catalysis; Biochemical and Biomass Engineering; Process and Reaction Engineering; Multiphase and Interfacial Phenomena; Separation and Purification Processes; Thermodynamics and Transport Phenomena; Thermal Systems; Solid and Geo-Mechanics; Structures and Building Systems; Fluid Dynamics and Hydraulics; Tribology; Dynamic Systems and Control; Materials Engineering and Processing; Solid State and Microstructures; Communication Systems and Signal Processing; Systems Theory and Operations Research; Quantum Electronics, Waves, and Beams; Instrumentation, Sensing and Measurement; Computer Engineering; Design Theory and Methodology; Computer-Integrated Engineering; Manufacturing Systems; Automation and Systems Integration; Bioengineering and Research to Aid the Handicapped; Lightwave Technology; Earthquake Hazards Mitigation; Natural and Manmade Hazards Mitigation; Environmental Engineering; and Systems Engineering for Large Structures. Engineering Research Centers, Industry/University Cooperative Research Centers, and Industry/University Cooperative Research Projects are also supported.

APPLICATION AND AWARD PROCESS:

Deadlines:

None for unsolicited research proposals. Deadlines for 1986 have not been established for Research Equipment Grants or Engineering Research Centers. Applicant should contact the program office listed under the Information Contacts section of this program for this information.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

This program has no statutory formula. Institutions are required to share in the cost of each research project resulting from an unsolicited proposal by a contribution to any cost element in the project, direct or indirect. Cost sharing may not apply to solicited proposals, or to conferences and symposia, publication, travel, or logistic support. A minimum cost sharing of one-third of total costs is required for equipment grants. In fiscal year 1986, industrial firms (except small business) will be expected to pay their own costs of participation in Industry/University Cooperative Research Projects. Small business firms must cost-share 10 percent of their costs. Some cost sharing is also expected for Engineering Research Centers and Industry/ University Cooperative Research Centers, but it is negotiated on a case-by-case basis.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

47.049 MATHEMATICAL AND PHYSICAL SCIENCES

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

47.050 ASTRONOMICAL, ATMOSPHERIC, EARTH AND OCEAN SCIENCES

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

47.051 BIOLOGICAL, BEHAVIORAL, AND SOCIAL SCIENCES

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

EXAMPLES OF FUNDED PROJECTS:

1) Role of membrane lipids in Paramecium behavioral mutants. 2) Structure, regulation and mechanisms of action of mitochondrial enzyme. 3) Neuronal degeneration, regeneration and plasticity in the olfactory system of mammals. 4) Economic determinants of lifetime earnings. 5) Photosynthetic adaptation of higher plants to ecologically diverse environments. 6) Information representations for text summarizations.

47.053 SCIENTIFIC, TECHNOLOGICAL, AND INTERNATIONAL AFFAIRS

APPLICATION AND AWARD PROCESS:

Application Procedure:

For project support, submission of a formal proposal, signed by an official authorized to commit the institution or organization in financial affairs, fully documenting the planned activity and proposed amount of award. This program is subject to the provisions of OMB Circular No. A-110.

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 797 awards were made and approximately 845 will be made in fiscal year 1985. In fiscal year 1986, about 704 awards will be made. In addition, utilizing special foreign currencies, 141 awards were made in fiscal year 1984. Utilizing special foreign currencies, approximately 138 awards will be made in fiscal year 1985, and about 48 awards will be made in fiscal year 1986.

47.064 COLLEGE SCIENCE INSTRUMENTATION PROGRAM

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Any four-year college or university or consortium thereof in the United States or its territories that offers instruction in the sciences leading to the baccalaureate degree and does not offer the doctoral degree in any of the NSF-supported fields of science and engineering. Science departments that received an award in 1985 will not be eligible for the November 1985 competition.

Beneficiary Eligibility:

Any four-year college or university or consortium thereof in the United States or its territories that offers instruction in the sciences leading to the baccalaureate degree and does not offer the doctoral degree in any of the NSF-supported fields of science and engineering.

APPLICATION AND AWARD PROCESS:

Deadlines:

November 8, 1985.

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

PROGRAM ACCOMPLISHMENTS:

In eary fiscal year 1985, 1,348 proposals were received and 234 awards were made to 191 institutions in 42 States and Puerto Rico.

EXAMPLES OF FUNDED PROJECTS:

Examples of projects include: (1) Instrumentation support to establish a direct connection between the classroom laboratory and the U.S. weather satellite system, making available real-time imagery of the atmosphere around the world for study of dynamic weather and climatic processes in the physical geography courses. (2) An engineering project that will utilize a robot-served, computer-aided manufacturing system that will demonstrate robitics as applied to manufacturing. Students will learn to design and fabricate items without drawings or human intervention. (3) A project to upgrade and expand the particle and wave analysis instrumentation in the first year general physics course and strengthen the atomic and nuclear physics areas in advanced courses. (4) A project to teach fundamental concepts and practical applications of electrochemistry using microprocessor-based instrumentation at several levels in the curriculum.

47.065 ADVANCED SCIENTIFIC COMPUTING

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 15 proposals were received and 5 awards were made. In fiscal year 1985, approximately 150 proposals will be received and about 30 awards will be made. In fiscal year 1986, approximately 120 proposals will be received and about 40 awards will be made.

RELATED PROGRAMS:

47.041, Engineering Grants; 47.049, Mathematical and Physical Sciences; 47.050, Astronomical, Atmospheric, Earth and Ocean Sciences; 47.051, Biological, Behavioral, and Social Sciences; 47.053, Scientific, Technological, and International Affairs; 47.069, Research Initiation and Improvement.

EXAMPLES OF FUNDED PROJECTS:

This new program is currently providing support to advanced computing resources for researchers at six existing centers. Plans include establishment of (1) several nationally dedicated Advanced Scientific Computing Centers between fiscal year 1985 and fiscal year 1987, (2) a National Research Network linking NSF-funded centers, and researchers using them and support for; (3) experimental university-based, computer architectures to serve the advanced computational needs of graduate education and research; and (4) research projects that can help improve the software productivity of supercomputers.

47.066 TEACHER ENHANCEMENT AND INFORMAL SCIENCE EDUCATION

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 593 proposals were received and 201 awards were made. Six hundred and twenty-five proposals were received in fiscal year 1985 and 273 awards were made. In fiscal year 1986, an estimated 700 proposals will be received and about 275 awards will be made.

REGULATIONS, GUIDELINES, AND LITERATURE:

NSF 85-9, Teacher Enhancement and Informal Science Education, for Scientific Engineering Research, NSF 83-57.

EXAMPLES OF FUNDED PROJECTS:

Summer research and field experiences for teachers in several disciplines, including biology and geology, were supported. Summer workshops at industrial laboratories for teachers were followed, in all cases, by in-service peer training activities carried out by the workshop participants. Model projects for teacher training involved the cooperative efforts of State and local education agencies and university faculty to utilize high school science and mathematics teachers in improved middle and elementary school teaching. Support for a major public television series in mathematics targeted at the 8-12 year-old audience.

47.067 MATERIALS DEVELOPMENT AND RESEARCH

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 443 proposals were received. In fiscal year 1985, 478 proposals were received. It is estimated that about 600 will be received in fiscal year 1986. A total of 58 awards were made in fiscal year 1984. Ninety-seven awards were made in fiscal year 1985. Approximately 100 awards will be made in fiscal year 1986.

INFORMATION CONTACTS:

Headquarters Office:

Materials Development and Research, National Science Foundation, 1800 G Street, NW, Washington, DC 20550. Telephone: (202) 357-7452.

EXAMPLES OF FUNDED PROJECTS:

Materials development projects included a project that is developing supplementary, culturally based instructional materials in mathematics for Grades K-10 that include numerous applications of mathematics that are relevant for Native Americans, the improved teaching of statistics at the high school level, and new computer software for teaching junior high school mathematics. An exemplary research project was investigation of how middle school students develop proportional reasoning abilities and mathematics.

47.068 STUDIES AND PROGRAM ASSESSMENT

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 29 proposals were received and 15 awards were made. In fiscal year 1985, 27 proposals were received and 15 awards were made. In fiscal year 1986, approximately 30 proposals will be received and about 17 awards will be made.

REGULATIONS, GUIDELINES, AND LITERATURE:

Fact sheet available on request from address listed below.

EXAMPLES OF FUNDED PROJECTS:

(1) Exploratory research on methods of effective monitoring of national progress in mathematics, science and technology education. (2) Developing a needs assessment instrument and process available to each State as required under Public Law 98-377. This law requires all States requesting funds from the Department of Education for mathematics, science and computer education efforts to conduct an assessment of needs regarding teacher qualifications, State standards for certification, trends in achievement, etc. (3) Evaluating the characteristics of effective computer in-service education. (4) Comparative research on Soviet and U.S. science education systems concerning relative advances and shortcomings of the two.

47.069 RESEARCH INITIATION AND IMPROVEMENT

APPLICATION AND AWARD PROCESS:

Deadlines:

RIMI: December 1, each year. VPW: October 1 each year. Target dates for ROW, RUI and FAH are set by NSF programs in the disciplines of proposed research. These target dates are published in the "NSF Bulletin," available upon request from the Editor, "NSF Bulletin," National Science Foundation, 1800 G Street, NW, Washington, DC 20550. Proposals for MRI may be submitted at any time of the year.

Renewals:

Renewals are not allowed in the Minority Research Initiation, Research Improvement in Minority Institions and Visiting Professorships for Women programs. Proposals for renewal of Research Opportunities for Women and Research in Undergraduate Institutions awards, containing the same type of information as the original proposal, should be submitted 6 months before the expiration of the original award. Renewals are treated in competition with pending proposals. Grants may be renewed one time, provided that the cumulative duration does not exceed 5 years.

POST ASSISTANCE REQUIREMENTS:

Audits:

Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, "Standards for Audit of Government Organizations, Programs, Activities and Functions."

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 18,374 loans (1,427 direct and 16,947 guarantee) were made. In fiscal year 1985, 15,259 loans (1,125 direct and 14,134 guarantee) were made.

59.013 STATE AND LOCAL DEVELOPMENT COMPANY LOANS

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application must be made on SBA Form 501 for State Development Company loans or SBA Form 1244 for Local (502) Development Company loans and requirements set forth thereon must all be fully complied with by the State or local development company (borrower) and the small business being assisted.

FINANCIAL INFORMATION:

Obligations:

(Loans) FY 84 $0 (Direct), $30,113,880 (Guarantee); FY 85 est $0 (Direct), $25,000,000 (Guarantee); and FY 86 est $0 (Direct), $15,000,000 (Guarantee).

Range and Average of Financial Assistance:

Guarantee Loans: $62,000 to $500,000; $286,262.

PROGRAM ACCOMPLISHMENTS:

During fiscal years 1984 and 1985, 93 and 68 local loans valued at $30,113,880 and $18,702,673 respectively; and none for State loans.

59.016 BOND GUARANTEES FOR SURETY COMPANIES

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

A small contractor whose gross annual receipts have been not more than $3,500,000 as averaged for the last 3 fiscal years.

POST ASSISTANCE REQUIREMENTS:

Reports:

Monthly, Internal SBA Reports, SBA, as requested, sends to participating sureties and other interested parties a summary report on program activity.

FINANCIAL INFORMATION:

Obligations:

(Bond-guarantees to surety companies) FY 84 $570,980,992; FY 85 est $900,000,000; and FY 86 est $1,115,000,000.

Range and Average of Financial Assistance:

Size range of contracts awarded and bonded, $2,000 to $1,000,000; $100,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 7,262 contracts were awarded. In fiscal year 1985, 9,000 contracts were awarded.

59.021 HANDICAPPED ASSISTANCE LOANS

FINANCIAL INFORMATION:

Obligations:

(Loans) FY 84 $16,000,000 (Direct), $407,575 (Guarantee); FY 85 est $24,000,000 (Direct), $1,000,000 (Guarantee); and FY 86 est $15,000,000 (Direct), $5,000,000 (Guarantee).

Range and Average of Financial Assistance:

$500 to $350,000; $96,015, (Direct); $15,000 to $500,000; $166,820, (Guaranteed).

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1984, 181 loans (176 direct and 5 guarantee) were approved. During fiscal year 1985, 249 loans (244 direct and 5 guarantee) are estimated to be approved.

59.026 SERVICE CORPS OF RETIRED EXECUTIVES AND ACTIVE CORPS OF EXECUTIVES

TYPES OF ASSISTANCE:

Project Grants; Advisory Services and Counseling.

USES AND USE RESTRICTIONS:

Volunteers work closely with the Small Business Administration which has responsibility for direction and administration of the SCORE/ACE Program. These volunteers share their expertise in assisting the small business entrepreneur with management problems. A small business seeking business management counseling may apply at the nearest Small Business Administration field offices. SCORE/ACE volunteers are reimbursed for out-of-pocket expenses. They do not accept compensation or fees for services rendered. The grants are being used for office and administrative support to SCORE/ACE volunteers.

Obligations:

(Salaries and expenses) FY 84 $1,264,523; FY 85 est $1,400,000; and FY 86 est $1,400,000. (Grants) FY 84 $650,255; FY 85 est $470,000; and FY 86 est $720,000.

59.030 SMALL BUSINESS ENERGY LOANS

FINANCIAL INFORMATION:

Obligations:

(Loans) FY 84 $316,000 (Direct), $1,499,186 (Guarantee); FY 85 est $0 (Direct), $1,000,000 (Guarantee); and FY 86 est $0 (Direct), $15,000,000 (Guarantee).

Range and Average of Financial Assistance:

Guarantee loans: up to $500,000; $257,667.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 12 loans were made - 3 direct loans for $316,000 and 9 guarantee loans for $1,499,186. In fiscal year 1985, 3 loans were made - 0 direct loans and 3 guarantee loans for $773,000. Data unavailable for fiscal year 1986.

59.031 SMALL BUSINESS POLLUTION CONTROL FINANCING GUARANTEE

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

The business must be independently owned and operated, and not dominant in its field. Applicant together with affliates meets SBA size standards (or net worth, and annual earnings dollar limits); applicant has minimum 5 years in business, profitable 3 of last 5 years, has evidence from pollution control regulatory authority that pollution control facilities/equipment are acceptable.

Credentials/Documentation:

Application, plus lender's request for SBA guarantee; analysis and recommendation of sponsor pollution control regulatory authority's approval of applicant's proposed pollution control facility.

APPLICATION AND AWARD PROCESS:

Appeals:

Formal appeal must be made within 90 days of date of decline.

FINANCIAL INFORMATION:

Obligations:

(Guaranteed Loans) FY 84 $11,000,000; FY 85 est $1,340,000; and FY 86 est $150,000,000.

PROGRAM ACCOMPLISHMENTS:

The SBA has guaranteed 107 financing issues involving 242 separate small businesses for a total of approximately $326,400,000 (through December 1984). Terms of these financings range from between 7 and 25 years.

64.114 VETERANS HOUSING—GUARANTEED AND INSURED LOANS

OBJECTIVES:

To assist veterans, certain service personnel, and certain unmarried surviving spouses of veterans, in obtaining credit for the purchase, construction or improvement of homes on more liberal terms than are generally available to non-veterans.

USES AND USE RESTRICTIONS:

VA may guarantee or insure home loans made to eligible applicants for any of the following purposes: (a) buy or build a home; (b) simultaneously purchase and improve a home; (c) repair, alter or improve a home; (d) improve a home through installation of a solar heating and/or cooling system, or other weatherization improvements; (e) buy a one-family residential unit in an approved condominium housing project; (f) refinance a mortgage or other lien on a house owned by the applicant; (g) refinance an existing VA loan to reduce the interest rate (h) purchase a manufactured home to be permanently affixed to a lot that is already owned by the applicant; (i) purchase a manufactured home and a lot to which the home will be permanently affixed; (j) refinance at a lower interest rate an existing VA-guaranteed loan which is secured by a manufactured home permanently affixed to a lot owned by the applicant; (k) refinance an existing loan that was made for the purchase of, and that is secured by, a manufactured home that is permanently affixed to a lot and to purchase the lot to which the manufactured home is affixed. Restrictions are that: (a) the borrower must own and occupy, as his or her home, the housing unit securing the loan; (b) the nature and condition of the unit must be suitable for dwelling; (c) units completed less than 1 year must also meet VA minimum planning and construction requirements; (d) the loan may not exceed the reasonable value of the property as established by the VA; (e) the terms of repayment must bear a proper relationship to the applicant's present and anticipated income and expenses; (f) the applicant must be a satisfactory credit risk; (g) if the loan involves a permanently sited manufactured home, then that home must be classified and taxed as real property.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

(a) Veterans who served on active duty on or after September 16, 1940, and were discharged or released under conditions other than dishonorable. Veterans who served any time during World War II, the Korean Conflict or the Vietnam-era must have served on active duty 90 days or more; veterans with peacetime service only must have served a minimum of 181 days continuous active duty, except veterans separated from enlisted service which began after September 7, 1980, or service as an officer which began after October 16, 1981, must have served at least 24 months of continuous active duty or the full period (at least 181 days) for which the person was called or ordered to active duty. Veterans of such recent service may qualify with less service time if they have a compensable service-connected disability or were discharged after at least 181 days for hardship or convenience of the Government; (b) any veteran in the above classes with less service but discharged with a service-connected disability; (c) unmarried surviving spouses of otherwise eligible veterans who died in service or whose deaths were attributable to service-connected disabilities; (d) service personnel who have served at least 181 days on continuous active duty status; (e) spouses of members of the Armed Forces serving on active duty, who are listed as missing in action, or as prisoners of war and who have been so listed 90 days or more. Applicant must have sufficient present and prospective income to meet loan repayment terms and have a satisfactory credit record.

Beneficiary Eligibility:

Veterans, service personnel, unmarried surviving spouses of veterans.

FINANCIAL INFORMATION:

Obligations:

(Loans guaranteed) FY 84 $15,332,916,000; FY 85 est $10,280,712,000; and FY 86 est $11,832,687,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, VA guaranteed $15.3 billion in loans to finance purchases of 238,478 conventionally constructed homes and condominium units. In fiscal year 1985, it is estimated that 156,000 loans totaling $10.3 billion will be guaranteed or insured. In fiscal year 1986, 171,000 loans totaling $11.8 billion are forecast to be guaranteed.

64.115 VETERANS INFORMATION AND ASSISTANCE

USES AND USE RESTRICTIONS:

Veterans Administration (VA), Veterans Assistance personnel provide information and assistance on all benefits legislated by the Congress for veterans of the active military, naval or air service of this country (to include the Public Health Service and the National Oceanic and Atmospheric Administration). These include compensation, pension, loan guaranty, vocational rehabilitation and education, insurance, hospitalization, domiciliary care, outpatient medical and dental treatment, automobiles and specially adapted houses for disabled veterans, and burial benefits. They help the veteran or dependent file claims, secure supporting evidence and, on request, represent the claimant to the VA adjudicative or medical authorities. Special attention and follow-up service is provided for the recently separated educationally disadvantaged veterans -- those with less than a high school education. Service includes providing information and personal service on matters which affect veterans, but are under the jurisdiction of other Federal, State, county or local agencies.

64.116 VOCATIONAL REHABILITATION FOR DISABLED VETERANS

USES AND USE RESTRICTIONS:

The program provides for direct payment to service providers for the entire cost of tuition, books, fees, supplies, and other services. Counseling services are provided to the individual throughout his or her participation in the program. In addition to disability compensation, the veteran receives a monthly subsistence allowance during the training phase of the rehabilitation program. Loans up to $620 may be allotted to veterans to meet unexpected financial difficulties. These loans do not bear interest. Although no set repayment period is established, the loans are expected to be repaid as soon as possible. In general, a new loan may not be made until a previous loan has been fully repaid. Usually the training phase of the rehabilitation program may not exceed 4 years nor may training be provided more than 12 years after the individual becomes eligible for the program. Following training, the veteran may also receive up to 18 months or more of counseling, job placement and post-placement services, however, the veteran may only receive an employment adjustment allowance equal to 2 months of subsistence during this period of services. Veterans who meet certain requirements may receive an initial supply of goods and commodities to start a business.

FINANCIAL INFORMATION:

Obligations:

(Direct payments) FY 84 $110,187,005; FY 85 est $117,524,000; and FY 86 est $116,355,000. (Loans) FY 84 $1,215,000; FY 85 est $1,030,000; and FY 86 est $1,069,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 29,024 trainees received subsistence allowance payments; 6,637 of these received a loan advance. Estimates for subsequent periods are fiscal year 1985 29,200 trainees and 5,525 loans, and fiscal year 1986, 28,400 trainees and 5,400 loans.

64.117 DEPENDENTS EDUCATIONAL ASSISTANCE

FINANCIAL INFORMATION:

Obligations:

(Direct payments) FY 84 $153,923,990; FY 85 est $143,312,000; and FY 86 est $120,503,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, there were 71,194 participants. Estimates for subsequent periods are: fiscal year 1985 61,300 participants: and fiscal year 1986, 51,500 participants.

64.118 VETERANS HOUSING—DIRECT LOANS FOR DISABLED VETERANS

FINANCIAL INFORMATION:

Obligations:

(Loans) FY 84 $9,559,000; FY 85 est $9,529,000; and FY 86 est $9,469,000.

64.119 VETERANS HOUSING—MANUFACTURED HOME LOANS

OBJECTIVES:

To assist veterans, servicepersons, and certain unmarried surviving spouses of veterans in obtaining credit for the purchase of a manufactured home on more liberal terms than are available to nonveterans.

USES AND USE RESTRICTIONS:

VA may guarantee a lender against loss on a loan made to an eligible applicant to buy a new or used manufactured home and/or to buy or improve a lot for placement of a manufactured home, or to refinance an existing VA guaranteed or insured loan previously obtained on the same manufactured home and/or lot which the veteran or the veteran's surviving spouse (if such surviving spouse was an obligor under such existing loan) owns and occupies, to obtain a lower rate of interest; or to refinance an existing manufactured home loan to acquire a lot on which such manufactured home is or will be placed. Restrictions on guaranteed VA manufactured home loans are: (a) the terms of repayment must bear a proper relationship to applicant's present and anticipated income and expenses and the applicant must be a satisfactory credit risk; (b) the applicant must certify that he or she intends to occupy the property as his or her home; (c) the manufactured home must contain living facilities for year round occupancy; (d) used manufactured homes must meet construction and acceptability standards. There are limitations on the term of a loan, depending on the purpose. The maximum term is 20 years and 32 days for a single-wide manufactured home or a combination single-wide manufactured home and lot, 23 years and 32 days for a double-wide manufactured home, 25 years and 32 days for a double-wide unit and lot, and 15 years and 32 days for a lot only on which a manufactured home already owned by the applicant will be placed. The loan amount may not exceed appropriate cost factors for new units, or the appraised value of used units or lots.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

(a) Veterans who served on active duty on or after September 16, 1940, and were discharged or released under conditions other than dishonorable. Veterans who served any time during World War II, the Korean Conflict or the Vietnam-era must have served on active duty 90 days or more; veterans with peacetime service only must have served a minimum of 181 days continuous active duty, except veterans separated from enlisted service which began after September 7, 1980, or service as an officer which began after October 16, 1981, must have served at least 24 months of continuous active duty or the full period (at least 181 days) for which the person was called or ordered to active duty. Veterans of such recent service may qualify with less service time if they have a compensable service-connected disability or were discharged after at least 181 days for hardship or convenience of the Government; (b) any veteran in the above classes with less service but discharged with a service-connected disability; (c) unmarried surviving spouses of otherwise eligible veterans who died in service or whose deaths were attributable to service-connected disabilities; (d) service personnel who have served at least 181 days on continuous active duty status; (e) the spouse of any member of the Armed Forces serving on active duty who is listed as missing in action, or as a prisoner of war, and has been so listed for a total of more than 90 days. Applicants must have sufficient present and prospective income to meet loan repayment terms and have a satisfactory credit record.

Beneficiary Eligibility:

64.122 VOCATIONAL REHABILITATION FOR SERVICE-DISABLED VETERANS RECEIVING UNEMPLOYABILITY VA COMPENSATION

OBJECTIVES:

To enable eligible veterans to become employable and to obtain and maintain employment consistent with their abilities, aptitudes and interest. To increase the opportunities for vocational rehabilitation of certain veterans receiving disability compensation.

USES AND USE RESTRICTIONS:

The program provides for direct payment to service providers for the entire cost of tuition, books, fees, supplies, and other services. Counseling services are provided to the individual throughout his or her participation in the program. In addition to individual unemployability compensation, the veteran receives a monthly subsistence allowance during the training phase of the rehabilitation program. Loans up to $620 may be allotted to veterans to meet unexpected financial difficulties. These loans do not bear interest. Although no set repayment period is established, the loans are expected to be repaid as soon as possible. In general, a new loan may not be made until a previous loan has been fully repaid. Usually the training phase of the rehabilitation program may not exceed 4 years. Veterans completing the training phase may receive subsistence as an employment adjustment allowance equal to 2 months of subsistence. Veterans may also receive up to 18 months of counseling, job placement and post-placement services in addition to the training phase or as the total program. Veterans who meet certain requirements may receive an initial supply of goods and commodities to start a business.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Veterans must be awarded individual unemployability after January 31, 1985, and prior to February 1, 1989, (i.e., awarded a total disability rating due to inability to secure or maintain a substantially gainful occupation due to a service-connected disability or disabilities). Veterans may be eligible for employment services as a total program if the VA determines them to be employable. To be eligible for training, rehabilitation and employment services, veterans must be determined to have an employment handicap and determined to be able to achieve a vocational goal.

Beneficiary Eligibility:

66.418 CONSTRUCTION GRANTS FOR WASTEWATER TREATMENT WORKS

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

This program operates under Section 202 of the Clean Water Act. The Federal grant may be for 75 percent of eligible project costs for grant assistance awarded before October 1, 1984 and 55 percent for new grants awarded after September 30, 1984, or 20 percent greater than the Federal share for innovative or alternative technology processes, but in no event will the Federal share be greater than 85 percent. States may lower these percentages with the concurrence of the Regional Administrator pursuant to section 202(a)(1) of the Clean Water Act as amended by Public Law 96-483. The grantee must assure that they will provide all remaining costs. Some States assist grantees in providing all or part of the nonfederal share. The statistical factors used for allotment are 1) estimate of total cost of construction needed by States to meet requirements of the Clean Water Act - source: 1984 Needs Survey, Cost Estimates for Construction of Publicly Owned Wastewater Treatment Facilities, EPA; and 2) State level population - source: P25, Census. There are no statistical factors used for eligibility.

POST ASSISTANCE REQUIREMENTS:

66.433 STATE UNDERGROUND WATER SOURCE PROTECTION

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

This program operates under a formula which uses criteria set forth in the SDWA, Section 81443(b)(4). Federal assistance is limited to 75 percent of eligible costs, not to exceed the State allotment. The statistical factors used for allocation include 1) population of State, based on data from Estimates, Statistical Abstracts, 1985 Census; 2) State land area, based on data from Statistical Abstracts, 1980, Census and official updates; 3) injection practices by State, based on data reported by States and maintained by EPA injection well inventory as as of March 1985.

POST ASSISTANCE REQUIREMENTS:

Audits:

Grants are subject to inspection and audit by EPA, the Comptroller General of the United States, or any authorized representative. Periodic audits should be made as part of the recipient's systems of financial management and internal control to meet terms and conditions of grants and other agreements. In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $190,000,000; FY 85 est $191,113,000; and FY 86 est $152,890,000.

81.047 PRE-FRESHMAN ENGINEERING

OBJECTIVES:

To alleviate manpower shortages in engineering by preparing and guiding high school students in the selection of college-preparatory courses in science and mathematics.

CRITERIA FOR SELECTING PROPOSALS:

1. Extent to which the application demonstrates evidence of present and past institutional commitment to increasing the number of students in engineering; 2. the degree to which preparations have been made for the project, in terms of agreements with local industry, etc., and willingness of local industry and/or the host institution to participate in cost-sharing; 3. the degree to which the proposed plans are clear and complete, with need for the project and expected impacts clearly noted; 4. the significance of an increase in the engineering student population that will result from the DOE investment. (Is it worth the cost?); 5. the extent to which the proposed educational program is sound and appropriate; 6. the degree to which the expertise and breadth of the project personnel appear adequate and appropriate for the task and the degree to which the facilities of the host institution enable it to meet the requirements of the project; 7. the degree and need demonstrated for the project and the ability to reach uncommitted students; and 8. the extent to which plans have been made to follow student progress after they have participated in the PREP project.

81.048 PRIORITIES AND ALLOCATIONS FOR ENERGY PROGRAMS AND PROJECTS

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 84 $25,000; FY 85 est $25,000; and FY 86 est $10,000.

81.049 BASIC ENERGY SCIENCES, HIGH ENERGY AND NUCLEAR PHYSICS, MAGNETIC FUSION ENERGY, HEALTH AND ENVIRONMENTAL RESEARCH, PROGRAM ANALYSIS AND FIELD OPERATIONS MANAGEMENT

POST ASSISTANCE REQUIREMENTS:

Audits:

Costs incurred are subject to audit throughout the contract or grant period and before final payment, with the extent and frequency of audit depending on the size of the contract and on the particular contract provisions. Where the contracts are with educational institutions, FMC 73-6 identifies the cognizant audit agency. In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

81.050 ENERGY EXTENSION SERVICE

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

81.052 ENERGY CONSERVATION FOR INSTITUTIONAL BUILDINGS

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The statistical factors used for fund allocation are: 1. The total State and territory population contained in the most recent Bureau of the Census, Department of Commerce, official census documents; and 2. the climate and the source is NOAA's most recent edition of "State, Regional and National Monthly and Seasonal Heating Degree Days, Weighted by Population"; "State, Regional and National Monthly and Seasonal Cooling Degree Days, Weighted by Population".

POST ASSISTANCE REQUIREMENTS:

Reports:

Technical Assistance/Energy Conservation Measures: Semi-annual reports on progress and expenditures.

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

81.064 OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION

USES AND USE RESTRICTIONS:

Office of Scientific and Technical Information (OSTI) conducts a centralized technical information management program for the Department of Energy: collecting, managing and disseminating diverse information from a wide variety of programs, projects and energy areas; accumulating and processing all DOE funded research and development and merging this information with other pertinent and related energy information; participating in establishing national and international standards for information processing and exchange; coordinating, linking, and exchanging information with other information centers and international sources; and providing a single source of availability to assist the Department and its contractors. Information services are provided directly to authorized users in the form of pertinent publications or through the development and maintenance of appropriate data bases, through the depository library system, and indirectly by referral to public sales agents and commercially available data base vendors. State governments are urged to deposit research and development reports with the Center who will microfiche, announce, and make public through the National Technical Information Service. OSTI provides technical services to DOE and DOE contractor organizations and provides energy information to NTIS and to GPO depository libraries for dissemination to the public.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State and local governments, and universities that are DOE contractors are provided electronic and printed access to energy information in specific areas of concern. Energy information exchange agreements may be made with non DOE affliates, universities and other organizations involved in energy research.

Beneficiary Eligibility:

State and local governments, and universities that are DOE contractors are provided electronic and printed access to energy information in specific areas of concern will benefit.

PROGRAM ACCOMPLISHMENTS:

Total energy-related research and development information items in data files: over 2.5 million at the end of fiscal year 1985. Energy research and development items added annually to data bases—200,000; scientific and technical reports received and processed annually—32,000; DOE and non DOE domestic and foreign Research-in-Progress files containing current information on 26,000 on-going energy research and development projects; requests for public energy information filled—45,000; scientific and technical reports distributed in microfiche—5,178,600; consumer oriented energy publications distributed to single copy requests—1,563,000.

81.065 NUCLEAR WASTE DISPOSAL SITING

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

PROGRAM ACCOMPLISHMENTS:

Several States established project offices to interface with DOE siting efforts; including review of draft environmental assessments. Seventeen crystalline rock States reviewed regional characterization reports.

INFORMATION CONTACTS:

Regional or Local Office:

Lee Olson, Basalt Waste Isolation Project, Richland, WA, Richland Operations Office, (509) 376-7334; Sally Mann, Crystalline Repository Project Office, Chicago Operations Office, (312) 972-2548; Jeff Neff, Salt Repository Project Office, Columbus, OH, (614) 976-5916; Don Veith, Nevada Nuclear Waste Isolation Project, Nevada Operations Office, (702) 734-3333.

81.076 INDIAN ENERGY RESOURCES

FINANCIAL INFORMATION:

Obligations:

(Contracts) FY 84 $1,475,000; FY 85 est $1,532,000; and FY 86 est $1,400,000.

PROGRAM ACCOMPLISHMENTS:

Thirty-three projects were approved under the fiscal year 1984 CERT program. Similar numbers are anticipated for fiscal years 1985-1986. CERT has assisted Indian tribes in preparing resource and environmental assessments, marketing studies, and other projects such as development of a "Tribal Enviornmental Review Process: Manual and Permits Directory," and in development and presentation of forums on oil and gas, and coal and uranium with participation by tribal members, industry representatives and Federal program specialists.

81.077 UNIVERSITY RESEARCH INSTRUMENTATION

USES AND USE RESTRICTIONS:

Program emphasis will be placed on assisting institutions to obtain the major research instruments (costing $100,000 and above) that are required to advance research principally in specially designated areas which are of special interest to DOE. In fiscal year 1986, the VRI program funds will be concerned primarily with capital equipment needed for on-campus research in one of four specific energy areas: (1) Advanced materials characterization, synthesis, and processing science, (2) catalysis (heterogeneous and homogeneous), photochemistry and photocatolysis, (3) engineering sciences, and (4) health and environmental effects of energy development and use.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1984, 17 individual grants were made in support of research instrumentation. In fiscal year 1985 there were 23 awards made.

81.078 INDUSTRIAL ENERGY CONSERVATION

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Generally performance time is 2 months to 2 years.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $200,000; FY 85 est $263,000; and FY 86 est $100,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1985, two grants were awarded. It is estimated that two grants will be awarded in fiscal year 1986.

81.079 BIOFUELS AND MUNICIPAL WASTE TECHNOLOGY

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $1,210,000; FY 85 est $1,350,000; and FY 86 est $1,300,000.

Range and Average of Financial Assistance:

$530,000 to $680,000; $605,000.

81.080 ENERGY POLICY, PLANNING AND DEVELOPMENT

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 84 $400,000; FY 85 est $152,000; and FY 86 est $250,000.

Range and Average of Financial Assistance:

$25,000 to $125,000; $75,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1985, three applications were funded with three received.

INFORMATION CONTACTS:

Headquarters Office:

Lou Maes, Division of Budget and Administration, Environment, Safety and Health, (EH-3); 7E-090 Forrestal Building, 1000 Independence Avenue, S.W., Washington, DC 20585. Telephone: (202) 252-2431.

EXAMPLES OF FUNDED PROJECTS:

The following studies are being funded: 1) Keystone Emery Futures Project; which was designed to aid in understanding important energy and environmental issues; 2) characterize the patterns of taxation which prevail in the U.S. electric utility industry today; and 3) study the role that the IEA plays in the energy emergency preparedness policies of the United States.

CRITERIA FOR SELECTING PROPOSALS:

Merit of proposal is determined by: 1) Relevance to the mission of the Office of Policy, Planning and Analysis; 2) ability to provide a forum in which energy experts might gather to engage in a meaningful exchange of ideas; and 3) the ability to provide written recommendations and reports.

AUTHORIZATION:

Federal Fire Prevention and Control Act of 1974; 15 U.S.C. 2301 et seq.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Any local, State, or Federal official or private industry executive who has responsibility for fire prevention and control, hazard mitigation, and disaster response and recovery is eligible to apply for attendance at the educational programs of the National Fire Academy and the Emergency Management Institute. Specific course pre-requisites and student selection criteria are included with the course descriptions.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Applicants are notified in writing regarding the disposition of their application for admissions. For application to the Emergency Management Institute, submit application form to the State Office of Emergency Management Services.

FINANCIAL INFORMATION:

Obligations:

(Training) FY 84 $800,000; FY 85 $3,610,000; and FY 86 est $263,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1985, 3,833 people graduated from the National Fire Academy resident program and 3,000 people graduated from the Emergency Management Institute resident program. A total of 8,000 graduated from the National Fire Academy field programs, and 130,000 graduated from the Emergency Management Institute field program.

83.410 COMMUNITY-BASED ANTI-ARSON PROGRAM

AUTHORIZATION:

Federal Fire Prevention and Control Act of 1974, 15 U.S.C. 2201 et seq.

83.502 ACQUISITION OF FLOOD-DAMAGED STRUCTURES

AUTHORIZATION:

The National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973, 42 U.S.C.

83.505 STATE DISASTER PREPAREDNESS GRANTS

AUTHORIZATION:

Disaster Relief Act of 1974, as amended; 42 U.S.C. 5121 et seq.

USES AND USE RESTRICTIONS:

The Act authorizes two kinds of grants to each State. Section 201(c) provided for one-time "grants, not to exceed in the aggregate ... $250,000 for the development of plans, programs, and capabilities for disaster preparedness and prevention." This "development" grant program has been completed. Section 201(d) provides for "grants not to exceed 50 per centum of the cost of improving, maintaining and updating State disaster assistance plans, except that no such grant shall exceed $25,000 per annum to any State. Legislation has been introduced to include the Annual Improvement Grant cap to $50,000. These "improvement grants" may apply to such preparedness programs and capabilities as: (1) planning for disaster response in general, for specific natural disaster contingencies in special locales, for local and area mutual emergency support under State sponsorship, for long-range recovery, and for disaster mitigation and hazard reduction; (2) revision, as necessary, of State legislation, implementing orders, regulations, and other authorities and assignments relevant to disaster preparedness and assistance; (3) disaster-related mutual aid compacts and agreements; (4) conduct of vulnerability analyses not otherwise available but necessary for the development of State and local disaster preparedness plans and programs; (5) design of disaster-related emergency systems; (6) training and exercises; (7) program reviews and postdisaster critiques; and (8) public information and education programs. Grant funds may not be used to procure or repair equipment, materials, or facilities except as required for grant administration.

APPLICATION AND AWARD PROCESS:

Deadlines:

DPI products are to be developed in the fiscal year of award.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

FINANCIAL INFORMATION:

Obligations:

(Improvement Grants) FY 84 $1,229,000; FY 85 $2,950,000; and FY 86 est $2,950,000.

PROGRAM ACCOMPLISHMENTS:

All States received development grants except the Canal Zone, which declined. Each produced a State emergency plan for disaster assistance (or equivalent) as well as other preparedness measures. Improvement Grants: fiscal year 1984, 52; fiscal year 1985, 53. Fiscal year 1986, the improvement grants have produced a variety of products such as revisions to basic State emergency plans, local basic plans (actual or model), contingency plans, vulnerability analyses and guidebooks on disaster assistance for State and local governments.

USES AND USE RESTRICTIONS:

Funds may be used for: (1) Establishing, operating, and improving programs of bilingual education; or special alternative methods of instruction, including English as a second language (ESL), or structured English language instruction for children of limited English proficiency; (2) auxiliary and supplementary community and educational activities designed to facilitate and expand the implementation of such programs, including adult education programs, preschool programs, and training for parents; (3) training for personnel including teachers, staffs, and parents, who are participating in, or preparing to participate in, programs of bilingual education, and special alternative instructional programs; training institutes; operating, undergraduate and graduate bilingual education training programs, and fellowships in the field of training teachers for bilingual education, and special alternative instructional programs; (4) evaluation assistance centers; (5) collection, aggregation, analysis and publication of data and information on States' populations of limited English proficient students and the services provided or available to such persons; (6) research activities authorized under Part B of the Bilingual Education Act; (7) a national clearinghouse for bilingual education, and (8) multifunctional resource centers. Federal funds made available under this Title to local and State educational agencies must be used to supplement, not to supplant, State and local funds that have been expended for, or in support of, special programs for children of limited English proficiency.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Applicants under certain programs are required to form an advisory council of which a mojority shall be parents and other representatives of the children to be served, or project committee to assist in the development of their applications. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Award Procedure:

Based on evaluations and recommendations of outside experts, internal review of all applications, and recommendations from State educational agencies, the Director of the Office of Bilingual Education and Minority Languages Affairs approves new applications for support. Awards are for a project period ranging from one to three years and two more optional years; with local educational agencies, applying as sole or joint applicants, limited to a maximum project period of three years. Continuation of a multi-year award is conditioned on the availability of funds and grantee's demonstration of satisfactory progress toward achieving program objectives. Following negotiation with the approved applicant, the Education Department's Grants Officer sends notification of the grant award to the recipient.

Deadlines:

Closing dates for fiscal year 1986 awards for the remaining programs authorized under Title VII will be announced at a later date. Contact the Program Office for additional information. Prospective applicants may request placement on the program mailing list.

84.032 HIGHER EDUCATION ACT INSURED LOANS

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Eligibility will vary from State to State. Under the GSL Program, any U.S. citizen, national, or person in the United States for other than a temporary purpose, who is enrolled or accepted for enrollment on at least a half-time basis as undergraduate, graduate, professional or vocational student at a participating postsecondary school may apply. Under the PLUS Program independent undergraduate, graduate and professional, and parents of dependent undergraduate students may apply. Only U.S. nationals may receive a loan to attend eligible foreign postsecondary schools. A student that is presently enrolled at a participating institution must be maintaining satisfactory progress in the course of study he/she is pursuing. Also, the borrower may not owe a refund on any Title IV grant or be in default on any Title IV aid at that school. Under the GSL Program, if the student's adjusted gross family income is greater than $30,000 or more the student must undergo a "need test" to determine eligibility for Federal interest and special allowance benefits. There is no interest benefits or "needs test" for PLUS loans.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Applications for loans are obtained from lenders or schools. The borrower completes his or her portion of the application and submits it to the school. The school must certify that the student is enrolled, and maintaining satisfactory progress, or is accepted for enrollment, and provide information on the student's cost of education, other financial aid, and if applicable, the expected family contribution. The lender then completes its portion of the application and forwards it to the guarantor for commitment.

FINANCIAL INFORMATION:

Obligations:

(Loan volume) FY 84 $7,916,226,887; FY 85 est $9,267,000,000; and FY 86 est $10,821,000,000.

Range and Average of Financial Assistance:

Under the GSL Program the maximum may not exceed $2,500 per academic year for undergraduate students; total loans outstanding may not exceed $12,500. Graduate and professional students may borrow up to $5,000 annually for a maximum outstanding of $25,000 (includes amounts borrowed as undergraduate). The maximum may not exceed $2,500 per academic year and $12,500 outstanding for an independent undergraduate student under the GSL and PLUS Programs combined. Under the PLUS Program the maximum may not exceed $3,000 per academic year for a graduate or professional student or for a parent borrowing on behalf of a dependent undergraduate student; the cumulative maximum may not exceed $15,000.

The Institutes significant accomplishments during fiscal years 1984 and 1985 include: Follow-up to "A Nation at Risk" revealed that during the past three years, at least forty States have raised their graduation requirements as well as a wave of other reform efforts monitored by NIE. A series of nineteen competitions for awards to operate regional educational laboratories and centers were completed. During 1984, special efforts were made toward the dissemination of findings to ensure that the results of educational research and development get "off the shelf" and are made available to those who need them. The national assessment of reading and writing skills of nine, eleven, thirteen, and seventeen year olds. In addition, a report was developed highlighting recent findings in mathematics and science. A cooperative study of education in the U.S. and Japan was conducted to see whether there may be lessons Americans can learn from studying education in Japan which fit our culture and society. A report is planned for release in fall of 1986. Excellence in education and effective schools have been the focal point for much of NIE's work which includes: The Secondary School Recognition Program where more than 200 outstanding schools were recognized. In response to a Congressional mandate in ECIA Technical Amendments of 1983, the Secretary, through NIE is conducting a national assessment of compensatory education. In response to the need to improve the quality of textbooks, the Secretary, convened several study group meetings, staffed by NIE which included representatives of State education agencies, local school boards, adminstration, teachers, researchers and publishers. These meetings helped define the important problems involving instructional materials. During 1984, NIE completed the design and development of a computerized file on successful teaching practices to help meet the needs of teachers and administrators in the day-to-day operation of schools. In addition, an NIE three phase project played a significant role in the design, implementation, and assessment of a Teacher Career Development Plan being initiated by the Charlotte-Mecklenburg (North Carolina Schools). Accomplishments in education and technology include the establishment of a task force on educational technology with experts from the public and private sectors to study and report on ways that public-private sector collaborations can help improve American education through the use of technology. Highlights of the first year's research and development efforts related to postsecondary education include: A major report produced by a seven member study group appointed by the Director of NIE making 27 recommendations designed to enhance the quality of education and the effectiveness of the student learning process. Two new research centers were completed focusing on postsecondary education: one center will provide a range of information, concerning management and governance issues at the State and national levels. The other center will focus on what students learn, how they learn and how postsecondary teaching and learning can be made effective and possible. In fiscal year 1984, $739,000 was awarded for research grants (continuations) on teaching and learning. No new competitive awards were made in fiscal years 1984 and 1985.

EXAMPLES OF FUNDED PROJECTS:

To address its goals of improving American education, NIE uses current-funded grants to support a wide variety of activities. These include: (1) National Assessment of Educational Progress (NAEP) - NAEP is a continuing survey of the knowledge, skills, understanding, and attitudes of young Americans, created to provide reliable, consistent information about the Nation's educational progress. As mandated by Congress, an Assessment Policy Committee is responsible for designing and supervising the National Assessment. (2) National research centers - The educational research centers are responsible for conducting research and development in areas or topics of national concern and for disseminating their findings and products nationally. Thirty-six grants were awarded in fiscal year 1985 to provide funds for planning for the competition for research centers. These Centers will conduct research and development in the following areas: teacher quality and effectiveness, teacher education, student testing, evaluation, and standards; the study of writing, the study of learning, effective elementary and secondary schools and postsecondary teaching and learning. All but one of the 12 center awards will be new in 1986. (3) Other activities include research projects supported through grants such as research on effective schools: "A Second Generation Study", technology and teacher training, studies on finance, law and governance; alternative teacher career structure, the reading process and comprehension failure, research on moving toward excellence in writing and learning, teacher education, childrens' understanding of numbers and the role of oral language.

DEPARTMENT OF AGRICULTURE

COOPERATIVE STATE RESEARCH SERVICE

10.210 FOOD AND AGRICULTURAL SCIENCES NATIONAL NEEDS GRADUATE FELLOWSHIP GRANTS

FEDERAL AGENCY: COOPERATIVE STATE RESEARCH SERVICE, DEPARTMENT OF AGRICULTURE

AUTHORIZATION: National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended; Section 1417, Public Law 95-113.

OBJECTIVES: To award grants to colleges and universities that have superior teaching and research competencies in the food and agricultural sciences to encourage outstanding students to pursue and complete a graduate degree at such institutions in an area of the food and agricultural sciences for which there is a national need for the development of scientific expertise. Therefore, institutions that currently have excellent programs of graduate study and research in the food and agricultural sciences dealing with targeted national needs are particularly encouraged to apply.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Competitive annual grants providing for a limited number of 12 month graduate stipends, will be awarded to selected U.S. institutions of higher education, so as to distribute support for graduate study to promising food and agricultural scientists and professionals. Individuals selected initially by the institution must enroll in a program leading to a graduate, master's or doctoral degree in one of the targeted national needs areas of the food and agricultural sciences. Such persons may not have been enrolled previously in the program at the same degree level. None of these funds is discretionary in nature.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Proposals may be submitted by all U.S. colleges and universities that confer a master's or doctoral degree in at least one area of the food and agricultural sciences targeted for national needs fellowships. As defined in Section 1404 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3103). The terms college and university means "an educational institution in any State which; (a) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate; (b) is legally authorized within such State to provide a program of education beyond secondary education; (c) provides an educational program for which a bachelor's degree or any other higher degree is awarded; (d) is a public or other nonprofit institution, and (e) is accredited by a nationally recognized accrediting agency or association".

Beneficiary Eligibility: Funds awarded in this program are used to support the training of graduate students to obtain either a master's or doctoral degree in one of the targeted specializations of the food and agricultural sciences.

Credentials/Documentation: Each prospective grantee institution must furnish the information and assurance specified in the guidelines.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: All proposal solicitations are published in the Federal Register.

Application Procedure: Formal proposal to Higher Education Programs, USDA/OGPS as outlined in the guidelines. Application procedures are contained in the Food and Agricultural Sciences National Needs Graduate Fellowships Grant Application Kit. This program is subject to the provisions of OMB Circular No. A-110.

Award Procedure: Higher Education Program staff members review and evaluate all proposals with the assistance and advice of a peer panel of qualified scientists, administrators, and other appropriate persons who are specialists in the field covered by the proposal. Proposals are accepted in order of merit to the extent permitted by available funds.

Deadlines: All deadlines are announced in the Federal Register.

Range of Approval/Disapproval Time: From 90 to 180 days.

Appeals: None.

Renewals: Contingent on appropriations, annual renewal for grants may be requested by an institution to continue support for fellows. However, support for doctoral fellows is limited to three 12 month stipends; master's fellow to two 12 month stipends.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: None.

Length and Time Phasing of Assistance: Grants cover a five year period, however, fellows are supported for three years for a doctoral degree or two years for a masters during that five year period.

POST ASSISTANCE REQUIREMENTS:

Reports: Annual reports are required as a part of the renewal process.

Audits: The program is subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General. Federal audits will be made in accordance with the policies of OMB Circular No. A-73.

Records: Grantees are expected to maintain separate records for each grant to insure that funds are used for the purpose for which the grant was made. Records are subject to inspection during the life of the grant and for 3 years thereafter.

FINANCIAL INFORMATION:

Account Identification: 12-1500-0-1-352.

Obligations: (Grants) FY 84 $0; FY 85 est $4,850,000; and FY 86 est $0.

Range and Average of Financial Assistance: $10,440 to $154,500; doctoral fellows are supported at $15,000 and masters fellows are supported at $10,000 and the average training fee is $1,800. Therefore, the average grant is dependent on the degree level funded and the number of fellowships awarded to an institution.

PROGRAM ACCOMPLISHMENTS: Approximately $5,000,000 were available in fiscal year 1984 to initiate the new USDA Food and Agricultural Sciences National Needs Graduate Fellowhip Grants Program. All U.S. colleges and universities that confer a graduate degree in one or more of the food and agricultural sciences targeted for national needs fellowships were eligible to apply. Ninety percent of the funds were designated for the support of doctoral fellows, ten percent for master's fellows. A total of 73 different institutions submitted proposals for graduate fellowships grants. Based on peer panel review and evaluation, 67 proposals (46 percent of those received) were selected for funding. These 67 grants will support the recruitment and first year of training for 302 graduate fellows at some 47 different institutions in 35 States across the Nation.

REGULATIONS, GUIDELINES, AND LITERATURE: Pages 20428-20430 Federal Register, Vol. 49, No.94, Part III, May 14, 1984; Application Kit for the Food and Agricultural Sciences National Needs Graduate Fellowships Grants and General Provisions for Grant and Cooperative Agreements.

INFORMATION CONTACTS:

Regional or Local Office: None.

Headquarters Office: Director, Higher Education Programs, Department of Agriculture, Administration Building, Room 350-A, 14th and Independence Avenue, S.W., Washington, DC 20250. Telephone: (202) 447-7854 (Use the same 7-digit number for FTS).

RELATED PROGRAMS: 47.009, Graduate Research Fellowships.

EXAMPLES OF FUNDED PROJECTS: In fiscal year 1984, funds were awarded in four targeted national needs areas as follows: (1) Food and agricultural marketing; (2) agricultural engineering; (3) food science/human nutrition; and (4) biotechnology. These funds are available only to support the training of new students in targeted areas of national need as determined by the higher education programs office, USDA and announced in the Federa Register as a part of the Program Announcement.

CRITERIA FOR SELECTING PROPOSALS: In fiscal year 1984, criteria were as follows: (a) The degree to which the proposal identifies and delineates a request for funds to support a fellowship program in an important area of national need and the extent to which it establishes that the proposed programs of graduate training will result in the development of scientific expertise related to national needs in a reasonable period of time; (b) the degree to which the proposal reflects that program faculty and facilities are capable of supporting outstanding graduate study and research at the forefront of science and technology related to the chosen areas of national need; (c) the degree to which the institution's plans for recruitment and selection of academically outstanding fellows reflect excellence as documented in the proposal; (d) the degree to which the proposal reflects multidisciplinary and/or multiuniversity collaborative approaches to the proposed programs of graduate study; and (e) the academic merit of the proposal as represented by its organization and clarity.

10.600 FOREIGN AGRICULTURAL MARKET DEVELOPMENT AND PROMOTION

FEDERAL AGENCY: FOREIGN AGRICULTURAL SERVICE, DEPARTMENT OF AGRICULTURE

AUTHORIZATION: Agricultural Trade Development and Assistance Act of 1954, Title I, Section 104(b), Public Law 83-480; Agricultural Act of 1954, Title VI, Public Law 83-690; Executive Order 10900, dated January 5, 1961.

OBJECTIVES: To create, expand, and maintain markets abroad for U.S. agricultural commodities.

TYPES OF ASSISTANCE: Direct Payments for Specified Use.

USES AND USE RESTRICTIONS: Cooperative program: Funds may be used for trade servicing, consumer promotion, market research, and to provide technical assistance to actual or potential foreign purchasers. Types of activities and amounts of funds are annually negotiated between FAS and participants (Cooperators) and authorized in annual marketing plans. Programs are prioritized through a jointly conducted strategic planning process which identifies the major constraints to market expansion on a commodity by market basis. Unless specifically approved otherwise, Government funds may be used only in direct support of activities conducted outside the United States. Export Incentive Program: Funds are usually limited to direct promotion expenses such as consumer advertising, point of sale demonstrations, public relations and press servicing activities, and participation in trade fairs and exhibits.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: To be approved, an agreement must give promise of effectively contributing to the creation, expansion, or maintenance of markets abroad. Primary emphasis is on commercial markets and preference is given to agreements promising early results and lasting benefits. Approvals and priorities are based on the following criteria: (1) Probable success in maintaining or increasing consumption and imports of the subject U.S. agricultural commodities (2) the potential long range contribution of the program to U.S. agricultural exports and the relative importance of exports to the subject commodities and to U.S. agriculture and the U.S. balance of payments; (3) compatibility with U.S. foreign policy; (4) the ability of the applicant to provide competent U.S. based staff and other resources to assure adequate development, supervision and execution of project activities; (5) the extent to which the applicant represents U.S. commodity interests; (6) the willingness and ability of private organizations to back up promotional activities with agressive selling and adequate supplies of commodities of the quality desired by foreign buyers; (7) competition in the market; and (8) cultural, political, and economic obstacles which might restrict imports of U.S. agricultural commodities into world markets. Cooperative Program: Cooperator preference is given to nonprofit U.S. agricultural trade organizations which are industry-wide or nationwide in membership and scope. Private firms may be eligible to participate if it can be determined by FAS that their participation meets the program's objectives, that market development activities for the commodity would not otherwise be undertaken and/or an eligible nonprofit U.S. agricultural trade organization designates a particular private organization to act in its behalf. Export Incentive Program: Participants are selected for this program when it has been determined that no cooperator program is feasible. Eligibility is limited to the registered brands of the participant or other brand approved in advance by the Administrator.

Beneficiary Eligibility: Cooperator preference is given to nonprofit U.S. agricultural trade groups which are industry-wide or nationwide in membership and scope. Private firms are eligible when designated by a nonprofit trade organization to act in its behalf.

Credentials/Documentation: Applicants must prove ability to provide a competent experienced staff and other resources to assure adequate development, supervision, and execution of commodity activities. Applicants should submit a written proposal which provides a brief discussion of the commodity for which an agreement is being requested and a statement that U.S. export availabilities are expected to be adequate during the life of the agreement; a description of proposed activities including the foreign countries in which they will be conducted, and the applicant's articles of incorporation. Cooperator Program: The applicant must also submit its Internal Revenue Service tax exempt identification number, a description of the membership of the applican organization and the degree to which membership represents national production, an estimate of the level of Government funds required and the extent to which industry resources are available to match Government fund expenditures, and a certification signed by the organization's Chief Executive Officer that it is in fact nonprofit. Export Incentive Program: The participant must also summarize its recent export and promotion history and project anticipated export sales and promotional costs.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: None.

Application Procedure: Informal written or verbal contact should be made with the Assistant Administrator, Commodity and Marketing Programs, FAS.

Award Procedure: FAS and the participant arrive at a preliminary agreement concerning the market development effort that is planned. The specific understandings reached are then incorporated in a formal agreement that is reviewed and approved both in terms and amount and signed by the participating organization and the Assistant Administrator, Commodity and Marketing Programs, on behalf of the FAS.

Deadlines: Applicants may contact the Federal agency for deadline dates.

Range of Approval/Disapproval Time: Approximately 30 to 180 days.

Appeals: Not applicable.

Renewals: Available by request.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Cooperators must endeavor to provide a total contribution to the project equivalent to the amount of Government funds expended by the cooperator. Such contribution may consist of cash, goods or services and may be provided through foreign third party participants or private U.S. organizations. In any case the contribution will be sufficient to provide resources and personnel in the U.S. to adequately supervise the conduct of the joint program. The export incentive program reimburses participants no more than 50 percent of approved foreign promotion expenses and is thereby a matching funds program by its very nature.

Length and Time Phasing of Assistance: Agreements may extend from 1 to 5 years in the Cooperator Program. Export Incentive Program Agreements are typically 3 years in duration. Assistance is released according to approved annual marketing plans in the cooperator program. In the the Export Incentive Program, the amount of assistance released depends on the participant's performance as specified in the agreement.

POST ASSISTANCE REQUIREMENTS:

Reports: Cooperator Program: Expense reports are submitted to claim reimbursement for expenses incurred. Trip reports are submitted within 45 days of completion of travel. A detailed summary of expenses by country and cost code as well as contributions are submitted once annually on January 15 after the completion of the marketing plan year. Export Incentive Program: Participants submit claims once annually at the end of each marketing year.

Audits: Cooperator accounts are reviewed as needed, but normally at least every two years, by representatives of the compliance review staff, FAS. Audits and reviews are also conducted sporadically by representatives of the Office of Inspector General and Government Accounting Office. Accounts and records must be available for inspection or audit at any reasonable time.

Records: Must be maintained for not less than 3 years after completion or termination of the agreement or more than 5 full calendar years following the year of the transaction that is evidenced by such an account or record took place, whichever is sooner.

FINANCIAL INFORMATION:

Account Identification: 12-2900-0-1-352.

Obligations: (Direct Payment) FY 84 $31,300,000; FY 85 est $33,700,000; and FY 86 est $33,700,000.

Range and Average of Financial Assistance: $5,000 to $8,000,000; $730,000.

PROGRAM ACCOMPLISHMENTS: During fiscal year 1985, FAS is participating with 47 cooperators (including support of 51 permanently staffed cooperator offices overseas), four regional State organizations (covering 50 States), and the National Association of State Departments of Agriculture and 16 Export Incentive Program contractors to promote 96 agricultural commodities and/or products through 5,200 activities in 136 foreign countries.

REGULATIONS, GUIDELINES, AND LITERATURE: Foreign Agricultural Service Guidelines, Title 11.

INFORMATION CONTACTS:

Regional or Local Office: Not applicable.

Headquarters Office: Assistant Administrator, Commodity and Marketing Programs, Foreign Agricultural Service, Department of Agriculture, Washington, DC 20250. Telephone: (202) 447-4761.

RELATED PROGRAMS: None.

EXAMPLES OF FUNDED PROJECTS: Cooperator program to: (1) Promote exports of U.S. soybeans and soybean products through identified soy oil promotions in Europe, soymeal livestock feeding trials worldwide, and production and distribution throughout Latin America of soy protein publications directed toward institutional users; (2) promote U.S. forest products through trade exhibits in the Peoples Republic of China and Europe, construction of demonstration low cost housing in Latin America, and trade seminars worldwide; (3) promote exports of U.S. seed through seed research variety development and test plots in South America, participation in international regulatory organizations to mitigate both tariff and nontariff trade barriers to U.S. seed exports, and market survey and trade teams; (4) promote exports of U.S. beef, pork and variety meats through technical seminars in the Middle East, menu promotions and advertising in the Far East and trade show participation in Europe; and (5) EIS program to promote brand-identified U.S. prunes and prune product exports to Europe and Japan through consumer media advertising, point-of-sale demonstrations and trade fair participation.

13.130 PRIMARY CARE SERVICES—PLANNING AND DEVELOPMENT COOPERATIVE AGREEMENTS

(Primary Care Services Cooperative Agreements)

FEDERAL AGENCY: HEALTH RESOURCES AND SERVICES ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Section 333 (g), Public Health Service Act.

OBJECTIVES: To coordinate local, State, and Federal planning to establish, organize, and operate primary care service delivery in the State to meet the needs of medically-underserved populations through the establishment of sites for community health centers and the assignment of National Health Service Corps physicians.

TYPES OF ASSISTANCE: Project Grants (Cooperative Agreement.).

USES AND USE RESTRICTIONS: Recipients will be expected to perform statewide primary care planning, health systems development, health personnel recruitment and placement, and operational and administrative support activities.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Cooperative agreements will be made to a State, State agency, or other statewide public or nonprofit entity that operates solely within one State.

Beneficiary Eligibility: Medically-underserved populations within States will benefit from this program.

Credentials/Documentation: Proof of nonprofit status is required. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For other grantees, costs will be determined in accordance with 45 CFR 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Informal inquiries regarding the program and intent to submit an application should be directed to the Headquarters Office. The standard application form as furnished by DHHS and required by OMB Circular No. A-102 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure: Application is made by the submission of the standard PHS application. Application kits are obtained by writing to the Grants Management Officer, Bureau of Health Care Delivery and Assistance (see address under Information Contacts below). This program is subject to the provisions of OMB Circular No. A-110.

Award Procedure: Applications are reviewed by a committee composed of members of the staff of DHHS (and non-governmental personnel). Applications are reviewed for merit and are recommended for approval or disapproval. Final decisions are made by the Director of the Bureau of Health Care Delivery and Assistance.

Deadlines: Deadlines are specified in the application instructions.

Range of Approval/Disapproval Time: From 30 to 60 days.

Appeals: Applicants may revise and resubmit applications.

Renewals: Support is recommended for a specified project period, usually not in excess of 5 years. After the initial award is made, projects may be renewed annually depending upon the submission and approval of a satisfactory application.

13.131 SHARED RESEARCH FACILITIES FOR HEART, LUNG, AND BLOOD DISEASES

FEDERAL AGENCY: NATIONAL INSTITUTES OF HEALTH, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Title II, Public Law 98-619; Section 202, Department of Health and Human Services Appropriation Act of 1985.

OBJECTIVES: To expand or create physical resources for the application of modern, sophisticated technology to fundamental research in heart, lung, and bood diseases.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Awards may be used to repair, renovate, rehabilitate, modernize, remodel, and improve existing physical facilities so as to expand ongoing research activities and to introduce modern investigative techniques. Funds may not be used for the purchase of research equipment.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Any domestic public or nonprofit organization is eligible with existing high quality research activities in heart, lung, and/or blood diseases, or resources that receive at least $5,000,000 per year in total costs in peer-reviewed NIH support.

Beneficiary Eligibility: Public and private domestic nonprofit organizations will benefit from this program.

Credentials/Documentation: Applications should include a listing of NIH research grants supporting heart, lung, and blood studies and the dollar amount awarded for such activities. The proposed facility must serve multiple National Heart, Lung, and Blood Institute (NHLBI) research projects and at least two of the three program areas of the NHLBI. Each project that will utilize the proposed facility must be described in some detail. Applicants should adhere to PHS Policy Statement, Chapter 1-44. Costs will be determined by DHHS Regulations 45 CFR 74, Subpart Q. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Preapplication assistance is available from the address noted below under Information Contacts. The standard application forms as furnished by DHHS, and required by OMB Circular No. A-102 for State and local governments, must be used for this program.

Application Procedure: Application forms may be obtained from the Division of Research Grants, NIH, Bethesda, MD 20892. Completed applications should be submitted to the same address for review. This program is subject to the provisions of OMB Circular No. A-110.

Award Procedure: All accepted applications are reviewed for scientific merit by an appropriate initial review group and by the National Heart, Lung, and Blood Advisory Council.

Deadlines: March 1, 1986.

Range of Approval/Disapproval Time: From 7 to 9 months.

Appeals: A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his or her application by communicating with the staff of the Institute. Subsequently, the P.I. and the applicant organization may formally appeal to the Deputy Director for Extramural Research and Training, OD, NIH.

Renewals: None.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: This program has no statutory formula. The National Heart, Lung, and Blood Institute will award up to two-thirds of the eligible costs. Matching funds from nonfederal sources are required.

Length and Time Phasing of Assistance: Alteration and renovation must be initiated within 120 days after the award is received and the funds are released.

POST ASSISTANCE REQUIREMENTS:

Reports: The grantee is responsible for the performance of the contractor. The contractor must be covered by performance and payment bonds.

Audits: In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records: Expenditure reports and other records must be retained for 3 years from the day on which the grantee submits its last expenditure report for the report period.

FINANCIAL INFORMATION:

Account Identification: 75-0872-0-1-550.

Obligations: (Grants) FY 84 $0; FY 85 est $3,300,000; and FY 86 est $3,300,000.

ENVIRONMENTAL PROTECTION AGENCY

OFFICE OF WATER

66.456 COMPREHENSIVE ESTUARINE MANAGEMENT

FEDERAL AGENCY: OFFICE OF WATER, ENVIRONMENTAL PROTECTION AGENCY

AUTHORIZATION: Clean Water Act, Public Law 94-117, Title I, Section 104(b)(3), 33 U.S.C. 466 et seq.

OBJECTIVES: To assist State, interstate and other water pollution control agencies develop programs to protect and restore coastal resources in priority estuaries. The program objective is to develop a master environmental plan for each estuary based on established relationships between pollutant loading and impacts on living resources. Actions to be taken under the plan would implement basin-wide reduction of point and non-point sources of pollution adversely impacting the uses of the estuary.

TYPES OF ASSISTANCE: Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS: Funds are to be used for projects and tasks needed to address priority problems of the estuary as identified within an annual action plan developed through a regional management committee structure for the priority estuary under study. Funds are currently available for the following priority estuaries: Long Island Sound, Buzzards Bay, Narragansett Bay and Puget Sound. Projects and tasks will include (1) gathering and analyzing existing and historical data from various sources of information previously collected in the estuary, (2) identifying and conducting further research to acquire new and additional data as needed to address the priority problems, and (3) efforts to increase regional public understanding of the problems and complexities of the estuary and bring public input to the decision making and management processes. These funds cannot be used for programs normally funded and conducted by a State or municipality under a regional pollution control program. For example, funds cannot be used for construction or operation of a waste treatment facility nor can they be used for programs or projects funded by other Federal agencies.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Funds are available to State Water Pollution Control agencies, interstate and intrastate agencies, public or private nonprofit organizations, and institutions within the geographic area of a priority estuary for study under this program. Profit making organizations and individuals are not eligible.

Beneficiary Eligibility: State and local governments, interstate and intrastate agencies, public and private nonprofit organizations and institutions.

Credentials/Documentation: Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and OMB Circular No. A-21 for educational institutions.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Preapplication assistance is recommended and should be obtained from the appropriate EPA Regional Office or EPA Headquarters. All proposals or work statements should be developed in response to the priority tasks identified in the annual work plan for the priority estuary and submitted to the EPA Regional estuary coordinator. Each proposal will be considered by the appropriate work group within the estuary management committee and the EPA Regional program. The standard application form as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs. An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure: Application forms may be requested from the EPA Grants Administration Division PM-216, Washington, DC 20460, or from the appropriate Regional Office. The completed application including the final proposal approved by the estuary management committee should be submitted to the appropriate EPA Regional program office for approval and transmittal to EPA Headquarters for processing. This program is subject to the provisions of OMB Circular No. A-110.

Award Procedure: Each application and final proposal shall be subject to EPA Headquarters program administrative evaluation to determine the adequacy of the application under grant regulations and program objectives, including technical merit and relevance of the project. Awards are issued by the EPA Headquarters Grants Administration Division.

Deadlines: Complete applications must reach the appropriate Regional program office no later than June 1, 1986 to be considered for funding during fiscal year 1986, and by June 1 of succeeding calendar years as future funds are made available and additional estuaries come under study.

Range of Approval/Disapproval Time: Approximately 90 days after deadline for application submission.

Appeals: None.

Renewals: Renewals are subject to approval of the estuary management committee. Contact the appropriate EPA Regional office for guidance.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: A minimum of 5 percent cost share is required.

Length and Time Phasing of Assistance: Grants normally funded on a 12-month basis (yearly). Project period may cover up to 24 months. Continuations may be available for certain types of projects. Payments will be on a letter of credit or advance basis.

POST ASSISTANCE REQUIREMENTS:

Reports: Quarterly interim, and final progress and expenditure reports; program evaluations and other reports as required by the specific terms of the Agreement.

Audits: Grants are subject to inspections and audit by representatives of the Comptroller General of the United States and EPA or any authorized representative. Periodic audits should be made as part of the recipient's systems of financial management and internal control to meet terms and conditions of grants and other agreements. In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs in which they participate.

Records: Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

FINANCIAL INFORMATION:

Account Identification: 68-0108-0-1-304.

Obligations: (Grants) FY 84 Not applicable; FY 85 est $2,401,204; and FY 86 est $2,400,000.

Range and Average of Financial Assistance: $5,000 to $765,000;$100,000.

PROGRAM ACCOMPLISHMENTS: In fiscal year 1985, the estuary programs received 112 proposals. The management committees approved and EPA funded 21 cooperative agreements.

REGULATIONS, GUIDELINES, AND LITERATURE: Federal Register, Vol. 40, 19580, May 9, 1985, General Grant Regulations and Procedures (40 CFR part 30). "EPA Assistance Administration Manual," EPA, available from the National Technical Information Service, Springfield, VA 22161 on a subscription basis. EXAMPLES OF FUNDED PROJECTS: Cooperative agreements awarded to States, interstate agencies and nonprofit organizations to conduct water quality baseline assessments, monitoring and field surveys; review historical data. Public awareness programs such as interpretative and interactive displays focusing on an estuary's characteristics, developing lecture series, workshops and informational documents.

CRITERIA FOR SELECTING PROPOSALS: Proposals are approved by the estuary management committees according to technical merit and relevance to the objectives, projects and tasks identified in the estuary's annual work plan. Proposals should contain schedules for progress reports and products that will contribute findings and recommendations for management decisions; provide for project data to be presented in EPA prescribed formats; provide for on-going project coordination and problem resolution that may arise as work progresses; and show adequate resources to complete the work described to meet work plan objectives.

66.804 STATE UNDERGROUND STORAGE TANKS PROGRAM

(UST Program)

FEDERAL AGENCY: Office of Solid Waste, Environmental Protection Agency

AUTHORIZATION: Resource Conservation and Recovery Act, Hazardous and Solid Waste Amendments, Subtitle I, Section 9004, Public Law 98-616; Subtitle B, Section 2007 (f)(2), Public Law 98-616.

OBJECTIVES: To assist States in development and implementation of their own underground storage tank (UST) programs to operate in lieu of the Federal program.

TYPES OF ASSISTANCE: Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS: Fundable tasks are divided into high priority tasks and other tasks. High priority tasks include: (1) Processing UST notification forms and establishing a data processing system, (2) developing statutory and regulatory authority for a State underground tank program so that States may apply to operate the program in lieu of the Federal government, (3) promoting compliance with the interim prohibition through development of enforcement agreements with the Region, implementation of field inspection programs and certification of tank installations, (4) investigating alternative funding mechanisms such as tank registration and tank inspection fees, and (5) providing information and technical assistance to notifiers. Other, lower priority tasks include: (1) Development of certification programs for tanks installers and (2) technical assistance and training for State personnel. The latter tasks are to be undertaken only after completion of the five high priority tasks. Specific activities funded under each State's annual work program will be individually negotiated by the Regional Offices. Grant funds may not be passed through to sub-State agencies.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Agency designated by State or Territorial Governor to receive UST notifications.

Beneficiary Eligibility: General Public.

Credentials/Documentation: Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this Program.

Application Procedure: States or Regional Offices may initiate the grant process. States may submit draft grant applications to the Regions or the Regions can provide draft work plans to their States for consideration. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs". An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Award Procedure: Each application shall be subjected to administrative evaluation to determine adequacy of application in relation to grant regulations and to technical and program evaluation to determine the merit and relevancy of the project or program.

Deadlines: Contact the appropriate Regional Offices for application deadlines.

Range of Approval/Disapproval Time: 30 to 60 days.

Appeals: None.

Renewals: None.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: A minimum of five percent cost share is required.

Length and Time Phasing of Assistance: The terms of the grant shall be determined at the time of the grant award.

POST ASSISTANCE REQUIREMENTS:

Reports: Annual Regional Review. Contact Regional UST Coordinator for Reporting Requirements.

Audits: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate.

Records: Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

81.091 SOCIOECONOMIC AND DEMOGRAPHIC RESEARCH, DATA AND OTHER INFORMATION

FEDERAL AGENCY: OFFICE OF MINORITY ECONOMIC IMPACT, DEPARTMENT OF ENERGY

AUTHORIZATION: Department of Energy Organization Act, Title II, Public Law 95-91, as amended by National Energy Conservation Policy Act of 1978, Title VI, Section 211(c): (1), (2) and (3), Public Law 95-619, 92 Stat. 3284; 42 U.S.C. 7431-7439.

OBJECTIVES: (1) To provide financial support for research, data and other information which would help to determine minority energy consumption and usage patterns; (2) to evaluate the percentage of disposable income spent by minorities on energy compared to national usage patterns.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Financial support, in whole or in part, may be provided for: (1) Salaries; (2) materials and supplies; (3) equipment; (4) travel; (5) publication costs; (6) services required for conducting research; (7) assessments; or (8) the development of other information. Restrictions on the use of funds is incumbent upon contract or grant provisions.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Institutions of higher education, industry (particularly small and disadvantaged businesses) and nonprofit institutions may apply.

Beneficiary Eligibility: Institutions of higher education, industry, and nonprofit institutions will benefit.

Credentials/Documentation: None.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program.

Application Procedure: Written proposals are submitted to the Department of Energy in accordance with the Notice of Program Announcement.

Award Procedure: Proposals will be evaluated using the criteria outlined in the program announcement by Federal and nonfederal employees who are experienced in designated research areas. In addition to technical merit, consideration will be given to research and program balance.

Deadlines: None.

Range of Approval/Disapproval Time: Approximately 90 days.

Appeals: None.

Renewals: Proposals for renewal are subject to review and acceptance by the Headquarters Office.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Cost-sharing may be appropriate.

Length and Time Phasing of Assistance: The period of performance is arrived at through negotiation.

POST ASSISTANCE REQUIREMENTS:

Reports: The schedule of reports is arranged at the time of negotiation.

Audits: Costs incurred are subject to audit throughout the period of performance. The extent and frequency of audits depend upon the size of the award and particular grant provisions.

Records: Awardee is expected to maintain auditable records to substantiate total costs incurred under the agreement.

FINANCIAL INFORMATION:

Account Identification: 89-0228-0-1-276.

Obligations: (Grants) FY 84 $500,000; FY 85 est $861,000; and FY 86 est $642,000.

Range and Average of Financial Assistance: The range varies from $50,000 to $200,000.

PROGRAM ACCOMPLISHMENTS: A minority energy data bank has been established at the Argonne National Laboratory. A policy-sensitive minority energy assessment model has been developed. Market analyses and penetration models for energy technologies are in progress.

REGULATIONS, GUIDELINES, AND LITERATURE: Department of Energy Assistance Regulations (10 CFR 600).

INFORMATION CONTACTS:

Regional or Local Office: None.

Headquarters Office: Department of Energy, Forrestal Building, Room 5B-110, Washington, DC 20585. Contact: Georgia R. Johnson. Telephone: (202) 252-8383.

RELATED PROGRAMS: None.

EXAMPLES OF FUNDED PROJECTS: Numerous policy assessments have been done for energy-related policies and programs.

CRITERIA FOR SELECTING PROPOSALS: The merit of a proposal is determined by: (1) How relevant it is to the mission of the program; (2) geographic location if there is any relevance to the uniqueness of ethnic socioeconomic information which may be included in the deliverables; (3) expertise with energy-related policies and programs and the energy industry; and (4) the ability to effectively provide oral and written reports and recommendations.

FEDERAL EMERGENCY MANAGEMENT AGENCY

STATE AND LOCAL PROGRAMS AND SUPPORT

83.519 HAZARD MITIGATION ASSISTANCE

FEDERAL AGENCY: STATE AND LOCAL PROGRAMS AND SUPPORT, FEDERAL EMERGENCY MANAGEMENT AGENCY

AUTHORIZATION: Disaster Relief Act of 1974, Public Law 93-288, as amended.

OBJECTIVES: To assist States or local units of government in preparing a hazard mitigation plan, one or more components of such a plan or a related activity which will contribute to reducing vulnerability to hazards within the project area.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: The hazard mitigation project should be developed by State government agencies with responsibility for one or more aspects of disaster recovery and mitigation or by general purpose local governments within the State, and should result in a product, such as a pre-disaster hazard mitigation plan or a documented activity, which meets the program objectives.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: All States are eligible (including the District of Columbia, Puerto Rico, Virgin Islands, Guam, American Samoa and the Northern Mariana Islands). Local governments participate under each State's application.

Beneficiary Eligibility: All States, portions of States or local units of government within the projects' areas.

Credentials/Documentation: Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and/or as determined by consultation between the State and the FEMA regional office.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: The standard application forms as furnished by FEMA and required by OMB Circular No. A-102 must be used for this program.

Application Procedure: The State submits Standard Form 424 and documentation specified by OMB Circular No. A-102 and FEMA as part of an application for a comprehensive Cooperative Agreement through the appropriate FEMA Regional Office.

Award Procedure: Final approval of applications will be made by FEMA regional offices.

Deadlines: The appropriate FEMA regional office should be contacted for deadlines on submissions.

Range of Approval/Disapproval Time: Projects must be approved by the FEMA regional office in the Federal fiscal year for which funds are appropriated.

Appeals: Not applicable.

Renewals: Mutually acceptable amendments may be made at any time.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Not applicable.

Length and Time Phasing of Assistance: Projects are normally to be completed within the Federal fiscal year under which the project is funded, though time extensions may be granted if necessary. Assistance is disbursed on a Letter of Credit basis.

POST ASSISTANCE REQUIREMENTS:

Reports: Quarterly performance reports, a final project report and such interim reports as may be necessary to the FEMA Regional Director.

Audits: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

Records: Records and accounts are to be retained, generally for three years, as prescribed by OMB Circular No. A-102.

FINANCIAL INFORMATION:

Account Identification: 58-0101-0-1-999.

Obligations: (Grants) FY 84 Not applicable; FY 85 est $250,000; and FY 86 est $250,000.

Range and Average of Financial Assistance: $5,000 to $25,000; $20,000.

PROGRAM ACCOMPLISHMENTS: In fiscal year 1985, 20 project applications totalling $500,000 were received. Of these, 12 projects totalling $245,000 were funded.

REGULATIONS, GUIDELINES, AND LITERATURE: The Hazard Mitigation Assistance Program guidelines are contained within FEMA's annual Comprehensive Cooperative Agreement Guidance Package, available from the appropriate FEMA regional office.

INFORMATION CONTACTS:

Regional or Local Office: Contact the appropriate FEMA Regional Office. See Appendix IV of the Catalog for a list of addresses.

Headquarters Office: Laurence Zensinger, Chief, Hazard Mitigation Branch, Disaster Assistance Programs, Federal Emergency Management Agency, 500 C Street, SW, Washington, DC 20472. Telephone: (202) 646-3681.

RELATED PROGRAMS: 83.503, Emergency Management Assistance; 83.505, State Disaster Preparedness Grants; 83.506, Earthquake and Hurricane Preparedness Grants.

EXAMPLES OF FUNDED PROJECTS: (1) Development of pre-disaster hazard mitigation plans for highly floodprone riverine and coastal communities; (2) Inventory and mitigation analysis of floodway structures; (3) Preparation and distribution of a State pre-flood model mitigation plan; (4) Development of a comprehensive statewide acquisition and relocation strategy for floodprone structures; (5) Demonstration project and model plan to incorporate hazard mitigation into Regional Planning Commission activities.

CRITERIA FOR SELECTING PROPOSALS: Eight factors will be used to evaluate proposals. Projects must, at a minimum, satisfy the first four (1) Serious or repetitive hazard vulnerability; (2) Demonstrated commitment to mitigation on the part of the State or local government; (3) Compliance with all regulatory requirements of the National Flood Insurance Program, Section 406 of Public Law 93-288, and Executive Order 11988 if applicable; (4) Potential for long term benefit; (5) Capability to involve the general public and private sector; (6) Transferability of project to other localities; (7) Vulnerability to multiple hazards; (8) Active community development program.

84.173 HANDICAPPED—PRESCHOOL INCENTIVE GRANTS

FEDERAL AGENCY: OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION

AUTHORIZATION: Education of All Handicapped Children Act, Part B, Section 619, Public Law 94-142.

OBJECTIVES: To provide grants to States to assist them in providing a free appropriate public education to all preschool age handicapped children.

TYPES OF ASSISTANCE: Formula Grants.

USES AND USE RESTRICTIONS: Funds are used by State education agencies in accordance with the priorities in the Act to provide direct services to preschool handicapped children in the State, or to contract with local education agencies, intermediate units, or other agencies to provide such services.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: State education agencies in the 50 States, District of Columbia, Puerto Rico, American Samoa, Northern Mariana Islands, Guam, Virgin Islands, and Trust Territory of the Pacific Islands may apply to the Department of Education for participation.

Beneficiary Eligibility: Mentally retarded, hard of hearing, deaf, blind, speech impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, other health impaired preschool children having specific learning disabilities, or multi-handicapped preschool children that require special education and related services will benefit.

Credentials/Documentation: Governors or their designated review agency must be given an opportunity to review the State Plan. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: All public and private institutions and other organizations interested in personnel preparation should be given an opportunity to participate in the development of a State's comprehensive system of personnel development. Representatives of private schools must be consulted during all phases of the development of the project. Children in private elementary and secondary schools, to the extent consistent with their amount and location in the State, must have an opportunity to participate in the program assisted or carried out under this program unless prohibited by State law in force on December 2, 1983. Public hearings must be held in order to provide general comment on the annual program plan. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more informaton on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program.

Application Procedure: States must submit a three year program plan which: 1) Meets the conditions in Section 612 and Section 613 of Public Law 94-142; and 2) describes the purposes and activities for which funds under this Act will be expended during each of the three fiscal years covered by the State Plan. Local education agencies must submit applications to their State education agencies for approval. To qualify for a Preschool Incentive Grant, States must submit an application which meets the requirements of Section 619 of the Act and have an approved program plan under Section 611.

Award Procedure: Once the program plan is submitted and fully approved, a grant award representing the total grant amount for that fiscal year (if under a continuing resolution, a portion of the grant amount) is forwarded to the State's department of education. During the three year cycle, amendments may be required in order to maintain the fully approved plan.

Deadlines: Dates vary within each State. To expedite funding the submission date is set for April 1. Plans or amendments are accepted throughout the fiscal year.

Range of Approval/Disapproval Time: Not applicable.

Appeals: The Secretary of Education must give a State education agency an opportunity for a hearing before taking any action involving: (1) The disapproval of a program plan; (2) the withholding of payments; and (3) a waiver of the supplementing and supplanting requirements. A State may engage in a hearing with the Secretary of Education. If a State disagrees with the final action, within 60 days after notice of such action, it may file a petition for review of that action with the U.S. Circuit Court of Appeals.

Renewals: Not applicable.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Grants to States are determined by an annual count of handicapped children aged three through five who are receiving special education and related services.

Length and Time Phasing of Assistance: Grants are issued each fiscal year. The obligation period is one fiscal year (a 15 month period from July 1 through September 30) plus a one year carry-over provision.

POST ASSISTANCE REQUIREMENTS:

Reports: Annual financial and performance reports are submitted to the Education Department from the State's department of education.

Audits: In accordance with the provisions of OMB Circular A-128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with Circular A-128, or in accordance with Federal laws and regulations governing the programs they participate in.

Records: All records supporting claims for Federal funds or relating to the accountability of the grantee for the expenditures of such must be accessible for administrative review.

FINANCIAL INFORMATION:

Account Identification: 91-0300-0-1-501.

Obligations: (Grants) FY 84 $26,330,000; FY 85 est $29,000,000; and FY 86 est $29,000,000.

Range and Average of Financial Assistance: $49,000 - $2,215,417.

PROGRAM ACCOMPLISHMENTS: For fiscal year 1985, 55 applicants applied for Preschool Incentive Grants. The Virgin Islands and American Samoa submitted consolidated applications to the Education Department which included Part B grants and Preschool Incentive Grants.

REGULATIONS, GUIDELINES, AND LITERATURE: Final rules were published in the Federal Register on August 23, 1977. Regulations for implementing Part B of the Education of All Handicapped Children Act were published in 35 CFR 300 and 301.

INFORMATION CONTACTS:

Regional or Local Office: State education agencies, Part B Coordinator, or the Director of Special Education.

Headquarters Office: Division of Assistance to States, Office of the Assistant Secretary for Special Education and Rehabilitative Services, Education Department, 400 Maryland Avenue, S.W., Washington, DC 20202. Contact: William D. Tyrrell. Telephone: (202) 732-1025.

RELATED PROGRAMS: 84.009, Education of Handicapped Children in State Operated or Supported Schools; 84.024, Handicapped Early Childhood Education; 84.025, Deaf-Blind Centers; 84.028, Handicapped Regional Resource Centers; 84.029, Special Education Personnel Development; 84.086, Innovative Programs for Severely Handicapped Children.

EXAMPLES OF FUNDED PROJECTS: Program plans and preschool applications from State education agencies which meet the requirements as set forth in the regulations for implementing of Part B of the Education of All Handicapped Children Act (see Federal Register, August 23, 1977) are funded under this program.

CRITERIA FOR SELECTING PROPOSALS: The applicants eligible to participate in this program qualify for funding based upon an approved program plan or program application. The criteria for approving a plan appear in the regulations for implementing Part B of the Education of All Handicapped Children Act (see Federal Register, August 23, 1977).

Appendix I: Programs Requiring Circular Coordination

This appendix lists programs requiring Circular and or other types of management coordination. The Circulars and management directives represented are OMB Circular No. A-87; OMB Circular No. A-102; Environmental Impact Statement; OMB Circular A-110; and Executive Order 12372.

A-87

OMB Circular No. A-87 establishes principles and standards for determining costs applicable to grants and contracts with State and local governments. They are designed to provide the basis for a uniform approach to the problem of determining costs and to promote efficiency and better relationships between grantees and the Federal Government.

When State and local governments are recipients, the following programs listed in the Catalog of Federal Domestic Assistance are subject to the provision of A-87, except where restricted or prohibited by law.

Included also in the list are programs falling under the purview of A-87 because the Federal grantor agencies have elected to use the A-87 standards for recipients and programs not otherwise covered by the circular.

A-102

OMB Circular No. A-102, establishes uniform administrative standards for the administration of grants and contracts to State and local governments.

When State and local governments are recipients, the following programs listed in the Catalog of Federal Domestic Assistance are subject to the provisions of OMB Circular No. A-102.

Included also in the list are programs falling under the purview of OMB Circular No. A-102 because the Federal grantor agencies have elected to use the OMB Circular No. A-102 standards for recipients and programs not otherwise covered by the circular.

Environmental Impact Statement

Specific programs listed in the Catalog of Federal Domestic Assistance have been determined to have a significant effect on the environment and require an environmental assessment or an Environmental Impact Statement (EIS) under Section 102(2)(C) of the National Environmental Policy Act of 1969 (Public Law 90-190; 42 U.S.C. 4332(2)(C), and Executive Order 11514 (34 FR 4247) of March 4, 1970, (Significant effects include actions that may have both beneficial and detrimental effects.)

In the early stages of project application, and in all cases prior to agency decisions concerning major action, the applicant should be advised by the Federal agency from which assistance is being sought that he will be required to submit environmental impact information (to be submitted under agency guidelines) in connection with the proposed project for an environmental assessment (to be made by the Federal agency), or an Environmental Impact Statement (to be supplied by the Federal agency) concerning the proposed project.

Although the list below is not inclusive, it contains programs normally requiring either an environmental assessment or an Environmental Impact Statement.

For EIS coordination requirements, refer to the Preapplication Coordination section of each program description.

A-110

OMB Circular No. A-110 sets forth administrative requirements for the administration of grants and other agreements to include money or property in lieu of money; does not include technical assistance programs providing services, loans, loan guarantees, insurance, or direct payments to individuals. Reference to this circular appears in the Application Procedure section of programs that apply.

Applicants are public and private institutions of higher education, hospitals, and other quasi-public and private nonprofit organizations.

Executive Order 12372

Executive Order 12372 "Intergovernmental Review of Federal Programs," structures the Federal government's system of consultation with State and local governments on its decisions involving grants, other forms of financial assistance, and direct development. Under E.O. 12372, States, in consultation with their local governments, design their own review processes and select those Federal financial assistance and direct development activities they wish to review.

Since October 1, 1983 most States have acted to establish a review and comment system in response to E.O. 12372. In such cases, applicants for grants will need to meet the requirements of the intergovernmental consultation process established by a particular State and its local governments before Federal agencies take action on an application.

For more information on the process a particular State requires to be followed, an applicant should contact the office or official designated as the single point of contact in his or her State. Consult the individual program description in the Catalog to determine whether the programs under which he/she plans to apply is subject to E.O. 12372. Consult the Federal agency's application package for instructions on State notification.

The State Single Point of Contact List is printed at the end of the listing of programs.

Appendix III: Budget Functional Code Appendix

FINANCIAL INFORMATION

Account Identification - This 11-digit budget code identifies the account from which a program is funded as expressed in the Appendix to the Federal Budget. For identification code 75-0350-0-1-551, the first two digits represent the Federal agency code, and the third through sixth digits identify the apropriation (or fund) basic account symbol assigned by the Treasury Department. Where two or more accounts with different Treasury basic account symbols are included in a consolidated program, 99 will be the third and fourth digits, the fifth digit will be the fund type and the sixth digit will reflect the sequence of consolidated programs for that fund type within the agency. The seventh digit identifies the timing of transmittal of budget estimates:

0-Regular budget schedules
1-Supplemental under existing legislation
2-Proposed for later transmittal under proposed legislation
3-Proposed for later transmittal under existing legislation
4-Supplemental - additional authorizing legislation required
5-Recission proposal
6-Supplemental request pending

The eighth digit identifies the type of government fund involved:

1-General fund
  General Fund Appropriation Accounts - Accounts established to record amounts appropriated by the Congress to be expended for the general support of the Government.
  General Fund Receipt Accounts - Accounts credited with all receipts that are not earmarked by law for a specific purpose.
2-Special fund
  Special Fund Appropriation Accounts - Accounts established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law.
  Special Fund Receipt Accounts - Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose.
3-Public Enterprise Revolving Fund Accounts - Funds authorized by Congress to be credited with receipts primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.
4-Intragovernmental Revolving or Management Fund
  Intragovernmental Fund Accounts - Accounts established to facilitate financing transactions within and between Federal agencies. These funds may be classified as intragovernmental revolving funds or management funds.
  Intragovernmental Revolving Fund Accounts - Funds authorized by law to carry out a cycle of intragovernmental business-type operations. These funds are credited with offsetting collections from other agencies and accounts.
7-Trust Fund (non-revolving) - Funds collected and used by the Federal Government for carrying out specific purposes and programs according to terms of a trust agreement or statute, such as the social security and unemployment trust funds. Trust funds are administered by the Government in a fiduciary capacity and are not available for the general purposes of the Government. Trust fund receipt accounts are credited with receipts generated by the terms of the trust agreement or statute. Trust fund receipts that are not anticipated to be used in the immediate future are generally invested in interest bearing Government securities and earn interest for the trust fund. Trust fund expenditure accounts record amounts appropriated from trust fund receipts to be expended in carrying out the specific purposes or programs under the trust agreement or statute. A special category of trust funds called trust revolving funds is used to carry out a cycle of business-type operations, e.g.,the Federal Deposit Insurance Corporation.
8-Trust Fund (revolving) - A fund established to finance a cycle of operations through amounts received by the fund. There are three types of revolving funds: public enterprise, intergovernmental revolving, and trust revolving funds.
9-Deposit Fund - Accounts established to facilitate the accounting for collections that are either (a) held in suspense temporarily and later refunded or paid into some other fund of the Government upon administrative or legal determination as to the proper disposition thereof or (b) held by the Government as banker or agent for others and paid out at the discretion of the depositor. These accounts are not included in the budget totals and they are not available for expenses of the Government, although they do provide a means of financing the budget.

The last three digits represent the functional classification (code) used in the latest Federal Budget document, unless noted otherwise by the Office of Management and Budget. In cases where a program is split between two or more subfunctions: (a) if all subfunctions are in the same major function, the code is the same as for the major function; or (b) if two or more major functions are involved the digits '999' are used.

Example: 75-1361-0-1-550.

Listed below are 16 major functions and 67 subfunctions as used in the budget document to show allocations of budget authority and outlays according to end purposes without regard to agency jurisdiction. The central nature of each major function is identified and defined. Catalog programs are listed following each applicable subfunction (or major function). Note that some subfunctions are not applicable to Catalog programs.

The alphabet(s) in parentheses following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows: A-Formula Grants; B-Project Grants; C-Direct Payments for Specified Use; D-Direct Payments with Unrestricted Use; E-Direct Loans; F-Guaranteed/Insured Loans; G-Insurance; H-Sale, Exchange, or Donation of Property and Goods; I-Use of Property, Facilities, and Equipment; J-Provisions of Specialized Services; K-Advisory Services and Counseling; L-Dissemination of Technical Information; M-Training; N-Investigation of Complaints; O-Federal Employment.

(050) NATIONAL DEFENSE

This function includes those programs directly related to the common defense and security of the United States. It includes the raising, equipping, and maintaining of armed forces (including civilian supporting activities), development and utilization of weapons systems (including nuclear weapons), and related programs. National defense includes direct compensation and benefits paid to active military and civilian personnel; contributions to their retirement, health, and life insurance funds; cash benefits for military retired pay; the conduct of defense research, development, testing, and evaluation; and procurement, construction, stockpiling, and other activities undertaken with the direct object of fostering our national security.

Excluded from national defense are benefits or compensation to veterans and their dependents (veterans benefits are generally available to personnel who served the country in national emergencies; benefits for career military personnel are generally charged as a cost to the national defense function.) Also excluded from national defense is the peaceful conduct of foreign relations; foreign military, economic, and humanitarian assistance; subsidies to business by civilian agencies (such as maritime subsidies) that may be partially justified as promoting national security; and research and operations of agencies (such as space research) whose program mission is not directly designed to promote national defense but which could result in some significant benefits to our national security.

(051) Department of Defense - Military

The entire agency is included in this subfunction. Because of the method of funding and accounting in the Defense Department no further subdivisions on a program basis are available in terms of outlays.

12.001	Industrial Equipment Loans to Educational Institutions (I)
12.400	Military Construction, Army National Guard (B)
12.600	Community Economic Adjustment (J,K)
12.607	Military Base Reuse Studies and Community Planning Assistance (B)
12.608	Impact Assistance for Areas Affected by the East Coast Trident Program (B)
12.609	Selected Reserve Educational Assistance Program (C)

(053) Atomic Energy Defense Activities

Those programs of the Department of Energy devoted to national defense activities, such as naval ship reactors and nuclear weapons.

(054) Defense-Related Activities

Miscellaneous defense activities such as the expenses connected with selective service and with defense stockpiles outside the Departments of Defense and Energy.

(150) INTERNATIONAL AFFAIRS

This function is concerned with the maintenance of peaceful relations, commerce, and travel between the United States and the remainder of the world, and with the promotion of international security and economic development abroad. It includes the conduct of foreign affairs; cost of membership in international organizations; foreign information and exchange activities; foreign military, economic, and humanitarian assistance programs; and loan programs designed to foster U.S. exports. Excluded from international affairs are outlays from domestic programs that may tangentially affect foreign relations or citizens of other nations.

(151) Foreign Economic and Financial Assistance

This includes humanitarian assistance, development assistance, security supporting assistance, grants to and investments in international financial and development institutions, and the costs associated with concessionary agricultural exports.

70.002 Foreign Investment Guaranties (F)
70.003 Foreign Investment Insurance (G)
70.004 Pre-Investment Assistance (C)
70.005 Direct Investment Loans (E)

(152) Military Assistance

This includes all of international security assistance. It involves the transfer of defense articles and services to foreign governments through grants, credit sales, and training.

(153) Conduct of Foreign Affairs

This includes the diplomatic and consular operations of the Department of State and closely-related activities in other agencies (such as the Arms Control and Disarmament Agency).

19.202 Special Domestic Assignments (J)
61.001 Import Relief (Industry) (J)

(154) Foreign Information and Exchange Activities

This includes student and cultural exchange programs and foreign library, radio, or other media information activities designed to promote mutual understanding between the people of the United States and other Nations.

82.001 Educational Exchange—Graduate Students (B)
82.002 Educational Exchange—University Lecturers (Professors) and Research Scholars (B)

(155) International Financial Programs

This includes export credit, the military sales trust fund, international commodity agreements, international monetary programs, and other programs designed to improve the functioning of the international financial system.

(250) GENERAL SCIENCE, SPACE AND TECHNOLOGY

47.050 Astronomical, Atmospheric, Earth and Ocean Sciences (B)

This function shows budget resources allocated to science and research activities of the Federal Government to meet the national need to advance knowledge in this area. In addition, research and technology programs that have diverse goals and cannot readily be classified into one specific function are also placed here to avoid detailed splitting of accounts. Included in this function are general scientific research and civilian space programs that are not an integral part of the programs conducted under any other function. This includes the research conducted by the National Aeronautics and Space Administration, and general science research supported by the Department of Energy.

As is noted above, research programs that are an integral part of the achievement of other major functions — e.g., health, national defense, energy — are excluded from this function. Only if a research program cannot readily be included in other functions is it classified in this function.

(251) General Science and Basic Research

This includes the expenses of conducting the National Science Foundation programs and the general science activities of the Department of Energy.

47.009 Graduate Research Fellowships (B)
47.041 Engineering Grants (B)
47.049 Mathematical and Physical Sciences (B)
47.050 Astronomical, Atmospheric, Earth and Ocean Sciences (B)
47.051 Biological, Behavioral, and Social Sciences (B)
47.053 Scientific, Technological, and International Affairs (B)
47.064 College Science Instrumentation Program (B)
47.065 Advanced Scientific Computing (B)
47.066 Teacher Enhancement and Informal Science Education (B)
47.067 Materials Development and Research (B)
47.068 Studies and Program Assessment (B)
47.069 Research Initiation and Improvement (B)
81.049 Basic Energy Sciences, High Energy and Nuclear Physics, Magnetic Fusion Energy, Health and Environmental Research, Program Analysis and Field Operations Management (B)

(253) Space Flight

This subfunction is devoted to the development and operation of space transportation systems.

(254) Space Science, Applications, and Technology

This subfunction is devoted to basic scientific research connected with outer space, research and demonstrations designed to provide terrestrial applications of technology developed through space research, and development of new space technologies for future missions.

(255) Supporting Space Activity

This includes the costs of tracking and data relay support for NASA space science and applications for flight missions.

(270) ENERGY

The energy function includes those programs designed to promote an adequate supply and appropriate use of energy to serve the needs of the economy. It includes most of those programs operated by the Department of Energy and its predecessor agencies except for atomic energy defense activities and for general science research not closely related to energy.

81.003 Granting of Patent Licenses (L)
81.036 Energy-Related Inventions (B,I,K,L)
81.041 State Energy Conservation (A)
81.048 Priorities and Allocations for Energy Programs and Projects (J,M)
81.050 Energy Extension Service (A)
81.064 Office of Scientific and Technical Information (L)

(271) Energy Supply

This includes those programs designed to increase the supply of energy through the development of domestic resources and systems capable of using them. Included in energy supply are the costs of research and demonstration of supply systems.

10.850 Rural Electrification Loans and Loan Guarantees (F)
10.851 Rural Telephone Loans and Loan Guarantees (F)
81.004 University-Laboratory Cooperative Program (B,I)
81.011 University Reactor Sharing and Fuel Assistance (B,H)
81.022 Used Energy-Related Laboratory Equipment Grants (H)
81.028 Radiological Emergency Assistance (J,K,L)
81.047 Pre-Freshman Engineering (B)
81.049 Basic Energy Sciences, High Energy and Nuclear Physics, Magnetic Fusion Energy, Health and Environmental Research, Program Analysis and Field Operations Management (B)
81.056 Coal Loan Guarantees (F)
81.057 University Coal Research (B)
81.065 Nuclear Waste Disposal Siting (B)
81.077 University Research Instrumentation (B)
81.079 Biofuels and Municipal Waste Technology (B)
81.086 Conservation Research and Development (B)
81.087 Renewable Energy Research and Development (B)
81.089 Fossil Energy Research and Development (B)

(272) Energy Conservation

Programs in this subfunction are designed to encourage the prudent use of energy resources.

14.550 Solar Energy and Energy Conservation Bank (B)
81.052 Energy Conservation for Institutional Buildings (A)
81.078 Industrial Energy Conservation (B)
81.080 Energy Policy, Planning and Development (B)
81.081 Energy Task Force for the Urban Consortium (B)

(274) Emergency Energy Preparedness

This includes the programs associated with developing and maintaining a stockpile of energy resources (currently combined to petroleum) to meet emergency needs and associated contingency planning activities.

81.088 International Affairs and Energy Emergencies (B,C,D)

(276) Energy Information, Policy, and Regulation

This includes the unallocable overhead activities of the Department of Energy plus the costs of energy information and regulation activities.

77.001 Radiation Control—Training Assistance and Advisory Counseling (K,L,M)
77.003 Enhance Technology Transfer and Dissemination of Nuclear Energy Process and Safety Information (B)
81.039 National Energy Information Center (L)
81.076 Indian Energy Resources (C)
81.082 Management and Technical Assistance for Minority Business Enterprises (K)
81.083 Minority Educational Institution Research Travel Fund (C)
81.084 Minority Honors Vocational Training (B)
81.085 National Minority Energy Information Clearinghouse (L)
81.090 State Heating Oil Grants (C)
81.091 Socioeconomic and Demographic Research, Data and Other Information (B)

300) NATURAL RESOURCES AND ENVIRONMENT

This function includes those programs whose primary purpose is to
evelop, manage, and maintain the Nation's natural resources and envi-
onment. It encompasses development and management of water re-
ources; protection and enhancement of environmental quality; devel-
pment and maintenance of recreational resources; promotion of the
rudent use of forest and mineral resources; the fostering of conserva-
on practices on both public and private lands; marine, earth, and at-
ospheric -related research, and the management of the public domain.

Excluded from this function are the outlays for community water
upply programs, basic sewer system, and waste treatment plants,
hich are part of a community or regional development (rather than
 environmental enhancement) program or are part of the cost of op-
rating a Federal facility (such as a military installation).

01) Water Resources

his includes water protection, conservation, irrigation, and related ac-
vities including the total costs of multipurpose water projects where
 is not feasible to separate out the transportation (navigation) or
nergy (power) segments of these projects.

0.904 Watershed Protection and Flood Prevention (B,K)
0.906 River Basin Surveys and Investigations (J,K)
2.100 Aquatic Plant Control (J,L)
2.101 Beach Erosion Control Projects (J)
2.102 Emergency Rehabilitation of Flood Control Works and Federally Authorized Coastal Protection Works (J)
2.103 Flood Fighting and Rescue Operations, and Emergency Protection of Coastal Protective Works Federally Authorized (J)
2.104 Flood Plain Management Services (K,L)
2.105 Protection of Essential Highways, Highway Bridge Approaches, and Public Works (J)
2.106 Flood Control Projects (J)
2.107 Navigation Projects (J)
2.108 Snagging and Clearing for Flood Control (J)
2.109 Protection, Clearing and Straightening Channels (J)
2.110 Planning Assistance to States (J)
2.111 Emergency Advance Measures for Flood Prevention (J)
5.501 Distribution System Loans (E)
5.502 Irrigation Systems Rehabilitation and Betterment (E)
5.503 Small Reclamation Projects (B,E)

02) Conservation and Land Management

his includes the costs of operating the public domain (including na-
onal forests), payments to encourage private land conservation activi-
es, and surface mining reclamation efforts.

0.062 Water Bank Program (C)
0.063 Agricultural Conservation Program (C)
0.064 Forestry Incentives Program (C)
0.652 Forestry Research (B)
0.664 Cooperative Forestry Assistance (A,B)
0.669 Accelerated Cooperative Assistance for Forest Programs on Certain Lands Adjacent to the Boundary Waters Canoe Area (B)
0.900 Great Plains Conservation (C,K)
0.901 Resource Conservation and Development (B,K)
0.902 Soil and Water Conservation (K)
0.903 Soil Survey (L)
0.905 Plant Materials for Conservation (H)
0.907 Snow Survey and Water Supply Forecasting (L)
0.908 Resources Inventory (L)
0.910 Rural Abandoned Mine Program (C,K)
1.419 Coastal Zone Management Program Administration Grants (B)
1.420 Coastal Zone Management Estuarine Sanctuaries (B)
1.421 Energy Impact—Formula Grants (A)
1.429 Marine Sanctuary Program (B)
5.214 Non-Sale Disposals of Mineral Material (H)
5.219 Wildlife Habitat Management Technical Assistance (B)
5.221 Cooperative Agreements for Research in Public Lands Management (B)
5.250 Regulation of Surface Coal Mining and Surface Effects of Underground Coal Mining (B)
5.252 Abandoned Mine Land Reclamation (AMLR) Program (A,B)

03) Recreational Resources

hese are programs involving the acquisition, improvement, and oper-
ion of recreational lands and facilities including fish and wildlife and
arks. It also includes outlays for the preservation of historic areas.

5.600 Anadromous Fish Conservation (B)
5.601 Animal Damage Control (J,K,L,M)
5.602 Conservation Law Enforcement Training Assistance (M)
5.603 Farm Fish Pond Management (H)
5.604 Fishery Research—Information (L)
5.605 Fish Restoration (A)
5.606 Migratory Bird Banding and Data Analysis (L)
5.607 Resource Contaminant Assessment (K,L,M)
5.608 Fishery Resources Technical Assistance (J)
5.610 Wildlife Research Information (L)
15.611 Wildlife Restoration (A)
15.612 Endangered Species Conservation (B)
15.900 Disposal of Surplus Wildlife (H)
15.904 Historic Preservation Fund Grants-In-Aid (B)
15.909 Historic American Buildings Survey/Historic American Engineering Record (J,K,L)
15.910 National Natural Landmarks Program (J,L)
15.912 National Historic Landmark (K)
15.914 National Register of Historic Places (K)
15.915 Technical Preservation Services (J,K,L)
15.916 Outdoor Recreation—Acquisition, Development and Planning (B)
15.918 Disposal of Federal Surplus Real Property for Parks, Recreation, and Historic Monuments (I)
15.919 Urban Park and Recreation Recovery Program (B)
15.920 Land Acquisition and Development of Comprehensive Management Plan (CMP)—State of New Jersey—Pinelands National Reserve (B)

(304) Pollution Control and Abatement

This includes outlays for controlling and reducing air, water, and land pollution or that are specifically funded as an environmental enhancement program. It excludes water resources programs, water treatment plants, and similar programs that are not funded as part of an environmental enhancement activity.

10.068 Rural Clean Water Program (C)
66.001 Air Pollution Control Program Support (B)
66.003 Air Pollution Control Manpower Training (B)
66.006 Air Pollution Control—Technical Training (M)
66.007 Air Pollution Control—National Ambient Air and Source Emission Data (J)
66.009 Air Pollution Control—Technical Information Services (L)
66.418 Construction Grants for Wastewater Treatment Works (B)
66.419 Water Pollution Control—State and Interstate Program Support (A)
66.423 Water Quality Control Information System—Orientation/Training Seminars, Data and Monitoring Publications (M)
66.432 State Public Water System Supervision (A)
66.433 State Underground Water Source Protection (B)
66.438 Construction Management Assistance (A)
66.454 Water Quality Management Planning (A)
66.455 Construction Grants for Wastewater Treatment Works for Combined Sewer Overflows (B)
66.456 Comprehensive Estuarine Management (B)
66.600 Environmental Protection Consolidated Grants—Program Support (A)
66.603 Loan Guarantees for Construction of Treatment Works (F)
66.700 Pesticides Enforcement Program (B)
66.702 Asbestos Hazards Abatement (Schools) Assistance (B,E)
66.801 Hazardous Waste Management State Program Support (A)
66.802 Hazardous Substance Response Trust Fund (B)
66.804 State Underground Storage Tanks Program (B)

(306) Other Natural Resources

This includes miscellaneous natural resources programs not classified in other subfunctions, such as marine, earth, and atmosphere-related research, and the cost of geological surveys and mapping.

11.400 Geodetic Surveys and Services (J,K,L)
11.401 Nautical Charts and Related Data (J,K,L)
11.402 Marine Boundary Program (J,K,L)
11.405 Anadromous and Great Lakes Fisheries Conservation (B)
11.407 Commercial Fisheries Research and Development (A)
11.411 Fishery Cooperative Services (K,L)
11.413 Fishery Products Inspection and Certification (J)
11.417 Sea Grant Support (B)
11.426 Financial Assistance for Marine Pollution Research (B)
11.428 Intergovernmental Climate—Programs (B)
15.308 Grants for Mining and Mineral Resources and Research Institutes (A,B)
15.800 Geologic and Mineral Resource Surveys and Mapping (J,L)
15.801 Cartographic Information (L)
15.803 National Mapping, Geography and Surveys (J,L)
15.804 Water Resources Investigations (J,L)
15.805 Assistance to State Water Resources Research Institutes (A)
15.806 National Water Resources Research Program (B)

(350) AGRICULTURE

This function includes those programs that promote the economic stability of agriculture and the Nation's capability to maintain and increase agricultural production. These objectives are accomplished through farm income stabilization programs, research and educational activities, programs that maintain agricultural markets, regulation of agricultural markets and practices, and maintenance of an adequate stockpile of agricultural commodities.

This function does not include programs which, though related to rural development, are not directly related to agriculture, such as rural environmental and conservation programs that are classified in the natural resources function. In addition, it excludes the costs connected with concessionary food export sales or food donations whether overseas or for domestic income support purposes

(351) Farm Income Stabilization

Loans, subsidies, and other payments for purposes of stabilizing agricultural prices at an equitable level. This includes the cost of acquisition and storage of agricultural commodity stockpiles but does not include the cost of foreign agricultural export losses (which are classified in the international affairs function) or domestic donations of food (which are part of an income support, rather than a farm price support, program).

10.051	Commodity Loans and Purchases (D,E)
10.052	Cotton Production Stabilization (D)
10.053	Dairy Indemnity Program (D)
10.055	Feed Grain Production Stabilization (D)
10.056	Storage Facilities and Equipment Loans (E)
[illegible]	Wheat Production Stabilization (D)
10.059	National Wool Act Payments (D)
10.065	Rice Production Stabilization (D)
10.067	Grain Reserve Program (D)
10.404	Emergency Loans (F)
10.406	Farm Operating Loans (F)
10.407	Farm Ownership Loans (F)
10.414	Resource Conservation and Development Loans (E)
10.416	Soil and Water Loans (F)
10.419	Watershed Protection and Flood Prevention Loans (E)
10.421	Indian Tribes and Tribal Corporation Loans (F)
10.450	Crop Insurance (G)
10.550	Food Distribution (H)
10.568	Temporary Emergency Food Assistance (Administrative Costs) (A)

(352) Agricultural Research and Services

This includes all other costs of agricultural programs including expenses for programs such as agricultural research and extension services.

10.001	Agricultural Research—Basic and Applied Research (B,L)
10.025	Plant and Animal Disease and Pest Control (B,J)
10.153	Market News (L)
10.156	Federal-State Marketing Improvement Program (B)
10.162	Inspection Grading and Standardization (J)
10.163	Market Protection and Promotion (J,K,M)
10.164	Wholesale Market Development (K)
10.165	Perishable Agricultural Commodities Act (N)
10.200	Grants for Agricultural Research, Special Research Grants (B)
10.202	Cooperative Forestry Research (A)
10.203	Payments to Agricultural Experiment Stations Under Hatch Act (A)
10.205	Payments to 1890 Land-Grant Colleges and Tuskegee Institute (A)
10.206	Grants for Agricultural Research—Competitive Research Grants (B)
10.207	Animal Health and Disease Research (A)
10.209	1890 Research Facilities (A)
10.210	Food and Agricultural Sciences National Needs Graduate Fellowship Grants (B)
10.211	Higher Education Strengthening Grants (B)
10.250	Agricultural and Rural Economic Research (L)
10.350	Technical Assistance to Cooperatives (K,L)
10.375	Human Nutrition Information Service (L)
10.477	Meat and Poultry Inspection (J)
10.500	Cooperative Extension Service (A)
10.600	Foreign Agricultural Market Development and Promotion (C)
10.700	National Agricultural Library (L)
10.800	Livestock, Meat and Poultry Market Supervision (N)
10.950	Agriculture Statistical Reports (L)

(370) COMMERCE AND HOUSING CREDIT

This function includes the promotion and regulation of commerce and the housing and thrift insurance industries. Commerce includes the collection and dissemination of social and economic data unless they are an integral part of another function (such as health). This function includes general purpose loans and subsidies to business and to the housing industry. In general, credit and insurance programs are included in this function; however, if such programs are a means of achieving the basic objectives of another function and are an integral part of the programs of that function they are classified in the other function.

(371) Mortgage Credit and Thrift Insurance

Includes homeownership and related loan and insurance programs, and insurance programs protecting depository thrift institutions.

10.405	Farm Labor Housing Loans and Grants (B,F)
10.410	Very Low and Low Income Housing Loans (E)
10.411	Rural Housing Site Loans (E)
10.415	Rural Rental Housing Loans (F)
10.417	Very Low-Income Housing Repair Loans and Grants (B,E)
10.427	Rural Rental Assistance Payments (C)
14.103	Interest Reduction Payments—Rental and Cooperative Housing for Lower Income Families (C,F)
14.108	Rehabilitation Mortgage Insurance (F)
14.110	Manufactured Home Insurance—Financing Purchase of Manufactured Homes as Principal Residences of Borrowers (F)
14.112	Mortgage Insurance—Construction or Substantial Rehabilitation of Condominium Projects (F)
14.115	Mortgage Insurance—Development of Sales Type Cooperative Projects (F)
14.116	Mortgage Insurance—Group Practice Facilities (F)
14.117	Mortgage Insurance—Homes (F)
14.119	Mortgage Insurance—Homes for Disaster Victims (F)

(450) COMMUNITY AND REGIONAL DEVELOPMENT

This function consists of broad-based community, regional, urban and rural renewal and development programs. It includes grants and loans for water supply and sewer systems (except those specifically funded as environmental protection programs), urban community and economic development programs, regional economic development programs, broad-based public facility construction programs, and relief and rehabilitation of private and public facilities in the event of natural disasters. Aids to businesses such as loans, loan guarantees, and subsidies are not normally included in this function unless such aids are a means of economic development to aid restricted (generally depressed) areas and are not designed to promote particular lines of business for their own sake. Transportation facilities developed as an intergral part of a community development (rather than transportation) program are also included in this function.

As a normal rule, human development and services programs are excluded from this function (and included in the education, employment, training, and social services function). This function is confined to development of physical facilities or financial infrastructures designed to promote viable community economies.

(451) Community Development

This subfunction includes grants and related programs designed to aid community (largely urban) development. It includes community development block grants and predecessor activities such as the urban renewal and model cities programs. Community development programs are generally carried out by the Department of Housing and Urban Development.

(500) EDUCATION, TRAINING, EMPLOYMENT, AND SOCIAL SERVICES

This function includes those outlays designed to promote the general extension of knowledge and skills, to provide public services to needy individuals, and/or to assist individuals to become self-supporting members of society. It includes the provision of education or training child care services, employment counselling, vocational rehabilitation, and other social services provided to individuals and families. It also includes cash payments (scholarships, loans, or stipends) to persons when such payments are provided to enable a person to participate in education or training programs; it includes programs designed to provide services to the poor (such as community services) that are not an integral part of some other function, and also includes the costs of research directly related to the programs in this function.

This function excludes education or training undertaken as an integral part of the achievement of another functional end (such as training of military personnel; veterans education, training, and rehabilitation; or training of health workers in a health program) and also excludes general purpose scientific research. Nutrition or food service programs that are funded separately from social services or education shall be included as income security rather than being included in this function.

13.994 Maternal and Child Health Services Block Grant (A)

(552) Health Research

This includes the cost of all research programs — whether basic or applied — that are financed specifically as health or medical research. It excludes research that is an integral part of other functions (such as biomedical research in the space program).

13.989 Senior International Awards Program (B)

(553) Education and Training of Health Care Work Force

This includes any education or training program specifically funded as a health program and restricted to training individuals who are working or expect to work in health or health-related fields.

13.108 Health Education Assistance Loans (F)

(554) Consumer and Occupational Health and Safety

This includes such programs as meat and poultry inspection, food and drug inspection, consumer product safety, and occupational safety.

10.475 Cooperative Agreements with States for Intrastate Meat and Poultry Inspection (B)
10.477 Meat and Poultry Inspection (J)
13.103 Food and Drug Administration—Research (B)
17.500 Occupational Safety and Health (B,K,L,M,N)

17.602 Mine Health and Safety Education and Training (K,M)
87.001 Voluntary Standards Assistance (K)

(570) SOCIAL SECURITY AND MEDICARE

This function implements the Social Security Amendments of 1983 which require that the budget contain a new function — social security and medicare. These programs were previously included in the income security and health functions.

(571) Social Security

This includes the old age and survivors insurance (OASI) and disability insurance (DI) trust funds and related intragovernmental payments and offsetting collections.

13.802 Social Security—Disability Insurance (D)
13.803 Social Security—Retirement Insurance (D)
13.804 Social Security—Special Benefits for Persons Aged 72 and Over (D)
13.805 Social Security—Survivors Insurance (D)

(572) Medicare

This includes the hospital insurance (HI) and supplementary medical insurance (SMI) trust funds and related intragovernmental payments and offsetting receipts.

13.773 Medicare—Hospital Insurance (C)
13.774 Medicare—Supplementary Medical Insurance (C)

(600) INCOME SECURITY

This function includes payments for or to persons for which no current service is rendered. It includes retirement (excluding military retired pay), disability, unemployment, and welfare payments and the associated administrative costs. Also included in income security are the food stamp, special milk, and child nutrition programs (whether the benefits are in cash or kind); both Federal and trust fund unemployment compensation and workmen's compensation; public assistance cash payments; benefits to coal miners; and low and moderate-income housing aids.

Excluded from this function are social security, financial assistance for educational purposes, provision or reimbursement for child care services and stipends, medical care (whether in cash or kind), and subsidies to businesses (such as farm price supports) even though they may end up as income to persons. Also excluded are income security programs restricted to veterans and their dependents.

(601) General Retirement and Disability Insurance

This includes non-needs-tested retirement and disability programs except for those specifically restricted to Federal employees and social security. Most programs in this subfunction are financed through trust fund mechanisms but it includes some Federal funds programs such as payments to coal miners. The subfunction is composed mainly of the railroad retirement fund and special benefits for coal miners.

13.806 Special Benefits for Disabled Coal Miners (D)
17.302 Longshore and Harbor Workers' Compensation (D)
17.307 Coal Mine Workers' Compensation (D)
57.001 Social Insurance for Railroad Workers (D)
86.001 Pension Plan Termination Insurance (G)

(602) Federal Employee Retirement and Disability

Includes all funded retirement and disability programs restricted to Federal employees. In those cases where there are no retirement funds (such as in the cases of Military and Coast Guard retired pay) the case benefits are included in the function where the employees were employed (in these cases national defense and transportation, respectively) because otherwise those functions would never be charged anything for the retirement costs of their employees.

(603) Unemployment Compensation

Benefits for unemployed workers that are not conditioned by needs tests. This subfunction does not include other benefits (such as food stamps) that an unemployed person might be eligible for under any other program.

17.225 Unemployment Insurance (A,D)
17.245 Trade Adjustment Assistance—Workers (D,J)
57.003 Benefits for Conrail Employees (D,J)

(604) Public Assistance and Other Income Supplements

Federal income support and related expenses that are specifically for and limited to financing or providing housing for individuals and families.

10.405 Farm Labor Housing Loans and Grants (B,F)
10.417 Very Low-Income Housing Repair Loans and Grants (B,E)
10.420 Rural Self-Help Housing Technical Assistance (B)
10.427 Rural Rental Assistance Payments (C)

10.565 Commodity Supplemental Food Program (A,B,H)
10.566 Nutrition Assistance For Puerto Rico (C)
10.567 Needy Family Program (B,H)

(609) Other income security

Income security programs that are not included in any other subfunction. This is composed primarily of either direct payments or grants-in-aid to finance direct payments that constitute cash income to low-income individuals and families, but it also includes refugee assistance and both administrative expenses and offsetting collections in the income security function that are not part of any other subfunction.

13.679 Child Support Enforcement (A)
13.775 State Medicaid Fraud Control Units (A)
13.807 Supplemental Security Income (D)
13.808 Assistance Payments—Maintenance Assistance (A)

13.815 Refugee Assistance—Voluntary Agency Programs (B)
13.818 Low-Income Home Energy Assistance (A)
84.146 Transition Program for Refugee Children (A,B)

(700) VETERANS BENEFITS AND SERVICES

This function consists of programs providing benefits and services, the eligibility for which is related to prior military service but the financing of which is not an integral part of the costs of national defense. It includes veterans service-connected compensation; veterans non-service connected pensions; and veterans readjustment benefits, housing, and medical care programs.

As a normal rule, the outlays in this function are similar to those in the broader general purpose functions (such as income security or health) but are restricted to veterans, their dependents, and their survivors. Earned rights of career military personnel that are a cost of the defense budget (such as military retired pay or medical care) are excluded from this function. The subfunctions of this function are so structured that they are readily additive to analogous major functions for the general population.

(701) Income Security for Veterans

Includes veterans compensation, pensions, burial benefits and life insurance.

64.101 Burial Expenses Allowance for Veterans (C)
64.102 Compensation for Service-Connected Deaths for Veterans' Dependents (D)
64.103 Life Insurance for Veterans (E,G)
64.104 Pension for Non-Service-Connected Disability for Veterans (D)

64.023 Health Professional Scholarships—Nursing (B)

(704) Veterans Housing

Composed of housing loan and guarantee programs for, and restricted o, veterans and dependents.

64.114 Veterans Housing—Guaranteed and Insured Loans (F)
64.118 Veterans Housing—Direct Loans for Disabled Veterans (E)
64.119 Veterans Housing—Manufactured Home Loans (F)

(705) Other Veterans Benefits and Services

Mainly the administrative expenses of the Veterans Administration.

12.500 U.S. Soldiers' and Airmen's Home (J)
64.115 Veterans Information and Assistance (K)
64.201 National Cemeteries (J)
64.203 State Cemetery Grants (B)

(750) ADMINISTRATION OF JUSTICE

This function includes those programs designed to provide judicial services, police protection, law enforcement (including civil rights), rehabilitation, and incarceration of criminals, and promotion of the general maintenance of domestic order. It includes the provision of court appointed counsel or other legal services to individuals.

This function excludes the costs of the legislative branch, the narrow-purpose police or guard activities providing protection to Federal property, or activities which are an integral part of a broader function (such as postal inspectors, tax collection agents, and Park Service Rangers). The costs of National Guard personnel who are called upon occasionally to provide general public safety protection and military police costs are included under the national defense function rather than in this function.

(751) Federal Law Enforcement Activities

Includes Customs, the Immigration and Naturalization Service, the Drug Enforcement Administration, and police and crime prevention activities in other programs. This subfunction also includes the readily identifiable enforcement costs of civil rights activities.

(800) GENERAL GOVERNMENT

This function includes the general overhead costs of the Federal Government, including legislative and executive activities; provision of central fiscal, personnel, and property activities; and the provision of services that cannot reasonably be classified in any other major function. As a normal rule, all activities reasonably or closely associated with other functions shall be included in those functions rather than listed as a part of general government.

(801) Legislative Functions

Includes most of the costs of the legislative branch except for the Tax Court, the Library of Congress, and the Government Printing Office revolving fund.

(802) Executive Direction and Management

Includes the Executive Office of the President (unless some major grants or operating programs should be included in the EOP); occasionally some closely related spending outside the EOP is also included in this subfunction.

(803) Central Fiscal Operations

Includes the general tax collection and fiscal operations of the Treasury Department.

21.003 Taxpayer Service (K,M)
21.004 Federal Tax Information for State Tax Officials (J)
21.005 Individual Tax Model (J)

40.001	Depository Libraries for Government Publications (L)
40.002	Government Publications—Sales and Distribution (H,L)

(850) GENERAL PURPOSE FISCAL ASSISTANCE

This function includes Federal aid to State , local, and territorial governments that is available for general fiscal support. It also includes grants for more restricted purposes when the stipulated purposes cross two or more major budgetary functions and the distribution among those functions is at the discretion of the recipient jurisdiction rather than the Federal Government. It includes payments in lieu of taxes, broad-purpose shared revenues, and the Federal payment to the District of Columbia. Payments for community development or social services programs are not included in this function.

(851) General Revenue Sharing

The general revenue sharing program.

21.300	State and Local Government Fiscal Assistance—Revenue Sharing (A)

(852) Other General Purpose Fiscal Assistance

Appendix V: Sources of Additional Information Contacts

Additional information concerning Federal programs and services is available from the sources listed below. The information in this Appendix is in addition to that supplied in Appendix IV (Regional and Local Office Addresses), but are not the offices to which an applicant applies for an assistance program. If a potential applicant or information seeker is not certain which agency to contact, there are two types of organizations set up to help: The Federal Information Centers and the Federal Executive Boards.

FEDERAL INFORMATION CENTERS

Federal Information Centers (FIC) are a focal point for information about the Federal Government. Centers assist people who have questions about Federal services, programs, and regulations, but do not know where to turn for an answer. FIC information specialists either answer an inquirer's questions directly, or perform the necessary research to locate and refer the inquirer to the expert best able to help. There are currently 21 cities with an FIC and an additional 51 cities are connected to the nearest Center by telephone tieline. Statewide toll-free '800' service is available to the residents of four States: Iowa, Kansas, Missouri, and Nebraska. The FIC addresses and telephone numbers are listed below. Please call the listing closest to you for a free call or minimum long distance charge. If you would prefer to write, please address your letter to the Federal Information Center at the closest address listed below.

FEDERAL REGIONAL COUNCILS

The formal structure of the Federal Regional Councils (which consisted of the principal regional officials of the Departments of Agriculture; Education; Energy; Health and Human Services; Housing and Urban Development; Interior; Labor; Transportation; and the Environmental Protection Agency) has been terminated by Executive Order 12407 of February 22, 1983. The coordination of the operations of the larger assistance programs will continue though the formal structure no longer exists. When more than one agency provides funds for a specific project, the agency providing the most funds will become the lead agency responsible for communicating with local officials and ensuring that there is no overlap.

FEDERAL EXECUTIVE BOARDS

The Federal Executive Boards (FEBs) consist of the heads of Federal field offices in 26 metropolitan areas. The FEBs were established to improve internal Federal management practices, provide a central focus for Federal participation in civic affairs in major metropolitan centers of Federal activity, serve as a means for disseminating information within the Federal Government and for promoting discussion of Federal policies and activities of importance to all Federal executives in the field. The FEBs carry out their functions under the supervision and control of the Office of the Director, Office of Personnel Management (OPM).
